AMERICAN.

ST. LOUIS, 8.—Another daring railroad robbery took place in Western Missouri last night. The eastward bound train on the Missouri Pacific road left Otterville, Mo., at two minutes past 10 o'clock last night, and when two and a half miles east of that place, and in a deep cut, the engineer saw a signal light to stop; thinking there was some obstruction, he applied the air brake, and after running a few yards discovered a pile of ties and lumber on the track, but could not stop the train until the locomotive had climbed partly upon this pile and then the train came to a stand. At the same instant twelve or fifteen men appeared, and with loud yells and discharging pistols, dashed at the train and proclaimed their intention; two jumped on the engine, and with navy revolvers covered the engineer and fireman, and threatened to kill them if they offered resistance.

Bushnell, the messenger, was forced to give up the keys of the safe, and the robbers opened Adams' safe and put the entire contents in a sack they had brought for the purpose. Not being able to open the other safe with the keys they got from Bushnell, one man went to the engine and got a pick, and with this broke in the panels of the safe, and its contents also put in the sack. The robbers also went to Adams' Express freight car, but found nothing there that seemed to be worth their notice.

While these acts were being performed the remainder of the robbers were making the night hideous by marching up and down the outside of the train yelling like devils, and firing off pistols; in this way the passengers were completely terrified, and not the least show of resistance was made by them.

When their work was done, they left the scene of their daring exploit and departed in a southerly direction.

It is understood that a party started in pursuit, and at last accounts were only ten miles behind them.

So far as can be learned, Adams' Express Company loses some \$4,000 and the United States Express Co. about \$12,000; but these amounts may prove too small.

AUGUSTA, Me., 9.—Governor Connor has notified the Speaker of the House of Representatives at Washington, by telegraph, that he has appointed James G. Blaine, Senator in Congress, and that Mr. Blaine has placed in his hands his resignation as representative from the third congressional district.

Blaine's health shows no special change, though possibly not quite so well for a day or two past. His physician wishes to have him removed to the sea shore as soon as practicable. Blaine rejects the suggestion of a European tour.

SIoux CITY, Iowa, 10.—The citizens of this place held a meeting yesterday, and gave expression to their feeling in regard to the late disaster to the troops in the Indian country, resulting in the massacre of Custer and his command. Resolutions were passed and a message, signed by the chairman of the committee and sent to the Secretary of War, tendering a regiment of 1,000 men, with horses and equipments, and a transportation train, to be ready for service within ten days after the acceptance by the Government.

The Indians on the Upper Missouri are becoming very uneasy, and many are leaving the reservation. A general outbreak at the agencies is expected.

WASHINGTON, 10.—Of the numerous persons prostrated by heat yesterday, six have died. The thermometer registered 103 in the shade. The weather continues very hot and oppressive.

The Secretary of War has received a large number of dispatches from the west offering volunteers for the Indian war, but there is no law which will admit of these offers being entertained. Up to noon no official reports from the Indian country had reached the War Department.

Great excitement was caused this afternoon by the report that Gen. Crook's command had again met the Indians, and that Crook had been killed. Up to two p.m. nothing had been heard at the headquarters of the army to confirm the report. It was believed to be without foundation.

The House passed the bill to con-

tinue the provisions of the act to provide for the temporary expenditures of the Government for the period of ten days from to-day.

The Senate considered the same and passed it without amendment. CHICAGO, 10.—The propeller *St. Clair*, Captain Rhyness, of Ward's line, left Ontonagon for Houghton, Mich., having on board eighteen passengers and a crew of fifteen, and when fifteen miles out the boat took fire, and in a short time was enveloped in flames. One boat was launched, and a rush was made for the yawl, which was swamped, and all but one of the passengers, sixteen in number, perished, together with ten of the crew.

OMAHA, Neb. 10.—The *Herald's* special from Nebraska City says: This morning a party of masked men overpowered the guards, entered the jail and assassinated Hank Dodge, who was to be executed on July 21st.

MILWAUKEE, Wis., 10.—Judge Dyer, of the United States Circuit Court, to-day pronounced sentences in the whiskey cases as follows: Samuel, Elias and Jacob Rindskopf, rectifiers, each one day's imprisonment in the county jail and a fine of \$1,000; Leopold Worth, distiller, six months' imprisonment and a fine of \$1,000; R. Schoenfeld, distiller, five months' imprisonment and a fine of \$1,000; Wm. Bergenthal and Charles Grouseach, four months' imprisonment and a fine of \$1,000; Charles Hind, distiller, three months' imprisonment and a fine of \$200.

The propeller *St. Clair* was burned on Lake Superior, and twenty-seven lives were lost. No particulars.

PITTSBURG, 8.—About 11 o'clock this morning fire broke out at the American Oil Works of Holdship & Irwin, located on the Alleghany river, 18th Ward. The fire spread with frightful rapidity, and at 2:30 p. m. five small tanks were all burning fiercely. It is thought the fire can be confined to the tanks now burning. A large force of men are engaged digging trenches to protect the adjoining property in case the tanks explode.

FOREIGN.

HAVANA, 6. General Santa Anna died on the 20th of June, 84 years of age.

Don Carlos, while here, was banqueting, and it is said lost a hundred thousand dollars at monte.

BERLIN, 7.—Much importance is attached to the fact that the Roman Catholics of Bosnia have protested against the annexation of that province to Servia.

PARIS, 7.—An official telegraphic dispatch received at Belgrade, announces that after ten hours desperate fighting, at Rachka, the Turks have fled to Novibalar. The Servians occupied the territory between Rachka and Novibalar. The Servian loss was inconsiderable.

The army, under General Zack, crossed the frontier near Yavar on Thursday. They found the Turks entrenched in a very favorable position, and were unable to dislodge them after five hours severe fighting.

BERNE, 7.—A passenger train from this city for Lausanne, came in collision to-day at Palezieux with another coming from Lausanne, and both engines were destroyed, several cars demolished and ten persons killed.

BELGRADE, 7.—The insurrection in Bulgaria is reported to have become general. The Servian troops have captured Saguera, on the Drina. Other Turkish reverses are reported.

The Australasian Mission.—Letters from the brethren now on this Mission, received by this month's mail, report them to be diligently applying themselves in disseminating the Gospel principles to the people in that land, but money-making is apparently the only thought of the latter, religion being a subject which gives them no concern whatever. They are, therefore, generally speaking, not much disposed to give ear to the message delivered by the servants of the Lord.

Views of Utah would be very acceptable to the brethren now there, should any of their relatives be disposed to forward them. Brother C. R. Savage has very kindly given quite a number for this purpose. Many of the people in that part of the globe know nothing of Utah, and those who have heard anything about it have strange and erroneous ideas in regard to it. A

varied selection of views of this country would tend to give them a good idea as to its general appearance, etc.

In the 16th Ward of this city, July 6th, MARGARET, wife of Robert Parry.

Deceased was born at Newmarket, Flintshire, North Wales, in October, 1891; emigrated to Utah in the spring of 1899; died as she lived, a faithful Latter-day Saint.—COM.

Millennial Star, please copy.

Magic of the Mouth.

Odoriferous SOZODONT renders the mouth enchanting, composed of rare, antiseptic herbs, it imparts whiteness to the teeth, a delicious flower-like aroma to the breath, and preserves intact, from youth to age, the teeth.

SAFELY and Certainly that great external remedy, Glenn's Sulphur Soap, removes cutaneous eruptions by opening the pores whose obstruction was the cause of the difficulty. Test and you will endorse it.

The following is the result of a scientific examination by Drs. Jackson and Hayes, both of Boston, of a sample of Duryeas Improved Corn Starch:

RESULTS OF A CHEMICAL AND MICROSCOPICAL EXAMINATION OF SAMPLES OF DURYEAS' IMPROVED CORN STARCH AS FOUND IN THE MARKET.—A large number of observations proved this sample to be composed wholly of the amylaceous part of the most delicate variety of Maize, in fine, well marked granules. These differ in chemical and optical characters from all other samples found in the market.—Sp. gr. 1.481.

REPORT BY DR. LANKESTER.—This is to certify that I have examined microscopically and chemically several specimens of Duryeas' Improved Corn Starch, purchased in London, and I am able to say that it consists entirely of the farina of the Maize or Indian Corn, and that it is remarkably uniform in its quality and character, and free from all impurities. This preparation possesses in a high degree the dietary qualities of the best kind of food, and I attribute its excellence to the fact of its being exclusively prepared from the Maize grown in America. I can confidently recommend this preparation as an article of diet for invalids or children.

EDWIN LANKESTER, M. D.

Supt. of the Food Collection, S. Kensington. 8 Saville Row, W. London, Eng., March 11, 1863.
