# **CONDITIONS AT GRAND CENTRAL.**

Prest. Holbrook Discusses Developments in the King William.

## GIVES THE SUM OF \$1,000,000

John E. Du Bois Makes a Magnificent Move-Notes from La Sals-Con. Mercur Affairs.

President Holbrook of the Grand Central was in town today giving attention to company matters. When asked concerning the condition of the mine Mr. Holbrook said that while it is looking better than it has ever appeared before there is nothing of a startling nature. When the Bianchard interest in the King William was bought the work-Hewlett Bros. Co. ings were about 100 feet from the lines of that claim. Since that time the management has pushed into that ground about 30 or 35 feet on the 700 level and a very good grade of ore containing copper, lead, silver and gold, has been encountered. At first the management run the drift in ore but this was not satisfactory and the drift is now skirting the ore, the grade of which is said to be very satisfactory. Regarding the size of the ore Mr. Holbrook says the vein has not been crosscut and he is not prepared to say how wide it is. Mr. Holbrook pays the outlook is very en-couraging at that particular part of the mine, and while nothing sensational is yet reported, it has been made the lever by which the speculative element have forced the stock to its present price. A drift is being run into the same ground on the 600 level, but it does not yet give promise of such great things as that on the 700, Without entering into detail re-garding other parts of the mine Mr. Holbrook says the general condition is very good, though bad roads have pre-vented the company getting the ore to market. Nothing serious is anticipated by the management from the suit the Butte people for part of the King Wil-liam claim.

# MAMMOTH DIVIDEND.

One of \$20,000 Ordered Paid on the 18th Inst.

In spite of bad roads and delayed ore shipments the Mammoth Mining com pany is able to get to the front with its March dividend. It was announced today that the company will pay out \$20,000, or 5 cents a share on the 18th inst., the books to close on Thursday.

## CON. MERCUR AFFAIRS.

Listing Fee Has Been Paid to Boston Exchange-To Treat Mill Tailings.

The listing of the Con, Mercur stock on the Boston Exchange will likely be an accomplished fact shortly. The listing fee of \$100 has been paid by the company and it is thought its call is now a matter of a few days only. Re-garding the treatment of the tailings mp at Mann that a carload of tailings has been for. varded to the laboratory at the Golder Gate mill where a number of tests will made with the view of treating th tailings again. At times in the previous treatment of the ore difficulty was experienced in avoiding slimes and keeping the ore free from the mixed grades. This resulted in high values at times in the tailings. No attempt will be made to treat the Geyser Marion dump. At the Golden Gate mine the winze is being continued below the viking level in ore which runs between \$6 and \$15 per ton.

would not have wasted a shot on it.' A true fissure vein in sandstone. It was supposed to be copper, but has dèvel being stoped out of the vein. That which will give an average of about \$190 in value is sorted out and shipped, the rest is left on the dump to be treated in a plant which is now about completed. The process consists of roasting the pulverized ore in a furnace with suloher and salt, reducing the silver to a hloride and the copper to a sub-chloride, and then the values precipitated in tanks with hypophosphate of soda, saving the silver and 65 per cent of the copper. Between fifty and sixty men are on the company pay roll, and the camp is said to be very peaceful because there are no saloons in the district.

WITH THE JUSTICES. 

Yesterday Fred J. Senior appeared before Justice Kroger and pleaded not guilty to the charge of threatening to kill his brother, Edwin W. Senlor, and was allowed to go on his own recognizance pending the setting of the case for trial. Judge Powers has been retained by the defendant to look after his interests.

In the suit of P. Swartz vs M. T. Ward a decision was yesterday rendered by Justice Lochrie and the finding was in favor of the plaintiff, who sued to recover the price of twenty-one botties of champagne and some wine valued at \$38.75. The defense immedi-ately made a motion for a new trial, which was granted, and a hearing was set for today.

The hearing of the two junk dealers, The hearing of the two junk dealers. Michael Jacobsen and Louis Gordon, who were arrested on the charge of trying to dissuade a witness from ap-pearing, by means of a bribe, was to have taken place today before Justice Smith. However, the assistant county attorney had to be absent from the city so the case was postponed until the 7th inst., after the bonds of the two men had been reduced from \$300 to \$150 each. A MAGNIFICENT GIFT.

John E. Dubois of the Blackbird Syndicate Gives Away \$1,000,000.

Mr. John E. Du Bois of Du Bois Penn., who is well and favorably known in this State, where he has mining in terests, has just given the magnific um of \$1,000,000 to the Dunham Medisum of \$1,090,000 to the Dunham Medi-cal College, Chicago. The gift, which astonished the faculty of the college beyond measure, is hampered by no conditions and is to be applied to any purposes in connection with the college that Dr. J. C. Kent and his colleagues may think proper. In its account of the announcement of the news at the col-lege on the 5th inst. the Chicago Times ege on the 8th inst., the Chicago Times ald says the members of faculty were too astonished the to applaud. It was several minutes before they seemed able to re-alize the meaning of the magnificent offer, and Dr. Kent was asked to repeat

his words. He began again, just as deliberately,

but before he had concluded the second announcement half the students in the building had invaded the sacred pre cincts of the meeting room and began cheering wildly for the donor and The news was telephoned to college nearly every physician in the city con-nected with Dunham, and an hour later the building was full of doctors, who made no effort to restrain their feelings

of joy. Classes were abandoned and the rest of the day and evening was spent in an excited discussion of the news, reading of congratulatory telegrams and merchorus singing

Mr. Du Bois, who is a near friend of Dr. Kent's, is largely interested in mines in Idaho and Utah. He is the power behind the Black Bird Copper-Gold company of this city, which, un-der Dr. P. A. H. Franklin's direction, is being developed on a big scale. The same company owns mining property in Beaver county, and Mr. Du Bois personally bought recently a large block of stock in the Yankee Con. of Tintic.

scenes necessary to portray it. It has been many years since it was seen in Salt Lake. The most notable rendition of it was doubtless that given by J. B. Booth, and old-timers well remember the vivid impression left by that noted actor, as well as the fact that the event marked the debut of Edith Clawson whose acting of the role of Prince Ar thur greatly impressed not only public, but Mr. Booth as well. It is comething of a surprise to find "King John" the leading play in the reper-toire of a star like Modjeska. The char acter of Constance is in fact one of the subordinate ones in the play, which is dominated entirely by King John but the rare talents of Madame Modjeska easily forced her part to the front and her beautiful delivery of the role evinces that her powers have in no wise diminished since she was last seen here Of course her Polish accent, even though it is but faint, militated somewhat against an ideal rendering of Shakespeare's lines, but her dignity, her power, and the moving tenderness with which she invested the character could not be surpassed. She received an not be surpassed. enormous recall after the scene where she goes mad on learning of Prince capture by his uncle MI McLean's portrayal of the cruel; crafty and cowardly king was admirably done and suggested in places the Louis XI of Sheridan. Scarcely second was the Falconbridge of Mr. Johnston, a thor-oughly scholarly and magnetic delinea-Mr. Von Mitzel's Hubert was a tion. strongly drawn piece of work in the heavy line. The sympathetic hit of the night was made by Miss Odette Tyler as Prince Arthur, a part which she looked and acted with immense sweet. ness and decided power. She and Mr. Von Mitzel had a great recall after the noted tower scene. The other charac-ters were in good hands, and the production as a whole must be considered as one of the highest class. Too much commendation can hardly be bestowe upon the details of costuming and scenery; both were historically accurate and splendidly executed. Tonight the bill will be "Macbeth," in which Ma-

dame Modjeska will have the role of

Lady Macbeth, one that will give full

scope to her rare powers. Mr. McLean will enact Macbeth, and Mr. Johnston,

logical examination, they will be dismissed from the settlement as cured. A special deputy, from the customs office is on watch at Waimea, Island of Kauai, for the arrival of four sealing schooners from Vancouver. Waimea is not a port of entry, and unless the masters of these vessels report immediately to Honolulu and enter their ships, they will be seized and held until a fine of \$1,000 will have been paid, The Anti-Saloon league was organized here last evening under the direc-tion of Rev. E. S. Chapman, state state manager of the league for California.

The territorial grand jury filed its report today. The most interesting feature of the document is the recommendation that the pictures of political offenders against the defunct republic of Hawaii be removed from the "rogues" gallery" at the territorial prison. This is a matter which affects many promlnent citizens here, as scores of them were arrested at various times during revolutions against the government

and charged with aiding the natives. The legislature resumed its sessions today, after the tour of investigation to the leper settlement. The afternoon session of the senate ended in an animated dispute between Dr. N. Russell the speaker, and Cecil Brown, a senator from Honolulu. Brown had called for vote on a motion to table a resolution, asking Congress to grant Hawaif statehood. When the votes were an-nounced it was found that the speaker had voted in favor of the motion, thus defeating the resolution asking state-Brown accused the speaker of hood. acting in an arbitrary manner by vot-Brown was called to order refused to surrender the floor and the sergeant-at-arms was ordered to ar-rest him. The men would have come to blows had not a motion to adjourn prevailed.

#### **Don Jaimie in Marseilles**

Marseilles, March 12 .- Don Jamie, son of Don Carlos, the Spanish pretender, arrived here today on board the steamer Laos, from China, He declared it untrue that his father had abdicated his claims to the Spanish throne in favor of himself. He said he had come home, not to talk over the political succession but to rest from the fatigue of the campaign in the province of Pe Chili, where he had taken part in the capturing of the Pei Tang forts. He considered it his duty and a matter of honor, not to interfere in politics while a Russian officer, but should his father die, he would resign and accept his father's political

mission. St. Louis Fair Commissioners.
