### LOCAL NEWS.

**Walker Opera House.**—For Monday and Tuesday next September 29th and 30th, Madam Papenheim, the greatest dramatic soprano, Mr. Yunck, the famous tenor and violinist, M'dlle. Kirchner, the distinguished mezzo soprano and Mr. Werrenroth, the eminent tenor baritone, have been engaged to appear at this popular place of amusement. The box office will be open Friday and Saturday for the sale of tickets.

**Five Years Each.**—Watterson and Cowley, the two men who were arrested some time ago, charged with stealing goods from the freight cars of the D. & R. G. Western Railway, during the washouts at Green River last spring, have been sentenced on three indictments found against them by the grand jury of the First District, at Provo. Judge Emerson suspended sentence on the fourth indictment. On the others, to which the defendants pleaded guilty, they each got five years in the penitentiary.

**Died in a Fit.**—A boy named John Brewer, aged 11 years, who has been an inmate for two or three months of the Home for the County Poor, kept by Walter E. Wilcox in the Sixteenth Ward, was found dead this morning in his bed, having, it is supposed, smothered himself in a fit. He was subject to fits, having had them very frequently, and would sometimes scream out as if frightened, and at other times would remain silent, while subject to their influence.

When found this morning, he was lying on his face in bed, and was supposed to be sleeping, but it was soon learned that he was dead. It is supposed he took a fit, one of his silent ones, as no noise was heard in the night by the other inmates of the house, and smothered himself by lying on his face. His father is at Kelton. An inquest may be held on his arrival here, he having been sent for. The deceased is thought to have died about midnight.

**A Startling Development.**—The Batton & Boyan fires of recent occurrence are being investigated by Messrs. Naunton and Rule, representing the companies in which that firm were insured to the aggregate extent of $14,000. The insurance companies, with the several amounts to which they are interested, are as follows:

| | |
|---|---|
| The City of London | $ 1,500. |
| Guardian | 1,500. |
| Phœnix, of London | 2,000. |
| Allemania | 2,000. |
| London & Lancashire | 1,000. |
| Manufacturers | 1,500. |
| Phœnix, of Brooklyn | 2,000. |
| Traders, of Chicago | 1,500. |
| Total | $14,000. |

The adjusters, we understand, have decided that the fires were "dishonest," that they were started by the proprietors themselves for the purpose of recovering the insurance, and they will therefore not recommend the payment of a single dollar by their companies.

## CITY COUNCIL.

Proceedings of the City Council, Tuesday evening, Sept. 23rd, 1884, Mayor Sharp presiding:

A communication was presented signed by J. T. Gilmer, Wm. Fuller, D. F. Walker, J. B. Benedict, Jacob Moritz, A. M. Musser, B. G. Raybould, W. A. Rossiter, H. W. Morse, D. McKenzie, H. W. Lawrence, Henry Dinwoodey, S. W. Darke and 351 others, many of whom were residents along the line of streets granted to the Salt Lake and Fort Douglas Railway Company, expressing their entire approval of the action of the Council in conferring the right of way to said company and believing that in so doing they were acting in strict harmony with the great principle "the greatest good to the greatest number."

Laid upon the table to be considered in its order.

The estate of R. B. Margetts was granted license to manufacture malt liquors and sell the same at wholesale.

A communication was read from Hon. John Sharp, Mayor, stating that the facilities for graveling the streets would be largely increased by the addition of more gravel cars and track, and asking that the subject be referred to the appropriate committee.

Referred to the committee on streets and alleys.

The committee on finance, with the Mayor associated, to whom was referred the proposition of Thomas Wardell, of Macon, Mo., to renew the loan of $50,000 held by the city at the rate of 8 per cent. per annum, interest payable semi-annually, recommended that said loan be retained for another year at the rate of interest stated. Adopted.

The committee on finance, to whom was referred the petition of Messrs. Sloan & Dunbar, publishers, asking the Council to purchase a number of copies of the Utah Gazetteer and Directory reported that having carefully examined the work, they were prepared to testify to its usefulness and merits, and therefore recommended that the Mayor be authorized to purchase fifty copies for the use of the city officers and for distribution to other cities throughout the United States, as a return for courtesies heretofore received by this City in the shape of similar publications and ordinances. Adopted.

The committee on improvements with the Mayor associated reported in favor of lessening the number of gas lamps where there are more than four to a block and distribute the excess on Second East between Second and Third South, as prayed by Thos. J. Almy and others and on Fifth South Street between West Temple and Second West Streets, as prayed by Rachel Reggel and others. Adopted.

The committee on municipal laws, instructed to consider the advisability of revising and compiling the ordinances and resolutions of Salt Lake City, reported that a great necessity exists for the work to be done and recommended that a committee be appointed to supervise the compilation. Adopted.

The committee on police reported that the police court report for August has been found correct and they recommended its approval. Adopted.

The committee on streets and alleys to whom were referred the protest of Jos. Warburton and others against granting right of way to the Salt Lake and Fort Douglas Railway Co., and the resolution conferring franchise, etc., reported that they had given the objectors to the route proposed, opportunity to more fully represent their grounds for opposing the road, and had also received a request from Jos. Warburton and others that their names be stricken from said petition, claiming that their signatures thereto were obtained before they were fully acquainted with the purposes and advantages to be realized in the construction of the proposed railway. The committee recommended that the remonstrance of Jos. Warburtou and others be not granted, and reported back the resolution granting right of way. Amended and recommended it pass. Adopted.

The committee on improvements, instructed to consider the question of heating city buildings by steam, reported that the estimated cost was about $2,500, and that a saving of forty per cent. could be made in the fuel used and recommending, in case the Council should decide to introduce the system, that the mayor be authorized to receive plans and specifications at once.

Laid on the table for one week.

The resolution conferring franchise to the Salt Lake and Fort Douglas Railway Company was taken up, and after much amendment, was passed and referred for enrolment.

The document of J. T. Gilmer and others was then taken from the table and ordered filed.

Hon. Jno. W. Young, being present, thanked the Council for favorable action on petition of the Salt Lake and Fort Douglas R'y. Co. for right of way, and also thanked the committee on streets and alleys for their patience and courtesy during the time the matter has been pending. Adjourned.

## TERRITORIAL ITEMS.

CULLED FROM LATEST EXCHANGES.

—On Friday last E. J. Haws, of Logan shot and killed an elk weighing nearly 600 pounds, in Logon Cañon. "Ed," gave chase to a bear the same day, but was eventually outdistanced.

—On Sunday morning last, a little son of Mr. W. D. Roberts, of Provo, was kicked by a horse, inflicting a gash just below the eye, about one inch and a quarter in length. Dr. Pike was called, who stitched the wound and rendered the necessary treatment.

—The tramps in Ogden are getting uncomfortably numerous and desperately aggregsive. Monday night, two ladies were saved from brutal assaults by those wretches only by the presence of a trusty dog, whose shining teeth caused the fellows' legs to scurry off.

—Last Sunday night, Wm. Palmer, of Richfield, met with a very painful accident, while tying up a fractious horse. The rope became entangled about his left hand in such a manner that the horse surging back took the middle finger of that hand off at the first joint.

—Monday night, Mrs. Duffy, a guest at the Broom Hotel, Ogden, died of consumption. The lady, in company of a friend, Mrs. Baker, was en route from her home at Butte, for California, there to restore her broken health, but death overtook her. Her husband, a lawyer, was notified by telegraph, and was expected to arrive there to-day.

—Tuesday morning, the wife of U. S. Mail Agent Thomas Orchard left her home, being at the time partially insane. She went off about 9 o'clock, and up to last evening had not been heard of. She is a little over thirty years of age, and when she left home was wearing a gray dress and a hat with a black feather in it. She has left two children. It was reported later that she had thrown herself into the Ogden river and been drowned.

—On the afternoon of Sunday, the 14th inst., Eagle Rock was the scene of a juvenile quarrel which came near being fatal. It appears from the *Register* of that town, that while several little boys, including one of James Brown's and one of Roadmaster Geo. Payne's, each about seven or eight years of age, were playing together a quarrel commenced, when the Payne boy secured a 32-calibre pistol from some one and shot at the Brown boy, the ball passing through his pants, on the inside of his right leg and grazing across the abdomen without cutting the skin.

—The death of Brother Thomas McAdam, a young and very highly respected citizen of Provo, caused widespread regret in the community. He has resided in Provo a little over two years, and during that brief period had gained many warm friends. The deceased was at the time of his death a little over thirty years of age. He was born July 30th, 1854, at Whitehaven, Cumberland, England, where he resided up to within a few weeks of his arrival in Provo, which occurred on May 2d, 1882. For eight years past he has been a victim to disease of the heart, superinduced by rheumatic fever which some years ago disabled him.

MR. MCKNIGHT'S lecture on Napoleon Bonaparte at St. Helena, will be given at the Theatre next Monday night.

### Easily Answered.

SALT LAKE CITY,
September 24th, 1884.

*Editor Deseret News:*

I noticed in the Salt Lake *Tribune* of yesterday that it referred to John Nicholson's lecture as a "Bundle of Lies." Can you give any information where he got the "bundle" from, and oblige ENQUIRER?

From the Salt Lake *Tribune*, principally.

**Choir Excursion—Accident.**—The Tabernacle Choir excursion carried about 180 people to Nephi, yesterday. As the train passed Husler's mill it struck a fine mare and colt, killing the mare and cutting off the colt's feet. The collision also cut off the pit taps of the engine. No other injury was done.

### A Man With a Mania for "Jimson."

A poorly-dressed, haggard man, whose frame trembled as if he was suffering from ague, by his peculiar actions attracted the attention of people living near Thirty-first and Laton streets. A little while afterward the man was found lying on the ground unconscious. When officer McCurdy, of the first district got on the ground it was discovered that the man, who was in a delirous condition, had crawled from the yard and was lying on the grass. He was foaming at the mouth, and though ignorant of his surroundings, was convulsively tearing up the rank weeds that were within his reach and forcing them into his mouth. Dr. Thomas C. Rich, who was sent for, administered emetics which produced the desired effect.

When he had recovered sufficiently to talk he told a rambling story. "I have lived in Mexico and among the Indians all my life," he said, "and I mistook this weed for one that is used as a medicine by the red men. When once I began eating it I liked it so much that I couldn't stop."

In the afternoon he trembled all over and spoke with difficulty.

At the mention of the poisonous weed the man smacked his lips, and said that it was the choicest dish he had ever eaten. "I wish I had some more," he exclaimed. He said that he had so little control over himself that when once he began to eat it he could not stop, even though he knew it was killing him.

"It seems a sort of mania with him," volunteered a nurse; "something like the opium habit. Probably he has been taking snacks of it for a long time, but on this occasion he treated himself to an overdose."

A citizen who saw him feeding on the "Jimson" said that he sported about among it, "like a young goat," and uttered loud cries expressive of satisfaction. The medcinal name for the poison that he took is "stramonium." —*Philadelphia Press.*

### The Sting of the Bee.

If we press the abdomen of the bee or wasp, so as to cause the sting to protrude, we should naturally think that the sharp, dark-colored instrument was the sting itself. This, however, is not the case. The real sting is a very slender instrument, nearly transparent, keenly pointed, and armed on one edge with a row of barbs. So exactly does the sting resemble the many barbed arrow of certain savage tribes that, if the savages had possessed microscopes, we should certainly have thought that they had borrowed the idea of the barb from the insect. What we see with the unaided eye is simply the sheath of the sting. Many savages poison their spears and arrows, and here also they have been anticipated by the insect. But the sting is infinitely superior to the arrow poison. No poison that has yet been made, not even the terrible wourali, or curare, as it is sometimes called, can retain its strength after long exposure to air. The upas poison of Borneo, for example, loses its potency in two or three hours. But the venom of the sting is never exposed to the air at all. It is secreted by two long thread-like glands, not nearly so thick as a human hair, and it is then received into a little bag at the base of the sting. When the insect uses its weapon it contracts the abdomen, thereby forcing the the sting out and compressing the venom-bag. By the force of the stroke which drives the sting into the foe its base is pressed against the venom-bag and a small amount of the poison driven into the wound. As a rule, if the bee or wasp be allowed to remain quiet, it will withdraw its sting, but as the pain generally causes a sudden jerk, the barbed weapon cannot be withdrawn, and the whole apparatus of sting, poison-bag, and glands is torn out of the insect, thereby causing its death.

P. W. Goebel, Druggist, of Louisburg, Kansas, says: "I have sold 'Prickly Ash Bitters' for five years, and I have never handled a medicine which gave more universal satisfaction. It is fast becoming the family medicine of this section. I have warranted dozens of bottles and never had one returned."

**The Conflict.**

Between disease and health is often brief and fatal. It is better to be provided with cheap and simple remedies for such common disorders as coughs, colds, &c, than to run the risk of contracting a fatal disease through neglect. Dr. Wm. Hall's Balsam is a sure and safe remedy for all diseases of the lungs and chest. If taken in season it is certain to cure, and may save you from that terrible disease, Consumption. It has been known and used for many years, and it is no exaggeration to say that it is the best remedy in the world for Coughs, &c.

## THINK OF IT NOW!

Although much is said about the importance of a blood-purifying medicine, it may be possible that the subject has never seriously claimed your attention. *Think of it now!*

Almost every person has some form of scrofulous poison latent in his veins. When this develops in Scrofulous Sores, Ulcers, or Eruptions, or in the form of Rheumatism, or Organic Diseases, the suffering that ensues is terrible. Hence the gratitude of those who discover, as thousands yearly do, that

**Ayer's Sarsaparilla**

will thoroughly eradicate this evil from the system.

As well expect life without air as health without pure blood. Cleanse the blood with AYER'S SARSAPARILLA.

PREPARED BY

**Dr. J. C. Ayer & Co., Lowell, Mass.**

Sold by all Druggists; $1, six bottles for $5.

## DANGEROUS SUBSTITUTES

FOR

## HORSFORD'S ACID PHOSPHATE

Several inferior and dangerous "substitutes" for the genuine "Horsford's Acid Phosphate" are being offered for sale; and we hereby caution the dealers and public against buying or using them, as they will not produce the same effect upon the system as the genuine "Horsford's," and the ingredients in some of them are dangerous to health.

Some of these "substitutes" or imitations are simply Dilute Phosphoric Acid, which interferes with the digestion; while the genuine "Horsford's" not only causes no trouble with the digestive organs, but materially assists in their action.

One preparation that is being offered for sale, by the gallon, contains Meta- or Pyro-Phosphoric Acid, which are declared by the highest authority to be poisonous. The same preparation also contains Chloric Acid, which is a compound of Chlorine. "Horsford's" contains neither of these ingredients.

These "substitutes" are liable to be found at soda fountains, because of their cheapness.

CALL for "HORSFORD'S," and TAKE NO OTHER. NEVER SOLD IN BULK.
