

LOCAL AND OTHER MATTERS.

THEATRICAL.—Last night the "Soldier's Daughter" was played with much more spirit than when previously presented. The cast was the same as before.

The "Bonnie Fish wife" was played and kept the house in a roar.

To-night the comedy of the "Ladies' Battle" will be presented for the first time here. It will be followed by the "Bonnie Fish Wife."

PROGRESS OF THE PRESIDENT'S PARTY.—We learn by Deseret Telegraph line that President Young and party arrived at Tokereville at a quarter to two this afternoon. All well.

CO-OPERATION IN OGDEN.—We learn, through our correspondent "Ammon," that a meeting was held in the Second Ward, Ogdén, last Friday evening, for the purpose of organizing a ward co-operative store. Elder F. D. Richards, being called to the chair, briefly stated the objects of the meeting. The committee who had been appointed at previous meeting then presented a constitution for the Society, which was accepted, and the following officers elected: President, J. H. Richards; Secretary, J. H. Richards; Treasurer, J. H. Richards; and William Elmer, John Hoagland and Mark Hall, Directors. The capital stock of the institution was placed at \$10,000, with power to increase to \$20,000.

INFORMATION WANTED.—John Nicholson of this office is desirous of obtaining information respecting the whereabouts of James Stuart. Brother Stuart left this city sometime in the beginning of February last, with the intention of going to the Promontory to work at his trade as shoemaker, or on the railroad grade. His friends in this city have not since heard from him. Any information concerning his whereabouts will be thankfully received.

CALEB.—We had a call yesterday from Mr. W. Carr, the representative of the San Francisco branch of the Russell and Erwin hardware manufacturing company. This is the largest company of the kind on the continent. Their factories, employing about three thousand men, are at New Britain, Connecticut; they have branch establishments at New York, Philadelphia, Boston and San Francisco. Mr. Carr is here to promote the interests of the firm among our business men; and though he admits that San Francisco has manifested considerable indifference in reference to the Utah trade, he expresses his confidence, that when the advantages his firm can offer are known, his efforts to open up trade in this line will be successful.

ACKNOWLEDGEMENT.—We are indebted to E. Young, Esq., chief clerk of the Bureau of Statistics, for the February report of the Deputy Special Commissioner of the Revenue, in charge of the Bureau of Statistics, Treasury Department; also to our Delegate, to Congress, Hon. Wm. H. Hooper for public documents of interest.

GIRL LOST.—Mary Carmichael, aged about 22, partially imbecile, strayed from the home of her friends in the 8th Ward, yesterday morning, since which time she has not been heard of, and her friends are in distress, not being able to obtain any clue to her. If any person has seen her or taken her in, or should do so hereafter, they will confer a very great favor upon her friends by immediately conveying such intelligence to Brother John McAllister, on the State Road, first house north of Emigration street, nearly opposite the Mansion House, in this City.

HERE AND ELSEWHERE.—Chief Justice Wilson having arrived in the city yesterday opened his Court last evening, and adjourned this morning, when it was again adjourned till noon, there not being sufficient jurors present to do business. The weather is warm and pleasant but slightly cloudy. Draperville has just received a full set of brass instruments from Messrs Root & Cady. The band, under the leadership of Professor Orgell, is delighting the folks there with its sweet strains. Grantsville has organized a Woolen and Flour Manufacturing Company on the principles of co-operation, an example that might be advantageously followed in other sections of the country.

POLICE.—For being drunk and over combative, John Heagran was fined \$10.

L. McHenry had also to hand over to the city authorities the sum of \$7.50 for imbibing too freely of the cup that intoxicates.

DENVER.—We learn by our Denver exchanges, that the three negro soldiers who murdered Mr. Crevier, at Big Springs, the particulars of which we have already given, are now in custody at Denver, and were to be examined yesterday. It having been rumored that some of the citizens were not willing to abide the "law's delay," H. B. Hashell, Esq., the deputy U. S. Marshal, has published the following card:

"Rumors having come to my ears that an attempt will be made to take from custody the three prisoners now in jail in this city charged with the murder of Crevier, to mete out to them summary punishment, I take this method of informing the public that I believe the said prisoners guilty; that they will be held in custody until removed by undoubted authority, and that no mob or party of men can take possession of them except at the termination of an assault, which may prove disastrous to somebody. They can be reached only over the dead bodies of myself and assistants. Their legal examination has been postponed until next Monday, to await the arrival of the U. S. Attorney."

A WONDERFUL CAVE IN WHITE PINE. The White Pine News has the following with regard to a remarkable cave discovered in that district.

"During the month of December last some parties while prospecting for timber on a high mountain, ten miles south of Treasure Hill, discovered in the head of a gulch in a small valley near the base of the mountain a large cavern in the ground. The valley at certain seasons of the year drains more than fifty thousand acres of land, and at times has many thousands of inches of water flowing down it. The continual wash down the valley has formed a dam a few feet below the mouth of the cave several feet in height, so as to prevent any water flowing down the gulch, so all the water coming down runs into the cavern. The opening to the cavern is some twelve feet in diameter, and is sixty feet perpendicular to the first landing. The rocks forming the sides of it to the first landing are worn by the action of the water until they are as smooth as glass. Quite a number of large rocks were rolled in and sent back an echo as from a great number of large chambers. No one has as yet made any attempt to explore it, but from the vast amount of water it receives at times it must be very large, and although careful search has been made for miles below it, no outlet has been discovered. It is in a limestone formation with ledges of spar cutting through it in many places."

HOME, MANUFACTURE COMPETING WITH Eastern Manufacture!

Having closed out my business to Zion's Co-operative Mercantile Institution, in which former business I used to manufacture a large amount of Boots and Shoes, from Leather manufactured at my Tannery in the 15th Ward,

I NOW OFFER MY
