# DESERET EVENING NEWS WEDNESDAY MAY 15 1907

Who pays the fee for examining applicants for insurance? The Utah State Medical association, generally called the "doctor's union," has pledged itsef by a resolution to go on a "strike," and absolutely close down the business of making examinations, unless a fee of \$5 is forthcoming. Their resolution even goes to the extent of calling a sympathetic strike among all other medical men, asking them in the name of their professional fraternity to refrain from making examinations at the cut rate price of \$3.

wise.

The insurance agents reply to the doctors with the declaration that it doctors with the declaration that a takes less than 15 minutes to make the examination; that the form required is now much simpler than that formerly used, and that it is not the grasping capitalists, whom the doctors declared that they seek to separate from a little more of their coln, who pay the bills, but the people who are insured, for each examination figures in the general cost of insurance to the insured.

#### ARE STILL EXAMINING.

ARE STILL EXAMINING. A canvass of the principal agencies in Salt Lake today developed the fact that although the "strike" has been in force for over a week, they are still insuring applicants, and are still having these applicants examined. One and all, they deny that they are paying any more money on account of the demand of the physicians, and they even declare that these same doctors examine men for fraternal society insurance at a fee of from 50 cents to \$1 and that the at-tempt to get \$5 from the old line com-panies is merely a holdup, that will not prove successful.

## NOT INVOLVED.

The secretary and treasurer frame of the source tary of state's office today. The capital stock of the company is \$5,000, divided into shares of the par value of \$100 each. Thomas Stirland is president; W. J. Chugg, vice president and treasurer; Ernest Keveren, secretary. Ariteles of incorporation of the Sheets-Neel company of this city were filed with the county clerk today. The capital stock of the company is \$6,000, divided into shares of the par value of \$10 each. J. L. Sheets is president; S. R. Neel, secretary and treasurer; Frannie S. Neel, vice president, These, with Frank V. Meears and Chifred S. Wilson, constitute the board of directors. The company will engage in the mining brokerage and real estate and insurance business. The Golden Rule Mercantile company of Evanston, Wyo., filed a copy of its of file of the company is \$50,000, divided and the secretary of the company is \$50,000, divided and the secretary of the company is \$50,000, divided and the secretary of the company is \$50,000, divided and the secretary of the company is \$50,000, divided and the secretary of the company is \$50,000, divided into shares of the par value of \$100 cach. Guy Johnson is president; Roland Stevens, secretary; J. P. Eldridge of Ogden, is resident agent for this state. One company is not involved in the controversy. This is the National Life, of which Geo. D. Alder is resi-dent manager. Mr. Alder declares that his company has long paid \$5 as a fee. because in remote districts, where ap-plicants are few, it is impossible to get doctors to travel around for less money. Recently, when his company get doctors to travel around for less money. Recently, when his company headquarters began to discuss lowering the price to \$3, Mr. Alder stood out for a \$5 fee on the ground that it would make it more difficult to get good risks in this territory. So far his com-pany has not forced the reduction in this territory, although all other com-panies that had been paying \$5 re-cently dropped the fee to \$3, estab-lishing the graded scale that has long prevailed in the New York Life com-pany.

### IN INTEREST OF ECONOMY.

IN INTEREST OF ECONOMI. The present trouble in Salt Lake seems to be the result of the gigantle insurance controversies that have raged for the past two years all over the east. The men taking out insur-ance have been clamoring for cheaper philoles. Their unrest made itself felt in the legislatures, where new insur-ance laws recently passed have called for retrenchment. In response to this demand, the office expenses all over the country have been cut down, and all needless expenditure has been un-dergoing a process of elimination.

## THE SCHEDULE.

At the offices of the Equitable com-pany it was learned that the new rates are announced by them, and are being inforced. To pay \$5, they say, would prevent the writing of the yearly re-newable policy, which is now becom-ing popular, as it sells for a low price, and this increased fee would more than use up the first year's premium, to-gether with other necessary fees. So far there is no company on rec-ord which has given in, during the controversy, and from the sentiment as expressed above, it seems that an attempt to force the adoption of the resolution recently passed by the med-ical association, will result in a lengthy battle,in which the insurance companies will prove difficult to bring to book. Of all the tangles which the police department and the county attorney's office have had to straighten out in the past few years, the problem which confronted them this morning is of first importance. It involves the liberty of pretty little Mrs. Edna Southworth, the 7-year-old wife of Frank W. Southworth, who was arrested last Saturday by Detective Frank Wheeling at the instance of the Colorado authorities of the industrial school of that state, on the charge of breaking her parole. A summary of startling events in the case is as follows:

Mrs. Southworth was arrested and held for the Colorado authorities. She was released on \$200 cash bail se-

cured by her husband and put up by Sam Piccolo and Thomas Pritchard. This morning Mrs. Purcell, assistant superintendent of the Denver industrial school, arrived in Sait Lake to take the

oung wife back to the Colorado institution Shortly after the arrival of Mrs. Pur-cell, a complaint was filed by Earl Par-ish, the twin brother to Mrs. South-worth, against Bert McArthur, charging the latter with a felcny with Mrs. Southworth. McArthur was arrested on a warrant served by Sergeant Rob-erts and locked up in the county jail pending the furnishing of \$350 bonds. Mrs. Southworth then stated that she was willing to go back to the Colorado industrial school, but not before she swore to a complaint against her hus-band, Frank W. Southworth, charging him with placing her in a house of Ill fame at 65 Commercial street. She said she did not care anything about her husband and he is said to have expressed the same feeling with reference to her. Shortly after the arrival of Mrs. Pur-

have expressed the same feeling with reference to her. Young Parish, twin brother to Mrs. Southworth, became convinced that he had made a mistake in swearing to a complaint against McArthur and de-clared he would not prosecute. Mrs. Southworth also said she would not tes-tify against McArthur. Frank Southworth, husband of the young woman, declared that he did not put his wife in a house of ill fame. This afternoon Mrs. Southworth con-sented to accompany Mrs. Purcell back to Dehver without requisition papers.

William Allen, a lad only § years of age, was rather roughly treated by some young hoodlums on Sunday night and if the parties responsible for the act are apprehended, they will be dealt with severely by the juvenile court. Young Allen lives at 58 west Fifth South street, and had been playing with some other boys in the neigh-berbood un until about & o'clock Sun.

With the usual sensational headlines the two oragns of the "American" party published a story in recent issues to the effect that the board of county commissioners had refused to make an appropriation of \$50 to the G. A. R. to assist in defraying the expenses of the Memorial day exercises As usual, the papers were as far fron, the truth in the matter as they could be. County Commissioner Mackey was the only member of the board present today when called upon by a representative of the "News." He at once branded the story as a lie and stated that there was absolutely no truth in the matter. He stated that the county commissioners had grant-ed the petition of the G. A. R. for the usual appropriation of \$50 and that the money is ready waiting for the committee from that organization whenever it calls for it. In speaking of the matter Mr. Mac-key said: "Mr. Burns and Mr. Kent called at the office of the board sev-oral days prior to last Monday and asked in regard to an appropriation for the G. A. R. and I told them that as far as I was concerned it would be all right but that I did not want to assume the entire responsi-bility in the matter as I was not As usual, the papers were as far from.

want to assume the entire responsi-bility in the matter as I was not chairman of that committee. They came in again on Monday and pre-sented their petition. It was re-ferred to the committee and the comnittee reported favorably upon it.

G. A. R. GETS MONEY.

"Before the committee met and while the two men were there Com-missioner Clinton asked myself and Mr. Cosgriff if we had seen the edi-Mr. Cosgriff if we had seen the edi-torial in a certain morning paper which said that the G. A. At. had been present at a recent meeting of the "American" club when Judge Good-win had mailgned President floose-velt. We told him that we had not read the article. Then turning to Mr. Burns and Mr. Kent I asked them if the G. A. R. would stand for any-thing like that. Taey replied that the organization would not, and that the members who were at that meeting were there as individuals and not as representatives of the G. A. R. That were there as individuals and not as representatives of the G. A. R. That was all that was said about the mat-ter and there was no accusation of disloyalty at all. The committee was informed that the matter of the ap-propriation would be considered by the proper committee and reported on right away. It was reported on that afternoon and the money is ready for the G. A. R."

SABINE FORCED OUT. On June 1 He Will be Succeeded as In-

firmary Head by Jos. Cottle.

Once more there is to be a change in the superintendency of the county infirmary. It is learned from official and entirely trustworthy sources that

and entirely trustworthy sources that James Sabine, who succeeded W. R. Jones in that position, is to be forced from the place, and that he will retire therefrom on June 1. The county com-missioners will probably pass on the matter next Monday. It appears that Conimissioners Clin-ton and Cosgriff have desired a change-in the head of the infirmary manage-ment for a considerable time, but that Sabine was retained through the in-fluence of Commissioner Mackey. While the latter would not discuss the subject for publication today, it is ad-mitted that the pressure became so strong upon him, that he, too, consent-ed to the naming of a successor to Mr. Sabine. The new superintendent will be Joseph Cottle, and, as stated, he will enter upon his duties on June 1. tion and restore his character before As he concluded his address he fell back into his chair, almost fainting, and the tears coursed down his cheeks. His health, he said, could not en-dure the strain of the trial which he was facing, and the torture was be-yond the endurance to those who were nearest and dearest to him. Before Ruef arose his attorneys, Henry Ach, Samuel Shortridge and Frank Murphy, one by one, arose and stated that, owing to a grave differ-ence of opinion with their client, each of them must withdraw from the case.

## PRESIDENT HONORED.

Ladies of Ward Relief Society Present Mrs. Ridd With Rocker.

The officers of the Relief society of the Twenty-eighth ward sprang a surprise yesterday afternon upon their president. Mrs. Emma Ridd, on the anniversary of her sixty-third birthday. 'Die affair was held in the ward chapel and remarks of the faithrulness and earnest labors of Mrs. Ridd were offered by several lady visitors. Bishop McMillan spoke in praise of the good work which had been accom-plished by the Rehef society of the ward under the able direction of President Ridd. An appropriate program was ren-dered at the close of which a handsome rocking chair was presented to Mrs. Ridd by her associates as a token of their re-spect and esteem. Refershments were also a feature and Mrz. Augusta Soder-berg presided at the interesting occasion. Ewenty-eighth ward sprang a surprise cept to continue the case two weeks for sentence. At 10 minutes to 12 o'clock Ruef and his attorneys, who had been in consultation, returned to the court-room. Henry Ach led the way. He was followed by Ruef, who looked pale, weak and self-conscious as though he was laboring under some terrible mental burden. Abraham Ruef made the following statement when court reconvened: "This trial has become a threaten-ing danger to my health, both mental and physical I am unable to bear the strain any longer. The strain on

ination is required, a fee of \$10 is added for large polledes, and \$5 for the small-er ones, this making such examinations worth from \$8 to \$17.50.

#### J. H. MAYS TALKS.

Agency Director J, H. Mays of the New York Life company was the most outspoken on the situation. "We have been paying this silding scale of fees for over 10 years, he declared, and we do not plan to change it. 'The local agencies are powerless anyhow, and the scale is uniform for the entire country. We have frequently had trouble with state associations of doctors, but the company has never given in, and now all the other companies are adopting its schedule. In some southern states we hired our own company physicians on a salary, where physicians in gen-tral combined to force a higher fee. We havn't been forced in this matter yet, and we won't pay it in this case. It means a saving of \$100,000 a year to the policy holders, and it would not be looking to their interests to do anything rise. It takes a doctor about 15 minutes Agency Director J. H. Mays of the looking to their interests to do anything else. It takes a doctor about 15 minutes to make an eximination, and he is sure of his fee of \$5. For the same money he will call at a home in any part of the city, and take his chances at collecting. For a fraternal insurance company he will do the work for about 50 cents or it at the outside, and the work is about the same so far as the time it takes is procerned. You see it costs us more than the fee for each examination. Counting in the risks we retuse to take, it costs us about \$4.50 for each examin-ation of an acceptuble risk."

#### MUTUAL IS INDEPENDENT.

Rulen S. Wells, manager of the Mu-tual Life, declared that his company employs a physician on a salary, but is paying for such other examinations as are necessary, the SI rate, and in-

Richard Vadamese. 172 SOUTH MAIN STREET.

INTERVIEW WITH MATRON. The next scene was when Mrs. Purcell

with some other boys in the neigh-borhood up until about 9 o'clock Sun-day night, when he stared home. It was very dark in the court where he had been visiting, and two of his play-mates went part way home with him. It seems that as soon as they left him, several large boys selzed him and tied him to a post by his wrists and ankles. They also gagged him so that he could not call for help. They then disappeared in the darkness and left the boy there at the mercy of the rainstorm, which was rather heavy. The lad was compelled to stand there until 3 c'clock Monday morning, when a milk man came by and discovered his predicament and released him. He was taken to his home, and is said to be in rather a bad condition, as his wrists and ankles were cut by his at-tempts to free himself, and his nerves are unstrung. put in an appearance to take the girl back to Colorado. There was an inter-view between the prisoner, Mrs. Purcell and Chief Sheets at which Mrs. Southworth expressed her willingness to go back to Denver, stating that she did not care anything for her husband and would go without requisition papers. According to Chief Sheets, the husband said he cared nothing for the girl. MCARTHUR ARRESTED.

McARTHUR ARRESTED. Then entered Earl Parish, twin brother to Mrs. Southworth and signed a complaint charging Heri McArthur with criminal conduct. A warrant was issued and Sergeant Roberts arrested McArthur who was hailed before Judge Diehl and arraigned. By his counsel, Atty. Hurd, he walved reading of the complaint and pleaded not guilty. His ball was fixed in the sum of \$350. While all this was going on there was another scene in Chief Sheets' office where Mrs. Southworth and her twin brother sat facing each other. The young woman declared she would not testify against McArthur, but that she would insist on swearing to a complaint against her husband on the charge of placing her in a Commercial reet house. "He did it" she cried. "and I can

would insist on swearing to a comparine against her husband on the cherge of placing her in a Commercial reet house. "He did it" she cried, "and I can prove it. I can give absolute proof that he did what I say." Then young Parish, the brother, had a consultation with Atty. Hurd and discovered that he had made a mis-take. He declared that he did not realize what he had done and that Southworth was respondent. For the compliaint against McArthur. "I am now convinced that McAr-thur was a friend to my slater," he said. It is claimed that McArthur took the girl from the Commercial street house, but it is also known to Asst. County Atty. Lyon that before Mrs. Southworth broke her parole in Cole-rado and came here that there was correspondence between her and Me-Arthur. Mr. Lyon has seen some of the letters. Both the young woman and McArthur declare emphatically that they did nothing wrong and Mrs. Southworth still insisted that she would not go back to Colorado until ber husband was behind the bars for the offense she charged. Mr. Lyon refused absalutely to issue a complaint on her statement and then she con-sented to accompany Mrs. Purcell back to Denver this afternoon. "While Southworth is said to have admitted that he discovered his wife had been in a Commercial street house, he did not so inform the of-ficials because, he stated, he did not want the girl's mother to know of it. Since Saturday he became suspicious of the alleged relationship between his wife and McArthur. In spite of the fact that when Mers. Southworth returned from Colorro she joined her husband and they liv-ed together ut a rooming house on east First South after the officars believe she came here to meet Me-Arthur. Fhe denies this and so does McArthur but the correspondence be-tween the two is still unexplained by them.

to render her unconscious for several hours, and, as stated, she has not yet regulated her normal condition, nor is she able to rell how she was hurt. Rather disconnectedly, Miss Rasmus-sen said that on the evening mentioned she boarded a car about a block away from her apartments. She remembers widing to the westward, but how far she went or when and how she returned she is not able to tell. When she awoke is consciousness she was lying in bed at her room, with a bandaged head

them. When the young woman found that she could not get a complaint against her husband, and was still determined that she would not say a word against McArthur, and when her brother de-cided that he had made a mistake, she concluded the best thing to do was to go with Mrs. Purcell In all probability the case against McArthur will be dismissed, and that will end the combination of odd situations. Mrs. Purcell and her young charge, left over the Union Pa-cific at 1:30 for Denver.
