

MINING, BUSINESS AND STOCKS.

GOLDEN REEF WILL SOON BE SHIPPING

Company Has Over 100 Tons on the Dump Ready to Send to the Smelter.

Developments at the Golden Reef property in the Beaver mining district are such that the officers now feel certain that they will, with more work, open up a paying mine. Already, the company has 100 tons of ore out on the dump ready for shipment. This ore is of a good shipping quality and contains an average of \$9 in gold and excellent head values, according to Thomas Fountain of Ephraim, treasurer of the company.

This morning Mr. Fountain declared that the property is in excellent shape and work is being pushed ahead. Already 3,000 feet of development work has been done, including tunnels, winzes, shafts, upraises and crosscuts. The property has been worked for eight years, but as the work has been put through slowly it has not been fully developed as many other properties.

Mr. Fountain says that the main working shaft on the property is 22 feet deep and that it is the intention to extend the shaft 25 feet more before crosscutting the third level. There seems to be little doubt but what some excellent ore will also be opened up on this level.

Two bodies of ore have already been opened up. One of these is on the first level, while the other is on the second level. Both of these are proving up some excellent gold and lead ore. The company is capitalized for \$100,000, with an increase at 20 cents each. Of the treasury stock 25,000 shares still remain in the treasury to be used for development purposes. The company owns 27 claims in the district. The mine is six miles from a railroad. Most of the people interested in the company come from Ephraim, while considerable of the stock is held around Salt Lake City. It is understood that several flattering offers have been made for the property, but the stockholders assert they intend to hold it and make a mine out of it themselves.

STOCKS SHOW LITTLE CHANGE. Prices Remain Fairly Steady on the Local Mining Exchange.

Conditions on the local stock exchange were slow again today, while the margin of changes in prices was slight. East Tintic Development which has been opening into a much richer property each day was down to 14 cents today and 3,000 shares of the stock went at 12 1/2 cents. Grand Central was the only stock that fell to any extent. The stock opened at 2 1/2 and closed weak at 2 1/4. The support which this stock has received in the past was lacking today.

Yankee Consolidated reached the lowest price at which it has sold this

morning.
