Labor Delegates in London Dilate Thereon-Anti-Union Decision. London, Sept. 5 .- At this morning's meeting of the Trades Union congress in session at Huddersfield, Delegates Kemp and Hunter, of the American Federation of Labor, both delivered addresses and were presented with gold watches as mementos of their visit. Mr. Kemp contended that the inter-sts of the workers of the world were identical, and if ever universal peace was reached it would be through the nstrumentality of the trades unionism The American delegates dilated the prosperity of trades unionism in United States and the necessity for better organization of female labor n the United States and Great Britain, The congress received with a marked disapproval the announcement that Justice Farwell of the high court of ustice, had followed his judgment of August 30th against picketing during trikes by extending the injunction the amalgamated society of rallway ervants, holding that trades unl leties were responsible for the acts of their servants.
