DESERET EVENING NEWS: FRIDAY, MARCH 2, 1900.

We oppose both bills because they are designed to place the national banks in control of the finances of the nation, and to give the secretary of the treas-ury the power to create and perpetuate a national debt. TARIFF.

We hold that the tariff duties should be levied for the purpose of revenue, such duties to be so adjusted as to operate equally throughout the country, and not discriminate between class or section, and that taxation should be limited by the needs of the government, honestly and economically adminis-

any tariff laws to the products of Porto Rico, now a part of the United States, as being in violation of the federal Constitution, and discriminating against American citizens,

We reaffirm that the Monroe doctrine, as originally declared, is a permanent part of the foreign policy of the Unit-ed States, and must be maintained. We are opposed to alliances with for-elgn powers, still believing with Wash-ington that "it is our true policy to steer clear of permanent alliances with any portion of the foreign world;" and that "we may safely trust to tempo-rary alliances for extraordinary emergencles.

CENTRALIZATION

We reaffirm that government is insti-tuted only for the benefit and happi-ness of the people. We are opposed to the centralization of power in the na-tional government, and view with alarm the attempts of Republican administrations to enlarge the power of the execu-tive; and especially do we denounce the action of the secretary of the treasury in using the money of the nation to favor certain national banking institutions.

congratulate the State of Utah We upon the record made by the officers and men who volunteered, some of whom were never called upon to leave American soll, but who have, whenever American soil, but who have, whenever and wherever the opportunity has been afforded, bravely upheld the honor of our country and State. We assure the returned soldiers that the people will ever remember them for their courage and heroism. To the families, relatives and friends of those who gave up their lives for the honor of the day to exlives for the honor of the day we ex-tend our profoundest sympathy. To all the soldiers and saliors who at any time responded to the call of their

country in the time of need, is due the lasting gratitude of the people. It is and must be the duty of the nation to provide for the wants of them and their families by a just and equitable system of pensions.

We submit to our fellow citizens our platform of principles and appeal to them to pause and reflect. We direct them to pause and reneet. We direct their attention particularly to the record made by the Republican party during the past four years. The path of its progress is strewn with promises ever made to the ears of the people, but broken to the hope. It entered into the campaign of 1896 with load protesta-tions of adherence to the constitutional tions of adherence to the constitutional doctrine of bimetallism. It now begins the battle of 1900 with the apt allitera-tion, "Gold and Glory," as its cam-

paign cry. Mad with the lust of conquest and power, it has launched the country upon a course of spollation and wrong, which must be condemned by all who venerate the principles of the Declaration of Independence. We remind those of fellow citizens, who, in 1896, abandoned that party and voted with us in support of the promise of the Chicago platform to restore silver to its place as money, that it was the Democratic party then which gave you the opportunity to vote in accordance with your convictions. in accordance with your convictions. The Democratic party again affords you such an opportunity and earnestly vites you to join hands with it in the defense of the rights of the people.

Resolved, That the Democratic party of the State of Utah, in convention assembled, solemnly affirms that the peo-ple of this State have kept faith with the nation, and repels upon their behalf all charges to the contrary as false and misleading. Therefore, we deplore the action of the Congress of the United States in refusing to administer the oath of office to the member-elect from this commonwealth.

OBJECTIONABLE CLAUSE.

Mr. Waldemer Van Cott moved, sec-onded by Mr. D. D. Houtz, that the last clause be expunged from the document. Mr. Van Cott made a logical exposition of his views in the matter and he was listened to with very close attention. Hon. Moses Thatcher opposed the expurgation and in a forceful manner, gave his reasons for the stand he took and he defended the action of his comnittee in the report it had presented Mr. Alfales Young opposed the latter

clause of the platform. Mr. D. D. Houtz favored the elimina-tion of the objectionable clause. Mr. J. B. Timmony also favored the and, J. B. Hinnenby also havered the non-adoption of the paragraph, and he appealed to Mr. Roberts himself to know if it was not proper to refrain from making this reference to a dis-agreeable subject.

Deputy Sheriffs Dowse, Harries and Gulbransen made a very clever capture of three burglars last night. They were Henry Wright. Ed Livingston, and Sam Mathews, ex-convicts. The storehous of James Fisher, Charles Stillman and Isaac Chaoman of East Mill Creek had been looted, and as Mathews had worked at Stillman's suspicion rested upon him, and the clue was followed up with the result that Wright and Ldv ingston were captured in Livingston' se and were taken prisoners. Much of the stolen goods were found in the house. Mathews was discovered up town in a state of intoxication, and was fondly taken in.

county in 1863. After some years spent upon the farm he began his real education by attending the Universities of Deseret and of Michigan. He was admitted to practice law in 1886. In 1889 he moved to Provo where he resided until 1896 and then moved to Salt Lake, his present home. He has been elected to the legislature three times, was president of the council in 1891-2, was appointed associate justice of the supreme court of Utah in 1894, and was elected to Congress in 1896.

Judge King is an earnest and untiring free silver advocate and a lawyer and speaker of brilliant attainments. It is the firm conviction of his friends that he could easily have succeeded himself in the last Congress had he consented to accept re-nomination. He was, at the outset of the proceedings of the legislature, last winter, the leading candidate of his party for the United States senatorship to succeed Hon. F. J. Cannon, and had a strong following almost to the end of the session. At present he is successfully engaged in the practice of his profession in this city.

James A. Ross were elected by accla- ; llean party which has resulted in the mation to be alternates to the national Democritic convention. Upon motion of Mr. Alfales Young, It was unanimously decided to instruct the Utah delegation to the national convention to vote for Hon, Wm. Jennings Bryan for President of the United States.

The Platform.

Chairman Moses Thatcher announced that the committee on platform and resolutions was now ready to report, and that Mr. M. W. Mansfield had been selected by his committee to read the report from the stage. Mr. Mansfield read as follows:

We, the Democrats of Utah, in convention assembled, reaffirm our allegi ance to the fundamental principles Democracy, as they are set forth in the Declaration of Independence. We hold that, after the lapse of a century and a quarter, it is still true that all men are created equal: that they are endowed by their Creator with certain inalienable rights; that among these are life, liberty and the pursuit of happiness; that to secure these, governments are instituted among men, deriving their just powers from the consent of the governed. We still believe in perfect equality before the law, and maintain governed. that it is the duty of a just government to insure equal rights to all, and to

grant special privileges to none. Adapting these hallowed principles to existing conditions, we present the fol-lowing declaration of our position in the forthcoming special election for Representative to Congress;

FREE SILVER.

We demand the free and unlimited coinage of both silver and gold at the present legal ratio of 16 to 1, without waiting for the ald or consent of any other nation. We demand that the standard sliver dollar shall be a legal tender, equally with gold, for all debts, public and private, and we favor such legislation as will prevent the demone tization of any kind of legal tender money by private contract.

We are opposed to the policy of sur-rendering to the holders of the obligations of the United States, the option tions of the United States, the option reserved by law to the government of redeeming such obligations in either silver or gold coin. We are opposed to the issuing of interest hearing bonds of the United States in time of peace and the trafficking therein by the government

The federal Constitution conferred upon Congress the obligation and duty of colning money and fixing its value, and we protest against all attempts to transfer these functions of government to national banks. We demand that all paper money, made legal tender for public and private debts, shall be redeemable in coin, and that all outstand ing government bonds, not in terms made payable in gold, shall be payable in coin, gold or silver, at the option of

the government, to be exercised by the secretary of the treasury in accordance with the law. We are unalterably opposed to the anate and House bill in relation to the currency, now pending in Congress.

gigantic trusts and combinations, made possible by high protective and pro-hibitive tariffs. As a legitimate result of this legislation we point to the Standard Oli trust, the sugar trust, the steel trust and many other combin tions of corporate money power result-ing in oppression of the people. These great monopolies prevent honest and fair competition; they destroy smaller but legitimate and wholesome enterprises; maintain exhorbitant prices and rates, and illegally enrich those en-gaged therein. Their promoters corrupt State and national legislation, control pourts, elect State and national officers and dominate in all the business ave-nues of life. We favor effective legislation, both State and national, to des-

troy such monopolies and thereby secure individual opportunity and commercial freedom We call special attention to the rapid growth of trusts under the McKinley administration, and charge that the people who are and have been instrumental in the organization of these great trusts are today and will be dur ing the campaign of 1900 managing and controlling absolutely the Republican party. We solemnly warn the people of our State that the growth and existence of combinations of capital for the purpose of controlling the products of the soil and man's industry, made po sible by Republican legislation, are tending toward a complete centraliza tion of power in the few, and if per permitten to continue, will eventually im-perit the life of the Republic.

> We are opposed to imperialism and militarism, but favor commercial expansion and progress, not by force, but by natural and peaceful means. We are in favor of the kind of expan-

sion which Jefferson advocated and practiced, and which is not incompati ble with our form of government piying to contiguous or neighboring ter ritory, whose inhabitants are fitted either immediately or ultimately, to be come citizens of the United States, Bu we are opposed to wars of aggression and conquest, by means of which allen peoples are brought under our dominior against their will. Such wars, under-taken in a spirit of commercialism, greed and covetousness, bringing to us olonles and subjects, instead of States and fellow citizens, are directly

Hon. Abel John Evans, who was the uthor of a resolution couched in stronger terms than the one under discussion, defended the platform as reported.

Mr. E. A. McDaniel hoped that all who desired to speak would "do so now and forever hold their peace." PANDEMONIUM.

The convention became in an uproar when Mr. Hamer of Salt Lake introduced a substitute for the objectionable paragraph. The substitute was of such interminable length and lurid language that Mr. Roylance declared it out of order
