On Sunday evening the mother took what she supposed was the medicine and gave the child a dose of it, but a moment later discovered she had given a dose of creolin instead. She phoned at once for a doctor, who worked with the child the greater part of the night and finally succeeded in restoring her, much to the relief of the distracted mother.

FLYER NO. 2 WRECKED.
Engine and Cars Damaged But no Casualties.

Special Correspondence.
Evanston, Wyo., Oct. 9.—Eastbound flyer No. 2 was wrecked in the west end of the yard here, at about 6:30 p. m. yesterday. The real cause for the accident has not been made public, but apparently the forward truck of the diner climbed the stub rail at the switch after the engine and mail car had passed over, and ran crosswise of the track, pulling the rear end of the mail car over with it, and striking an engine attached to a freight train which was standing on a side track ready to leave on the arrival of the flyer. The front end of the freight engine was demolished, and the diner and another car on the passenger train were smashed up pretty badly. The passengers were badly shaken up, but with the exception of a few bruises all escaped unhurt. One cook received quite severe cuts on the face and head.

The section hands built a temporary track around the debris, and by midnight were able to bring waiting trains into the station.

Freek of Nature—Cow Gives Birth to Four Healthy Calves.

Special Correspondence.
Smoother, Wyo., Oct. 4.—Your correspondent saw not long ago what is justly regarded as one of the wonders of this part of Wyoming. It was four healthy calves, which had just been born on the farm of Chas. E. Gomm, to one cow. Three were heifers and one was a bull. Your correspondent had hoped to be able to send you a photograph of the quartet, but has been unable to do so thus far. The four calves were visited by scores of people, among them Dr. L. W. West, Arthur Roberts, A. E. Gardner, and Dr. J. K. Keeney, leading business men, who certify that there is no doubt of the fact being as stated. The four calves were on exhibition at the county fair.

SEVERAL QUEENS SMOKE.

Proved at the Trial of a Tobaccoist in Paris.

New York, Oct. 10.—A Paris dispatch published here today states that a tobaccoist who was sued for advertising himself without authority as purveyor of cigarettes to ex-Queen Margherita of Italy proved yesterday that he regularly supplied her majesty with cigarettes. He incidentally declared that the carina was a devotee of tobacco, she frequently receiving from London consignments of perfumed cigarettes. The queens of Portugal and Roumania and ex-Queen Christina of Spain were also, he said, confirmed smokers.

PESTILENCE OF BEGGARS IN SPAIN.

Spain has a population of beggars. There are so many of them that it is impossible to understand how they can make their industry lucrative; and if it were not for the crowds of tourists who have to pay them for the privilege of seeing the picturesque remains of the country's past, I don't believe they could say Eleanor Franklin in Leslie's Weekly. All southern countries are similarly beset, I know, but I have never been in any other land where beggary assumed so many surprising disguises or so many unsightly forms. There is nothing unusual about the dirty, surly-faced children who, in the empty old women, and the ragged, filthy, bleary-eyed men who follow one in the streets, imploring one, in the name of God, to save them from freezing or starving, or some other dire, improbable thing; but to be stopped by a well-dressed, respectable, even aristocratic-looking person and asked for alms in terms and tones that would grace the conversation of any circle is an experience startling enough to be placed in the category of the decidedly unusual.

Most of all the picturesque Spanish beggars are down in Andalusia and Valencia, where the sun sometimes shines with a yellow glow, where the mountain slopes are covered with olive groves, and where the fields are waving oceans of poppies and daisies. Here they become a part of the very landscape, and filter in and out of the shadows of the covered streets, hardly to be imagined. A drive around the strange old city of Granada, for instance, means little beside an inspection of the various quarters where they have their squalid habitations, and the rather amusing experience of running the gamut of their fearful importunities. There are no bona-fide beggars in the Alhambra, because the uniformed, but unsalaried, guides know too well how to protect their own interests. They are at the gates, however, and spread out the surrounding hills in droves of hundreds. They are gypsies, most of them, and they have the art of piteous entreaty down to the perfection that cannot be acquired in one life, but is a heritage, age-old, carefully cultivated through many generations, and which they do not stop at accepting one upon the streets. They follow one into shops, into cafes, even into one's hotel, and it is quite impossible, oftentimes, to enjoy a night's sleep without being bothered by every imaginable guise.
