MINING, BUSINESS AND STOCKS

COPPER FROM THE STEPTOE SMELTER

Plant At Ely Now Outputting Metal at Rate of Thirty Tons Per Day.

SOON TO BE INCREASED

Figures on August Production from Nevada Consolidated and Cumberland Ely Mines.

Shipments of copper from the Steptoe smelter, says the White Pine News, have been running about two cars every three days. As these cars are loaded to the limit of capacity, 100,000 pounds each, the shipments mean an output of 200,000 pounds every three days, or a little better than 30 tons daily. They are now shaping around to at an early date raise the daily output to about 150,000 pounds or a car and a half of copper daily. With two reverberatories going and two full units of the concentrator operating steadily, as will soon be possible, 150,000 pounds daily looks feasible at an early date.

On production to date the converter has operated only part time with full shifts and by reason of delays from various causes has fallen far short of getting in steady work with even a single stand. The early stages of operation, of course, always require patience and more or less readjustment of minor details and the converter has been no exception to this rule, with additional delay accruing because of necessity for the same sort of procedure in the plants from which it draws its materials. These delays, however, did not prevent a splendid production for the plants in August, when 1,371,261 pounds of copper were turned out, 785,166 by Nevada Consolidated and 590,261 by Cumberland Ely. The present month, with things running more smoothly and full time being got in at the converter, should see the August figures on production more than doubled.

H. L. Huston has tendered his resignation as superintendent of the Overland mine in Gold Hill, and Dr. J. Warner Phillips of Silver City has been appointed to the position. Mr. Huston is owner of promising mines in Humboldt county, this state, and in Toulumme and Calaveras counties, Cal., that require his attention and he will shortly leave for those points to direct the working of the properties.

ON MINING EXCHANGE.

Brokers Were Kept Busy During Today's Early Calls.

Business was fairly brisk on the mining exchange today and trading was pretty well distributed among the more popular Tintic issues.

The unlisted stocks were not as active as they were yesterday; however Silver King Coalition brought $4; Plutus, 15 and 16 cents, and Uintah Treasure Hill, 17 cents.

The closing quotations and sales were:

CEDAR-TALISMAN DEAL GOES THROUGH

Consolidation of Beaver County Mines Effected After Long Series of Negotiations.

AN IMPORTANT TRANSACTION

Both Mines Will Be Operated Through Cedar Shaft and Along Broader Lines.

An important mining deal was consummated in this city yesterday afternoon, when an agreement was arrived at to consolidate the properties of the Cedar and Talisman Mining companies, located in the Star mining district just out of Milford, after a series of negotiations extending over a period of several weeks. Now all that remains to be done is to get the sanction of shareholders of the respective corporations at special meetings to be called about 30 days later. That the deal will be approved at that time, there is not the slightest doubt, for there is a unanimity of opinion among holders of stock in both that their interests can be best conserved by joining issues and operating the combined properties along broader and more economic lines than has been the case heretofore.

It is proposed to effect a new organization to be known as the Cedar-Talisman Consolidated Mines company, with a capital stock of 1,000,000 shares of the par value of $1. Present shareholders of the Cedar company will receive 350,000 shares, and those of the Talisman will have equal representation, leaving 300,000 shares in the treasury to be disposed of as the board of directors may deem advisable.

It has been currently rumored about the street that Jesse Knight would figure in the new organization, but a confirmation of this story could not be obtained; however, it was admitted by one party connected with the deal that there had been some talk of that kind, but declared positively that Mr. Knight has not yet entered into the transaction.

The Cedar-Talisman properties consist of 15 lode mining claims, five being patented, and from which considerable lead-silver ore has been produced. The Cedar is the better equipped of the two, having one of the best hoisting and compressor plants in Beaver county. It is proposed to operate the two mines through the Cedar shaft. The principal shareholders of the Cedar company are S. S. Pond and H. Barnett, while P. B. McKeon and P. J. Donahue are extensively interested in the Talisman.

AT THE WABASH.

What a Camp Paper Says Abont Park City Property.

At the Wabash the flow of water encountered on the 600-level, brings with it evidence of having come from an ore deposit carrying big values, says the Park City Record.

The Wabash, though it has been more or less of a mystery to those who have followed its career, certainly has behind it a management endowed with implicit confidence in its future, and with resources of a substantial character to back up its intentions. Such being the case but one result will follow—the Wabash will "make good," and it will be to the satisfaction of all concerned. The management is certainly deserving of success.

The experts who have been at the American Flag for two weeks, completed their work last Sunday, after having given the mine a thorough examination in its every part and detail. The ore bodies were blocked out, measured up, their values figured and every possible item relative to the valuation of the mine taken cognizance of. It is believed that on the report of these experts will depend to a great extent the building of the mill proposed for the mine. The property is in splendid shape at any rate and is on the shipping list again this week.

Ore shipments—Daly Judge 46,000 pounds, Silver King (2 weeks) 2,498,760, Daly West 1,150,000; total 2,944,760 pounds.

UTAH COPPER.

Work on Addition to Garfield Mill to Start in Near Future.

Hayden, Stone & Co. of Boston say of Utah Copper:

This month will mark the initial disbursement in the way of dividends of the Utah Copper company, which within 60 days will have in commission the twelfth and last unit of its concentrator, when a scale of production equal to the capacity of its surface plant will be entered upon. The company is rapidly strengthening its position from the standpoint of transportation and increased ore reserves with a view to a much broader scale of production, and it is more than likely that the coming year will witness the starting of an addition to the concentrator, which will make possible the daily treatment at this plant of over 8,000 tons. The work thus entailed would occupy a year and when completed the Utah Copper will be in every way in a position to produce 85,000,000 pounds of copper per annum at a cost somewhat lower than is now being secured. The Utah Copper company owns all its yard facilities, in addition to a railroad extending from the mine to the mouth of Bingham canyon. It also owns the railroad approach to its Garfield plant, so that when it decides upon the building of a complete line from the mine to the concentrator, the work can be accomplished and the line in operation well within six months. That this line will be built is already certain, as it will insure unbroken transportation facilities in the event of accidents at the road now in operation as well as care for the tonnage to be handled in excess of that contracted for.

CHANNING IN PERU.

What Former Salt Lake Engineer Is Doing at Cero de Pasco Mines.

The Cerro de Pasco mine in Peru is making great progress in copper production under the management of R. H. Channing, who was formerly general manager of the Utah Consolidated, says the Boston News Bureau.

It is now producing 3,000,000 pounds of copper per month, at a net cost, f. o. b. New York, of 9 cents per pound. The mine started production two years ago with an equipment of blast furnaces exclusively, but when Mr. Channing assumed charge, he installed Mac Dougal and revebratory furnaces in addition to the blast equipment. They have given excellent results, increasing the output to 3,000,000 pounds per month. Additional MacDougalls and reverberatories have been ordered and Mr. Channing plans to increase the production next year to 5,000,000 pounds per month, or 60,000,000 pounds per annum. Upon this increased production he has expectations of cutting copper costs to seven cents per pound, New York, sold. All of the Cerro de Pasco copper goes to the Baltimore refinery of the American Smelting & Refining Co., for electrolytic treatment.

It is estimated that, with a production at the rate of 60,000,000 pounds per annum, there is 10 years of ore in sight in the Cerro de Pasco mines.

This property is a close corporation controlled principally by the Haggin-Hearst interests, and before a dollar of income was returned they had invested $17,000,000 in the enterprise.

ORE AND BULLION.

The ore and bullion settlements reported late yesterday by McCornick & Company were: Crude ore and concentrate, $10,000; base bullion, $50,000.

NEW MINING COMPANIES.

The Utah-United Copper company has filed articles of incorporation with the county clerk. The company will take over the property of the Skylark Mining & Milling company and the Wasatch Mining & Milling company, and has a capital stock of $600,000, with shares at $1 each. The officers are: John T. Treasure, president; A. J. McMullen, first vice president; J. E. Edmunds, second vice president; Charles A. Weaver, secretary; A. D. McMullen, treasurer.

The Burgess Consolidated Mining company of American Fork incorporated with the secretary of state with a capital stock of $37,500, divided into 750,000 shares of five cents each, of which 200,000 shares are treasury stock. The concern will exploit property in the American Fork dirtict. J. C. Burgess is president; J. M. Hamilton, vice president; J. Dowe Wagoner, treasurer; James H. Clark, secretary. Harry Adams and George Nicholas, with the first three officers, make up the directorate.

KING CON. FILES ANSWER.

Tells Why Stockholder Brandl Was Refused Access to Books.

The Silver King Consolidated Mining company has filed an answer to the action for a writ of mandamus, in the federal court by Joseph Brandl, a stockholder.

The company admits that Brandl is a stockholder, but denies that he is a beneficial owner of any stock certificates, and asserts that he has never paid his assessments. That he was refused permission to examine the books is also admitted.

The reason for this refusal, it is stated, is that the request on the part of Brandl was made on behalf of the Silver King Coalition company, a rival concern having properties adjoining those of the defendant in the Uintah district, Summit county.

The Silver King Consolidated company also asserts that for many years the Coalition company has been hostile to it, has taken ore belonging to it and has endeavored to alienate its stockholders.

It is claimed that the object of this action is to secure the names of the principal stockholders in order that they may be induced to dispose of their holdings or give up the suit brought against the Coalition company for the value of the ore alleged to have been improperly taken by that concern.

J. W. Edmunds, the accountant whom Brandl desires to have examine the books, it is said, has been employed by the Coalition company and is in fact now so employed.

CONCENTRATES.

Manager M. C. Morris of the Horn Silver Mining company has returned from a trip to Beaver county.

D. C. Jackling, manager of the Utah Copper company, has been called out of town for a few days on business.

David Keith has gone to Millard county to make an inspection of the oil properties located near Fillmore. Mr. Keith and associates have been interested in this field for some time.

Charles E. Taylor of the Pioneer Sampling company has returned from a trip to the new camp of Chaffey, Nevada, where he has succeeded in getting in right on a lease and feels confident that he will make a snug sum of money out of the proposition.

Much local interest is being manifested in the meeting of the members of the Utah branch of the American mining congress at the Commercial club tomorrow evening. It is evident that Denver will have to do some lively hustling if it retains the permanent headquarters of the congress.

TODAY'S MONEY MARKET.

PERSONALS.

E. W. Wilson of the Commercial National bank of San Francisco will be in the city the last of the week, en route to Denver, in attendance on the Bankers' convention.

Norman Christensen, manager Christensen Shoe company, has just returned from a business trip to Chicago, where he visited the Shoe and Leather fair, held at the Coliseum in that city.

DYNAMITE EXPLOSION.

Windsor, Mo., Sept. 15.—A car of dynamite standing on the track in front of the Missouri, Kansas & Texas railway depot here, exploded at 10 o'clock this morning, with terrific force. The car and the depot platform were demolished, and 18 persons standing near by were more or less seriously hurt. Frederick Yake, agent of the Missouri Pacific railway at Windsor, was terribly mangled and soon died. All of the victims live in or close by Windsor.

TRADING ACTIVE AND IRREGULAR

First Quotations Were from 1 to 2 Beolw the Close Last Evening.

STOCKS FREELY OFFERED.

Hills Were Weak, While Harrimans Forged to Front—Market Closed Weak.

New York, Sept. 15.—All of the active trading stocks sold 1 to 2 lower than last night's closing on the opening sales today, the decline reaching the latter figure in the case of American Smelting. Lackawanna sold at an advance of 3 points. The dealings were quite active.

Supporting orders and covering by the shorts caused a rapid wiping out of the opening losses. Reading was bought on a heavy scale and advanced 2 points from its low figure, touching 167⅝. Profit-taking clipped a good fraction off the rally afterwards and speculation became quiet.

Weakness in the Hill group depressed the list for a time, but the resistance of Reading and strength in Erie were counteracting influences.

Bonds were iregular.

The Harriman stocks forged to the front after midday and there was extensive purchases or Union Pacific and Erie. Other stocks stiffened temporarily.

Stocks were fed out as fast as the market would take them and there was accordingly a steady recession. The Hill stocks were the central points or weakness, notably Great Northern preferred, which dropped 2⅝. The decline for Union Pacific, Southern Pacific, Reading and Erie below yesterday's close.

The market closed weak and active. The constant renewal of sales on any show of strength weakened confidence and the whole list gave way rapidly. Reading and the Harriman Pacific's declined with the rest of the list, falling 1¼ to 1⅞ below last night's close.

LIVESTOCK.

CHICAGO.

Chicago, Sept. 15.—Cattle—Receipts about 8,000; market weak to shade lower. Beeves, 3.60@7.00; Texas steers, 3.50@5.60; westerns, 3.25@5.50; stocks and feeders, 2.60@4.40; cows and heifers, 1.75@5.70; calves, 6.00@8.25.

WOOL.

ST. LOUIS.

St. Louis, Sept. 15.—Wool, unchanged. Territory and western mediums, 15@18; fine mediums, 10@15; fine, 9@12.

PRODUCE.

CHICAGO.

Chicago, Sept. 15.—Early trading in wheat was largely of a professional nature with the tone bearish on large northwest receipts. December wheat opened a shade to ⅛ under the previous close at 98¾ to 98¾@98⅞ and declined to 98⅜@98½.

A correction placing the world's visible increase 3,820,000 bushels sent December down to 98¼, but a reaction followed on reports of foreign demand and the close was firm with December ¼@⅜ over yesterday at 99⅛.

The corn market ruled easy with trade limited. December opened ⅛ to ¼ lower at 68 to 68⅛ and declined to 68⅛@67⅞.

The close was heavy, December ⅝ down at 68.

There was only a local market for oats. December opened unchanged to ⅛ lower at 49⅞ to 50, and declined to 49½@49⅜.

Provisions were quiet, hesitating after yesterday's advance. Initial prices were a shade to 2½ under the previous close.

Close—Wheat—Sept., 99⅞; Dec., 99⅛; May, 1.01⅜@1.01⅝.

Corn—Sept., 80¼; Dec., 68; May, 68¼@68¼ to 68½.

Oats—Sept., 48½; Dec., 49⅜@49¾; May, 62⅝.

Pork—Sept., 15.10; Oct., 15.20; Jan., 16.92½.

Lard—Sept., 10.12½; Oct., 10.15; Jan., 9.92½.

Ribs—Sept., 9.75; Oct., 9.75; Jan., 8.90.

Rye—Cash, 76½.

Barley—Cash, 62@66.

Timothy—Sept., 3.00.

Clover—9.00.

BUTTER AND EGGS.

Chicago, Sept. 15.—Butter — Steady. Creamery, 18½@23; dairy, 17@20. Eggs—Steady. Firsts, 21.
