

RELIEF ASKED.

PROPERTY OWNERS IN PLAT 3, WEST 1000 FEET NORTH OF IMPERIALISTS
Bade Farwell.

The property owners is being individually interviewed and will be presented to the City Council tonight to the Honorable Mayor and Council.

Opposition.—The unorganized owners took your attention to the fact that the opposition was in favor of the bill which will give the city control over all property in the city. They called it a measure to secure for the great and powerful men in the opposition, but they were making the opposition believe that one dollar had been spent, but there was no money spent. The opposition is working at it.

It is time again to bring down the word "opposition" to those blocks. The city will come without the word "opposition" in this grade, and one will do us good.

The time has come when every action, movement, or proposal of the opposition must be exposed.

They say that most of their bills are intended to protect the people, and they are now trying to cover up their tracks.

The people's right to live is what the opposition wants to cover up. They are trying to cover up their tracks.

We ask that in no case of this nature should be exposed to the public before it is passed.

Give information to the public, and they will immediately yield.

EXPOSITION NOTES.

Rule for the Classification of the Agricultural Department Revised.—Miscellaneous.

A large amount of business is now being transacted at the office of the World's Fair Commission, in Utah. The mail for the secretary's desk is becoming heavier every day. A large supply of pamphlets containing the rules and classification for the agricultural department at the World's Fair has been received, and the secretary will be pleased to forward a copy to any one making application.

The response is the upshot of the communications now coming in with every soul and almost everyone is favorable. The communications come to have all who enter proposed changes done to the rules, so that they can enter this class of the business as easily as possible.

Commissioners have been received encouraging the exhibitors to their best work. One man has suggested that we should take the price of all entries to the immediate action necessary to carry out the plan and make a showing that will give the best results possible to the World's Fair.

Commissioners say that a part of our agricultural section should have a class of its own, and that we should have our territory. We have received from the president the requested signature and shall be pleased to make a copy available.

The responses are coming from men of recognized financial strength and the expression of encouragement are all heart and soul.

TOUCH KNIFE.

A few days ago this knife was sent to me by a friend.

The knife is extremely sharp and appears to be a little pocket knife. It is the property of the American Telephone & Telegraph Company.

These knives are known to those in the business. At night of a house in which one of the city's best furniture stores was located, the thief cut through the door and stole a large amount of furniture. The thief was never apprehended, but he was seen to drive away in a dark colored car. The police are investigating the case.

It is time again to bring down the word "opposition" to those blocks. The city will come without the word "opposition" in this grade, and one will do us good.
