THE CASE AGITATOR

Ahead of all Other Competitors!

SALT LAKE CITY,
August 12th, 1882.

J. W. Lowell, Esq.,
Dear Sir.—The J. I. Case Agitator we bought of you last season is the best machine we ever saw or used; it will thresh more grain and thresh it better and cleaner than any other machine we have ever seen, and we can confidently recommend it to any persons wishing to purchase a good Thresher.
Yours, etc.,
G. W. LUFKIN,
W. A. BARRON.

ASHLEY'S FORK,
UINTAH Co., Feb. 26th, 1882.

John W. Lowell,
Dear Sir.—The Agitator Separator and Woodbury Power that we bought of you, we can truly say give entire satisfaction. It beats anything that we ever saw to thresh and clean. We have run seven different kinds of machines, but this is the champion. The cleaning and the separating are perfect. We have not had a man find fault with it yet, and we believe that the people here will testify to our statement as being the truth. It comes as near being perfect as it is possible for a machine to be. We cannot tell you upon paper

all its superior qualities or how much we think of it, but can say this, that could we not get another like it, no money would buy it.

Yours truly,
GEORGE BROWN,
S. J. CAMPBELL,
WM. P. REYNOLDS,
ROBERT BODILY.

CEDAR CITY, Sep. 23rd, 1881.

John W. Lowell,
Dear Sir.—Our machine, Agitator, is doing excellent work. Cleans the best and threshes faster than any Thresher we ever saw.

We remain,
CORY & HUNTER.

LEHI, Utah County,
February 7th, 1882.

To John W. Lowell, Esq.,
Dear Sir.—As our opinions have often been asked about the merits of the Agitator Threshing Machine we purchased from you last fall, we take pleasure in sending you the following as our experience with it. To answer the numerous inquiries, and perhaps others who would like to know, we recommend the following points of superiority over all other machines we are acquainted with—

1st.—Lightness of draft. Our team of five span of average native horses and mules, being fully equal to the work, and without crowding or hurrying them, they gave us all the speed and power we needed.

2nd.—Thorough threshing and cleaning, and that without extra effort on our part; such a thing as the sieves being crowded or clogged, or requiring the attendance of one person at the tail end of machine having never occurred or been needed.

3rd.—Lightness of wear. After having threshed 18000 bushels of grain, lucern seed, etc., the general wear on the machine being scarcely perceptible.

4th.—Lightness of running expenses. By comparing notes with our friends of other machines, we find ours have not exceeded half of theirs.

We also consider the capacity for threshing in quantity, superior to other makes of machines. Although the farms here are small, necessitating a great deal of moving, and often to distant points, yet we threshed as high as 800 bushels per day.

We also consider the Straw Stack-er, End Shake, Elevator principle and many other points are all worthy of notice and examination of any and all persons who may contemplate purchasing a machine.

A. J. EVANS,
M. T. WOODHOUSE,
H. M. ROYAL,
M. B. BUSHMAN.

I have helped wear out four machines of other kinds, and I heartily endorse all of the foregoing points.
A. D. RHODES, JR.

CEDAR CITY, March 18th, 1882.

Mr. J. W. Lowell,
We bought one of the J. I. Case 32 inch Agitator Threshers last year and consider it by far the best Thresher ever brought to this country. It runs very light, saves all the grain and is a very durable machine. We threshed grain at the rate 2½ bushels per minute.

Yours, etc.,
CORY & HUNTER.

I also take the liberty to refer thresher men to the following reliable people who have purchased the Agitator Machines:

Messrs. Robbins & Simmons, Kayville.
Bishop Peter Barton and others Kayville.
Woolley, Lund & Judd, St. George.
M. Badt, Wells, Nevada.
S. A. Worthington, Grantsville.
Cummins & Matthews, Grouse Creek.

W. F. Garner and others, Ogden.
Laketown Co-op., Laketown.
D. Woodward and others, Willard.

And many others.

I now have orders for over Twenty of these famous Threshing Rigs, and those who want them should send in their orders at once to

READ THE FOLLOWING TESTIMONIALS—
SALT LAKE CITY,
June 29th, 1882.

This is to certify that we had Messrs. Simmons & Co. repair and paint our stables at the race track, in this city, which leaked badly. A few hours after the roof was painted there came a very hard rain storm, and we are pleased to say our roof did not leak a drop. We cheerfully recommend this paint as being both fire and water proof, and as a preserver of roofs it seems to us to be the very thing needed in this section of the country.

I have seen buildings painted with M. S. Simmons & Co.'s Paint, and I cheerfully recommend the same for iron, tin and shingle roofs. I consider it a first-class preservative for all kinds of wood work, and it is especially adapted for railroad tanks and buildings, also for barns and -melters, as it is both fire and water proof, besides being economical to use.
