GOVERNOR WELLS RETURNS

He Has Nothing to Give Out as to the Senatorialship.

Thinks He Will Be Called on to Appear at a New Secretary in Mr. Hammond's Place.

Gov. Wells returned to the city this morning after an absence of about three weeks spent in Washington, New York and Chicago. Most of his trip was devoted to State and national business, the main object of his visit having been the meeting of the various governors who formed the committee on the celebration of the 100th anniversary of the establishment of the seat of government at Washington. He has besides done considerable business with the land office and other departments.

When seen by a "News" representative today, Gov. Wells said his trip had been entirely satisfactory and he had enjoyed a very pleasant visit with the several Salt Lakeers who had been in New York with him. Asked regarding the burning question of the hour, the senatorial appointment, he said there was nothing whatever to be announced more than what the "News" dispatches had already conveyed. As soon as Senator Quay was seated, which he thought would be within the next few days, he would name a senator to serve from this State for the remainder of the term. He would give no intimation as to who the person might be or even as to whether he had decided on his name.

He was asked also whether he had given any thought to the matter of appointing a successor to Secretary Hammond, in case of that gentleman's election to Congress. He said that he had given that matter little thought as yet, but presumed he would have to do so, as he believed Hammond would be elected. Asked regarding his views on the question of tariff or no tariff on Puerto Rican products, he said the East seemed to be all torn up regarding the matter, but he had not as yet had time to turn his thoughts to the subject sufficiently to arrive at any definite conclusion.

The Governor looks well, and says he feels in excellent shape after his rest. Mr. and Mrs. H. G. Whitney arrived home with him from their visit to New York, Washington and Chicago.

RESCUE HOME TO REMAIN.

Effort to Cut Off Monthly Allowance of \$75 Fails.

Objections to the location of the Woman's Rescue Home on the corner of Thirteenth East and Emerson Avenue were heard by the Council committee on finance last evening. The protestants were represented by Professors Edwin Evans and W. B. Oliver, while those who favored allowing the home to remain where it was, were Mrs. C. G. Plummer, chairman of the Rescue Mission board, Mrs. F. A. Vincent, Mrs. L. L. Rogers, Dr. McNeice, Rev. Richard Wake, Thomas Laughlin and H. E. Dewey. The committee listened to arguments on both sides, and as a result will recommend that the monthly allowance be continued. The protestants seemed pleased with this statement and concluded to withdraw their opposition.

He did it for spite. Louis had been employed by the bootblack but was discharged the other day for some of his wrong doings. For revenge he broke into the stand. He was arrested by Officer Roberts and booked on the charge of burglary.

There is no better medicine for the babies than Chamberlain's Cough Remedy. Its pleasant taste and prompt and effective cures make it a favorite with mothers and small children. It quickly cures their coughs and colds, preventing pneumonia or other serious consequences. It is pleasant to take and has been used in tens of thousands of cases without a single failure so far as we have been able to learn. It not only cures croup, but when given as soon as the cough appears, will prevent the attack. In cases of whooping cough it liquefies the tough mucus, making it easier to expectorate, and lessens the severity and frequency of the paroxysms. It is a safe and reliable remedy for all dangerous consequences.

RICH LAND IN OLD MEXICO.

Lorin Farr Thinks a Large Community Should Be Built Up.

THE CONDITIONS IN MEXICO.

The Soil Is Capable of Producing All Kinds of Fruits and Vegetables—Effort to Reduce Price of Land.

Lorin Farr, writing from Colonia Dublan, Casas Grandes, Chihuahua, Old Mexico, says: I left Ogden, Utah, December 29, 1899, for California and Old Mexico; had a very pleasant trip. When I got to San Francisco it commenced to rain and kept it up for about a week; the rain extended down as far as Lower California to Los Angeles, but not as much rain lower as upper California. The weather has been very nice and pleasant ever since. I have held quite a number of meetings with the people in different localities and have made a good many friends and acquaintances, quite a number enquiring after the welfare of our people, and some wished to investigate the principles of the Gospel. There seems to be quite an unrest with many in regard to the outcome of the wars that are now going on in the different parts of the world, the people do not seem to realize that Jesus Christ and other inspired persons have predicted that wars, commotions and great calamities would precede the immediate coming of our Savior, which is near at our doors. I have been here at Dublan and at Jurua for the last ten days. Jurua is a settlement of about 700 families, and are getting very comfortable situated, about eighteen miles from Dublan nearly west. Dublan has about 125 families. I believe the Saints to be a better people than living in the world than in many other parts of the world that I am acquainted with. Dublan is situated on the Casas Grandes river, near the upper end of the valley, there are several natural reservoirs a few miles above the town that will hold water enough to water several thousand acres.

The valley is about 30 miles long by 8 to 12 miles wide, and nearly every part of it is tillable except where the river runs through, the quality of the soil is most excellent, capable of producing most all kinds of grain, vegetables, and fruit. The altitude is about 4,000 feet, most of the land is for sale at a tolerably low figure. If the owners of the land will put the price down so that our poor people can buy, which I believe they will, I see nothing to hinder building up right here a community of twenty or thirty thousand people, of course it will depend upon the price of the land being low enough so that the poor people can reach it. Brother Anthony Ivins presides over or has charge of the Mexican mission. He is very industriously engaged in locating the Saints and trying to make them comfortable. He has now gone over into the State of Sonora, about 175 miles west of this place, to survey off and locate a town and a place for the Saints to settle. I am informed that there is plenty water and good land for quite a large settlement. The place is called "Batopito," the waters emptying into the Gulf of California.

I am pleased to state my health is good and am having a very pleasant time, and expect to start back home in a few days by the way of California.

WATERMAINS IN CITY CREEK

Board of Public Works Decides to Advertise for Bids.

At a meeting of the board of public works, held last evening, City Engineer Kelsey presented estimates of the cost of laying enlarged watermain in City Creek canyon with wood stave pipe at \$24,000. The board decided to ask for bids on the basis of a wood stave iron-bound pipe, and also for cast iron pipe, steel riveted twelve inches in diameter. The present pipe in the canyon is inadequate to supply the pressure required in the business district. Bids for doing the work will be advertised for in the daily papers and they will be opened at the city clerk's office, Monday, at 10 o'clock.

The board meets again Monday to consider bids for the construction of a cement sidewalk on both sides of First West street between First and Second South and other work.

ONLY A SUGGESTION.

But It Has Proven of Interest and Value to Those Who Try It.

Common sense would suggest that if one wishes to become healthy and plump it can only result from the food we eat and digest and that food should be albuminous or flesh forming food, like eggs, beefsteak and cereals; in other words the kinds of food that make flesh are the foods which form the greater part of our daily bills of fare.

But the trouble is that while we eat enough and generally too much, the stomach, from abuse and overwork, does not properly digest and assimilate it, which is the reason so many people remain thin and under weight; the digestive organs do not completely digest the food, leaving beefsteak and eggs and similar wastes in the stomach.

There are thousands of such who are really confirmed dyspeptics, although they may have no particular pain or inconvenience from their stomachs.

If such persons could lay their remedies aside and make a regular practice of taking, after each meal, one or two of Stuart's Dyspepsia Tablets the food would be quickly and thoroughly digested, because these tablets contain the natural pepsone and diastase which every weak stomach lacks, and by supplying this want the stomach is soon enabled to regain its natural tone and vigor.

Stuart's Dyspepsia Tablets digest every form of flesh-forming food, meat, eggs, bread and potatoes, and this is the reason they so quickly build up, strengthen and invigorate thin, dyspeptic men, women and children.

Invalids and children need the most delicate, use them with marked benefit as they contain no strong, irritating drugs, no cathartics nor any harmful ingredient.

Stuart's Dyspepsia Tablets is the most successful and most widely known of any remedy for stomach troubles, because it is the most reasonable and the most modern medicine.

Stuart's Dyspepsia Tablets are sold by every druggist in the United States and Canada as well as in Great Britain at 50 cents for complete treatment.

Nothing further is required to cure any stomach trouble, no matter how nervous, dyspeptic, people strong, plump and well.
