## Bank Reform—Law Suit—Jury.

Obtained—Bailed—Engagement in Cuba—Purity of the Ballot in

New York.

Various reform measures are being discussed by the banks as a method of conducting business in future. The Chicago Board of Trade committee will probably report upon the matter very soon. It now seems certain that the committee will decide against the payment of interest on deposits and checks, except when the money is advanced on deposit. The proposition to compel all the railroads to make up the stock lost in the fire at the station meets general favor. It appears that since the last bank statement was published, the associated banks here lost deposits to the extent of forty-seven millions, twenty-one millions, and gold two millions.

The suit of Galloway and Lamar against Charles A. Dana, to recover damages for the alleged illegal imprisonment of the Spanish Minister of War, which has been on the calendar of the U. S. Circuit Court for a long time has been set down for trial before Judge Shumard to-day.

News of the trials were obtained for wires in the Tuesday case to-day.

Fled to the Mountains—Grand Indian Council.

SAN FRANCISCO, Nov. 10.—A dispatch from San Diego, to-night, says the leaders of the late revolt in Sonora had fled to the mountains with a large amount of treasure stolen by them during the troubles in that State.

The Apache are still committing murders and robberies in the districts of Tucson.

A dispatch from Elko, Nevada, to-night, says the Indian Commissioner Ingalls, of Salt Lake, has been holding a grand council with the Indians to-day, the chief purpose of which is to secure a truce with the Indians.

The Indians are to be paid, causing the commander to be reinstated, and ordering the governor to Havana. It is thought here that the governor feels undue sympathy toward the Indians, and the influence of his wife, who has a aunt of the late Agoston.

The Tammany Hall committee sat all night in the office of the late George Clegg, causing Simon Stern to testify that he heard three men on the evening of the election, arranged to repeat, and he saw them the next morning, and the day after challenged them, and the inspectors refused his oath.

A number of witnesses testified to the inspectors leaving on the morning of the election, and police had intimidated naturalized citizens. Two inspectors swore that in one election district they counted 25 tickets for Charles Reilly, and 16 for John J. Quinn, but subsequently saw the returns altered at the precinct to 17 for Reilly. Other evidence was taken bearing very hard on police commissioners, Beck and G. C. Quinn, and John A. Quinn.

## Failure—Thief and Adulterer.

The tea firm that failed to-day was Battenhall & Co., whose transactions generally aggregated a million dollars per annum.

The defalcation referred to in a previous dispatch, proved to be of a sum of \$100,000. No. 1, Battenhall & Co., the cashier, has not been seen since a week ago. He had appropriated twenty thousand dollars, and it is alleged, has eloped with his wife, a widow with two children in Brooklyn.

Nov. 9, New York.

W. H. Davis, dated Nov. 5, gives the following account of the execution of the "Virginia" prisoners at Santiago de Cuba. The four prisoners were shot in the face, and fainted, but recovered, and in the manner, kneeling close to the slaughterhouse wall. All the other men, with a few exceptions, behaved with marked courage, although the former was slightly afflited, toward the last, the two others quite broke down before they were bandaged, but in a few moments, and died without fear or regret. Bambetta and Ryan were killed at the first discharge.

## A corporal required to inquire

into the death of Michael Doherty in Coburn, Mass., resulted in holding Michael Doherty, son of the deceased, and his wife on a charge of murder.

Washington, D. C., Nov. 10.—Nothing of importance occurred to-day with reference to the Virginia affair, with the exception of a dispatch from the Minister of State notifying the Secretary of State that the Spanish Ambassador had telephoned the Captain General to stay all proceedings against the captives. Steckle was to have had an interview with the Spanish minister of foreign affairs, the exact time which recently opened and is conditioned in official circles as brutal, and when all the facts attending it become known, should it appear that international law does not permit the Spanish to do what will be taken to maintain the dignity of this government, but the Secretary of State has an idea that the Castilian government will not let him go. The Spanish Ambassador is in no position, judging from its friendly disposition towards the United States, and the friendly relations of the two countries, to interfere with the Spanish government, as saying to-day, during an interview with reference to the reported execution of Santo Rose, that he had not been officially advised, but that Rose had been condemned to death as a pirate, and after consuming a meal of paper, was condemned to death, and the execution secured his release. Only a few weeks ago Santo Rose wrote to the Secretary of State, telling him, that he owed the Spanish government \$100,000, and that Santo Rose was not wise in again reviling his safety.
