

UTAH & COLORADO R. R.—“We have before mentioned that the Mormons are building a railroad from Salt Lake city, through Southern Utah, intended to reach the head of navigation on the Colorado River. Delegate Hooper lately stated in Congress that twenty-five miles of the road was in operation the first of this month, and fifty miles of additional road bed completed. The company expect to have one hundred miles in operation by December next. This road is important in connection with the proposed organization of a company to build a new railway from San Francisco eastward. It will assist in developing a portion of the south-eastern country upon which a new continental road must depend for considerable of its traffic. A junction effected with an independent road from San Francisco would make the Southern Utah railway a direct medium for an important trade with the whole Mormon territory, and render it a valuable adjunct to our local enterprise. San Francisco capital might profit by extending the Southern Utah road into Arizona and south-eastern Nevada, where the growing mining settlements would furnish considerable traffic at once. Branches like these would be important feeders to a trunk line extending from St. Louis to San Francisco. The more we examine the route and adjacencies of the proposed road, the more we are convinced that it offers one of the best fields for legitimate railroad investment in the Union.”—S. F. Bulletin.

Go For Them.—Those who wish to take care of their fruit should not neglect to give due attention to their orchards. There are numerous tree worms about, of the caterpillar description, that require to be killed off. This cannot be done too soon.

CROPS.—We are informed by Mr. Arthur Stayner, of Farmington, that if present prospects hold out the grain crops of Davis Co. will be unprecedentedly large, and the farmers so minded will be able to lay up a seven years' supply of breadstuffs. The late refreshing rains have had a gratifyingly salubrious effect on crops of every kind.

ACCORDING to the Denver Tribune, the Denverites are proud of their city, of its many metropolitan features, its water-works, its streets lighted with gas, its numerous beautiful business blocks, its street railway, and other evidences of energy and thrift. They claim that no city of its size on the continent can boast such a combination of city advantages. They want a new and magnificent hotel and an opera house worthy of a correct and cultivated taste. And still they are not happy, for says the Tribune, they are about to make pastures of their streets and give their shade trees to the devourer by repealing the municipal ordinance that prohibits cattle from running at large.

The Tribune also states that the necessary amount for the purchase of land for smelting work purposes, has been obtained by subscription, and it only remains now for the English company to come forward, accept the donation and commence operations.

It is now stated that there are over 40,000 working girls in the city of New York.

DIED.

At Plaistow, Essex, March 9th, of whooping cough and measles, ALICE, youngest daughter of Samuel and Eliza Ellingford, aged 1 year and 19 days.—Millennial Star.

At Arnold, near Nottingham, March 26, 1872, MARY ANTHONY, aged 67 years. She was the first person baptized into the Arnold Branch of the Church of Jesus Christ of Latter-day Saints, some 23 years ago, and continued faithful from that time to the day of her death.—Jb.

At Brigham City, May 5th, of lung disease, Charles Porter Squires, aged 45 years.

Deceased was born at Newbury, Geauga County, Ohio, where he embraced the gospel in 1844. He went to Nauvoo in the fall preceding the expulsion of the Saints, whom he followed. He drove a team across the plains for President L. Snow, in the first company who followed the Pioneer's track to the Valley of Salt Lake. He stayed at President Snow's (who was married to his sister, who has since died), many years in Salt Lake as well as here; and was in charge of his (Pres. Snow's) family during his Italian mission. In 1869 and 1870 he performed missionary labors in the Eastern States. In his capacity as a High Councilor and in other offices he acted wisely and justly. As a husband, father or neighbor, he lived above offence, and was almost faultless. He leaves a wife and five children, and many friends to mourn his loss. Almost every citizen of Brigham attended at his interment, which took place on the 7th inst.—Ogden Junction.

On the 7th inst., at West Weber, GEORGE RALPH, aged 58 years.

In this city, May 11th, 1872, of catarrh and dropsy, REUBEN B. SCOVILLE, aged 76 years and 11 months.

Deceased was born at Plymouth, Conn. In 1805 he emigrated to Trumbull Co., Ohio, and in 1870 came to Utah and joined the Church of Jesus Christ of Latter-day Saints. He was an upright, worthy citizen, a good father, and kind affectionate husband, and leaves a large circle of friends.—Jb.

Special Notices.

POISONED TO DEATH.—A healthy liver secretes each day about two and a half pounds of bile, which contains a great amount of waste material taken from the blood. When the liver becomes torpid or congested, it fails to eliminate this vast amount of noxious substance, which, therefore, remains to poison the blood and be conveyed to every part of the system. What must be the condition of the blood when it is receiving and retaining each day two and a half pounds of poison? Nature tries to work off this poison through other channels and organs—the kidneys, lungs, skin, etc.; but these organs become overtaxed in performing this labor, in addition to their natural functions, and cannot long withstand the pressure, but become variously diseased.

The brain, which is the great electrical centre of all vitality, is unduly stimulated by the unhealthy blood which passes to it from the heart, and it fails to perform its office healthfully. Hence the symptoms of bile poisoning, which are dulness, headache, incapacity to keep the mind on any subject, impairment of memory, dizzy, sleepy, or nervous feelings, gloomy forebodings and irritability of temper. The blood itself being diseased as it forms the sweat upon the surface of the skin, it is so irritating and poisonous that it produces discolored brown spots, pimples, blotches and other eruptions, sores, boils, carbuncles and scrofulous tumors. The stomach, bowels and other organs spoken of, cannot escape becoming affected sooner or later, and costiveness, piles, drop-y, dyspepsia, diarrhoea, female weakness and many other forms of chronic disease, are among the necessary results. As a remedy for all these various manifestations of disease, Dr. Pierce's Golden Medical Discovery is positively unequalled. By it the liver and stomach are changed to an active, healthy state, the appetite regulated and restored, the blood and secretion thoroughly purified and enriched, and the whole system renovated and built up anew. Sold by all first-class druggists. s30 w16

WANTED

FIFTY COAL MINERS.

At the Mines of the Wyoming Coal and Mining Company, Rock Springs, W. T. Men with families preferred. Apply at the Mines to W. H. MELLOR. w16 to Sep. 30 '72

CASH FOR WOOL!

SCHOLPELD

PAYS THE HIGHEST MARKET PRICE IN CASH FOR WOOL at KIMBALL & LAWRENCE'S STORE, w141m

Are indorsed and prescribed by more leading Physicians than any other tonic or stimulant now in use. They are A SURE PREVENTIVE for Fever and Ague, Intermittents, Biliousness, and all disorders arising from miasmatic causes. They are highly recommended as an anti-dyspeptic, and in cases of indigestion are invaluable as an Appetizer and Recuperant, and in cases of General Debility they have never in a single instance failed in producing the most happy results. They are particularly BENEFICIAL TO FEMALES, strengthening the body, invigorating the mind and giving tone and elasticity to the whole system. The HOME BITTERS are compounded with the greatest care, and no Tonic Stimulant has ever been offered to the public SO PLEASANT TO THE TASTE, and at the same time combining so many remedial agents, indorsed by the medical fraternity as the best known to the Pharmacopoeia. It costs little to give them a fair trial, and

Every Family should have a Bottle.

We ask every one to read the following Certificates from many of the most eminent physicians in the country: ST. LOUIS, July, 1870.—JAMES A. JACKSON & CO.; Gentlemen—As you have communicated to the medical profession the recipe of the "Home Bitters," it cannot therefore be considered as a secret or patent medicine, no patent having been taken for it. We have examined the formula for making the "Home Bitters," and unhesitatingly say the combination is one of rare excellence, all the articles used in its composition are the best of the class to which they belong, being highly Tonic, Stimulant, Stomachic, Carminative and slightly Laxative. The mode of preparing them is strictly in accordance with the rules of pharmacy. Having used them, seen its effect in our private practice, we take pleasure in recommending them to all persons desirous of taking Bitters, as being the best Tonic and Stimulant now offered to the public.

L. CH. BOISLINIERE, M. D. F. G. PORTER, M. D. ALFRED HEACOCK, M. D. C. GERICK, M. D. CHAS. VASTINE, M. D. C. A. WANE, M. D. G. S. WALKER, M. D. E. A. CLARK, M. D. J. C. WHITEHEAD, M. D. S. G. MOSES, M. D. DR. O. V. F. LUDWIG, HUBERT PRINCE, W. A. WILCOX, M. D. U. S. MARINE HOSPITAL, ST. LOUIS, Mo., Oct. 5, 1870.—JAS. A. JACKSON & Co.; I have examined the formula for making the "Home Stomach Bitters," and used them in the Hospital for the last four months. I consider them the most valuable tonic and stimulant now in use. L. MELCHER, ST. LOUIS, July 6, 1870.—JAS. A. JACKSON & Co.; Having examined the formula from which your celebrated "Stomach Bitters" are prepared, and having witnessed the method of combining the different ingredients, we can safely recommend them as the best tonic with which we are acquainted. From the great care with which they are compounded, and from the choice materials which enter into them, we have no doubt that they will prove, as they deserve to be, the most popular tonic and stimulant in use. Respectfully yours, T. J. VASTINE, M. D. T. G. COMSTOCK, M. D.

We cheerfully concur with every word contained in the above testimonial.

JOHN CONZELMAN, M. D. JOHN HARTMAN, M. D. CHAS. VASTINE, M. D. JOHN T. TEMPLE, M. D. G. S. WALKER, M. D. E. G. FRANKLIN, M. D. CINCINNATI, Oct. 19th, 1870.—MRS. W. B. KENNEDY & Co.; Agents "Home Bitters"; Gentles—According to your request, I have examined the formula of the "Home Stomach Bitters," and find the remedies it contains such as are in general use by the Medical profession. They are very scientifically and pleasantly combined, and as stimulating tonics will be found especially adapted as corroborants to the treatment of low or debilitated stages of the system, whether arising from impaired digestion, or from malarious diseases.

DR. J. L. VATTIERS. L. A. JAMES, M. D. R. S. WAYNE, Chemist. C. T. SIMPSON, M. D. W. T. TALLAFERRO, M. D. S. P. BONNER, M. D. J. J. QUINN, M. E. S. G. MUSCROFT, M. D. J. H. BUCKLER, M. D. W. BUGLER, M. D. W. R. WOODWARD, M. D. G. A. DOHERTY, M. D. CHICAGO, Sept. 30, 1870.—J. L. SMITH, Esq.; We have examined the formula of the "Celebrated Stomach Bitters," and find it to be composed of articles that are considered the best tonics used by the Medical profession, and one of the best bitters we know of now in use. Very respectfully, H. S. HAHN, M. D. B. McVICAR, M. D. J. B. WALKER, M. D. G. A. MARINER, NORMAN S. BARNES, M. D.
