

FROM WEDNESDAY'S DAILY, AUG. 3.

Graduated.

Dr. Maggie C. Shipp's class in obstetrics, consisting of Mrs. Miranda Bateman, Mrs. Matilda Olsen, Miss Carrie Jensen, Miss Emma Evans, all of Salt Lake County, Miss Esther C. Parkinson, of Idaho, and Miss Emma G. Lloyd, Smithfield, Cache County, passed their final examination yesterday before Drs. Bowers and Anderson.

Returned.

The night before last Mr. Joseph Bull Jr. returned from his trip to England. He came in on the D. & R. G. W. He reports a pleasant visit with relatives there and a rather fleet voyage across the Atlantic in the *Arizona*, which arrived in New York seven days and eleven hours after leaving Liverpool. He came by way of Canada, passing through Kansas and Denver en route to this city. He has been absent a little over two months.

Bishop Brown Arrested.

Early this morning deputies Caunon and Franks started northward from this city to find some one accused of violating the Edmunds law. On reaching South Bountiful, they stopped at the residence of Bishop Wm. Brown. The Bishop, who is in poor health, was out in the orchard when the officers arrived, and was arrested on the charge of unlawful cohabitation. He was brought to this city and released on \$1,000 bail, to await trial on an indictment found against him March 5th. His sureties were Mahonri M. Brown and Wm. Moss.

The Hot Weather.

We think we are suffering from the heat, but our condition does not begin to compare with that of the inhabitants of the eastern and southern States where the atmosphere is so saturated with moisture that evaporation is almost impossible. The Philadelphia Press thus describes it:

"Clothing clung to a man like a poultice, and the streets steamed and shimmered like a hot nasty pudding. The walls reeked with dampness, which stood out in great blotches, the wood-work beaded as if it was greased and paint looked as if it had been thrown into a violent perspiration to throw the fever which filled the air."

Peculiar Accident.

Van Walkenburgh is the name of the engineer on one of the switch engines in the U. P. yards here. Monday night he met with a peculiar accident. It appears that after work was done he took his engine to the engine house where the fire was blown out. His engine was then run on a side track as usual. The time for the engineer to go off duty, however, although his work was done, had not arrived, and it is supposed he felt asleep and dreamed. What the nature of this dream was, has not been authoritatively learned but it is thought he dreamed of a collision or something of that kind.

At any rate the water gauge exploded and the noise so scared the engineer that he jumped through the cab window. In the fall his arm was broken and his nose badly disfigured. It is also stated that he has injured his back. It seems clear that he was dreaming and thought there had been a collision, for, when picked up, he asked: "Was anybody else hurt?"

The accident has some elements of humor about it; still it is a very unfortunate one for the victim. He is being cared for at the hospital. — *Ogden Herald*.

To the Old Style.

Beginning this morning the Denver & Rio Grande will issue one thousand-mile tickets over their system at \$35 each, or 3½ cents a mile. The Union Pacific and Burlington will soon follow suit, in accordance with the policy of the Eastern roads. This is the first step of the Western roads in the direction of resuming old practices, followed before the passage of the inter-state commerce bill, and will it be believed, increase the business of the roads a great deal. When the inter-state commerce act became a law, a great many western business firms cut down their trading expenses and enlarged the territory of their agents. This had the effect to cut down the sale of tickets to commercial travelers, and after a lengthy discussion it was determined that the railways were losing by their rigid construction of the law, and it was deemed advisable to return to the practice. It is said that the re-establishment of the 1,000 mile tickets will shortly be followed by the resumption of reduced theatrical rates. The traveling theatrical companies have applied to the railways for reduced rates and the matter is now being considered by all of the railways. — *Denver News*, Aug. 7.

The Fate of Wm. Rhodes.

Ezra Baird and A. D. Greene returned on Monday last from Rhodes City, in the Lo Lo country, whither in company with quite a number of persons from Lewiston and vicinity they went some three weeks since to ascertain the fate of Wm. Rhodes, Hase Crane and one Altman who had been gone for some ten months, and were supposed to have wintered at or near a point called Rhodes City. After leaving Wee-lpe and striking Mussel Shell

they made the location in about eighty-five miles, and discovered Crane and Altman living and Rhodes dead. The party had been snowed in since about November. The snow being at times about 43 feet deep, their supplies had run short without any means of being replenished, and since January they had been on rations of flour and coffee. Fresh meat was obtained in April by the fortunate killing of a bear by Crane. They tunneled and dug under the snow and obtained wood by cutting steps to a distance of 80 to 100 feet could get to the top of the snow and keep their chimney open and protected. Rhodes, who was comparatively an invalid, sickened early in the season, and although kind hands did all they could to relieve him, he expired on the 13th of June. He was a pioneer miner, having made many important discoveries, and was reported quite rich at one time. His body was buried in the snow by his comrades, and upon the arrival of help was decently interred near the spot which bears his name. — *Grangeville (Idaho) Free Press*, July 29.

A Chinese Row.

A row between a number of Celestials took place yesterday afternoon in the back of a lot on the block west of the Court House. One Yee Fy went to Hong Di for \$16 the latter owed him for wages. Hong Di said he had no money, and a quarrel ensued. The Mongolians battered each other awhile with their fists, then each seizing the other by the queue, a hair-pulling match ensued. Both rolled on the ground, and yelled, kicked, scratched, pulled and struck at each other in a desperate rough-and-tumble encounter. Finally they separated, the blood streaming down Yee Fy's face. Hong Di then rushed into his cabin and returned with a butcher knife, but was prevented using it by Mr. E. A. Folland who arrived on the ground and used a shovel as a peace maker. Lee Hing, another Chinaman, assaulted Yee Fy, by striking him over the head with a broomstick.

The performance was witnessed by a number of boys and the employees of the Salt Lake Foundry, several of whom told their story in the Police Court to-day. The Celestials also gave their account of the affair, but they differed so materially from each other, and from the facts as related by the witnesses, that there was no resemblance between them. The accused were adjudged guilty and their punishment will be inflicted this afternoon. The whole neighborhood was aroused by the noise, and for a time it was thought, from the scratches and bruises inflicted, that two of the heathen had been nearly carved to pieces, but neither of them was badly hurt.

ADDITIONAL RETURNS.**Tooele County in Doubt—Howe Beats Haynes.**

The number of votes polled in Tooele City was 153, of which the People's ticket received 142. Richard Howe, the People's candidate for Councilor from the Seventh Council District, received, in Tooele City, 140 votes, while Haynes, his competitor, received but 16. In South Cottonwood Howe received 120 votes to Haynes' 68, and at Sandy Howe was ahead. At Mill Creek the People polled 130 votes to the "Liberals' 22.

Spencer, the People's candidate for Representative from the Fourteenth Representative District, led Marriott, his competitor, by 61 votes at South Cottonwood, 10 at Sandy and over 100 at Mill Creek.

At Lehi the Constitution received 195 affirmative votes; the same number were cast for the People's ticket, while that of the "Liberals" received a big 16.

A TELEPHONE MESSAGE

from Tooele City this afternoon conveyed the intelligence that the result in the Eighth Representative District was still in doubt, but that the indications were that Allen, the "Liberal" candidate, was elected by a small majority, over Houtz, the People's man.

In Iron County, as far as reported there was little or no opposition to the People's ticket.

Intelligence from Sanpete is meagre, but indicates little or no opposition to the People's ticket, with rather a light vote.

IN CACHE COUNTY

the opposition to the People's ticket was microscopic in dimensions. Logan polled a good vote, viz., 243 out of a possible 311. Of these the "Liberal" ticket received 9. There was but little scratching.

In the south precinct of Bountiful 102 votes were cast for the People's ticket, 9 for the "Liberal," and 101 for the Constitution.

Arrested.

Last evening Deputy Whetstone accosted Francis Greenwell on the street and told him he had a warrant for his arrest in the Marshal's office. Mr. Greenwell accompanied the officer to the place referred to, and there listened to the reading of the warrant. Mr. Greenwell appeared before Commissioner Rogers, and gave bonds for his appearance at 10 o'clock this morning for examination on a charge of unlawful cohabitation.

Mr. Greenwell has been absent from the city a long time, and only returned a few days ago. — *Ogden Herald*, August 4th.

Waived Examination.

President William R. Smith, of Davis County, who was arrested last week on a charge of unlawful cohabitation, and placed under bonds pending a preliminary examination, to be held to-morrow morning, has waived the hearing and given \$1,500 bail to await the action of the grand jury. The ladies who are alleged to be his wives gave surety in the sum of \$200 each to appear as witnesses when wanted.

Tenth Ward Co-operative Store.

The people of the Tenth Ward have started a co-operative association, and that they realize it is for their benefit is evidenced, by the way they are subscribing for stock, about ninety persons, representing forty families, having already done so. The corporation intends to put up a suitable building on its own property, and will commence a general merchandising business in a short time. The articles of incorporation have been filed with the county clerk, and the following officers have been elected to conduct the business of the institution, for one year: Wm. Fuller, president; W. A. Rossiter, Vice-President. C. W. Symons, Rodney Hillam, Wm. Taylor, H. W. Earl and S. E. Baxter, Directors. The capital stock is placed at \$10,000, divided into 2,000 shares of five dollars each. As it is intended to carry only a limited amount for a working capital, those intending to purchase should apply at once. The move is one that is generally advisable for the people, and should receive every encouragement. Success to the enterprise.

FROM THURSDAY'S DAILY, AUG. 4.

Run Over.

A five-year-old son of Engineer Bingham, of Wilson, was jumping on a wagon loaded with salt yesterday. He fell and his right leg was run over by one of the wheels of the wagon. The leg was badly bruised, but was not broken. — *Ogden Herald*, August 4.

Joseph Hughes Dead.

Shortly after 8 o'clock last night, Joseph Hughes, who was shot at Park City on Monday evening, breathed his last. Before his death his deposition was taken by the county prosecuting attorney, E. M. Allison, Jr., for use at the trial. Several witnesses to the shooting have been subpoenaed to appear before the grand jury in September next.

Narrow Escape.

During the past few days trains have been running with some regularity over the Salt Lake & Fort Douglas Railway, to its present terminus, near the corner of Thirtieth East and First South Streets. The appearance of a locomotive being considerable of a novelty in that locality, the children living in the neighborhood flock out to view the iron horse. Just as the train was moving out yesterday afternoon, a little boy about six years old, the son of Mr. Cameron, came near being the victim of a frightful accident. With several others he got quite close to the track, and as the moving locomotive came up, he barely had time to get out of the way, the engine coming within a few inches of striking him. As it was, there were several people about who were badly frightened by seeing the great danger the child had been in.

Those who live in that vicinity cannot be too careful of their little ones, in keeping them off the railway track entirely, except when necessity requires that they should cross it. Then teach them to go right across. Those living in other parts of the city, on the line of railways, have appreciated the value of following this advice, for no matter how much care an engineer may exercise, a moving train is not easily handled within a distance of a few feet, even though life is at stake.

THE LEGISLATURE.**The "Liberal" Candidate Probably Elected in the Eighth District.**

Returns continue to come in from the various parts of the Territory, showing nearly a clean sweep for the People's Party in all the counties except Summit. The count also shows that the constitution has been ratified by an overwhelming majority. In four districts—two Council and two House—the "Liberals" have elected their representatives in the Legislature, and the latest information obtainable indicates that E. Allen, "Liberal," has been elected over D. D. Houtz, People's candidate, in the Eighth Representative District, which includes Tooele County, and Bingham precinct in Salt Lake County, and Tintic and Eureka precincts, Juab County. The latest figures are as follows:

	Stockton	Bingham	Tooele	Tintic	Grantsville	Lakeview	Total
Houtz, P.....	5	8	140	17	83	20	233
Allen, L.....	67	174	17	136	4	0	358

This gives Allen a majority of 135. There are still the following towns to hear from. The figures opposite each show the registration.

Batesville,	16
St. John,	20

Clover,	24
Deep Creek,	4
Quincy,	6
Mill (Lake Point)	28
Ophir,	54
Vernon,	26
Diamond,	14
Total,	192

Of these precincts, Ophir, Deep Creek and Diamond, 72 in all will probably go for Allen. With these precincts thrown out, and counting 100 per cent. for the people in the others, Allen would still have a majority over all of 16 votes. He is doubtless the successful man.

Heber and Lake Town.

Out of 218 registered voters, Heber City cast 160 votes, all but four or five in favor of the People's ticket and the Constitution. Many voters were absent in the mountains.

Lake Town has a registration of 34, and cast 33 votes, all in favor of the People's ticket and the Constitution.

Cache Valley Items.

Jacob Strull, of Providence, was arrested by Deputy Marshal Steele, on a charge of adultery with one Anne Steeger. His examination takes place before Commissioner Goodwin to-day at 4 o'clock.

Logan orchard owners are at a loss to know what to do for apples this year. The dry season, the late frost and other causes, have tended to reduce the apple crop to a minimum. A few different kinds of apples made their appearance on the bench, but parties who have hitherto had too many apples to take care of them, this year are compelled to buy eating apples.

The people of Smithfield are now holding meetings in their new Tabernacle, although it is in an unfinished state. The windows and doors are not yet in place, but during this fine weather it is quite pleasant and agreeable to sit there during service. The floor is about two-thirds laid down and a temporary stand is constructed. The intention is to bring that fine edifice as near to completion as possible before winter sets in.

Our readers will remember that one week ago a son of E. Gittins, of Teton, Snake River Valley, by some unknown means got hold of a giant powder cap and caused it to explode in his hand, badly mauling the thumb and first two fingers of the right hand. He was taken to Eagle Rock for surgical treatment. The treatment did not give satisfaction, as mortification seemed to be setting in, consequently he was brought to Logan yesterday by train and placed under the care of Dr. Ormsby. After chloroforming the patient and carefully examining the hand, it was found necessary to amputate all three members, which was done. The doctor thinks there will be great difficulty to save the hand, yet hopes to be able to do so. The little sufferer was pretty comfortable this morning. — *Logan Journal*, Aug. 3.

FROM FRIDAY'S DAILY, AUGUST 5.

Died From His Injuries.

The little son of Mr. Carlgren, of the Twelfth Ward, who was badly burned a couple of weeks ago, has fallen a victim to the destroyer. He was about three years of age.

The Vote at Garden City.

Joseph Irwin sends us the following election news from Garden City, Rich County: Number of registered voters, 22; number votes for People's ticket, 16; Constitution, yes, 14; Constitution, no, none.

Trunk Lost.

A correspondent writes as follows from Mt. Pleasant:

A trunk was lost belonging to Annie Person, who came in with the June company of immigrants. It was lost between Nephi and Salt Lake. Her name appears on some part of it, as given above.

Any one knowing of it will confer a favor by communicating with Peter Matson, Mt. Pleasant, Utah.

Twelve Pounds.

Mr. Frank Taylor was welcomed on his return to his home in Mantle from the funeral of his lamented father, President John Taylor, by a new arrival at his household. It was a twelve pound daughter born on Monday, August 1st, and all parties concerned are doing well. We congratulate the happy parents.

Arrests in Davis County.

Yesterday Deputies Caunon and Franks went to Kaysville, Davis County, and called at the house of Daniel Harvey. Mr. H. was not home, so the deputies asked the ladies whether they could get dinner for them. A reply was given in the affirmative, and just after the officers had devoured a hearty meal, Mr. Harvey drove up on his return from a meeting. He was arrested shortly after, and brought to town yesterday afternoon. On being arraigned before Commissioner Norrell he pleaded guilty to the charge of unlawful cohabitation, and was released on giving \$1,000 bail.

On their way back to this city, the deputies stopped at Bountiful, and arrested a venerable and respected citizen of that place, Anson Call. The old gentleman, who is in his seventy-eighth year, was brought to town and required to give \$3,500 bail to await

trial on the charges of polygamy and unlawful cohabitation. The indictment against him was found on Feb. 12, 1883, under the infamous Dickson regime.

A Water Difficulty.

Yesterday Deputy Whetstone arrested R. T. Reese and W. H. Crandall on charge of unlawfully taking water. The complaint was signed by Whetstone on information and belief. It states that defendants did, on Aug. 3d, turn and convert the water in a certain ditch to their own use when said water had been given to R. R. Slater for the time being. The complaint states that the ditch is partly in Weber and partly in Box Elder counties and is the property of the North Ogden Irrigation Company. Defendants were taken before Commissioner Rogers and put under \$200 bonds each to appear for examinations—Crandall on Saturday at 2 and Reese on Monday at 2 p. m. — *Ogden Herald*, Aug. 5.

A Deep Well.

Brother John Carlisle, of Mill Creek, has secured a flowing well at the depth of 240 feet—probably the deepest in this vicinity. It is located on the bank of Jordan. The well was obtained by the ordinary driving process. The water is, however, so full of fine sand and clay that up to the present it has been practically useless. On July 26th, the day water was struck, about ten tons of mud and sand were thrown up, and since that time another ton has come out. The water has cleared considerably, but about a ton of sand is now brought through the pipe daily. It is believed by the owner that a stream of clear water will eventually be secured. The flow is about 30 gallons per minute from a one-and-a-half inch pipe.

Case of Suicide.

Nellie Andrews, of the Nineteenth Ward, died at 11:30 p. m. yesterday from the effects of morphine. It is supposed that she took the drug about 4 p. m., but as no one was present at the time this is not definitely known. She left a statement in writing intimating that the act was intentional on her part as she was tired of life, in consequence of estrangement of her husband, James Andrews, an engineer on the Utah & Northern, from whom she had been divorced about two years. Deceased was twenty-eight years of age, and came to this city from Eagle Rock in January last. Two physicians were sent for and attended her as soon as possible after her condition was learned, but their efforts to save her life proved unavailing.

A Throw Out.

As Mr. John W. Snell was driving in his light delivery wagon down First East Street, nearly opposite the Co-op Machine and Wagon Company's shops, one of the traces accidentally shipped off the end of the singletree and let the shafts down, when the horse, becoming frightened, commenced running and kicking vigorously. At this juncture it is supposed that the ends of the shafts caught against some obstruction in the road and instantly stopped the vehicle, throwing Mr. Snell, who was clinging tenaciously to the lines, some distance. So forcibly was he thrown to the earth that he was rendered for the time insensible. He instinctively threw out his left hand to save himself, which was considerably bruised on the palm. His right knee and thigh are still considerably swollen, and his right shoulder joint was temporarily dislocated by the shock, but snapped into place about half an hour later. It was a close call, but excepting a slight limp, Mr. Snell was about again this morning as usual.

S. D. HUFFAKER'S CASE.**A Prosecution Based on an Informer's Tale.**

To-day Simpson D. Huffaker, of South Cottonwood, Salt Lake County, was before Commissioner Norrell, on a charge of unlawful cohabitation, for which he was arrested last week. He is 76 years of age, and the complaint against him was made on July 30th, by Deputy Franks. It alleges that the defendant had lived with Mrs. Simpson Huffaker and Jane Doe Brady as his wives subsequent to July 30th, 1884. To this complaint Mr. Huffaker pleaded not guilty.

Mrs. Elizabeth Huffaker was the first witness. She testified—I live in South Cottonwood, Salt Lake County; I am the defendant's legal wife; I would as soon testify as not; I have lived in Utah 40 years; was married in Nauvoo 42 years ago; the defendant has had a plural wife, Elizabeth Ann Brady; he married her many years ago; she had 11 children by him; he had one other wife, Priscilla, whom he married about 35 years ago; she was his last wife; I have not seen Elizabeth Brady for more than three years; she was then at the home of one of her daughters, Mrs. Gardner; I have not seen her since; the defendant was not there; Priscilla's children are all married; she died 20 years ago; during the past few years Mr. Huffaker has lived exclusively with me; Elizabeth Brady went to Woodruff, Rich County, ten years ago; she is there now, I suppose, with her married children; Mr. Huffaker has never been there; they have not lived together for ten years; Elizabeth has not been in this part of the Territory for over three years; the
