COAL SITUATION IS RELIEVED

Plenty of Coal to Avert Famine If no Corners on Fuel Are Made.

S. P. RY CO. SUED FOR \$10,000

O. S. L. Sued for Breach of Contract—Press Club Files Articles—Treat for Play Goers.

Ogden, Nov. 26.—Through the personal attention of General Supt. E. Buckingham of the Oregon Short Line and Local Agent Cronin of the R. G. W., the coal situation which was causing so much concern in Ogden last week, has been relieved to a degree and it is believed if the people of Ogden will now use good judgment and buy the coal only as it is needed, the coal famine that was staring the people of Ogden in the face can be averted. Through the efforts of the railroad companies about 20 carloads of coal have been received in Ogden during the past few days, which has been distributed judiciously among the people of the city and county, thus making it possible for many homes to be made warm temporarily, and now that the rush to the coal yards is not so great as a few days ago, the local dealers hope to receive a few cars of coal continuously to cope with the situation. The public schools have been supplied with about enough fuel for 10 days, also most of the large concerns who use large quantities of coal. Coal is coming in from all of the mines, but the people must not expect to get any special kind for a short time at least.

\$10,000 DAMAGE SUIT.

Patrick Coyne Sues Southern Pacific For Personal Injuries.

Ogden, Nov. 26.—The Southern Pacific Railroad company has been made defendant in a \$10,000 damage suit filed in the district court by Patrick Coyne, alleged to be due for personal injuries. The complaint alleges that plaintiff was employed at Palisade, Nev., on the night of Aug. 31, to do some work on a trestle which stood about 15 feet above the mouth of the tunnel being driven by the railroad company. That while at his work about 2:30 in the morning, a dirt car ran him down and threw him from the trestle to the ground, causing injuries from which he still suffers. The accident was caused by the carelessness of the company in not having a light on the car and in not warning plaintiff of the approaching danger.

An action has been filed in the district court by Al Osterhout against the Oregon Short Line to recover \$3,242 damages for the loss of a stock of cattle. Others have loaned him money, which he obtained from them under some pretext or other. The sheriff's office was notified and about a hundred Japs are out looking for Kazaki. DUBLAN, MEXICO.

"WHITE MEXICO."

Two Feet of the Beautiful Fell in Mormon Colonies.

Special Correspondence.

Colonla Dublan, Chihuahua, Mexico, Nov. 19.—On the 16th and 17th inst. a heavy windstorm prevailed, but little damage. Sunday morning rain began and continued until about 3 p. m., when it ceased. "The beautiful snow," began to fall, continuing all night. The morning snow was from 15 to 17 inches deep and still snowing. Three inches more fell by 3 p. m., when it ceased falling. As the earth was warm much of it melted as it fell, so it is safe to assume that nearly two feet fell here. The old timers say they never saw its equal. The country is certainly deserving a new name, "White Mexico," as "the beautiful" covers the whole landscape between here and El Paso, Tex. Trains are on time.

INCREASING BRITISH SAVINGS.

Government Postoffice Banks Encourage Thrift on Part of the People.

Special Correspondence.

The rapid growth of the British savings banks in the past 15 years is shown in the following report from Consul Albert Halstead, of Birmingham. Depositors have doubled in number, from under 5,000,000 to 10,000,000, and the ratio of depositors to population has increased from 1 in 7 to 1 in 4.35. Deposits have increased from \$29,140,861 to \$74,248,181.50, and the number of postoffice banks from 10,000 to 15,000. The average of each account is now \$15.55, or \$4.42. The scope of the work has been enlarged, so that now \$50 (\$24.32) can be deposited in any one year, and the total deposit of any one individual may aggregate \$200 (\$97.30). Fifteen years ago an individual could deposit but \$20 (\$14.99), his total on deposit could not exceed \$150 (\$72.97). Another improvement is to calculate the total deposited in one year as the amount alone deposited. In 1890 money could only be drawn upon notice being given. Now small sums up to \$1 (\$4.86) can be withdrawn on demand at the nearest postoffice, and larger sums, if desired, by the use of the telegraph, at the expense of the depositor.

The soldier on foreign service may deposit through the war office, with increasing balances. The expenses of management have decreased to 6s. 7d. (\$2.33) for each \$100 (\$46.65) to 6s. 11½d. (\$1.69). It is said that from over 1,000 schools money is received by the postoffice and placed on deposit under the names of the children. There are also 5,000 penny banks which keep accounts with the postoffice. The post-office bank is managed on the principle of encouraging the wage earners to save.
