

COMMANDER PEARY MAKES A RECORD

Did Not Reach North Pole But He
Went Nearer Than Any-
body Has.

GOT TO 87 DEGREES. 6 MIN.

Secy. Bridgman of Peary Arctic Club
Thinks Feat Subject of Na-
tional Rejoicing.

New York, Nov. 2.—The United States now holds the record of "farthest north," 87 degrees, 6 minutes. This feat was accomplished by Commander Robert E. Peary, of the United States navy. The intrepid Arctic explorer failed to reach the north pole, as he had confidently hoped to do with his specially constructed vessel, the Roosevelt, but he penetrated nearer to the pole than the Duke of Abruzzi's expedition, which held the record, 86 degrees, 54 minutes. What Commander Peary did and his experiences during the past year in the frozen north are rather briefly but certainly vividly summarized in a communication received tonight by Herbert L. Bridgman, secretary of the Peary Arctic Club. This communication follows:

"Hopedale, Labrador, via Twillingate, N. F., Nov. 2.—Herbert L. Bridgman: Roosevelt wintered north coast Greenland, somewhat north of Alert winter quarters. Went north with sledges February via Hecla and Columbia. Delayed by open water between 84 and 85 degrees. Beyond 85 degrees ice disrupted, ice, destroyed cache, and communication with supporting bodies and drifted east. Reached 87 degrees, 6 minutes, north latitude over ice, drifting steadily eastward. Returning, ate eight dogs. Drifted eastward, delayed by open water, reached north coast Greenland in straitened conditions. Killed musk oxen and returned along Greenland coast to ship. Two supporting parties driven on north coast Greenland. One rescued by me in starving condition. After one week recuperation on Roosevelt sledged west, completing north coast Greenland and reached other land, near 100th meridian. Homeward voyage incessant battle with ice, storms and headwinds. Roosevelt magnificent ice fighter and sea boat. No deaths or illness during expedition.

After furnishing to the Associated Press the contents of Commander Peary's report, Mr. Bridgman said that the receipt of any news from the explorer now was quite a surprise to him, because he had supposed it had become too late in the season for Commander Peary to send news of his venture. Mr. Bridgman added that since the message spoke for itself, and that since he did not know more of the results of Commander Peary's effort to reach the pole than the public did, he could hardly comment upon the dispatch. There was little doubt, however, he said, that Commander Peary was coming home. This seems to be borne out by the routing of the dispatch. Hopedale, or Hoffenthal, is a Moravian mission station on the east coast of Labrador. Twillingate is a port on the east coast of Newfoundland. Mr. Bridgman said the message was probably mailed by Commander Peary from Hopedale to the most accessible cable point.

NATION SHOULD REJOICE.

New York, Nov. 3.—Although Commander Robert E. Peary, who was heard from last night after his long sojourn in the frozen north, failed to reach the North Pole, Secy. Herbert L. Bridgman of the Peary Arctic club believes that his feat in reaching further north than any other explorer (Gould).

The north ought to be a subject for national rejoicing. Mr. Bridgman, who received the message from Commander Peary announcing the latter's return to civilization, telephoned the news of Peary's safety to Mrs. Peary, who happened to be in the city.

"Thank God he is safe," was her first comment and then she piled Mr. Bridgman with questions regarding the details of the news he had received from her husband.

Mr. Bridgman told her that her husband

A Kentucky Woman

TELLS HOW DR. WILLIAMS' PINK PILLS RESTORED HER HEALTH.

How She Gained Fifteen Pounds in Weight and Became Well for the First Time in Two Years.

Women of forty, or thereabouts, have their future in their own hands. There will be a change for the better or worse, for the better if the system is purified by such a tonic as Dr. Williams' Pink Pills. Mrs. D. C. Weddington, of Hartford, Ky., writes as follows concerning the difficulties which afflicted her:

"I was seriously ill and was confined to my bed for six or eight months in all, during two years. I had chills, fever, rheumatism. My stomach seemed always too full, my kidneys did not act freely, my liver was inactive, my heart beat was very weak and I had dizziness or swimming in my head and nervous troubles. "I was under the treatment of several different physicians but they all failed to do me any good. After suffering for two years I learned from Dr. Williams' Pink Pills and I decided that I would try them. The very first box I took made me feel better and when I had taken four boxes more I was entirely well, weighed fifteen pounds more than when I began, resumed my household duties, being able to do my part, the best of health. I have recommended Dr. Williams' Pink Pills to many people on account of what they did for me, and I am sure that I cannot praise them too strongly."

Dr. Williams' Pink Pills restored Mrs. Weddington to health because they actually make new blood and then the blood is in full vigor every molecule of the body is restored, because the blood carries to every organ, every muscle, every nerve, the nourishment necessary to enable it to do its part. Because Dr. Williams' Pink Pills make the blood rich and red they restore lost weight, strengthen and vitalize the nerves, bring relief to the rheumatic, banish rheumatic pains and bring good health and spirits to the depressed. Any woman who is interested in the blood, and who wishes to see our book, "Plain Talks to Women," which is free on request.

band, while he had failed to reach the pole because of drifting ice, had now the distinction of having gone further north, having reached 87 degrees, 6 minutes, north latitude, than any other explorer.

"I am very glad my husband is coming home so soon and that he has been so successful," Mrs. Peary said.

In discussing Peary's dash into the night, after he had had time to study the commander's message, Mr. Bridgman said:

"Commander Peary's achievement ought to be a subject for national rejoicing, for I am sure it has been the ambition of every true American to see the Stars and Stripes first at the Arctic pole. And that it should be an American to reach the furthest north is but little less gratifying."

"Peary started out with the determination to reach the pole at all hazards, and it is certain that only the impossible prevented that."

"It is evident Peary has had the same experience of setting on drifting ice and being carried away from his goal that other explorers have had. Probably no other man living would have got off so well as Peary has. He found himself on ice that had broken up by a storm and was taking him in a contrary direction. It is likely that he and his party went to the limit of human endurance before they gave up, as instance the eating of the dogs. Without doubt the explorer is now on his way home and when he reaches here he will wear a wonderful story."

"Will Peary ever make the attempt again?"

"I do not know. Although it was said by the newspapers when he sailed that he failed this time he would never try again, he never told me that, and I was quite close to him. The commander will undoubtedly bring back with him a wealth of scientific and geographical matter. I consider that one of the wonderful features of this expedition is the fact that the Roosevelt is coming home with the entire party, despite the hardships they have experienced."

"Peary probably reached within 200 miles of the north pole. He passed the D'Abuzzi party by about 30 miles. This was Peary's fifth attempt to reach the pole. Other sledge journeys were made in the years 1892, 1895, 1900 and 1902."

New York, Nov. 3.—Mrs. Florence Maybrick, in an address to the New York Equal Suffrage league yesterday, asked that organization to request Andrew Carnegie to supply books for prison libraries in this country. O'Brien, Daniel H. Coleman, Joseph Cavanaugh and Michael J. Barry. These were a great many men who made affidavits stating that they had voted for Nagle when Cowan disputed his election. Asst. Dist. Atty. Hart said tonight:

"We investigated 107 of those affidavits and found that only 38 were genuine. Many men whose names were signed to affidavits said they had not signed the papers at all. They claimed that their signatures were forgeries."

REGISTRATION FRAUDS.

Eight Thousand Names Found to be Duplicated in Los Angeles.

Los Angeles, Cal., Nov. 2.—The county grand jury is engaged today in investigating the immense registration frauds that have been uncovered in this city. Over 8,000 registered names were found by comparison with the great register, either to be duplicated or entirely fraudulent. Twenty-three deputy county clerks, who were employed in the field during the summer as registration clerks, have been subpoenaed before the grand jury to tell what they know of the matter. The men received two cents per name for registration.

FRANCE WILL DEPOSE THE KING OF ANNAM.

Paris, Nov. 2.—M. Milles-Lacroix, minister of the colonies, has decided to summon the Annam state council and depose King Thanh-That.

A dispatch from Marseilles Oct. 17 said that Thanh-That had been adjudged insane and that the French authorities had ordered seven of his wives to be executed and looked on with delight while they were slowly tortured to death. After killing one of his wives, he had the body cooked and served for dinner, forcing the members of his court, by threats of death in case of refusal, to eat it. Some of the king's wives were bound with boiling oil and subjected to other tortures, and naked women were thrown into the cages of wild animals, where they were devoured in the presence of the king.

When Thanh-That was made prisoner by the French authorities they released the terror-stricken inmates of the palace.

BOY ARRESTED FOR FORGERY.

New York, Nov. 3.—Louis Greengberg, 12 years old, is under arrest here charged with forgery. He will be retained in the children's court today. Greengberg cashed the check, which was for \$19.12, and the family butcher, Isadore Shulock, 10 years of age, a schoolmate of his, under arrest, charged with petit larceny. Shulock, it is alleged, stole a bank check and gave it to Greengberg.

The police say Greengberg is the youngest forger ever arrested here.

It Should Work Both Ways.

Things were getting worse and worse at Haas House. The poor clerk was in despair. He worked hard, he needed sustaining food and yet— Monday, when he asked for apple pie, it was out. There were duck and hush on the menu Tuesday. He ordered duck, but there was none. On Wednesday he couldn't get any potatoes. They were out. Thursday morning, coming down late, no steak. Out. When he got his week's bill on Friday, the clerk did not, as usual, pay it in the landlady's office. He took it in to dinner with him.

And, before all the boarders, he handed the landlady the bill and he said: "My week's board," he said.

"But," said she, "this is only \$4 you have given me. Your board is \$6, isn't it?"

"Yes," he explained calmly, "but four is all I've got. My money, you see, is out."

NEW GOVERNOR OF CUBA.

Charles E. Macgon, who was selected as provisional governor for Cuba after a great deal of deliberation, made a very good record as chief executive of the canal zone. It was on account of

this record and of his acquaintance with Spanish-American countries that Mr. Macgon was chosen. He is a native of Minnesota and has been a long practitioner at the Nebraska bar.

DEMANDING FIVE CENT FARE.

M. I. A. Program—Winder Ward Musical Drama—News Notes.

Representatives of the Utah Light & Railway company met with the city council Tuesday night to learn if their franchise had been granted, or, if not, upon what terms the city fathers will meet them, but were disappointed to learn little had been done. They left with information that they would be notified when the committee is ready to report. There were also present a number of citizens expecting something would develop in the matter.

The Murray Business & Promoting association held a meeting the same night, appointing a committee consisting of J. P. Cahoon, J. H. Stratton, Joseph Cahoon, D. A. McMillan and F. C. Howe to meet with the franchise committee to see that every precaution is taken in the city's interest. The sentiment of the committee and the people generally is for a 5-cent fare with transfer privileges. Some prominent business men also maintain that no franchise should be granted unless the city is assured that the franchise will be constructed within a reasonable time on the streets upon which franchises are given, and that cars will be operated on scheduled time that will meet the demands of the people. This, it is believed, will also meet the approval of the public. Other companies may apply for franchises if there are no hindrances.

Relative to this matter a special meeting has been called for Monday night in which a committee of the city council and of the Murray Business & Promoting association will meet. The application of the company will be gone over word for word.

THE CHIEF OF STAFF.

Brigadier General J. Franklin Bell, the new chief of staff of the United States army, who has been one of the prominent figures in the American occupation of Cuba, might have been a

major general had he not chosen unanimously to permit his friend, General Jesse M. Lee, to receive the honor. The latter will be retired for age in January, and Bell stepped aside.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. The mucous lining of the Eustachian tube. When this tube is inflamed, it swells and shuts off the hearing. It is entirely out of the hearing, and when it is entirely out of the hearing, it is entirely out of the hearing. Deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, the hearing will be destroyed forever. The cause of deafness is caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circular free.
