GREAT STORM IN GULF STATES

Wind Blowing at Terrific Rate But Extent of the Damage Is Unknown

NO LIVES ARE REPORTED LOST

In One Town Water is Four Feet Deep in Streets—Wires Are Down Everywhere.

High Tidal Wave Driven on the Coast Caused Great Damage—Towns Had to Be Abandoned.

New Orleans, Sept. 27.—For more than 12 hours a tropical hurricane has been blowing at a speed varying from 35 to 50 miles an hour. The telegraph and telephone wires are all down between here and Gulf of Mexico points, where the storm is reported to have struck the heaviest. Washouts are reported on several railroads in that direction.

The damage reported thus far is confined mostly to the havoc of the tide driven by the wind upon the Gulf coast to an unusual height. At the mouth of the Mississippi river, pilots are compelled to abandon their towns. Seventy Austrian fishermen and their families spent the night in boats on Doulluts to escape the water, which is rising to the lower Mississippi delta and poisoning their cabins.

The rice fields are considerably damaged in this section. No vessels have attempted to enter at the Mississippi since Tuesday night, but are riding in the open Gulf. A washout is reported on the Louisville & Nashville at Lake Catherine, and no trains are running. The New Orleans and Northwestern Railroad reports its track under water at several places.

The damage in New Orleans is small in the lake. Lake Pontchartrain is five feet above the normal. The wind has swept away a few fishing shacks. The west end of the city has been damaged. New houses are sunk into the lake. A few houses above here. At Lake Pontchartrain, above the Mississippi, at the west end on Lake Pontchartrain, was marooned in the deluge with his wife and three children by the waves, which washed over the pier to the club. Erieland, who offered aid from the shore, being believed the clubhouse safe, and he would fire a cannon if he desired assistance. Portions of the big passenger wharf at West End have been washed away by the waves, and part of the wharf was washed into the lake.

By the lake last night was sufficiently low to give the inhabitants some chance to escape without danger. That part of New Orleans between Lakeview and Ursuline streets is under five inches of water. The water is backing up. No anxiety is being reported the situation in the city, but the situation of news from the neighboring towns of the Gulf coast has been apprehension. The Gulf Coast and Houston and New Orleans, all in Mississippi, are exposed to Mississippi flood. Up to noon the local number bureau had no indications of the abatement of the storm.

New Orleans, Ky., Sept. 27.—Community has had with New Orleans for some time. The telegraph operator there reported that the wind was blowing about 45 miles an hour, but that the center of the storm was east of New Orleans and that the city of New Orleans had not suffered any serious damage, nor had there been any loss of life as far as reported. It is considered probable that New Orleans will escape the storm hit the Mississippi coast and Mobile hard, but there is nothing to confirm this. The Gulf Coast and Houston and New Orleans, all in Mississippi, are exposed to Mississippi flood. Up to noon the local number bureau had no indications of the abatement of the storm.

THIRD TICKET TALK.

New York Minority Democrats May Place One in the Field.

Buffalo, Sept. 27.—Democratic party leaders showed no disposition today to comment upon the ticket named last night on upon the proceedings. Mr. Jerome said that the so-called Albany conference of anti-Hearst delegates which was to have met this morning had abandoned the idea of another session in Buffalo, but would meet again shortly at the call of the chairman, Edward M. Shepard of New York. The possibility of a third ticket being placed in the field is generally considered because of the almost bitter character of some of the speeches delivered in the convention when friends of Representative Sulzer resorted to denunciation of Mr. Hearst.

Veilguth went to Portland a few weeks ago in the hope of securing a position of a year, spending sometimes hundreds of dollars a day for the hire of high power automobiles, champagne dinners and other luxuries. AGRIANS MAKE MORE TROUBLE

Notwithstanding the Concessions Made to Them Question Entering a Graver Phase.

SERIOUS DISORDERS LIKELY.

In Many Communities People Adopt Resolutions Discarding Authority of Police and Clergy.

St. Petersburg, Sept. 27.—Further disturbing information regarding the agrarian situation, which, in spite of the prompt and wide spread publication of the administration's agrarian concessions, appears to be entering upon a graver phase than last autumn, comes from the provinces of Saratov, and Tambov and lower Volga region, where serious disorders are anticipated when the recruiting season opens in October. The Viborg manifesto has been widely circulated, and the political and revolutionary foment is ever increasing. The populations of many communities have adopted formal resolutions discarding the authority of the police and clergy; the rural police are resigning in great numbers; land owners are disposing of their estates at any sacrifice, and land values have dropped from \$50 to \$15 per acre.

Details of the uprising at Malmush, Viatia province, are difficult to obtain, but it is known that at the opposite extremity of the province the peasantry of the village of Knaigorodsk have armed the police and proclaimed autonomy. CONFESSION OF A MURDERER

THREW HEAD INTO HUDSON.

Says He Was Too Stung to Live and He Stabbed Him as He Slept.

New York, Sept. 27.—Arma Tashjian, the Armenian who was arrested last night and charged with the murder of his brother, Markar Markarian, confessed to the police today that he killed his brother. He said that he threw his brother's head into the Hudson river.

Tashjian withstood the operation of police inquisition system last night with some fortitude. At various times during the night he was shown long knives and asked if he cut up his brother with any of them. He was shown pictures of the dismembered parts taken in the morgue and these he begged tearfully to have taken away. He did not otherwise seem disturbed by the ordeal and steadfastly maintained his innocence. Finally Tashjian said to Police Inspector McLaughlin that he killed his brother because he was the "meanest and stingiest fellow" he ever saw. Last Saturday night he said, he quarreled with his brother over money and told him that he was too stingy to live, that he would be better off dead, that he would be a god of his money and that when he died he would try to take it with him.

"I made up my mind to kill him that night," said Tashjian. "He went to sleep and I stabbed him in the neck while he was asleep with that knife, and I threw it into the river. I took \$65 of his money and I took his watch. I wanted to get rid of the body so I decided to cut it up," continued Tashjian. "Between 12 and 2 o'clock I had him cut up. First I cut his head off, then his arms, and then his legs. I wrapped the trunk up, left the house with it and threw it into the hole where it was found. Then I took the legs and arms and threw them into the cars. About 5 o'clock in the morning I put the head in a black cloth and threw it into the river. I took \$65 of his money and I took his watch. I wanted to get rid of the body so I decided to cut it up," continued Tashjian. "Between 12 and 2 o'clock I had him cut up. First I cut his head off, then his arms, and then his legs. During the time it is posted any citizen may make objections to the applicant being admitted to citizenship and a more rigid examination of the applicant is made by the court as to his qualifications for citizenship.

Chicago, Sept. 27.—Two cars of cold storage chickens and over 100 loads of meat were condemned yesterday by Chief Food Inspector J. G. Vais as unfit to eat, saying nothing of its carcasses of diseased cattle and four calves. The condemnation of the chickens was due to private advice received by the city health department. When he learned that the lot had escaped him and was on the way to New York he notified the authorities there so they can catch the shipment at its destination.
