### WILLARD. DAMAGE BY FLOODS.

Roads Washed Out. Orchards and Gardens Torn Out.

Special Correspondence.

Willard City, Boxelder Co., Aug. 22.—The recent rain was the heaviest experienced here during the summer season. For three days and nights it rained almost continuously, and at times it fell in torrents. The water collected in some of the ravines north and south of town and did considerable damage.

The wagon road two miles south is impassable. Two deep gulches 15 feet deep and from 10 to 20 feet wide, were cut by the raging torrent, continuing its course westward. A deep wash was cut down the south side of Edwin P. Cordons farm for some distance, washing up fruit trees, tomatoes and beets. The damage done to Mr. Cordons is considerable.

Two miles north of town the road was covered with sand, gravel and boulders to a considerable depth. A loaded team belonging to Coray Bros., in attempting to cross the torrent, got stalled, and with great difficulty the horses were unhitched from the wagon. Here considerable damage was done to Josiah and Wm. Wood. Melons, tomatoes and fruit trees were washed away, gulches were cut through the land, and huge boulders carried here and there.

Some grain is yet uncut. The storm has beat it down so badly, and the ground is so wet that it will be difficult to cut it without great loss.

Owing to rust, the wheat crop is poor.

The outlook for beets and tomatoes is very good.

### LEWISTON. RAIN HELPS BEET CROP.

Grain and Hay Injured. Rust Takes The Former.

Special Correspondence.

Lewiston, Cache Co., Aug. 22.—The heaviest rainfall that has been known at this time of year for many years visited this county the last few days, which will increase the beet crop yield very materially. Some of the farmers, however, haven't finished hauling their second crop of hay, which has received material damage from the recent downpour. A large percentage of the spring wheat will be almost unfit for use on account of rust. The yield of wheat would have been exceptionally good had not the rust struck it.

Grain harvesting is under way, and threshing has commenced, which will be rushed along in order to give place for beet digging, which will begin between the 1st and 15th of September.

An aggregation of baseball players from all parts of this valley met the Lewiston baseball team here last Saturday and the result would have been 3 to 2 in favor of the home team had it not been for an error in judgment which left the score 4 to 3 in favor of the visitors.

Pleanty of work for the laboring classes will be obtainable as soon as beet digging begins, as the Japs have nearly all left.

### ARRESTED FOR GRAND LARCENY.

George Dover, a colored waiter who was employed on the Oregon Short Line, was placed under arrest by Sergeant Charles Plonck and Officer Thos. Burke yesterday afternoon at the request of Pocastello officers, where he was taken last evening to answer to the charge of grand larceny. Early yesterday morning Sheriff McGarvey and Prosecuting Atty. G. E. Gray of Pocastello came to Ogden, having definite information that Dover was here and the information they had was communicated to the local police, who discovered him on Twenty-fifth street and placed him under arrest. It is claimed that Dover was waiting on the dining car attached to the Yellowstone special in charge of Conductor H. W. Dood, who had a small hand satchel with him containing \$50. On the trip the money disappeared and Dover was immediately suspected of the theft. He disappeared from Pocastello ten days ago and could not be located until yesterday. The officers claim to have conclusive evidence against him and feel sure of a conviction.

### WHEELMEN INJURED.

While riding down Twenty-fifth street on his bicycle, Theodore Soderberg lost control of the wheel, caused by the breaking of the coaster brake, and it dashed down the hill at great speed. When near Washington avenue it struck a rock, overturning the wheel and the rider was thrown to the ground with great force, breaking one of his fingers, spraining his wrist and otherwise severely bruising him.

### CITY COUNCIL MEETING.

Messrs. John G. Smith and S. W. Ross, of Lehi, appeared before the council last evening, as representatives of the Lehi Commercial club in the matter of the injunction brought by Salt Lake City and Salt Lake canal companies to enjoin A. J. Evans and James H. Gardner from taking 400,000 feet of water from Utah lake. The object of Messrs. Evans and Gardner was to take water from the lake by pumping for the irrigation of the low land. This money was paid to the owners to take the water from the streams to irrigate the high lands, and the opinion of experts was that the lake would supply 1,000 second feet. Those who sought to enjoin the taking of this water were entitled to 500 second feet and this would leave sufficient water, if it was permitted to be taken, to irrigate all of the low lands in the county, and all of the high lands could be irrigated by the water from the streams. Salt Lake City and the canal companies, who were seeking to enjoin Messrs. Evans and Gardner from taking this water not only sought to enjoin from taking water from the lake by pumping, but the use of any of the waters of the streams flowing into Utah lake and directly appropriated, and if they were successful would prevent any further use of the waters of the lake than is now being made.

Messrs. Smith and Ross asked for co-operation from Provo, and would ask it from all the cities in the county. Co-operation had been promised by the new canal company, lately organized by Salt Lake county people, and by Wasatch county people. And they asked that Provo contribute to defray the expenses of the suit, and with defending against the injunction. The matter was referred to a special committee consisting of Johnson, Partridge and Powellson.

A communication was received from Mayor Frisby strongly urging that the ordinance providing for cleaning sidewalks from weeds, etc., and trimming the shade trees, be enforced, and also that the city set a good example by complying with the ordinance so far as it affects city property. Referred to the city marshal, and signed a contract for taking this water not only sought to enjoin from taking water from the lake by pumping, but the use of any of the waters of the streams flowing into Utah lake and directly appropriated, and if they were successful would prevent any further use of the waters of the lake than is now being made.
