

GOVERNOR SPRY URGES HARMONY

In Address at State Fair He
Pleads for Abandonment
Of Strife.

SEES FUTURE OF THE STATE

Industrial Progress Is Sure If Booster
Spirit Exists Among All the
People All the Time.

The people of Utah should get together, drop factional fights, and join in boosting for a greater state. This was the keynote of an address made by Governor Spry at an informal dinner given to the newspapermen of Salt Lake City by President J. G. McDonald of the state fair association, at the fair grounds, yesterday.

President McDonald thanked the press for its undivided support of the fair, and asked greater co-operation for future fairs.

Gov. Spry said in part: "Let us forget this bickering and petty war. We live in the greatest state in the Union, and we want to let the world know it. Factional fights do no one any good, and they harm all of us directly and indirectly, because when capital sees the strife going on among the people, it is wary of investments in this state. By attacking the other fellow, we merely weaken ourselves. Let us be just and fair. Let us try to let the dead past bury its dead. We can make Utah a grand manufacturing field, if we only get together and boost. We should boost all of our neighbors."

"The success of this, the greatest fair that Utah ever had, is due largely to the careful, progressive and hard working management of President McDonald. We are getting more exhibitors every year in each department, because the people have become convinced that they will get an absolutely square deal in the contests for awards and prizes. I should like to see more competition between the counties at the state fair. The press of Utah should join warmly in the campaign to invite the counties in making individual exhibits. Rivalry between the counties will make the fair of 1910 greater than that of 1909, which is the greatest in our history."

President McDonald, in introducing Gov. Spry, made a short address, in which he outlined the principal needs of the fair, and more urgent ones being new buildings for the educational and manufacturing exhibits.

DOG AWARDS.

THREE HEADS FOR KELSEY'S CHAPEAU

Deposed Engineer's Assistants
Eager to Wear Official
Bonnet.

WIRE PULLERS ARE BUSY

Seffrit and McMillan Trying to Induce
Bransford to Accept Their
Choice.

Although the resignation of Louis C. Kelsey, city engineer, which was handed to Mayor John S. Bransford last Thursday, has not taken effect, a three-cornered fight has developed among his assistants to finish out the remainder of the administration.

George O. Chaney, Luther H. Krebs, and John Duder, who have been in the city engineer's office for a number of years, have started an active campaign for the position. Each man has allied himself with some faction of the administrative party, and the respective candidates will bring all the influence to bear they can upon Mayor Bransford to appoint him.

George O. Chaney is backed by City Engineer Kelsey's supporters. Krebs, it is understood, is Seffrit's favorite and Duder is backed by the Lippman forces. With this combination to satisfy it is said that Mayor Bransford, if he is not in the city engineer's office, Mayor Bransford, in an interview yesterday, made it very plain that he was going to name the man he wanted. He said that he had not yet decided, but he was leaning toward the man who could fill the position and if he could not find one that he would probably have to look around in the engineer's office. Kelsey, as a result, is well acquainted with the work which is being done and is under construction. The appointment will only last until January when a new administration will take hold of the city's affairs.

INTERVIEW THE MAYOR
Mayor Bransford was seen today by representatives of these candidates but he refused to say anything about the matter. He said that he was leaning toward the man who could fill the position and if he could not find one that he would probably have to look around in the engineer's office. Kelsey, as a result, is well acquainted with the work which is being done and is under construction. The appointment will only last until January when a new administration will take hold of the city's affairs.

Mayor Bransford was seen today by representatives of these candidates but he refused to say anything about the matter. He said that he was leaning toward the man who could fill the position and if he could not find one that he would probably have to look around in the engineer's office. Kelsey, as a result, is well acquainted with the work which is being done and is under construction. The appointment will only last until January when a new administration will take hold of the city's affairs.
