NOTICE!

With the view to accommodate the Sunday Schools in this City, after this date there will be only one meeting held in the New Tabernacle on each Sunday, at 2 p.m., till further notice.

BRIGHAM YOUNG,
GEORGE A. SMITH,
DANIEL H. WELLS.

SALT LAKE CITY, Jan. 29.

Tabernacle Services.—Elder Orson Pratt preached yesterday afternoon.

Gymnastic.—The members of the Fire Brigade intend to fix up a gymnasium in the rear of the City Hall, in which to develop their muscle.

Water-Spout.—During the storm last night a cloud burst over the vicinity of South Willow Creek or Draperville, causing a genuine water-spout.

American Fork.—The City Fathers of American Fork have had a six-foot picket fence erected around the public square of that city. The fence was put up by carpenters from this city.

Shoshone Falls.—Mr. C. R. Savage purposes leaving for Shoshone Falls, in the Snake River country, to-morrow, for the purpose of obtaining views of the picturesque scenery of that region. On his return himself and Mr. Geo. M. Ottinger intend visiting the famed canyons of the Colorado River, for the same object.

Traveling Company.—Mr. J. A. Sawtelle and a company of dramatists are about to start on a trip to some of the settlements south of this city, for the purpose of giving entertainments. Mr. S. will appear in the country places in "Rip Van Winkle," for the first time in Utah, but he has played that role frequently elsewhere.

Terrific.—Parties on the down train from Ogden last night state that a thunder-bolt was seen to strike the ground at Bountiful, causing the dust and gravel to fly up and the earth to tremble as if shaken by an earthquake. The part struck was near a two-story house, the inmates of which must have felt a little queer just then.

Hot in New York.—A note from Elder W. C. Staines, dated New York, June 30, says that the heat there has been extreme this season, 101 deg. in the shade June 29, the hottest day known there in that month for fifty years. However, Bro. Staines' health thus far has been better than for years past. He hopes to leave New York for Utah this month.

Harvest.—It is generally conceded that the storm of last night was the heaviest that has ever occurred in Utah since its settlement, and most people say they never witnessed anything surpassing it in their lives. The lightning seemed like the fireworks of nature, extinguishing by their brilliancy the most powerful efforts of man at illumination.

A general impression prevailed last night that some damage to buildings and probably life must have been done in this city, but we have not learned that such was the case. A large number of people were badly frightened, and are suffering yet from the nervous prostration produced by the fright.

Circus.—On Friday night Wilson's Amphitheatre was filled in every part, and there was also a large attendance on Saturday afternoon and evening. With respect to the performances we need say no more than that they exceed in point of dexterity and general points of excellence those of any other troupe that has ever visited this city. There is no clap-trap about the amusement; every performer in each department goes through what he or she has to do without bungling, and some of the feats accomplished are really wonderful. Where all so well it is useless to particularize. The pavilion will be open again to-night.

Essence of Foolishness.—We are informed that a party in the north-eastern part of the city has frequently laid pieces of poisoned bread and butter upon his lot for the purpose of destroying the chickens belonging to neighbors, and that where lots of children run around. Such Lucretia Borgia practices towards fowls should not be indulged in so dangerously open a manner. If at all. How easy would it be for a child to pick up one of those poisoned pieces and swallow it. Should such a circumstance occur and terminate fatally, it would look like little short of a case of murder in the second degree.

A Nuisance.—We hear of a nuisance of an intolerable kind. Boys and youths are in the habit of bathing in City Creek. This should be immediately put a stop to for several reasons, which it is unnecessary to elaborate upon. One is, however, the very obvious fact that people have to drink or use for culinary purposes, water in which a lot of dirty, unwholesome fellows have washed themselves. Water thus used, may do well enough to irrigate land with, but when it comes to swimming in it, another objection is, that when they go up the side of the stream, they leave a pleasant walk, if any ladies have to form into an advanced guard to go ahead of the others and give the bathers out and make them resume at least a portion of their habiliments.

Robbery.—Yesterday there was another rehearsal of the same old story at the children's grand jubilee.

Killed.—A horse was struck dead by lightning, at Sevelon's settlement, last night.

Quiet.—Saturday was the quietest Fourth of July that Salt Lake has ever seen. A large proportion of the citizens went out of town.

Excitement in the Assembly.—Paris, 4.—The Union, which had published the Count de Chambord's manifesto, has been suspended for two weeks. In the National Assembly, to-day, Lucien Brun asked why the Union was suspended. Roustan, Minister of the Interior, in reply, admitted that the suspension was partly because the paper had attacked the September 22, and partly because it had published the manifesto of the Count de Chambord. Here there was great excitement in the Chamber, and when it subsided, Roustan further stated that the power of Marshal McMahon was irrevocable. Brun then gave forth a notice that he would submit an interpellation, and Tuesday
