

# HORSEMEN LOOK FOR GOOD YEAR.

The Associations Throughout the Country Are Already Making Great Preparations.

## THE CHAMPIONSHIP QUESTION.

May be Something Doing Between Billings, Lou Dillon, Smathers, Major De Lamar and Dan Patch.

Trotting horse men all over the country are looking forward to a successful campaign this summer. The associations throughout the country are already making preparations for the rich stakes and purses which are to be competed for on the various tracks. Reports from a different section indicate that there is an abundance of green material for the stakes this year and it is evident that the classes will be of high class. In addition to the regular season events there will be the usual record breakers that will add interest to the sport.

No less than three champions loom up at the present time and their performance last season will be watched with considerable interest. First of all comes Lou Dillon, 1234, C. K. G. Billings' champion trotter. Lou Dillon will be sent against her record to sulky and is more than likely that she will be sent against time without the aid of a pacemaker in front. No matter how Mr. Billings sends her after the records those interested in the mare are confident that she can reduce her present record.

E. E. Smathers' champion trotting gelding, Major De Lamar, who trotted a mile at Memphis in 1:59, has been saved for next year and the gelding's efforts will be confined to record breaking. Mr. Smathers believes that Major De Lamar is capable of reducing his record, but whether he can surpass that of Lou Dillon is a question.

The fact remains, however, that Major De Lamar, in the hands of A. E. McHenry, is receiving the best of care and that he will be pointed for records next summer. Outside of the record performances, Mr. Smathers all his time on the Memphis Gold Challenge cup, which he would like very much to win. At present Messrs. Billings and Smathers are in a leg on the cup, and the race this summer will be the final race, the winner getting permanent possession of the 100 trophy.

Last year Lou Dillon proved an easy winner, winning two straight heats; but De Lamar was far from being at his best during the race.

Dan Patch, the world's champion pacer, will be sent after the racing season is over and his driver, E. E. McHenry, still believes that the champion has not yet reached his limit of speed.

## DELANEY IS NECESSARY.

Champion Jeffries Regards Him as an Essential in Big Fight.

It wouldn't seem like a championship affair without Billy Delaney's befitting contribution. Delaney has been a factor in some of the greatest battles that he has become as much a part of the show as the actors themselves.

Putting all joking aside, Delaney has been as superior as a trainer and second, and Jeffries would think as much of him as he would of cutting off an arm. Before Billy acted as pilot of the battalions of Delaney's army, he was a big guy on the armored cruiser Corbett all steered her through many a storm. In matters how furious the battle raged, Delaney was always the same. In the agonies of general and directed his forces with an unerring skill.

It was not always in the fighting business. Many years ago he was a small boy and chased goats over Harlem Heights in New York and played football just like other youth. After school hours he went on the street and picked up dimes selling "extras" all about the city. Billy grew up in Gotham, and being a sport by nature and ambitious soon got his name in the sporting columns. Dog fighting, boxing and picking wild ones were his specialties. He had these days, and many a night Billy has been seen sneaking into a cellar to pull off a star attraction between two ferocious canines especially trained for the occasion.

Billy even did sentinel duty watching out that a herd of "bulls" did not sweep down on the gang and take them away in the patrol wagon. This was sport, but a night of money in Delaney's hands is probably pulling off a swell bait which the "Four Hundred" did not attend until it was too late to get into the ring. He was too busy to claim the championship for swinging dashing brunettes, but his friends say that he was the plump walrus of the ballroom and a great favorite of the fair sex.

## Jenkins Beat Lundig.

New York, Feb. 17.—Tom Jenkins of Cleveland defeated Hjalmar Lundig of Sweden tonight in Brooklyn in a wrestling match, winning the first and third falls. Jenkins won the first fall with a leg and catch hold in twenty minutes. The second fall, Grace-Roman style, was won by Lundig in a half-Nelson and neck hold, twenty-five minutes to second. The third fall, a double-leg fall, was gained by Jenkins with a back hammer lock. Time, nineteen minutes twenty-seven seconds.

## TEAM TO TRAIN HERE.

Butte's Aggregation of Ball Tossers Have Been Given Orders.

As usual the Butte baseball team will come to Salt Lake to train for the season. Walter Wilmet, manager of the team, claims to have 15 men already signed and has sent them letters, accompanied by expense money, with orders to train themselves in readiness to report at Salt Lake on a day's notice. The time for spring practice has not been set as yet, but it is believed the work will begin just as soon as the weather permits. The team signed for the coming season, is said to be practically the same as won the pennant last year.

## NEW BAT INVENTED.

The Best of Batters Will Not Be Able to Break It.

Ball players all over the land will be pestered to learn that some fellow has just patented a baseball bat which is guaranteed never to break. The players who have favorite "sticks" will be able to hold onto them forever, unless some one swipes them. The new bat is wound with a fine malleable wire, which is sunk into the wood in such a way that the ball cannot be injured. The sponsor for the new bat is Wm. C. Bryan, of Washington, an ex-ball player and promoter of the game. The only thing that stands in the way of a baseball law which forbids the use of any

## "THE OLD SCRATCH."

How the Evil One Came to Be Popularly Known as "The Old Scratch."

One of the many familiar names of his satanic majesty is "The Old Scratch." It is undoubtedly due to the fact that scratching is so disagreeable to people that they thought of the evil one. A scarp full of dandruff keeps one scratching all the time; not only disagreeable but considered very indecent in polite society—as it should be—because one ought to keep the scalp clean that it would not itch. To cure the scarp of dandruff effectively, use Newbro's Herpicide. It kills the germ that creates the dandruff, which is preliminary to falling hair, and, finally, baldness. No other preparation kills the dandruff germ. Herpicide also is a very delightful and effective hair-dressing. Sold by leading druggists. Send for a stamp for sample to The Herpicide Co., Detroit, Mich. Z. C. M. I. Drug Co., Special Agents.

# Drudgery And Worry Sap Woman's Nervous Vitality.

There is nothing more nerve wrecking than household duties and the care of children. The drudgery, worry and petty annoyances of the day, and broken rest at night soon sap her vitality and she becomes nervous, irritable and restless. If allowed to continue, it ends in Sick, Nervous Headaches, Stomach, Liver and Kidney trouble, and those terrible Periodical Bearing-down pains, which come from nervous exhaustion.

Dr. Miles' Restorative Nervine is a never-failing remedy for such cases. It builds up and soothes the nerves, and brings the sweet, restful sleep, so much needed.

No other medicine is so pleasant or so curative in every case of female weakness, nervousness or general worn-out condition.

Try it at our risk. Cost refunded if first bottle fails to benefit you.

"I had been sick several years with nervous prostration, which kept me almost constantly under a physician's care, and while I had been treated by four doctors, I received only temporary relief. I was very weak and helpless, and unable to attend to my household duties. After reading about Dr. Miles' Nervine, I concluded to give it a trial. The first few doses brought restful sleep at night, and an appetite for food. Continuing the treatment, I rapidly improved, and now I am well and able to do all my work."

MRS. M. J. OLDS, Clarkston, Mich.

## FREE Write us and we will mail you a Free Trial Package of Dr. Miles' Anti-Pain Pills, the New Scientific Remedy for Pain. Also Symptom Blank for our Specialist to diagnose your case and tell you what is wrong and how to right it. Absolutely Free. Address: DR. J. C. MILES MEDICAL CO., LABORATORIES, ELKHART, IND.

## ANOTHER BALL LEAGUE.

Composed of Indoor Enthusiasts at the State University.

Another indoor baseball league has been organized. It is composed of enthusiasts at the state university and the teams will compete for the championship of that institution. The first contest took place yesterday afternoon between the "Preps" and the "Freshmen" and the former won by a score of 7 to 8. The contest was fiercely waged from start to finish and it was a very close game. The lineup and score by innings follows:

Freshmen	123456789
Preps	00100520-8
Preps	Position. Freshmen.
Moore	Cannon
Hyde	Bryant
Hilton	Ross
Scott	Dyer
Jones	Hunt
Bates	Sherman
Wall	Simpson
Spitoe	Butler
Anderson	Cannon

## WAITING FOR NEW GYM.

L. D. S. U. Athletes Say They Will Need New One.

The interest taken in athletic work by L. D. S. U. students since Willard Heath took hold of the various teams, and the almost universal opinion of the students, is that a new gymnasium is needed. The present gymnasium is hardly adequate for their needs.

It has been reported that the faculty is now considering the building of a new gym at a cost of about \$60,000, and have it completed by next winter. The new gym would be on the track and would be the best gymnasium in the state.

## ASCOT PARK EVENTS.

Jockey Hildebrand Was Star, Riding Two Winners in Yesterday's Races.

Los Angeles, Feb. 17.—Jockey Hildebrand, who has been the star rider on the Santa Anita track, arrived here this morning, and out of three months rode two winners at Ascot this afternoon. The new track, rather difficult for the talent, and two out of six was the best they could do. Alma Dufour, at 3 to 1, won the first race, at five furlongs from Elbernado, with a margin, the favorite, third. The 2-year-old race was an upset for the talent. Alma Dufour, at 1 to 1, winning handsily from Sea Air, the favorite. Results: First race five furlongs—Alma Dufour won, Elbernado second, Dargin third. Time—1:29. Second race, three and a half furlongs—Mear won, Sea Air second, Light of Day third. Time—1:40. Third race, hurdle handicap, mile and an eighth—Heir Apparent won, Olintus second, Goldline third. Time—2:04. Fourth race, mile and a sixteenth—Sals won, Drail second, Warte Nicht third. Time—1:55. Fifth race, Staucon course, selling—The Gold Funder won, Little Margaret second, Celebration third. Time—1:39. Sixth race, mile and a sixteenth—Florence won, Louise second, Sherry third. Time—1:49.

## RACES AT INGLESIDE.

Handicap With Purse of \$1,000 Captured by Kentworth.

San Francisco, Feb. 17.—Fine weather and a good card drew an increased attendance at Ingleside today and some fine racing was witnessed. The feature was the mile and a sixteenth handicap with a purse of \$1,000. It resulted in a very close finish. Kentworth, after leading all the way, got the decision by a short nose from Modicum, a 20 to 1 shot, with Jockey Club third, less than a length away. Proper, the favorite, carrying 125 pounds, made a poor showing.

There were other close finishes, among them being that in the 2-year-old race, when Stel Wire, a 15 to 1 shot, beat Hob Ragon a head. Celebrant, winner of the last race, was bid up from \$20 to \$30 by Frank Doss, but the stable retained him. Twenty-three books were in line. Results: First race, one mile, selling—Fair Lady Anna won, Polonius second, Gold Funder third. Time—1:44. Second race, mile and a half furlongs, purse—Steel Wire won, Hob Ragon second, Golden Idol third. Time—2:04. Third race, five furlongs, selling—Geo. Berry won, Halford second, Instrument third. Time—1:29. Fourth race, mile and a sixteenth, handicap—Kentworth won, Modicum second, Jockey Club third. Time—1:49. Fifth race, Futurity course, selling—Hippodax third. Time—1:33. Sixth race, six furlongs, selling—Celebrant won, F. M. Brattain second, Hainault third. Time—1:35.

## FOOT WORK ON THE PIANO.

Clifton Bingham, the author of "In Old Madrid," has written 2,500 songs, of which 1,350 have been published, and the other half is not himself a musician, but he is an excellent musical critic. His ear is delicate and sensitive, and nothing annoys him more than to hear bad singing or bad playing.

He was visiting last month a cousin of his in London, and this cousin has a son, a boy of 12 or 13, who practices on the piano every morning. The muscular lad, banging his notes from the instrument with tremendous vigor, tried Mr. Bingham not a little.

"What on earth are you playing, there, Jimmy?" the song writer called from the next room one morning.

"An exercise from 'Five Steps in Music,'" the boy answered.

"I knew you were playing with your feet," said Mr. Bingham, "but would you mind stepping a little lighter on the keys?"

# IDAHO ALSO HAS THE RUBBER WEED.

Plant Which Bears the Name of "Actinella Richardsonia" Grows in Gem State.

## IT MAY PROVE A GOLD MINE

Contains 20 Per Cent of Pure Rubber And Can Be Obtained in Large Quantities.

What most people would call an ordinary looking weed which had apparently been uprooted while in blossom caused hundreds of people to pause yesterday in front of M. J. Marks' show window at 222 West Main street, where the shriveled roots and petals were suspended by a cord. It required positive proof to convince the curious that the weed contained in its dried up state nearly 25 per cent of the finest quality of rubber.

The exhibit was that of a Colorado rubber plant, known to botanical science as the "Actinella Richardsonia," the wonderful properties of which have only recently been discovered. It grows abundantly in a wild state over the arid regions of Colorado at altitudes of about 7,000 feet, apparently requiring no irrigation, and has hitherto been considered a pest. Accident led to the discovery of its rich qualities not long ago and now it threatens to supplant the sugar beet as an investment.

J. W. Hoover of Boise has been in correspondence with William M. Ingersoll of Denver, who furnishes some very interesting information respecting the plant. In a recent letter Mr. Ingersoll said:

"A ton of rubber plant roots will produce 400 pounds of rubber worth \$220. Of course it is all in the experimental stage at this time. It is not yet known whether the plant will stand cultivation, although it is hard to kill out in its natural state. Nor is it known yet what is the best means of handling the plant or putting it in marketable shape, but the profit is so large that all these things will be discovered in time."

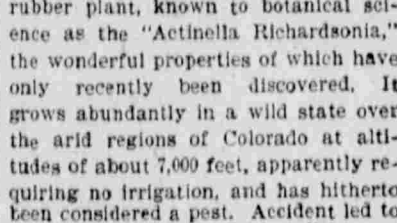

"I think I have seen the plant up there (in Idaho). It is like greasewood in form but short like the small sage along the fences."

Several persons who examined the plant in Mr. Marks' window declare they have seen it growing profusely on the mountain sides of Idaho, which this prove to be true and the plant found to be susceptible of cultivation and growth from seed. American rubber would soon drive the South American product from the market and the western states where the plant flourishes would find themselves in possession of a mighty industry.

Denver capitalists have already considered a machine which "chews" the roots of the plant and extracts the pure rubber. A piece of the root as large as a lima bean will, when chewed in the mouth like a piece of gum, produce a lump of rubber as large as a pea.

L. H. Judson, professor of horticulture of the University of Idaho, has obtained a sample of the plant and will endeavor to find out if it grows in Idaho. Others have announced their intention of seeking the wonder on the mountain sides of Idaho, and will weed and feed certain they can find it in this state.—Boise Statesman.

## THE FROST FLOWERS OF ST. MORITZ.

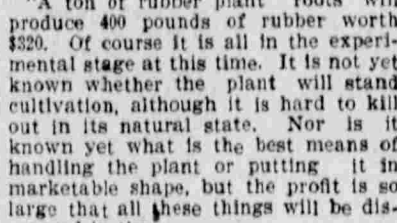

FIRST GROWTH OF THE FLOW-THE SAME SCENE TWO HOURS LATER.

On the mountain lakes and streams surrounding St. Moritz, in the Engadine, Switzerland, is to be seen a series of very peculiar formations each winter. These are called "frost flowers," the name having been given them by Professor John Tyndall. They are fernlike in their forms of crystallization and are due to the sun's rays falling upon the ice. They ruin the surface of the lakes and rivers for skating. The illustrations are taken from recent photographs made of the peculiar growths, which are in no sense vegetable and are only referred to as "flowers" because of their peculiar resemblance to a field of snow white blossoms.

## GARDNER DAILY STORE NEWS

Some people consider the Top Coat a luxury. Nothing of the sort! It's an absolute necessity. And every man should have one. For the sake of health, comfort and proper dress. There's no excuse for you being without one. When there's such a showing of them here, at prices within reach of everybody. At \$12.00 there's a swell Light Covert. At \$16.50 a light brownish mixed homespun. At \$25.00 a fine light striped Covert of Rogers, Peet & Company's make. And many other new and stylish coats.

ONE PRICE J. P. GARDNER, 136-138 MAIN ST.

ORDERS BY MAIL PROMPTLY FILLED.

# R. C. KERENS' BRIEF SALT LAKE VISIT.

Arrives in City This Morning and Leaves Within an Hour on a Special for Calientes.

## VICE-PREST. SAN PEDRO HERE.

Mysterious Movements Occasion Considerable Speculation as to What is Coming in Near Future.

R. C. Kerens of St. Louis, vice president of the San Pedro, Los Angeles & Salt Lake, arrived in Salt Lake over the Oregon Short Line at 3:30 this morning, in his private car "Rainbow." Mr. Kerens did not leave his car. Immediately upon his arrival an engine attached to a baggage car and General Manager R. E. Wells' private car was backed up, a special made up in short order and within an hour Messrs. Kerens and Wells were steaming south bound for Calientes. Prior to leaving it was given out that the party intended to return to Salt Lake on Saturday night.

The mysterious visit has occasioned considerable speculation already, despite the assertion made by Mr. Kerens that there was nothing to give out. One story that was circulated was to the effect that Mr. Kerens has been stirring up the question of speedy construction of the San Pedro and has himself gone down to inspect the work and find out why there has been so much delay. Another story is to the effect that the trip is the forerunner of a big mining deal in Pioche properties.

## Conductor Got Funny.

An Albuquerque exchange says: Cornelius Setema, the young man from Grand Rapids, Mich., who became violently insane and created a panic on an incoming Santa Fe train here last Monday night, recovered his reason today. Setema tells a curious story to account for his insanity. He says that while coming from Phoenix, Ariz., to Ash Fork, the conductor planned a little amusement for the passengers by sending several cowboys carrying six-shooters into a car where Setema was riding, who acted as if they were going to hold up the train and kill the passengers.

Setema says the sham robbers directed their attention to him because he was a tenderfoot, and that the result of his fright was that he became insane. While coming into Albuquerque he drew a revolver and went running through the train threatening to kill all the passengers.

## POOLING OF INTERESTS.

Paul Morton Declares It to Be Only Solution of Existing Troubles.

Chicago, Feb. 18.—Paul Morton, vice president of the Atchafalaya, Topeka & Santa Fe Railway system, in an article just published by the University of Chicago press declares that pooling of interests is the solution of present railway troubles, and that it will be legalized in the near future. He gives as his opinion that the preferential rates which have resulted from the interstate commerce law prohibiting trusts and combinations, are a menace to justice and fair play, and must be done away with. He says:

"I have always been an advocate of legalized pooling, because I believe it

will go a long way toward insuring a maintenance of tariffs, and thereby prevent favoritism and inside rates to large shippers and great cities. I believe that the foundation of the state itself is threatened by any long continued discrimination against the small shipper and the small town.

When all the railroads are owned by one syndicate," he continued, "after a prophecy that such will be the case, 'there will arrive a time when a vehement demand will be made for government ownership and operation of the railroads of the United States.'

## PENNSY DECLARES WAR.

All Negotiations for a Settlement With Geo. J. Gould Interests Broken.

New York, Feb. 18.—All negotiations for a settlement of the differences between the Pennsylvania railway and the Gould interests have been broken off, says the Times. Friends of President Cassatt, of the first named road, and of George J. Gould have, the paper continues, abandoned definitely all attempts to obtain rapprochement.

The immediate cause is understood to have been the absolute refusal of the Gould interests to abandon their project of reaching the Atlantic by an outlet of their own. The proposition of a settlement was based on the idea that the Western Maryland, the road over which the Washburn was to get into Baltimore, could be placed under the control of some other road, in which both the Pennsylvania and the Gould could have an equal interest. For this purpose the Norfolk & Western had been elected as the most likely. From the very beginning of the negotiations the Gould interests balked at this proposition, but it was believed that their objections could be overcome. Failure to do so is now admitted, says the Times, by persons directly interested, and work on the Gould extension is progressing rapidly.

## Found a Fortune.

New York, Feb. 17.—A fortune in high class railroad bonds has been found by the granddaughter and heiress of Thomas Wilson of Worcester, after a search of 12 years. When Wilson died no trace of his wealth could be found, although he was known to have possessed a considerable fortune, accumulated in building. Mrs. Lizzie Pell, his granddaughter, instituted immediate search, but without success until a safe deposit box was found in his name in a long island bank. It contained \$23,000 in bonds of high grade and papers showing the investment elsewhere of a large sum, estimated by some persons at \$200,000.

## Meeting of Traffic Agents.

Ashland, Ore., Feb. 17.—The annual meeting of the Pacific Coast association of traffic agents which will be held here February 20, will be attended by about 500 railroad men from various points of Oregon, California, Washington, Idaho, Montana and British Columbia, and will be the largest meeting in the history of the organization. The important matters to be discussed are: Securing the meeting of the American Association of Traffic Agents for Portland next year; rates to the Lewis and Clark and Louisiana Purchase exhibitions and the tourist and colonist rates into the Pacific coast district for the coming season.

## EXPORT TRAFFIC TARIFF.

Question of Requiring of Railroads To Publish Their Rates.

Washington, Feb. 18.—The interstate commerce commission today announced that as a result of its investigations of the feasibility of requiring railroads to publish their rates for the movement of export and import traffic, the same as domestic traffic, it has been decided to leave that matter in abeyance for a time. If the interstate commerce act is not amended within a reasonable time, so as to relieve the commission of the necessity of requiring such publication, the commission holds that it will be its duty to enforce the publication of import and export rates in the manner now provided by law, but so far not complied with.

## SPIKE AND RAIL.

General Manager W. H. Bancroft of the Union Pacific, has returned from Omaha.

Assistant General Manager E. E. Calvin of the Oregon Short Line, is in Omaha.

The fortieth mile was reached by the tracklaying gang below Calientes yesterday.

T. C. Porteous, agent for the Merchants Dispatch at Denver, is numbered among the visiting railroad men.

Commencing with today coal trains will be sent west over the Ogden-Lucien cut-off. The cut-off was opened by Mr. Harriman on Thanksgiving day.

The Salt Lake Route officials state that the statement that contracts are to be let within the next three weeks for the closing up of the gap across the Nevada desert is unwarranted.

A morning paper came out yesterday with a flash headline that the proposed contracts have been let for the completion of the road from Crevasse to the asphaltum beds. The "News" printed this story a week ago.

## WESTERN MARKET LETTER.

Special Correspondence.

Kansas City, Mo., Feb. 15.—Cattle receipts at Kansas City last week amounted to 37,800, an increase of 9,000 over previous week. After Monday, market lost strength on account of the heavy supplies both here and at Chicago. A great many poorly finished steers were included, and they suffered more decline than any other class. Supply of western cattle was very light, and included few fed steers, or good fat cows. The steers sold 10 to 20 cents, and sheaf steers sold about steady. Best western fed steers brought \$4.60; the sales ranged on down to \$3.40. Cows brought \$2.25 to \$3.25 for grades above canners; canners were dull. Some good heavy Colorado feeders and nice, light western stockers sold steady to strong, but brought up to \$3.00. Run today is 6,000 head; market steady, with some strength exhibited by stockers and feeders.

Sheaf receipts last week were 15,500, about same as previous week. Prices were steady to strong each day, with a little extra strength on Friday. Today the run is 5,000 head, and outside of a little weakness in the forenoon, the market is steady. No feeding stock is coming now. Western fed stuff brings about

## THE INGENIOUS WAITER.

A little story illustrative of the ingenuity of some colored waiters when they are really "up against it" is told by Moncure Burke, secretary to Engineer Commissioner Biddle, at the district building.

"I went into a nearby pie garden the other day," says Mr. Burke and ordered a sandwich and cup of coffee. It is one of the rules of this food emporium that the waiter shall write the order on a little slip of paper and put the price opposite. The check is then paid to the cashier at the desk.

"When I had finished my light repast I picked up the slip placed on the table by the waiter and glancing at it saw written thereon:

"Pie, 5 cents.

"Coffee, 5 cents."

"I called to the waiter in curiosity: 'Hey, John, I didn't have any pie, I ate a sandwich!'

"That's all right, boss," he replied, 'pie and sandwich is both the same price and I ain't so good on spelling that sandwich!'"—Washington Evening Star.

## SONG OF THE SCORCHER.

My cup is overflowing. I've joy in life's span; At last I have run over A mounted policeman.

—Automobile Magazine.

## What is Catarrh?

If You Have Any of the Following Symptoms, Send Your Name and Address Today.

Is your breath foul? Is your voice husky? Is your nose stopped? Do you snore at night? Do you sneeze a great deal? Do you have frequent pains in the forehead? Do your eyes ache across the eyes? Are you losing your sense of smell? Is there a dropping in the throat? Are you losing your sense of taste? Are you gradually getting deaf? Do you hear buzzing sounds? Do you have ringing in the ears? Do you suffer

deal? Do you have frequent pains in the forehead? Do your eyes ache across the eyes? Are you losing your sense of smell? Is there a dropping in the throat? Are you losing your sense of taste? Are you gradually getting deaf? Do you hear buzzing sounds? Do you have ringing in the ears? Do you suffer

with nausea of the stomach? Is there a constant bad taste in the mouth? Do you cough at night? Do you take cold easily? If so, you have catarrh. Catarrh is not only dangerous in this way, but it causes ulcerations, death and decay of bones, loss of thinking and reasoning power, kills ambition and energy, often causes loss of appetite, indigestion, dyspepsia, raw throat, and reaches to general debility, idiosyncrasy and insanity. It needs attention at once. Cure it with Gause's Catarrh Cure. It is a quick, radical, permanent cure, because it rids the system of the poison germs that cause catarrh. In order to prove to all who are suffering from this dangerous and loathsome disease that Gause's Catarrh Cure will actually cure any case of catarrh quickly, I will send a trial package by mail free of all cost. Send us your name and address today and the treatment will be sent you by return mail. Try it. It will positively cure so that you will be welcomed instead of shunned by your friends. Write today, you may forget it tomorrow. C. E. Gause, 2350 Main St., Marshall, Mich.

Catarrh is not only dangerous in this way, but it causes ulcerations, death and decay of bones, loss of thinking and reasoning power, kills ambition and energy, often causes loss of appetite, indigestion, dyspepsia, raw throat, and reaches to general debility, idiosyncrasy and insanity. It needs attention at once. Cure it with Gause's Catarrh Cure. It is a quick, radical, permanent cure, because it rids the system of the poison germs that cause catarrh. In order to prove to all who are suffering from this dangerous and loathsome disease that Gause's Catarrh Cure will actually cure any case of catarrh quickly, I will send a trial package by mail free of all cost. Send us your name and address today and the treatment will be sent you by return mail. Try it. It will positively cure so that you will be welcomed instead of shunned by your friends. Write today, you may forget it tomorrow. C. E. Gause, 2350 Main St., Marshall, Mich.

with nausea of the stomach? Is there a constant bad taste in the mouth? Do you cough at night? Do you take cold easily? If so, you have catarrh. Catarrh is not only dangerous in this way, but it causes ulcerations
