THERMOMETER 66° in the shade at one o clock to-day. Lors or Fun, at Graham's benefit.

THEATRE. - Last night Boucleault's drama of the "Colleen Bawn" was played very well, though a hitch now and then somewhat marred the effect of the piece. Miss Walters as "Elly O'Connor," Miss Voeiler as "Ann Chute," and Mr. McKen-Voeiler as "Ann Chute," and Mr. McKen-zle as "Danny Mann," played in an excel-lent manner. Mr. Harris made a good "Myles Na Coppaleen," and Mr. Mark "Myles Na Coppaleen," and Mr. Mark Wilton rendered "Hardress Cregan" in better style than we had previously seen it on our boards, while Mr. Thorne, who took

the character of "Father Tom," was satisfactory, as he always is.

This evening for the benefit of J. C.

Graham, the ollowing bill is announced—
Buckstone's three act drama of "Single
Life," a grand fencing match between
Life," a grand fencing match between
Mesers, Martin and Price, to conclude
with the popular farce of "That Blessed

Mr. Graham apears as "Mr. Peter Pinkey, Mr. Graham apears as "Mr. Peter Pinkey, a bashful bachelor," and "John Thomas, iather of that blessed baby;" Miss Walters iather of that blessed baby;" Miss Walters as "Miss Kitty Skylark, a singing apin as "Miss Kitty Skylark, a singing apin ster," and "Mary Jane, mother of that ster," and "Mary Jane, mother of that blessed haby;" Miss Voeller as "Miss Mary blessed haby;" Miss Voeller as "Miss Mary blessed haby;" Miss Voeller as "Mr. Mar-Micaw, a man-hating spinster," Mr. Mar-Micaw, a man-hating spinster," Mr. David bachelor," and Mr. Thorne as "Mr. David bachelor," and Mr. Thorne as "Mr. David bachelor," and during the evening the orchestra will perform 11 Trovatore quadrille, armined by Prof. C. J. Thomas, This will be a fine evening's entertainthis will be a fine evening the beneficiare, This will be a fine evening's entertain-ment, and we trust that the beneficiare,

who is one of our best and most popular setors, will be incited and gratified by a SMALL Pox.-We are informed that Isaac Mills died of small pox in Centreville on Wednesday. There have been in that settlement nine cases of this disease in all, of which two have resulted in death,

The object of the convention is to effect a permanent organization for a Territorial Teachers' association. At last night's session the committee on constitution was granted till this evening to report. The convention meets again to night at the same place, at 6 clock, when it is expected that a permanent organization will be effected.

It is to be hoped that there will be a full attendance this evening, the occasion being involves the wellfare of the rising generation in this community. It is impossible to establish an efficacious and aystematic plan of education in the Territory without concentration of effort and hearty co-operation among the Teachers' of the various districts. The importance of a Territorial Teacher's Association must be apparent to all, as the object of such an organization is to bring about a unity of system and action on the part of all emgaged in the instruction of the young, and unless this object is attained the education of the children in the community must continue, more or less, to "go at loose ends."

Don't Forger, Graham's benefit.

\*\*SECOND DAY.\*\*

The attendance, to-day, is much larger than it was yesterday, the displays in the various Classes, especially in the stock, are more complete, and the show, in most departments, is one in which the Territory may feel a good deal of pride. The entire specimens of sould the show, in most departments, is one in which the Territory may feel a good deal of pride. The entire specimens of specimens of sould that the area of the community of

may feel a good deal of pride. The en-

Rose, Early Goodrich, Meshanne and Frankfort potatoes, the latter grown by Mr. James Snarr, of this city, which it would be difficult to excel. Specimens of the Peerless, grown by Mr. Wm. Jennings, were of large size, and part of 156 pounds grown from two pounds of seed. There was some fine rhubarb grown from the seed, this season, in the 16th Ward. Among the vegetables exhibited by Mr. Daniel Miller was an extraordinary specimen of the Winter Crookneck squash.

Mr. P. P. Pratt exhibited some fine Goodrich potatoes.

The almonds and wine are excellent, although no prizes were awarded on them. It was recommended by the committee, however, that premiums should be given to those products.

Premiums awarded in Class C.

Fall. Porter—No. 33, First Prize, Joseph Bean.

Fall. Gravenstein — No. 45, 2nd prize, Winter. Rhode Island Greening—No. 37. 1 ist prize, Andrew Burt.

Winter. Esopus Spitzenburg—No. 4. 2nd

cheeses, eggs, and ale, porter and bottled

were specimens of iron ore from four districts in Utah. All the above specimens were obtained from the Bureau of Mines in this city, and were arranged for exhibition by its Actuary—General E.M. Bar-

There were also specimens of marble, gypsum, magnetic, hematite, lean or grey, and brown iron ore, and coal and shells, obtained from the vicinity of the iron works in Iron County, put on exhibition by Major S. M. Blair.

The Descret Telegraph Company's department is one of the most attractive in the Fair. It was arranged and fitted up by Mr H. V. Cox, practical electrician of the Company, under the superintendence of A. M. Musser, Esq., and contained the electropian and galvanic battery, specimens of old and present styles of instruments used in constructing the various parts of and in working telegraph lines. One feature, particularly attractive to the Shocks, all of which were tried and tested shocks, all of which were tried and tested by numerons juveniles, canning any by numerons juveniles, canning the by hydron and tested any by numerons juveniles, canning the particularity in the var

C. H. BASSETT the state state of

departments, is one in which the Territory may feel a good deal of pride. The entries in some few of the departments are not solarge as is desirable, but everything exhibited indicates that the Territory is making rapid progress in art and material wealth.

In the vegetable department, the exhibitors are not numerous, but there are exhibited specimens of the Peerless, Early Rose, Early Goodrich, Meshannee and in the specimens of the marble.

Mext come specimens of splendid qualities of coal, "Rock Springs," and "Excelsion." But lack of space will not admit of our particularizing further in this department. We must, before leaving it, however, pay a passing tribute to a small basis ket of beautiful and choice flowers, from the garden of Mr. Warren Hussey, which appeared to be a special mark of admiration for visitors.

The almonds and wine are excellent, although no prizes were awarded on them.

Goodrich potatoes.

Mr. Rynerson, of Mill Creek, exhibited specimens of Goodrich potatoes and white

beans.

Mr. Keyser, of the Sth Ward, exhibited good cabbages, squash, potatoes, and some extra fine corn, some of the latter being of the "Early Jumbo" variety.

Mr. Rockwood exhibited some fine squashes, potatoes and sugar beets.

From Huntsville, where it is said there are frosts every month- in the year, there was a good show of Early Rose, Goodrich, and Meshannoc potatoes, squashes, cabbages, the Trophy tomato, very fine onions, and cucumbers.

Besides the above, and others not men-tioued, there were in this Class, some large

cheeses, eggs, and ale, porter and bottled beer from Mr. Henry Wagener, of the Galifornia brewery.

The display of minerals was very fine indeed, including specimens recently obtained from sixty-three mines in this Territory, representing the argentiferous galenas, carbonates, sulphurets, iron, copper and coal. Coke, considered by judges the best yet manufactured in the Territory, made from Sanpete coal. These specimens included two very fine pieces of copper ore, one from the North Star, the other from the Mammoth Copperopolis, the former yielding when assayed, 60 per cent of copper and \$100 in silver per ton. One specimen of horn silver ore, from the Mona mine, at Tintic, was valued at \$150, and assayed \$23,000 per ton. A specimen of silver ore from the Mona, in Dry Canyon, assays from \$2,000 to \$5000 per ton. There were specimens of iron ore from four dis-
