FINANCIAL CLOUDS.

Never cross the vision of the man

who owns his own home and lives on

a little less than his income. It's the

man who pays rent who has the most

trouble, at the end of every year of his life, except in cases of

good fortune. He is a little poorer if

he has not paid something on account

for a home of his own.

We have recently built some beautiful homes in a fine location with every

thought for proper sanitation and modern improvements of every descrip-

tion.

These houses cost from \$3,500 up on

long time payment—long time be-

cause they are built so well that we

want to loan money on them for a

long time. You can get the keys at

488 C Street and look them over for

yourself, and then instead of paying

rent, pay for a place that will be

convenient for you.

Victory Achieved.

Day after day the case dragged

along. Conviction came with the

death sentence, but still the unequal

fight went on. The matter was carried

to the supreme court on appeal and

again the defense suffered a reverse.

Then came the fight before the board

of pardons and again the condemned

man was denied hope. Another hearing

was granted and the death sentence

changed to imprisonment for life. The

defendant, however, was granted a

new trial, and the defense was given

the right to appeal to the Supreme

Court of the state of Texas.
