CONGRESSIONAL.

SENATE.

Nebraska Ratifies Fifteenth Amendment—Washington exhibition opposed, &c.

Sumner said he had received a telegram from the Governor of Nebraska, announcing the ratification of the 15th Amendment, with only five dissenting votes.

Sherman presented a petition from many thousand citizens of Connecticut for the recognition of Cuban independence.

Wilson introduced a bill to make the importation of emigrants under labor contracts unlawful.

Howard introduced a bill granting land to aid the construction of the Dakota and North Western railroad.

Conkling introduced a bill directing the Postmaster General to make a contract with the North American steam navigation company at New York, for the transportation of mails between New York and Antwerp or Bremen, touching at Plymouth; terms, for fifteen years, the steamers to be exempt from State or federal taxation.

On motion of Sherman the funding bill was taken up and made the special order for Wednesday next.

On motion of Sumner the bill creating the office of solicitor for the State Department was taken up. Trumbull said the question suggested by the bill was whether we are to have a law department in each department of the government, and consequently a variety of discussions upon every question proffered, such officers to be subject to one head. The bill was amended so as to provide for an examiner of claims instead of a solicitor, and passed.

Morrill, of Maine, introduced a bill relative to appropriations, directing the estimates and appropriations to be made through the Secretary of the Treasury, and prescribing the methods of keeping the accounts of the appropriations.

The bill to promote an international exhibition at Washington next year was debated by Hamlin, Patterson, Nye and Sherman in its favor, and by Thurman, Morrill, of Vermont, Stewart and Schurz, in opposition. Thurman said that upon the pretext of making the exhibition a credit to the nation, the government would be obliged to shoulder the bulk of the expenses, and he regarded the whole thing as a humbug. With a view to saving time he moved to postpone the bill indefinitely. Hamlin said that the wealthy men of Washington stated that they could make the project a success without further charge to the Government than specified in the bill. Without disposing of the bill the Senate went into executive session and then adjourned.

WASHINGTON.

Income tax and tariff to be reduced.—Ports of entry and delivery.—Military change.

WASHINGTON.—The committee on ways and means have resolved, eight to one, to reduce the internal revenue bill by thirty millions. The President and the Administration favor the reduction of the tariff twenty millions.

The House committee on commerce have agreed to report Judd's bill making Chicago, Cincinnati and St. Louis original ports of entry and delivery, and have added Evansville, Ind., Milwaukee and Buffalo to the list.

The returns to the department of agriculture, during January, indicate a decrease in the average of wheat in Illinois, Indiana, Michigan, New York and New England; in California it is nearly the same as last year. Kansas, Arkansas and West Virginia have increased; in other States there is little difference.

Company K, of the fourth U. S. cavalry, which has been on duty here a long while, has been ordered to join the regiment in the department of the Platte.

KENTUCKY.

Fell dead.
LOUISVILLE.—Chas. D. Kirk, the well-known editor, fell dead in the street, of hemorrhage of the lungs, aged 67.

VIRGINIA.

Partial failure.
FORT MONROE.—The success of the recent experiments with the double-shotted projectiles is only partial; Col. Blainer, an ordnance officer, does not endorse the opinion of the inventor.

OHIO.

Exhibition of Manufactures.

CINCINNATI.—Steps are being taken to hold a great exposition of manufactures and products in this city next fall; the project will probably be carried out. It is intended to make this the greatest exhibition ever held in the West.

ILLINOIS.

Meeting of Manufacturers.—Big jewelry case.—Barrington opposed to reduction of taxation.—Farragut ill.—Vandal Congressmen.

CHICAGO.—At the annual meeting of the Woolen Manufacturers' Association of the West and South, in this city yesterday, it was agreed to hold an exposition of woolen manufacturers and textile fabrics, on Tuesday, August 2nd, the place to be selected by the executive committee. St. Louis offers strong inducements. Resolutions were adopted favoring the continuance of the present tariff on woolen goods, though several

prominent manufacturers pronounced in favor of free trade.

The jewelry store of J. P. Perro, No. 122 State Street, was robbed of about seven thousand dollars' worth of jewelry last evening, at seven o'clock, during the absence of the proprietor at supper; it is one of the most thorough burglaries in the city. The gas was left burning brightly in the store; the blinds were up, which rendered the interior visible to all passers. The proprietor was absent about an hour, and upon returning found that all the doors were locked and everything in order, but the contents of the show case were entirely cleared out.

Washington special says that Secretary Boutwell declares himself emphatically opposed to the reduction of \$30,000,000 of internal taxation; he is exceedingly anxious to have Sherman's funding bill passed as soon as possible, believing that five hundred or six hundred millions can then be taken from the internal taxation.

Admiral Farragut is quite ill and fears are entertained of his recovery. The members of Congress thus far implicated in the sale of cadet-ships are Collis, of Ala., Pettis, of Pennsylvania, Wittemore, of S. C. and Sypher, of La.

TENNESSEE.

An Outrage.

MEMPHIS.—A few days since, a party of masked men, near Collierville, Tennessee, surrounded and fired a volley into the house of a negro, wounding his wife and himself. They then set fire to the house with the intention to burn him and family; but they were rescued. There is no clue as to who the perpetrators are.

The cold weather it is feared will destroy the fruit crop.

NEW YORK.

Post-mortem Examination.—Member of the Press Dead.—Brick Pomeroy Arrested.—Southerners want to Come Home.—Funeral of Mr. Harper.—Committee of Safety Formed.—Sentenced.

NEW YORK.—A post-mortem examination was held yesterday on the body of Margaret Sheridan, murdered on Wednesday night by her husband; Powers, her paramour, the only witness of the murder, has been arrested. The husband is calm and collected.

Henry Sweetzer, one of the most versatile and best known of the younger members of the press of New York, died suddenly to-day in his thirty-third year. He was formerly one of the publishers of the Round Table, but was latterly connected with the World.

Brick Pomeroy was arrested at Penryn last night for libel; he was bailed out.

A number of Southerners, who went to Brazil after the close of the rebellion, have petitioned the Government to send a ship to bring them home. It is said that the colonies are in a very destitute condition.

The funeral of Westly Harper was attended by a vast number of prominent citizens; the New York and Brooklyn publishing trade was largely represented. All the Harpers' employees were present. Six clergymen participated in the ceremonies.

The master mechanics and builders, of Brooklyn, to-day, appointed a committee to call a public meeting to consider the subject of the more summary treatment of offenders than now dealt out by the law.

Incendiary fires are so frequent in West Hoboken that the citizens have organized a committee of safety, to be detailed for duty in squads for the protection of their property.

Jas. Welch has been sentenced to ten years in the State Prison for his recent unsuccessful attempt to murder his sister.

FOREIGN NEWS.

FRANCE.

Assassination plot discovered.—Government power abridged.—Sentenced.—Rochefort complains.

PARIS.—The government has proof of a plot to assassinate the Emperor; the Prince Imperial was to be seized. Details of a plan were found on one of the prisoners to throw bombs through the Emperor's window of the Tuilleries. La France objects to the proposed dogma of infallibility, because, if admitted, the French bishops would no longer be answerable to the common law.

The Journal Officiel publishes an Imperial decree, which, by request of the Minister of Justice, annuls the decree of '51, giving government the power of transporting to the penal settlements parties who belong to secret political societies. The Minister says that this power is to be abolished, because it is incompatible with a liberal government.

Gustave Flourens has been sentenced to six months' imprisonment, with a fine of 100 francs; Mr. Devenere, publisher of La Marseillaise, to two months' imprisonment, and to a fine of 500 francs, for publishing false news of persons arrested during the riots. Those convicted of carrying arms have been condemned to three or four months' imprisonment; and those convicted of uttering seditious cries to fifteen and thirty days.

A meeting of the deputies of the Left Centre of the Corps Legislatif will be held to-morrow, to take immediate action on the interpellation introduced in the Chambers by Jules Favre, concerning the domestic policy of the government. A resolution will be introduced declaring that, if the ministry do not accept the interpellation, the Left Centre will vote with the Left.

M. Arthur Fourville has been sentenced to six months' imprisonment and to pay 5,000 francs for violation of the press law. Rochefort writes from prison to the

Marseillaise that the Prefect of the Police has seized his editorial articles. He complains that while, up to the present time, the incarcerated journalists have been allowed to write to their newspapers, he has been denied the privilege, notwithstanding that he is a deputy of the Corps Legislatif, and has not been deprived of his civil rights.

SPAIN.

Carlist Disturbances.—English Merchants Diagonizing Themselves.

MADRID.—Carlist disturbances are reported at several places; but they are promptly suppressed. There are unmistakable indications that the Carlists are plotting for a general outbreak in the Spring; the government is prepared to meet them.

The journals of this city publish an address, signed by London and Liverpool merchants, expressing a hope that the Spanish troops may soon subdue the Cuban insurgents. They accompany the address, which is dated October last, with a contribution of 1870 pounds sterling, in aid of the mother country.

GREAT BRITAIN.

Land Tenures Compulsory.—Educational Scheme.—Paying out the East Indian Cable.

LONDON.—In the House of Lords, the committee on standing orders appointed Lord Cairns to examine the returns as to the condition of agricultural laborers and the tenure of land in Ireland. Lord Salisbury censured this mode of conducting the business, as likely to lead to great waste of time in the early part of the session. In the Commons, Messrs. under direction of the Colonial Secretary, stated the circumstances of the transfer of the domain of the Hudson Bay Company to Canada. He said the Red River difficulties would be speedily settled; though how soon, it would be premature to say.

The P. M. General again alluded to the irregularity of the telegraph service. He regretted that his hopes of improvement had not been realized; and stated that the recent storms had interfered with the working of the wires, while, at the same time, the lines were overloaded with dispatches by rival news companies; the government was unable to forward all the news reports offered.

Mr. Forster asked leave to bring in a bill providing for elementary education in England and Wales. He pronounced the present system as deplorable. The bill proposed to divide England and Wales into educational districts; grants were to be made under certain conditions, to be ascertained by inspection, and where needed, compulsory rates will be imposed to supply any deficiency in the aid from the State. Parents, when able to do so, were to pay school fees, and all others were to receive free tickets to send their children to schools in every poor section, and thus education was to be entirely free. A general debate followed in which a number of members participated.

Mr. Walker made a speech in support of the bill. Mr. Fawcett wanted attendance at schools to be made compulsory. Sir J. Pakington argued against the bill; but Forster met his objections and promised that the House should have time for deliberation. The bill was read for the first time, when the House adjourned.

The Great Eastern had, up to yesterday, passed out a hundred and two miles of the Bombay and Red Sea cable.

BRITISH COLUMBIA.

Legislative.

The legislative council of British Columbia opened its session yesterday by commission. Governor Musgrove was too unwell to appear. The Governor announced himself in favor of Confederation with Canada and stated it as the policy of the imperial government, the terms being that Canada assumes the colonial debt.

HAVING successfully practiced Homoeopathy to some extent for the last 22 years, in India especially, on the diseases of children, to which it is peculiarly adapted, its remedies being tasteful and easily administered the undersigned will be happy to give advice and medicine GRATIS to any parties who may personally apply to him at his residence behind the 14th Ward Co-operative Branch Store, at the S. W. corner of the meat market, from 7 to 10 p.m., and from 10 p.m. to 12 p.m., who are required to bring a couple of small clean bottles or large vials with them for the medicine.

Should patients not be able to apply personally, they may send a friend to describe distinctly the symptoms of the complaint or bring a written statement of the same, which, if severe, Mr. M. will if possible, endeavor to visit.

Free will offerings, however small, will not be refused on the recovery of the patients, but no demand will, in any case, be made either for medicine or attendance.
