ITO RETURNS.

Tokio, April 1, 7 p. m .- The Marquis Ito returned here today from his special mission to the emperor of Korea. He was received at the railroad station by the ministers and was granted an audience by the emperor of Japan.

While it is denied that political significance is attached to the mission it doubtless will cement the cordiality tetween the Korean and Japanese courts and will inspire the Korean emperor with confidence in the intentions of Japan.

GREAT JAPANESE LOSS.

St. Petersburg, April 1.-The following semi-official dispatch has been received from Liao Yang:

"In the first encounter with the Japmese in northern Korea, which was crowned with victory for the Russian arms, the enemy's losses were ten times those of the Russians. According to Korean reports the Japanese buried to men, while 170 wounded were re-moved with the help of 500 Koreans to the headquarters of the Japanese. The confusion of the Japanese was so great that they hoisted the Red Cross flags in token of surrender. Throughout their war with China the Japanese Throughout never showed themselves so distracted. ander was appointed by Judge Holt to act as a special examiner in the case. Receiver Henry W. Taft and David E. Miller procured the order from Judge Holt of the United States district court requiring Hawley and Ray not only to appear today before the special examiner but to take to the examination room all their books and papers that would disclose exactly what were their relations to Mr. Sully. Former Secretary of War Elihu Root was retained to question Mr. Hayley and Mr. Ray. At the opening of the examination Commissioner Alexander ruled that the examination would not partake of a "litigated proceeding. matic representatives is expected short-

Mr. Hawley was then called and his examination was begun by Mr. Root. Just at this time Mr. Sully entered the room and took a seat near the lawyers'

table Mr. Hawley testifies that his bustness relations with Sully & Co. began in December last and ended on March 18. Mr. Hawley said he kept no special record of his cotton operations, relying chiefly on the statements he received from Sully & Co. following a purchase

or sale. At the request of Mr. Root, Hawley's lawyers produced issued a batch of these statements.

They showed that on Dec. 10,000 bales of cotton were sold for the account of E. Hawley and D. J. Sully jointly and on Dec. 23, 19,100 bales were bought and sold for the same account There were also similar transactions on a smaller scale for Dec. 24 and 27, and then came a number of statements of various dates in January, all representing heavy transactions in cotton for Hawley's account. Mr. Root read from a statement showing that in one particular transaction Messrs, Hawley and Sully had divided a profit of \$90,-

It developed during the examination that the first transaction Mr. Hawley had with Mr. Sully was in Septemebr, 1903, when he loaned Sully individually \$700,000 on securities.

A letter from Hawley to Sully, dated March 18, was read by Mr. Root. It read in part: "I enclose herewith statement of ac-

PANAMA CANAL DECISION. Bonaparte Wyse, Original Con-

Paris, April 1 .- Bonaparte Wyse, the original concessionaire of the Panama canal, in an interview today, criticising the Panama canal decision, says he has been moved by the loftlest motives, mainly to prevent the new company from absorbing three-quarters of the payment to be made by the United States, and thus depriving the old company of its just share. He also has fought to prevent carrying out what he designates as a "monstrous crime" in the abandonment of the canal as a French enterprise, and declares the decision of the court yesterday was technical and did not reach the merity of the case. M. Wyse adds: "But all is not finished, suits will go

We will seek the support of the public and press in a campaign of pub-

Tracks Under Water.

Alliance, O., April 1 .-- The Cleveland & Pittsburg tracks of the Pennsylvania company are under water for 10 miles south. The New York limited, eastbound, is stalled at Wooster, while another passenger train started around to Pitisburg via Cleveland has been lost track of. The Mahoning river at this point is the highest ever known and still rising. Washouts clear to Canton have put the tracks in such shape railroad men say it will be days before trains can run.

Flood Continues Serious.

Indianapolis, Ind., April 1 .-- The flood conditions throughout southern Indiana and southwestern Illinois are still serious. The heavy rains last night added to the danger. At Portland, where a week ago three lives were lost and heavy damage done, only three or four business houses are above water. At Peru also the situation is serious, while at Alexandria, where the worst flood in the history of that town is being ex-perienced, the inhabitants were rescued from their homes by the firemen. All trains are annulled.

Guy Wetmore Carryl Dead.

The particulars of the robbery were obtained when the train, minus the express car, reached Redding this morning. When the train pulled into Copley, which is merely a watering station, the three masked highwaymen came out of the brush on the east side

The reply was evidently satisfactory because O'Neill slid the door back about 18 inches when a rifle bullet was sent through his body. It passed near his heart and the messenger back dead. O'Neill was not armed. He evidently believed from what he was told that the knock came from a member of the train crew.

CREWS ROUNDED UP.

The highwaymen then went to get the crews of the two locomotives, who were still in ignorance of any trouble so that they could loot the express without fear of the train being pulled out with them. They brought back Engineers B. H. Joesink and E. A. Bissell and Fireman J. F. Stury and Fireman A. Raymond. One robber stayed on the west side of the train looking out for possible danger while the two others marched the engine crews back on the east side to the ex-The robbers were all the press car. time using vile language and discharging occasional shots from their rifle This apprised the passengers in the front end of the train of what was going on, but they remained in the cars

When the express car was reached by the robbers, Colford, helper to Messenger O'Neill, awaited their return with a shotgun in his hands. At first glimpse of the masked men he raised the weapon and pulled the trigger. The cartridge snapped, but the plucky fellow started to put another shell into his gun when the robbers covered him with their rifles and commanded him to lay down his gun or be killed. Engigneer E. A. Bissell joined in asking Colford not to make a fight, arguing that if he did they might all be killed.

DYNAMITE USED.

When the bandits found that Colford could not open the safes they decided to use dynamite, first removing the body of O'Neill, which lay near the safe, There were two safes in the car, one the large through safe and the other a small one known as the local. Under orders the engineers placed six sticks giant powder provided by the masked men on top of the large safe and on this they set the small money box. The leader of the robbers then lighted the fuse, and the entire party made its way forward to the locomotives by the time the explosion had occurred.

A Big Insurance Policy.

(Special to the "News.")

New York, April 1.- The largest insurance policy ever taken out by an individual, namely one for \$1,500,000, has just been issued by the Mutual Life of this city to James C. Colgate, banker and financier, and member of the Stock Exchange firm of James B. Colgate & Company. Following its conservativ methods, the Mutual Life has reinsured all but \$250,000 in other companies. Thus another name is added to the list of holders including George W. oolley Vanderbilt, who carries a million dollars or more in the Mutual Life.

Coal Famine in Prospect.

Des Moines, Iowa, April 1.-Des Moines and the entire state of Iowa are confronted with a coal famine as a result of the lockout which closed every mine in the state, and that sec tion of Missouri included in the terri-tory embraced by the affected district. But little coal is for sale in the state. Local dealers today placed double rush orders in Kansas City, Omaha and St Joseph and other neighboring cities but it is only possible to secure coal in limited quantities from those points. Unless the situation is eased within the

next three weeks manufactories will be compelled to shut down. Leading operators say they will be prepared to supply the demand for a ong while yet, and that they have no thought of compromising. The miners say the situation must remain as in for at least 60 days at the end of which time negotiations for an ad-justment will either be made or the strike will be continued with the help the national United Mine Workers of America.

In the Senate.

Washington, April 1 .- In the senate today Mr. Patterson introduced a bill for the amendment of the Chinese ex clusion act of 1902, giving notice that on Wednesday next he would address the senate on the bill. In giving this notice, he said, he had received what he considered definite information that the Chinese government had denounced the treaty between that government and the United States and the treaty would expire Dec. 7 next. Unless the law should be extended Chinese could come into the United States after that date without obstruction. Mr. Platt o Conncticut, expressed dissent from this

A bill was passed authorizing the free tranamission through the mails of books for the blind. Also the following: Authorizing the

collection of labor statistics in Hawail. Authorizing the detail of retired off cers of the army and navy to schools an instructors.

Mr. Mallory then addressed the senate on the Carmack resolution, instruct ing the committee on the judiciary to make inquiry into the legal right of the secretary of the interior to issue old age disability pension order recently promulgated, he said, the only point a issue was whether the legislative branch of the government had not transcended its authority and usurped legislativ functions in establishing the rule by new order. POLITICAL STRAWS.

The Tribune discovered this morning hat "a mugwump never votes for anybody. Meaning Sam McDowell or Parley Williams?

The Kearns people are working themselves into a frenzy over the fact that a meeting of the postmasters of Utah is o be held here on April 7, just one day ahead of the Republican state convention. It is feared, almost to the point of black spasms, that the postmasters will talk politics, and Senator Kearns generals seem exceedingly unwilling to risk the result of such an event. The truth is that the meeting is to discuss the postal service in the state. The dates form a simple coincidence. What better time for such a gathering?

A new factor has sprung up in the good-natured contest that is coming off in the election of delegates to the Republican national convention. Uintah county and several other countles in the eastern part of the state will send delegations instructed to vote for W. P. Calthorp as a delegate, first. last and all the time. Mr. Calthorp lives at Vernal, and that section of the state is going to insist upon recognition.

Colton and C. H. Col-ton. They are instructed to vote for Mr. Calthorp as one of the national delegates.

The name of C. O. Whittemore was mentioned prominently today in con-nection with the delegation to the Republican national convention. Mr. Whittemore is not a candidate in an active sense, but it is understood that, inasmuch as the position has become a matter of complaint, he would consider his election a high party honor.

A. S. Fowler, popularly known as 'Sandy," has declared his candidacy on the Democratic side for a city judgeship and is working among his party friends for the nomination.

Judge Jacob Johnson is in from Spring City. The judge is a candidate for re-election in his district and while seems to feel perfectly confident, he is not talking politics to any large ex-
