AMERICAN.

Wired From Washington.

WASHINGTON, 2.—Rear Admiral Benjamin F. Sands (retired) is dead.

Signal service reports for the Pacific states were resumed to-day.

The President has made the following appointments: Col. Halsburd, U. S. Quartermaster General, to succeed General Ingalls, retired; Wm. J. Gallbraith, Associate Justice of the Supreme Court of Montana; Saml. J. Kirkwood, of Iowa, Silas B. Dutcher, of New York, and Anthony Gilkeson, of New York, commissioners to examine 45 miles of railroad and telegraph line constructed by the Oregon & California Railroad Company southwardly from the city of Roseburg, Oregon; Morgan D. Tracey, Receiver of Public Moneys at Lewiston, Idaho.

The annual report of the chief of the mail division of the Pension Office shows the receipt during the fiscal year of 53,411 applications for pensions, an increase over the previous year of 35,605. Seventeen thousand letters were received from congressmen.

Decrease of the public debt during June, $18,698,201.

Bids for contracts for the construction of new naval cruisers were opened at the Navy Department to-day. John Roach was the lowest bidder for all four vessels. He bids for the *Chicago* $889,000, the *Boston* $619,000, the *Atlantic* $617,000, and the *Dolphin*, the dispatch boat, $315,000. The contracts will be awarded to him. There were only four bidders for each vessel.

Gen. Steinmetz, expert, continued his testimony this morning before the Hill investigation committee, relative to the cost of the extra work of Bartlett, Robbins & Co. upon the New York postoffice.

Hill was called upon to produce certain vouchers, and the committee adjourned to July 5th.

The Secretary of the Treasury has decided to continue the present system of fastening cars employed in the transportation of imported merchandise with lead seals. He has awarded the contract for supplying them for the present fiscal year. The new seal will cost about $3 per 1,000 a reduction of $2.50 per 1,000.

The President left for New York this afternoon. He has signed the commissions of the four newly appointed Collectors of Internal Revenue, and issued letters of designation to the Collectors retained under the recent consolidation.

During the fiscal year just ended, there has been a net increase in the postoffices established of 1639, compared with the previous fiscal year.

Preston, acting Director of the Mint, says that under the act which authorized the coinage of trade dollars, these pieces were coined for depositors of silver bullion at the mints, and charges imposed for coinage at a rate not to exceed the actual cost to the Government of the manufacture. By this act any owner of silver bullion could have the same coined into trade dollars. They therefore were not issued or paid out by the Government in payment of obligations, or exchanged for other money. The Government has endeavored to keep the trade dollar in its lawful, proper channel, and from ignorance of the law relative to this coin parties have taken them in ordinary business transactions, when they could have lawfully refused. Preston says there is no remedy unless Congress legislates upon the matter. His idea would be to call all the trade dollars in and redeem them. Congress fixing the rate at which they would be redeemed.

Jersey City, 2.—John Hallard, ex-president and chief wrecker of the Mechanics' and Laborers' Bank, is sentenced to 18 months in the State Prison, which judgment was affirmed. The sheriff took him immediately to prison.

New Haven, 2.—Daggett, owner of the horse Boston, who raced the animal against the catamaran from New York to Stony Creek, ninety miles, is arrested charged with cruelty to animals.

Bradford, 2.—The coroner began his inquest to-day on the bodies of those killed in the accident on the Rochester & Pittsburg Railroad yesterday morning. Five witnesses were examined. The testimony elicited supported the story of Mrs. McCurdy that the train men were asleep at the time of the accident. The inquest was then adjourned until to-morrow.

John Collins of Limestone, New York, one of the injured, died to-day, making the seventh death. David Ford, brakeman, is also in a precarious condition. It is thought the others will recover.

Depravity and Disaster.

NEW YORK, 2.—Wm. H. Seaman, aged 24, shot and killed his sister Fanny, aged 28, and then killed himself at Throggs Neck, Westchester county, yesterday. It is believed he was insane.

Fanny Seaman, whose father and mother are dead, resides with the family of W. L. L. Ferris, a respectable Quaker related to the Seamans. Her brother William, who was a frequent visitor at the house, had, it appears, been engaged to marry a young lady of this city. She, hearing that insanity had developed itself in the sister of her betrothed, broke her engagement with him. Young Seaman arrived at the house unexpectedly yesterday, entered unseen by a window, and made his way to the sleeping room of his victim. The report of two pistol shots disturbed the household and when the room was entered, the lifeless bodies of the sister and brother were discovered.

Harrisburg, Pa., 2.—The Dauphin County Alms House buildings, laundry and schoolhouse only excepted, burned to-day. All the inmates were saved, including some insane, some of whom resisted removal desperately. One woman, was badly burned, her clothing taking fire from flying sparks. Loss, $200,000; insurance $30,000. The insane were this evening removed to the State Asylum, and the sick brought to the hospital here. Tents were procured at the Arsenal, which will be erected near the ruins for paupers. Twelve of the insane, very violent escaped the guards in the confusion, and are still at large.

Port Jarvis, N. Y., 2.—At 4 o'clock to-day the thermometer registered nearly 100 degrees in the shade. At half past 4 a heavy wind and rain storm struck the village from the west and did much damage to trees fences and small buildings. At Hancock the Erie freight house was totally demolished, the Catholic church blown flat to the ground, and other houses damaged. The telegraph poles are down.

Binghamton, N. Y., 2.—A terrific storm of wind and rain visited this section this afternoon. Many large trees were uprooted, houses unroofed and blown down. The Catholic Church and other large buildings are damaged badly. The storm was wide spread and destructive generally.

Williamstown, Mass., 2.—A tornado swept through Williamston Valley at 4 this afternoon and wrecked the new college gymnasium, where the alumni dinner was eaten on Wednesday. Had the dinner been to-day, a hundred must have been injured. Loss to the college about $6,000. Many barns and trees were blown down.

Milwaukee, 2.—A severe storm swept over Ozaukee County at 6 o'clock this morning, demolishing buildings at Necedah, Fond du Lac, Belgium, Fredonia, Oakfield, Lamartine, Princeton, Port Washington, Dartford, Ripon, New Cassell, Mayville, Brownsville, Kewaskum, and a dozen other towns. In Belgium and Fredonia alone over 200 buildings were blown flat. At Oakfield, nine miles south of Fond du Lac, hardly a chimney is left standing. King & Erwin's barn and press were totally demolished, and the loss in the whole village is estimated at $15,000. The storm was about 2½ miles wide. At Port Washington three men named Hollander, Soule and French were drowned. The schooner *Ganges*, off Port Washington, lost all her topmasts. Several other vessels were seriously damaged. At Necedah a $13,000 bridge, over the Wisconsin River, was damaged to the extent of $4,000.

Wilksbarre, Pa., 2.—The Covington and Baltimore mines are flooded with water over 200 feet deep. In the former the embankment supporting the main train of the Delaware & Hudson Railroad caved in after the track had fallen down, and another house is in imminent danger. The inflow of water is checked. It will take six weeks to pump the water from the mines.

New York, 2.—The pilot-boat reports that the new Cunard steamer *Auriana*, from Liverpool June 23rd for this port, broke her connection rod and burst her cylinder, on Sunday, July 1st, at 5.40 p.m., off Montauk Point. No one was injured. Six tugs will be dispatched to tow her into port.

New York, 2.—Shortly before 6 this morning a violent storm broke over the city, sweeping through the streets with such strength that walking became almost impossible, while clouds of dust filled the air. An unfinished three-story house in Ann street was blown down. The front wall of the brick theatre owned by Harry Miner, in the course of construction, also fell. The workmen escaped injury by having abandoned the building when the storm broke.

Chicago, 2.—Mr. Bensly stated that McGeoch authorises him to make an offer of fifty cents on the dollar, payable in ten day, and would undertake to raise $450,000 in addition to what is in the receiver's hands for that purpose, provided all the creditors would sign an agreement accepting it as a settlement in full, and would withdraw all suits, attachments and injunctions so that he might realize on his property so tied up. The creditors in general express themselves glad of the opportunity to settle on that basis, though one or two members opposed showing favor to persons whom they termed outsiders. The proposition, however, was finally accepted, and a committee appointed to secure signatures to the terms of settlement. Mr. Bensly states as the result of a thorough examination that McGeoch had not sufficiently close connection with other capitalists to make them liable as partners.

British Briefs.

A special from Paris states the Compte de Paris started for Frohsdorff to which place yesterday the Orleanist Council decided he should go with the Duc de Nemours and other participators in the elaborated fusion visit of 1873. West Bromwich, 2.—The American Rifle Team practiced here this morning and made good scores at the short ranges. In the afternoon they shot a competition match with 16 crack shots of the Midland club. Five shots each at 800, 900 and 1,000 yards. Prizes were offered these making the best aggregate. The weather at the start was most favorable. On the American side, Sergeant Paulding, Dolan and Van Heussen at 800 yards made 25 each, the highest possible score; J. M. Pollard, 23; and Major Denman, F. Stuart and C. Winham, 20 each. On the Midland Club side, the highest scores were made by Bites, Reading and Bird, who made 21 each. On account of the lateness of the hour it was arranged to fire only two shots each at 900 yards and the full number at the 1,000 yards. A violent storm arose, however, and the shooting was stopped. The English riflemen were much disappointed, as they had expected to recover ther losses at the long range.

For You, Madam,
Whose complexion betrays some humiliating imperfection, whose mirror tells you that you are Tanned, Sallow and disfigured in countenance, or have Eruptions, Redness, Roughness or unwholesome tints of complexion, we say use Hagan's Magnolia Balm.
It is a delicate, harmless and delightful article, producing the most natural and entrancing tints, the artificiality of which no observer can detect, and which soon becomes permanent if the Magnolia Balm is judiciously used.
