

CORRESPONDENTS ARE SUBPOENAED

Must Appear Before Federal Grand Jury for District of Columbia.

PANAMA CANAL PURCHASE.

Concluded That Investigation is in Connection With Newspaper Charges of Corruption.

Washington, Jan. 16.—Six Washington correspondents of out-of-town papers and a local news bureau were today subpoenaed to appear next week before federal grand jurors and testify, presumably in connection with statements appearing in their publications bearing on the Panama canal purchase. So far as it has been possible to ascertain these were the only ones cited: Otto Carmichael, Charles S. Ambert and E. Jesse Conway of the New York World; James Hornaday, Indianapolis News; Jeremiah Matthews, New York Sun; Harris M. Crist, Brooklyn Eagle, and William Smith, a newswoman of Washington, engaged in selling New York papers. With the exception of Mr. Crist, who is commanded to appear before the federal grand jury, the parties are directed to appear before the federal grand jury of the District of Columbia next Tuesday.

The World men were also directed to bring with them files of the paper for September, October, November and December, 1908. "In the case of the United States versus the Press Publishing company," publishers of the New York World. There is no doubt that the subpoenas all have to do with a suit for libel which it is believed has been brought by the government in New York against the World. The publishers of the New York Sun and the Indianapolis News, Mr. Luffan and Delavan Smith, were denounced by the president in a letter dated Dec. 1 last, to William Foulke. In his special message to Congress of Dec. 15, regarding the charges of corruption, the president announced that the attorney-general had under consideration the form in which proceedings for libel against Joseph Pulitzer, publisher of the New York World should be brought. Nowhere in the annals of the government has such action before been taken as the government suing for criminal libel.

PRESIDENT EMPHATIC.

The president, in his message, was most emphatic in saying that it should be left to a private citizen to enter the suit, and was particularly to state that he did not believe "we should concern ourselves with the particular individuals who write the lying and libelous editorial articles of the press." The real offender is Mr. Joseph Pulitzer, editor and proprietor of the World.

It therefore is inferred that the correspondents were summoned as witnesses, and not with the ultimate idea of making them co-defendants. All efforts to get any information regarding the status under which the suit has been brought failed. That every effort was made to prevent a "leak" in New York before the subpoenas were served is evidenced by the fact that Mr. Crist's subpoena was directed to "John" Crist, the pseudonym later being written upon it that "John" was a fictitious name. The fact that Mr. Crist has been ordered to appear in New York is regarded as evidence that if any party, having had information to bring such an action in New York state courts it had been abandoned.

Grand jury proceedings in the District of Columbia are always conducted with the greatest secrecy. Additional interest is lent to the case by the presence here of William Nelson Cromwell, who represented the canal company in the negotiations with the government. Several attempts were made to reach him at his hotel, but all others were informed that he was not in.

SUBPOENAS SERVED.

New York, Jan. 16.—The news from Washington that members of the New York World staff in Washington and other correspondents there have been subpoenaed to testify before federal grand jurors, presumably in connection with published statements bearing on the Panama canal purchase, was received here about United States District Attorney Sullivan and his associates had in the federal building for the day. It was learned, however, that subpoenas had been served on J. Angus Rice and William Smith, respectively secretary and editor of the Press Publishing company, publishers of the World, requiring them to appear before the federal grand jury here on Monday.

N. Y. WORLD'S STATEMENT.

The world made this statement regarding the subpoenas issued here: "Subpoenas were served today on William P. McLaughlin, editor of sports and athletics of the Press Publishing company, and on J. Angus Rice, secretary of the company, requiring them to appear on the 19th of Jan. 1909, at 10:30 in the forenoon, before the United States grand jury, to testify 'all such persons who may know generally on the part of the United States.'"

"Subpoenas in this form seem unprecedented in the history of criminal law."

of these subpoenas that a general investigation is sought in any and all subjects of which the witnesses have any information, without requiring that such investigation be given in a proceeding under investigation by law, and grand jury, as required by law, and it being thus clearly a mere fishing expedition on the part of the government, orders to show cause have been obtained, returnable Monday morning, at 10:30 o'clock, why subpoenas should not be quashed."

INDIANAPOLIS MEN SERVED.

Indianapolis, Jan. 16.—Six Indianapolis newspaper men were served with subpoenas late today to appear before the federal grand jury in the District of Columbia at Washington on next Wednesday, Jan. 21, and testify, presumably in regard to the matter printed in the Indianapolis News bearing on the Panama canal purchase.

Four of the men summoned are connected with the News. They are: Hilton C. Browne, general manager; Bert Parker, editorial writer; Edward Harding, foreman of the composing room, and Charles Clark, bookkeeper. The others are Albert Sahn, county auditor, and M. Berty, county assessor. It is presumed the subpoenas are to establish the ownership of the paper.

Foreman Harding is directed, it is said, to take with him the original copy and matrix of the editorial page of Dec. 8, 1908. The editorial in question commented on a resolution calling for an investigation into the details of the purchase of the canal property from the French company. Various allegations as to the final disposition of \$400,000,000 sent to France were made in the editorial.

WHAT BONAPARTE SAYS.

Baltimore, Jan. 16.—Atty.-Gen. Charles J. Bonaparte tonight gave the following in response to a request for a statement relative to the expected Panama canal libel suit: "I expect to be in a position to make a full and clear statement on the subject mentioned within a very few days. At this moment, however, I cannot find anything for publication which would be of any public interest. I must therefore ask my good friends of the press to exercise great patience. I just now promise to soon let them know all there is to be known, at all events all that I can tell them."

JUDGE TAFT PRAISES

PROGRESS OF THE NEGROES

Augusta, Ga., Jan. 17.—Introduced to a big audience of men, comprising the negro Y. M. C. A. of this city, today, President-elect Taft discussed the Christian uplift of the Y. M. C. A. work.

Dr. Walker, known as the "Black Spurgeon," who introduced Mr. Taft, said the negroes of Georgia owned a million acres of land in the state and paid taxes on \$20,000,000 worth of property.

This report Mr. Taft regarded as most encouraging. He gave him an illustration for the oft-expressed belief that the race question must be settled by the negroes themselves becoming indispensable to the community in which they lived. This meant industry, information and thrift, acquired by constant individual effort.

He dwelt at length upon the advantage of Y. M. C. A. work to bring about this end, and illustrated his point by picturing the temptations and depression of America in the Philippines and the help which the association is rendering there to afford wholesome hours of entertainment for the leisure hours. It was his belief that the Y. M. C. A. had brought about in this country more tolerance between the various religious denominations. As an example of this, he gave a detailed account of the situation in which the government found itself with respect to the friar lands in the Philippines.

After he had described the Y. M. C. A. work on the isthmus of Panama, where four clubs are running, each under the direction of an experienced Y. M. C. A. secretary, paid by the government, where 10 or a dozen ministers are also employed by the government, with a plan endorsed to establish two or three more clubs, Mr. Taft remarked:

"It is possible we will be charged with having filched that money from the public treasury. But if we have, we have accomplished a good work with it. I think, also, the expenditure could be defended on strictly legal grounds. We have entered the isthmus of Panama and introduced there some 50,000 souls. Unless we take special pains to have their morality looked after, unless we furnish ministers, churches and Christian clubs, we are sure to have such a deterioration of such demoralization that we will never build the canal. Hence, if we are to be impeached for spending that money, it will be in a good cause."

Mr. Taft arrived here from Atlanta at 9 o'clock today.

Fred W. Carpenter, who will accompany Mr. Taft to the White House as secretary to the president, got here today from a vacation in California.

The statement is authorized from Mr. Taft that no person has authority to represent the president-elect as taking any attitude whatever regarding the senatorial situation in Oregon. The need of such a statement has been expressed upon Mr. Taft's information that his name was being used in efforts to break down the Oregon primary law.

E. H. Harrison is expected here tomorrow.

UNION LABOR TO ASSIST IN

DISTRIBUTING IMMIGRANTS

New York, Jan. 18.—Union labor in this city, as represented in the central federated union, stands ready to cooperate with the department of immigration in the matter of distributing immigrants by sending them from congested centers to localities where they may obtain work. This plan heretofore discussed, was agreed upon yesterday at a meeting of the union at which T. V. Powderly of the immigration department delivered an address. Mr. Powderly's meeting with the labor men was partly due to criticism which had been voiced in effect that the local branch of the division of information of the department of immigration had been instrumental in the distribution of strikebreakers. This he emphatically denied, saying that he would resign his position if he were even asked to do such a thing.

CUBANS WILL SOON COME TO THEIR OWN

On Jan. 28 They Will Assume Reins of Self Government For a Second Time.

INTERVENTION ENDS THEN.

Even Now Cuban Congressmen Are

Discussing Question of an Increase of Their Salaries.

Havana, Jan. 17.—On Jan. 28, at noon, the Cuban people will come into their own for the second time at the hands of the American government. It was on May 20, 1902, that the American flag, hoisted after the war with Spain, was hoisted down in favor of the blue-striped, single-starred ensign of Cuba.

Then, in September, 1906, a company of marines landed at the palace from the United States cruiser Denver and halted a victorious revolutionary army on the outskirts of Havana, and American intervention, which first came against a foreign power, was once more a reality, this time to set things right among the Cubans themselves.

The members of the Cuban congress had become indifferent, and for months prior to the revolution it had been impossible to secure the attendance of a quorum. This necessitated government by presidential decree, and it was quickly followed by the cry that President Palma was assuming the role of dictator. The American provisional governor, Charles E. Macgonigal, has done all that was possible for him to do to prevent a recurrence of the state of affairs, by decreeing that congressmen who do not attend the sessions shall not receive pay. These rules, however, have already been declared dictatorial by the congressmen, and an attempt undoubtedly soon will be made to repeal or amend them.

The congressmen are even now discussing an increase in their salaries from \$200 to \$400 a month, although the Cuban constitution, like that of the United States, declares that an increase in salaries shall be effective only in succeeding congresses to that amending the law.

The Liberal party, which claims to be the party of the common people, went into power as the result of an almost unanimous ballot.

Maj.-Gen. Jose Miguel Gomez, the new president, has magnanimously decreed that although the Conservative party vote in the recent election was almost nothing, that party shall have 30 per cent of the appointive offices. The inauguration of Gomez on Jan. 23 will take place at the palace at noon. Several American warships will fire a national salute, but neither United States sailors nor soldiers remaining on the island will participate in the inaugural parade, as their presence might detract from the pride of the people in the return of native sovereignty.

DETERMINED TO DROWN

Two Young Women Fought Desperately Against Being Rescued.

New York, Jan. 18.—Two young women plunged into the waters about New York yesterday and both of them fought desperately against being rescued. The first, who gave the name of Albertina de Cour, said that she fell off a pier at the Battery by accident, this notwithstanding the fact that she struggled to ward off her rescuers later. A soldier stationed at Fort Wood is the man who dragged her into shallow water, barely in time to save her life.

The other young woman, named Janet Dalton, made a deliberate effort to end her life by jumping into the Hudson river at the foot of West Twenty-sixth street. Watchmen saw her leap and put forth both hooks for her to clutch, but she warded them off and it was necessary to entangle her clothing to drag her ashore. At a hospital she said she was a seamstress, "tired of life and ready to die."

DIVORCE.

Dr. Schurman of Cornell Extremes Either Way.

New York, Jan. 18.—Milton, the poet, was an advocate of divorce, according to President John Gould Schurman of Cornell university. In an address before the Society of Ethical Culture Dr. Schurman said here yesterday:

"I am the last man in the world to allude to the regulation of divorce as a bright feature of the American civilization. It is a shame and danger in the extreme to which it has gone, but the other extreme would be just as bad. Milton advocated that, under certain circumstances, divorce should be permitted. We in America are enforcing today some of the best political principles which it has ever known."

EMMA EAMES CONCERT TOUR.

New York, Jan. 18.—Henry Wolfsohn has completed arrangements for a tour of 29 concerts to be undertaken by Emma Eames, commencing in Boston on Feb. 23 and to continue until the middle of May ending with the musical festival in Saginaw, Mich. On this, her second tour under Mr. Wolfsohn's direction, Miss Eames will sing in Boston, Philadelphia, New York, New Haven, Washington, Chicago, Minneapolis, St. Paul, Cleveland, Pittsburgh, Toronto, Montreal, Columbus, Louisville, Keokuk.

Constipation Caused By Indigestion

Is Cured By Helping the Stomach Do Its Work As It Should.

All forms of constipation, bowel or intestinal trouble owe most of their origin to the improper digestion of food. The bowels measure 30 feet. The inside walls of surfaces are wound tightly about with millions of nerves. These nerves give life and control millions of little muscles or strikers which are supposed to take nourishment from the food as it leaves the stomach and passes along this 30-foot human canal.

When indigestion, dyspepsia or stomach trouble occurs the food being undigested, passes over these millions of muscles, it is a fermented decaying mass and holds no nourishment as it should.

The little muscles suck it up, impart these impurities to the blood, impregnate the little nerves with poison and so the work of constipation and bowel trouble begins.

A natural juice or secretion belongs normally in the little cells and glands along the mucous membrane of the 30-foot canal or bowel. When indigestion occurs this juice is lacking and so the mass of waste matter cannot pass along as it should and is piled up and caked in the bowel thus bringing pain and misery.

After a while the nerves and nerve centers which give vigor and life to the bowel become paralyzed, thus forever prohibiting the bowel from performing its natural duties.

Stuart's Dyspepsia Tablets, when taken after meals, digest the food properly even though the stomach is sick and it makes the bowels nourishment and juices, which help the intestines not only to do their work at once, but builds them up, restores vitality to the nerves, brings new secretion to the glands and cells, helps the stomach and enriches the blood.

The stomach is the cause. Common sense and science are one on this point. You see it yourself. One little grain of Stuart's Dyspepsia Tablets will grind 3,000 grains of food. The assimilation of a meal by one of these tablets is an easy matter and it keeps the stomach clean and sweet so that in a brief time this organ is restored.

HEAD HUNTERS RAID

AN ILOCANO VILLAGE

Manila, Jan. 18.—Word has been received here that a party of Igorote head hunters have raided an Ilocano village. The raiders succeeded in carrying away three heads from among the villagers. A detachment of constabulary was at once dispatched in pursuit of the Igorotes and it is believed that they have been captured. The government has practically succeeded in eliminating head hunting.

Among the Igorotes and raids like the one on the Ilocano village are becoming rarer each year.

THE JEWS.

Dr. Emil Hirsch Declares They Are No Longer Hebrews.

Chicago, Jan. 18.—Dr. Emil Hirsch, in a sermon, declared yesterday that Jews no longer were Hebrews, in his opinion, "either in blood or in belief." "That word is gradually disappearing," said Dr. Hirsch. "It stops us emotionally as in the Hebrew institute, but usually we speak of Jewish institutions, Jewish hospitals and the like. The Hebrew God was one of power. The Hebrew religion was one of sacrifice. It was the custom to offer up the first child that the others might be spared from disease and death. That is not our belief. We believe in a different sort of God."

EQUAL SUFFRAGE

CAMPAIGN BEGINS

Chicago, Jan. 18.—The contemplated mass meeting of a campaign for equal suffrage plank in Chicago's proposed new charter have begun. At the first of these Mayor Brand Whitehead of Toledo, advocated placing a violent representative of the league at Springfield and said:

"Chicago is not governed by the officials of this city. It is ruled from Springfield by a set of political representatives of corporations who know nothing and care less about the needs of the municipality. There are women in this community who live by 'check book' and who are content to batter their rights for small paltrinesses such as seats in street cars and theater tickets."
