Next Year Will See a Still Greater Output From the Mines.

PROPERTIES ARE IN SPLENDID CONDITION.

Invited for Stock 1000 Contained in the First-Season Light Shipments—Miscellaneous Items.

Reports from Tintic indicate that the mines of that camp will do even more next year in the production of the precious metals than they have during the past year. A period in which such a gratifying showing has been made by the producers of that camp, in view of the fact that the work in that camp was not without its difficulties, and that the output was not without its fluctuations, is a most encouraging sign. The fact that the mines of that camp are in such a splendid condition, and that the output is so great, is a most encouraging sign.
