MINING, BUSINESS AND STOCKS

GOOD NEWS FROM STOCKTON MINE.

Superintendent Galiger Reports Another Important Disclosure On 850-Foot Level.

MINE NOW PAYING ITS WAY.

Big Bodies of Mill Ore West of Shaft—No Option on Property, Says Manager Trenam.

Some telling development work has been in progress at the property of the New Stockton Mining company during the past few weeks and there is not the slightest room for doubt but that it is going to be one of the biggest producing mines in the camp of Stockton.

In addition to the chapter of strikes that have been reported from that source, came another during the day when Superintendent Galiger advised Manager Trenam by telephone that when the smoke had cleared away from the blast fired by the "grave yard" shift at an early hour this morning, it was found that the whole face of the drift to the east an the 850 level, disclosed ore, much of which is undoubtedly of a shipping grade. The disclosures made on the 850 have been most important right from the time the drift was started off from the shaft. Soon after cutting the station, the drift penetrated ore for a distance of 84 feet, about half of which was of a shipping grade, when a lime horse was encountered. The drift was pushed on through this intrusive mass for a distance of 20 feet, then followed 20 feet of ore; another horse, similar to the first one, came in and was found to be of the thickness of 25 feet; now ore is being penetrated with the exact length of the shoot to be determined. On the 700 level, it was 186 feet long.

To the west of the shaft, some immense bodies of milling and considerable high grade ore has been encountered, but the extent of the zone in that direction is still an unknown quantity.

The property is splendidly equipped, and with the small mill in operation the company is more than paying expenses of operation.

During the past month the corporation's indebtedness has been materially reduced through the sale of a large block of treasury stock, and with returns from the pending assessment, the company will soon be well out of the woods, and on the direct road to dividends.

Manager Trenam and associates have had a long, hard struggle in the development of this Stockton property; they pulled through many discouraging stages, but always came out with convictions stronger than ever that it would eventually develop into a mine of great importance to the camp and to the state. The campaign of development was begun six years ago; today the clouds are lifting, the success longed for is almost accomplished.

While admitting that some of the experts that have been scouring the various mining camps of Utah for desirable propositions had been at the New Stockton, Manager Trenam declared to a "News" representative today that the company had given no option on its property, nor would it do so. "It is simply this," said he, "If anyone comes along that wants the Stockton and is willing to pay the price we ask for it, why of course we would let it go. I have been approached on the basis of selling a control; but to do that would be unfair to the shareholders who have stayed with us from the start; I for one propose at least to give them an equal opportunity.

"Yes, we will permit the public to examine the Stockton mine. We are not ashamed to show it to anybody. We know it is all right."

FINDS RARE MINERAL

S. H. Roundy Opens a Ledge of Gibsite in Washington County.

During his late visit to Washington county and within a few miles of the onyx property, S. H. Roundy of the Bull Valley Mining company discovered a ledge of white quartz conaining a two-inch streak of mineral, slightly darker in color than the quartz. Unable to determine the character of the substance, he brought a sample to Salt Lake; it was shown to several mining men and to a certain assayer, but no one seemed able to distinguish it. Finally, the sample was forwarded to the director of the mineral division of the United States geological survey at Washington.

In due time, that official made a return and declared the mineral to be of that rare specie called gibsite, which Webster's dictionary says is "a pearly white, tough aluminum hydroxid, chrystalizing in the monoclynic system." The government official stated in his communication that the only other deposit known in the United States is in Massachusetts, where it was discovered by a geologist by the name of George Gibbs, from whence it derived its name. The mineral is said to possess considerable value commercially.

Mr. Roundy says Washington county is filled with wonders in a mineral way and that he knows of no other section of the state where geological conditions are more interesting.

HAIR HEALTH

Keeps You Looking Young

Always restores youthful color to gray or faded hair. Stops hair falling. Positively removes dandruff. A high-class dressing, keeping hair soft, glossy, healthy, abundant. Does not soil skin or linen.

ON MINING EXCHANGE.

May Day and Beck Tunnel Move at a Higher Figure.

The forenoon on the mining exchange closed with the sale of 30,640 shares of stocks for which was paid $12,433.30. May Day opened in splendid tone and the trading started off with 3,000 shares going at 26 cents, which was followed by a slight softening in the market for that stock. Sacramento was in little demand, but the price remained firm. Beck Tunnel moved up to 84 cents. There was some Silver King offered on the open board, 100 shares selling down to $35.

The closing quotations and sales were:

PORTLAND SHAREHOLDERS.

At a Special Meeting Old Board of Directors Was Retained.

Special Correspondence.

Cheyenne, Wyo., March 19.—The special meeting of the stockholders of the Portland Gold Mining company of Cripple Creek, Iowa and Wyoming, held here Saturday afternoon, was a stormy session. The present directors, comprising members of the Doyle-Tom Burns-Stratton estate contingent, had been charged with mismanagement and the meeting was for the purpose of ascertaining if the majority stockholders desired the present trustees to act until the next annual meeting, which occurs in February, 1907. Resolutions were passed, favoring the retention of the present board.

President Howbert presided, and with him, representing the majority stockholders, were Messrs. Dines, Dr. Rice, Tom Burns, Judge Gunnell, Mr. Peck, and Chamberlain.

The minority stockholders were represented by James F. Burns, Murat Masterson, Messrs. Williams and Aby.

James Burns challenged President Howbert's honesty and integrity, and charged him with juggling the reports to bolster up his administration, and in the midst of his speech, in which he was flaying Howbert, Tyson S. Dines moved an adjournment, and the meeting came to an end abruptly.

DR. WATTS IN NEVADA.

Former Director of Daly West Looking Over Gold Camps.

Dr. Albert Watts of Boston, after spending a week or ten days in Tonopah and Manhattan, left Tuesday morning for Goldfield and Bullfrog to take a look at the great mines in those districts, says the Tonopah Miner. Doctor Watts is a heavy operator in copper, and has accumulated a fortune in Daly-West and other Utah stocks. He was one of the first to get into Tonopah and Goldfield, and holds large blocks of the standard stocks in both camps. The doctor inspected the underground workings of the Tonopah company's mines, the Montana Tonopah and the Midway, and declared that the Tonopah ore bodies are the greatest he ever saw, and he has seen all of the great mines in this country. After a few days sight seeing in Goldfield and Bullfrog, Doctor Watts will return to Tonopah, and from her he will proceed to his home in Boston.

MINES OF ALASKA.

What the Guggenheims Are Doing Towards Opening New Districts.

It is understood that Messrs. J. P. Morgan and Daniel Guggenheim, says the Mining and Scientific Press, representing two important reservoirs of money, have entered into a joint agreement to build a railroad about 400 miles long, from Valdez, on the coast of Alaska, to Eagle City, on the Yukon, traversing the Tanana region and tapping the Copper River country, which is considered one of the richest portions of Alaska. They have an option on the Bonanza, Nikolai and Elliott creek mines in the Copper River district and they have arranged to secure the control of Henry Braitnober's interests in other copper claims in the Tanana district. Moreover, the cohorts of the Guggenheims have closed around the Nevada Consilidated copper mines at Ely, Nevada. The control of this enormous deposit of low-grade copper ore has passed to them and they have acquired the Giroux property in the same locality. These deposits were estimated nine months ago to contain six million tons of 2½ per cent copper ore, but recent exploratory work has shown even this unusual tonnage to be only a part of an immense mass of sulphide ore disseminated in rhyolite porphyry. Again, the American Smelters Securities corporation has quietly secured the Balaklala mine in Shasta county and their engineers are making a preliminary investigation of Thomas W. Lawson's Trinity mine. All these purchases and industrial activities foreshadow the growth of an important copper mining and smelting industry on this coast, of dimensions for exceeding even the present noteworthy operations in the red metal. The output of the copper mines of our own state, in Nevada, and in Alaska, will be tributary to the new smelter which will be built close to San Francisco, as stated in these columns last week. The extreme western part of North America is going to produce a great deal of copper, and we welcome the increased importance as a technical and industrial center which these events will give to the city by the Golden Gate; nevertheless, we do regret the passing of mines well managed by local men into the hands of the big financiers who are objectionable only because of the tendency they exhibit to form big consolidations hurtful to legitimate competition and calculated to stifle the individuality of professional men.

OPENING ONYX DEPOSITS.

Bull Valley Properties to Undergo Examination Next Month.

S. H. Roundy of Benson, Cache county, has gone to the properties of the Bull Valley Mining company, located in the northwestern portion of Washington county and about 25 miles south of Modena, the nearest railroad station.

The Bull valley company is opening up a valuable onyx property and samples of the product sent away to undergo analytical tests have been pronounced the genuine article.

Mr. Roundy says an authority on such matters has stated that the Bull Valley company's claims contain one of the best onyx deposits in the United States; that the product equals in every respect the onyx of Mexico.

Immediately upon his arrival in camp Mr. Roundy, who is serving the Bull Valley company in the capacity of manager, intends to put on a force of men and inaugurate a vigorous campaign of development. Sometime next month a representative of an eastern syndicate is expected to make an inspection of the property with a view to purchase.

BUTLER LIBERAL ASSAYS.

Two Feet of Vein Show High Grade Lead Values.

Walter C. Orem, manager of the properties operated by the Butler-Liberal Mining company at Bingham, has returned from a trip of inspection and says the strike made recently in the main tunnel continues to improve as development progresses. An average sample, taken across two feet of the vein, shows values of eight ounces in silver and 60 per cent lead.

Mr. Orem says he has every reason to believe that the Butler-Liberal is going to turn out all right; thus concurring in every particular the opinion maintained by former Manager A. L. Jacobs.

ANNIE LAURIE IMPROVEMENTS.

New Machine Shop a Complete Affair —Signal Peak Conditions.

The new machine shop of the Annie Laurie company for equipment surpasses most shops in this state, especially those located at mining properties, says the Gold Mountain Nugget. The main building is 75 feet in length by 35 wide. One-half of this space has an upper deck, on which is located the carpenter shop. At the east end of the main building is a room 35 feet square, in which is located the blacksmith shop, boiler and sheet iron departments.

Master Mechanic Shaw is turning out work which has always heretofore been sent to Salt Lake, and by his perfect working system every job is turned out on railroad time. He is working 12 men who are all experts in their respective lines. With this force and the splendid shop equipment he can make anything but a railroad locomotive or a battleship, and the boys would probably try them should necessity require it.

A force of men is kept working seven days a week and several nights each week. They are kept busy until near midnight.

Last Saturday two cars for the tram were finished. Each car is a perfect piece of workmanship and has a capacity of two and a half tons of ore. Each car is fitted with an automatic dump and the wheels run on roller bearings. Every piece of the cars, inclusive of the beaming, was manufactured in the local shop. The turning lathes, well, in fact all the machinery in the ship is run by electric power or compressed air.

The Signal Peak, from present indications, is one of the most promising properties in this district. To start with, the site and tunnel are almost perfect, from a mining standpoint, and the management is making each dollar put into the property do the most good possible in development work.

The tunnel cut the first vein at 500 feet. This vein is about eight feet wide and of sufficient value to pay whenever a mill is erected on the property. The tunnel is at present in about 975 feet, and is passing through the same formation that was encountered 50 feet before the first vein was struck. The present formation makes Manager Nelson, as well as others, who have inspected the property, believe that the main ledge is probably within 50 feet and not more than 100 feet distant from the present face of the tunnel. The main ledge will be cut at a depth of 600 feet, and the croppings indicate that it will be as rich as any in the district.

Three men are at present employed, and another shift will probably be put on as soon as spring opens up.

RHEUMATISM

MUNYON'S Rheumatism Cure relieves pains in legs, arms, back, stiff or swollen joints in a few hours. Positively cures in a few days. Contains no morphine or drug to deaden the pain, but neutralizes the acid and drives out all rheumatic poison from the system. MUNYON.

NEVADA STOCKS.

Tonopah Belmont, 6.00 at 6.50; Cash Boy, 18 at 20; Golden Anchor, 1.35 at 1.40; Home Tonopah, 24 at 25; Jim Butler, 1.82 at 1.85; MacNamara, 75 at 80; Tonopah Midway, 2.35 at 2.40; Montana Tonopah, 2.97½ at 3.00; Tonopah Extension, 12.25; Tonopah (Com.), 18.00 at 18.37½; West End, 2.85 at 3.00; Adams, 11 at 11; Atlanta, 23 at 25; Blue Bell, 13 at 14; Columbia Mountain, 23 at 25; Conqueror, 18 at 20; Diamondfield, 43 at 44; Dixie, 12 at 14; Goldfield, 64 at 65; Jumbo, 1.50 at 1.52½; Jumbo Extension, 23 at 24; Kendall, 85; Laguna, 17 at 18; May Queen, 28 at 30; Mohawk, 56; Red Top, 1.82½ at 1.95; Sandstorm, 1.35 at 1.40; Silver Pick, 26 at 28; St. Ives, 30 at 31; National Bank, 37 at 38; Denver, 1.90; Eclipse, 1.20 at 1.25; Gold Bar, 1.20 at 1.45; Orig. Bullfrog, 22 at 23; Steinway, 34; Montgomery Mtn., 53 at 55; Great Bend Ext., 17 at 18; Golden Crown, 45 at 47; Tramp, 1.20; Crescent, 30 at 32; Con Virginia, 1.35 at 1.40; Ophir, 3; Caledonia, 37 at 40; Norcross, 1.25.

CONCENTRATES.

The Beck Tunnel dividend of $15,000 is being sent out to shareholders today.

R. E. McConaughy departed this afternoon on the Overland limited for Nebraska.

Foreman Getsch of the Odin properties at Park City is down from camp for a few days.

Superintendent L. C. Doty of the Bullion Beck & Champion Mining company is in from Tintic.

Development work has been suspended at the Trapper's Pride property in the Gold Mountain district.

A car of ore is enroute from the property of the Chiquita Mining company's property at Good Springs, Nevada.

Rails have been laid to a point six miles beyond Indian Springs on the Bullfrog branch of the Salt Lake Route.

Manager S. M. Levy of the Annie Laurie mine in the Gold Mountain district is expected to arrive at camp tonight.

George A. Black, one of the directors of the Montgomery Shoshone Mining company, has returned from a trip to Nevada.

The management of the Signet Mining company of American Fork canyon has let a contract to extend the tunnel another 100 feet.

Manager Doolittle of the Utah & Eastern Copper company departed from the properties of that corporation in Washington county last night.

P. W. Madsen, manager of the Century Gold Mining company's properties in the Park Valley mining district, departed for camp today on one of his regular inspection trips.

The ore and bullion settlements reported late yesterday by McCornick & company were, as follows: Crude ore and concentrates, $27,500; base bullion, $22,000; gold bullion, $6,100.

The directors of the Century Gold Mining company have called on shareholders for an assessment of 2 cents a share, which calls for $3,000. The delinquent sale date is April 15.

Final payment has been made by the Fortuna Mining company for the Yukon and Abe Lincoln patented mining claims in the camp of Bingham. Solomon Brisacher was the vendor.

H. A. Prosser, metallurgical director of the United States Smelting, Refining & Milling company, after an inspection of the local plants of that corporation took his departure for the east last night.

The sinking of the winze below the 2,100 level of the Mammoth mine in the Tintic district is progressing favorably and the management anticipates some very gratifying results from this work.

The sensational ore body on the Great Bend in Diamondfield gets richer and larger as depth is attained. Assays made from picked samples brought into town give values of $30,000 a ton. The property is visited daily by scores.—Tonopah Miner.

A Boston paper says of the recent United States Smelting, Refining & Mining company's election: William G. Sharp, of New York, was elected president, a director and also a member of the executive committee, which now consists of W. G. Sharp, A. F. Holden, W. H. Coolidge, R. D. Evans, J. J. Storrow, N. W. Rice and S. W. Winslow.

The Silver Crown Mining company filed its articles of incorporation with the county clerk yesterday. The company is incorporated for 600,000 in 1 shares and will develop claims in the Beaved Lake mining district. The officers are: Ezra E. Howard, president; J. W. Gardner, vice president; W. F. Sein, secretary; J. M. Reynolds, treasurer and I. V. Howard, director.

The ore shipments over the Tonopah railroad for the week ending last Thursday night, as reported by the Western Ore Purchasing company aggregated 3,084 tons, divided as follows: from Tonopah—Tonopah company, 1,706 tons; Tonopah Extension company, 600 tons; Belmont, 188 tons; Montana-Tonopah, 142 tons; Midway, 138 tons; West End, 47 tons; Jim Butler, 31 tons. From Goldfield, 145 tons. From Manhattan, 87 tons.

Plans are now being perfected to carry on development work on the Blue Bull group of claims on a larger scale than ever before. The newly elected management, of which George Wingfield is manager and treasurer, has somewhat reorganized the finances to the extent of issuing 500,000 shares more of the company's stock, thus raising the original capital of the company to 1,500,000 shares.—Goldfield Sun.

To draw the fire out of a burn, heal a cut without leaving a scar, or to cure boils, sores, tetter, eczema and all skin and scalp diseases, use De Witt's Witch Hazel Salve. A specific for piles. Get the genuine. No remedy causes such speedy relief. Ask for DeWitt's—the genuine.—Sold by F. C. Schramm, druggist; where the cars stop.

STOCKS WEAK AND UNCERTAIN.

Changes Were Quite Small and Just About Evenly Divided.

A RISE AND THEN A PLUNGE.

Prices Got up Again a Little Bit and Then Down They Went.

New York, March 20.—Opening prices on the stock market today varied only slightly from those of last night and changes were quite evenly divided between gains and losses. After about a dozen of the important stocks had risen a point or more, the market turned downwards and much of the rise was wiped out. Duluth, South Shore and Atlantic preferred improved 2½, Lead 1¾, L. & N., People's Gas, Locomotive and Colorado Fuel 1¼ to 1½, and St. Paul, Reading, Amalgamated Copper, Smelting and Consolidated Gas 1 to 1¼. Great Northern preferred fell 1½ and Duluth, South Shore and Atlantic 1.

Prices got up again in the second hour with the principal advances in stocks which were weak yesterday. The demand died out again on the rise. Minneapolis, St. Paul and Sault Ste Marie rose 4½, Great Northern preferred 2, Northern Pacific 1¾, Amalgamated Copper 1⅝, Anaconda 4 and Southern Pacific, Canadian Pacific, Missouri Pacific, Wabash preferred, Brooklyn Transit, International Paper, Central Leather and Ice 1.

There was not much change to prices outside of the Northwestern group and a few others. Business continued very small and quite generally limited to the more popular speculative stocks. Minneapolis, St. Paul and Sault Ste Marie extended its advance to 8 points, Great Northern preferred 3, L. & N. 2, Reading 1½ and Union Pacific and Atchison 1. Tennessee Coal yielded 1½. The market remained excessively narrow during the greater part of the afternoon but showed some further improvement in spots. Reading, Amalgamated Copper and Consolidated Gas got up 2 points and Ontario and Western 1.

Bonds were steady.

LIVESTOCK.

CHICAGO.

Chicago, March 20.—Cattle—Receipts, 4,500; market steady. Beeves, 3.90@6.25; cows and heifers, 1.85@5.00; stockers and feeders, 2.70@4.80; Texans, 3.75@4.80.

Hogs—Receipts, 20,000; market 5 cents higher; estimated tomorrow, 30,000. Mixed and butchers, 6.15@6.42½; good heavy, 6.35@6.45; rough heavy, 6.15@6.35; lights, 6.10@6.40; pigs, 5.95@6.25; bulk of sales, 6.30@6.40.

Sheep—Receipts, 16,000; market steady. Sheep, 3.75@6.10; lambs, 4.50@6.50.

OMAHA.

Omaha, March 20.—Cattle—Receipts, 7,500; market slow to 10 cents lower. Native steers, 4.00@5.50; cows and heifers, 3.00@4.50; canners, 1.75@2.85; stockers and feeders, 3.00@4.60; calves, 3.00@6.50; bulls and stags, 2.75@4.00.

Sheep—Receipts, 15,000; market 10 cents lower. Yearlings, 5.20@5.70; wethers, 5.10@5.50; ewes, 4.50@5.20; lambs, 6.00@6.40.

KANSAS CITY.

Kansas City, March 20.—Cattle — Receipts, 10,000; market steady. Native steers, 4.10@5.80; native cows and heifers, 2.25@5.20; stockers and feeders, 2.75@4.50; bulls, 3.00@4.25; calves, 3.00@7.00; western fed steers, 3.75@5.50; western fed cows, 2.50@4.50.

Hogs—Receipts, 11,000; market strong to 5 cents higher. Bulk of sales, 6.10@6.25; heavy, 6.20@6.30; packers, 6.10@6.25; pigs and lights, 5.90@6.20.

Sheep—Receipts, 6,000; market weak. Muttons, 4.50@5.80; lambs, 5.50@6.50; range wethers, 5.40@5.85; fed ewes, 4.25@5.15.

WOOL.

ST. LOUIS.

St. Louis, March 20.—Wool, steady. Territory and western mediums, 22@29; fine medium, 21@25; fine, 18@21.

BOSTON.

Boston, March 20.—The wool market is in a strong position. Purchases are made whenever possible and no questions are asked over prices. Domestic wools are limited in stock. A feature in territory wools has been the transfer of one million pounds of medium in the grease at a cost reported to be around 27 cents, to Philadelphia houses.

LONDON.

London, March 19.—The offerings at the wool auction sales today amounted to 14,395 bales. Competition was animated at hardening rates, especially for lower grades. Cross-breds were in large supply and met with a good demand. Americans buying suitable parcels at an advance of 15 per cent over the January averages. A fine selection of New Zealand half-bred combings brought out eager competition. Cape of Good Hope and Natal grades were active. The withdrawals to date amount to 1,000 bales.

PRODUCE.

CHICAGO.

Chicago, March 20.—The wheat market opened easy today with pit traders inclined to be bearish because of favorable weather in the southwest for the crop. The principal sellers were commission houses and local traders. Increased stocks of wheat at Minneapolis also favored the lower prices. May wheat opened unchanged to ¼ lower at 75⅝@75¾ to 75⅞ and declined to 75⅛.

The corn market was firm on active demand for cash corn by commission houses. There was considerable changing from the May option to July. May corn opened unchanged to ⅛ higher at 44@44⅛ to 44⅜, advanced to 44⅝@44⅝ and declined to 44⅛.

The oats market was steady on a fair demand by commission houses. Trading in general, however, was very light. The May option opened unchanged at 30⅛ and advanced to 30¼.

The provisions market was firm chiefly because of a 5-cent advance in the price of live hogs. The principal buyers were commission houses and pit traders but offerings were very light. May pork opened 5 cents higher at 16.25; lard was unchanged to 2½ cents higher at 8.17½@8.20; ribs advanced 2½ cents to 8.67½.

Cash: Wheat—No. 2, red, 84@85; No. 3 red, 82@84; No. 2 hard, 78@81; No. 3 hard, 74@79; No. 1 northern, 79@82; No. 2, 76@82; No. 3 spring, 74@81.

Corn—No. 2, 42¾; No. 3, 42¼@42½.

Oats—No. 2, 30; No. 3, 29½.

NEW YORK.
