Each of the parades will be viewed from the reviewing stand on Main street, between First South and Third South.

The Queen's float, which will lead all the parades, will be a beautiful affair. At the head of the float will be a throne, on which will be seated the Queen. Her throne will be surrounded by her maids of honor, who will preside in their respective floats. The Queen's float will be followed by the floats of the various societies, and the Lyceum band will be there. It was thought to be best to have the band in the rear of the parade, as the music will be heard to better advantage.

There came Auditor A. Ho, who have always made a commendable display of flags and bunting, but which is unusually attractive and elaborate this year. Engineer [illegible] is also [illegible] with a splendid display of flags and bunting, which is very pleasing to the eye.

The executive committee of the Midsummer carnival is putting forth every effort to make the carnival a success, regardless of the financial loss that it may entail upon the members of the committee. Utah owes many of the successful events which they have witnessed to the committee, and it is to be hoped that the only financial loss which they will have to sustain will be considerable. Public-spirited citizens will be thrown upon and a hearty welcome extended to the city's guests.

Every one is, or has prepared, to do their part. The first will be of interest on Thursday at 11 o'clock, the coronation of the Queen of the Carnival. There will be a grand ball in the evening at 9. Tickets for the ball can be had from the committee.
