After 'Get-Rich-Quick' Firms.

New York, Feb. 18.—Central office detectives are scouring the city today in search of "get-rich-quick" firms. They are making a canvass in all the big office buildings on lower Broadway and in Wall street.

Where they see the word "Investment"

on an office door they make inquiries concerning the business of the firm occupying that office.

Detective Captain Langan said

today, "I am going to get them if I can. It is not easy to locate them. They are everywhere in high buildings and the signs on the office doors are not always indicative of the business that is going on within. Most of these fellows have caught to date we have had pointed out to us through the complaint of some one who has been victimized."

A great majority of the victims in these

cases are women who have been speculating without the knowledge of their husbands or families. We have found, too, that quite a number of young boys and girls employed in downtown offices have been customers of these concerns and we are trying to get some of these persons to prosecute the get-rich-quick men."

Hot Shot at School Meeting

Senator Bamberger Charges That Colonel Nelson is Living in the Past, While He Says 'Banker McCornick Thinks More of His Dollars Than He Does of Education—Some Exceedingly Tropical Talk.

Col. Nelson came here in the stormy days and does not seem to realize that a peaceful wave has swept over our fair state, and as for Mr. McCornick he thinks more of his dollars than he does of education.

This was the caustic comment of Senator Bamberger at the meeting of the joint education committee of the legislature this morning. He fired many other hot shots before the session was over, and walked out of the senate chamber followed by a torrent of applause from 50 or more citizens and patrons of the public schools.

AS TO THAT STATEMENT.

The session was held to consider the school tax from 5.22 mills to 7 mills. Chairman Done of the house committee on education presided, but with all his parliamentary skill could not check the heated words that poured from Senator Bamberger's lips. His friends say he was never so aroused before, and they add that they were never more proud of him. This was clearly evident for nearly every sentence he uttered was interrupted with applause. The senate room was well filled with representatives from the various school districts, including Supt. B. H. Christensen, who had his finger before the session ended.

DISCUSSION BEGINS.

The discussion was begun by P. A. Dix of the Ogden district, who asked Senator Bamberger to explain the statement of the receipts and expenditures of the board of education for the year 1902-3, as published by the board of governors of the Commercial club.

"It is altogether wrong and misleading," replied Senator Bamberger, "scarcely giving himself the courtesy of his feet. The board, of which Col. Nelson, Mr. McCornick and John E. Deely are members, has given out estimates as to what the city school tax should be. They give the receipts from the city school tax as \$200,000, while they are only \$181,443, according to the report of the board of education. They give the receipts for the city school from the county school tax as \$55,000 while according to our school board they were only \$34,656.
