LOCAL BRIEFS.

California Cucumbers are now in the market in very limited quantities, and retailing at 25 cents each.

An advance is noted of 15 cents per cwt in the prices of nalls and barbed wire, through this district owing to a rise in prices back east.

Miss Burkella Pierce will lecture this evening in the Commercial club studio of the Pierpont School of Oratory on "How to Go Up and Down Stairs." The Nicol-Crabbe company bas filed

an amendment to its articles of incor-poration in the county clerk's office, changing its name to the A. H. Crabbe company.

Young Campbell, the Harvard foot-ball captain, who not long ago was "broken in" at the United States Mining company's works at Bingham can-yor, is now in charge of a zinc smelter in Missouri.

G. H. Dorton was arrested at Bingham Junction yesterday by Deputy Sheriff Beckstead upon the charge of criminal assault alleged to have been committed upon Eilen Burgin, a 15-year-old girl, on June 14, 1904.

Insurance men are much gratified at the action of Local Manager Sheld of the Pacific Board of Underwriters in writing to the Chief of the Fire Depart-ment as he did, relative to the danger-ous conditions induced by the use of many great business signs over town.

The big eletric sign over the Knutsford hotel was lighted for the first time Tuesday night. It is 20x40 feet in dimen-sions, contains 250 incandescent lamps, sions, contains 200 includescent raines, and the letters are five feet long. It requires 50 amperes to operate that sign. Chief Clerk Austin says it can be seen clear to Pocatello.

The First South street cars are now The First south street cars are now carrying their new side sign, "State University." It has not been consid-ered necessary to paint the name of the new corporation merger on the bodies of the street cars, as the information would be superfluous soing there is but one company operating in this city.

Vicar General Kiely stated to a "News" reporter today, that in all probability the Miners' Home hospital on south Eleventh East street would be opened for occupancy late in May or early in June. It will not be long be-fore the fixtures and furnishings will be in, and a superintendency secured.

The new city jail furnace will at last have an American underfeed stoker. The city council committees on police and prison and improvements last night decided to recommend the acceptance of the offer of the American Stoker company to install a stoker for \$915, and the trouble between the city and P. J. Moran over the stoker matter will now be brought to a close. The bid of the Stoker company is the same as that used by Moran in his bid with the ad-

dition of the extra cost of changing the furnace so that it can be installed. After Moran used the bid given by the American company to the board of public works in his bid for installing the heating plant and stoker, the com-pany refused to furnish aim with the pany refused to furnish aim with the stoker at that figure, consequently Mr. Moran refused to install a stoker and deducted the sum of \$785, the bid for the stoker, from the amount due him on the heating contract, leaving a bal-ance due of \$1.044.50. This was placed on the appropriation list to Moran's credit twice, but the mayor vetoed it both times on the ground that he should be held to his contract and com-pelled to install the stoker. The matter has been before the council at intervals furing the past year and would proba during the past year and would proba-bly have been settled long ago had the American company stood by its bid to the board of public works, as it has finally done. The cost of changing the furnace and installing the stoker, \$120, will be deducted from the balance due Moran, and his bill will finally be paid. BROTHERS AND WARM SPRINGS.

The public grounds committee, after considering the additional offers to leas the Warm Springs property again de-cided to recommend that it be leased to Moxwell R. Brothers and that a lease for the same be entered into at once. Mr. Brothers offered \$250 per month fo are, brothers offered \$550 per month for a 10-year lease, and agreed to spend \$10,000 in improving the place within the next three years. He also agrees to vacate at any time should the city re-ceive a better offer provided he is reim-bursed for the money spent in improve-ments.

left the workers largely to their own methods of work and uid not hamper them with rigid instructions. Mrs. Kilby told of the prison work being done by the Army, which is having very gratifying results. In fact a num-ber of women convicts were converted so thoroughly that they afterwards joined the Army and remained with it as long as they lived. Commissioner and Mrs. Kilby have had assigned as their field of labor 11 different countries on four continents since they have been in the service, and they rejoiced that wherever the Salva-tion Army flag fles, the hungry are being fed, the shelteriess cared for, the fallen are lifted up, and the poor have the Gospel preached to them. THE DANCE HALL CASE.

Three of the Accused Get Off on Account of a Technicality.

The case against E. R. Gourley, Roy

Morris and S. H. Taylor was dismissed upon the motion of Judge Dichl in police court yesterday afternoon. These men were charged with maintaining a dance hall without a license. The testimony introduced by the city prosecu-tor went plainly to show that these three men were merely employes of the City License Collector John Halvor-

The light run last week met higher prices for the best cattle, but probably the matority of the reaction and hereby for the best cattle, but probably the majority of the receipts sold barely steady, medium to common cows and helfers were lower. Packers claimed the weather made it hard or impossible for them to ship out their product, as many refrigerator cars were tied up in the east. Today, however, the run is so light that no arguments are of avail to the buyers and market is strong to to the buyers, and market is strong to 10 cents higher, covering pretty well everything. Stockers and feeders have been quiet, and the supply of them has been small for two or three weeks. De-mand has also been limited, as few feeders like to put cattle in the feed lot in zero weather, but prices are about steady. Fed western steers sell at 3.75 to 5.06, unless extra finished. Western fed she stuff sell at 3.00 to 3.75; stockers and feeders, 2.75 to 4.00, a few just right above that. Texas fed steers the buyers, and market is strong to Just right above that. Texas fed steers sold up to 4.30 last week. Nebraska fed westerns, 4.65; Panhandle feeders, 4.05; western and Panhandle calves, 5.00 to 6.25; heavy calves, 2.75 to 4.50. Monte Vista lambs sold at 7.35 to 7.50 today, and native lambs up to 7.50, and practically all the lambs above 7.15. Yearlings sell at 6.25 to 6.60 today, we thers up to 5.65, ewes 5.10, although market on ewes was not fully tested. These prices were all for westerns. The market has every appearance of extreme strength, but a good many are afraid of it, as present range looks dizzy, and could become top heavy on a slight scare. Buyers evidently have urgent orders, though, and markets are not only strong, but active and snappy. active and snappy.

A Menace to Health,

Ridneys trouble is an insidious danger, and many people are victims of a serious malady before the symptoms are recog-nized.
