MR. COWAN'S VISIT.

#### Idaho Mining Operator Tells of Conditions in St. Louis.

E. P. Cowen, the well known mining man of Boise, was at the Knutsford pesterday, on his return from a two months' trip to St. Louis and Texas points. He reports that business in St. Louis is being stimulated by prepstations for the St. Louis world's fair of next year, which promises to be a world-bester. St. Louis was formerly one of the best points in which to secure capital for mining enterprises in the country, but of late years bucket shops and "get-rich-quick" concerns have grown fat and injured all kinds of husiness there. These are now being prosecuted and driven out, and it is anticipated St. Louis will again become what it once was, a good place for mining enterprises. Mr. Cowen left for Bolse last night.

#### At the Blue Acre Mine.

Henry M. Crowther, managing director of the Blue Acre Copper company, has issued the regular monthly bulletin showing the progress of development work at that Beaver cousty enterprise.

No matter how long you have had the cough: if it hasn't sirendy devel-oped into consumption Dr. Wood's Nor-In this it is stated that in the shaft is ore carrying values of 11.6 Ser cent copper. 7 ounces silver and from 43.50 to \$10 in gold. way Pine Syrup will cure it.

DALY-JUDGE REPORT. Centennial-Eureka mine in the Tintic listrict yesterday, and or Exhibit Made by the President of it Superintendent C. E. Allen hurried to the scene last night. It occurred be The Company, J. J. Daly, tween the 500 and 700 levels, and about Within the next two or three days 2,000 feet south of the main shaft. Forthe first annual report of the Daly-Judge Mining company will be in the tunately no lives were endangered. Information obtained at the compahands of the shareholders. It has just ny's offices this morning was to the efpeen issued from the press, and confect that, while a considerable area is ains much interesting data concercovered by the fallen earth and that it ng that big Park city bonanza. will take some little time to retimber Th eport covers the period between Nov. 1901, the date of the organization of and make repairs, the regular shipment of ores will not be interferred with. the company, up to Jan. 1, last past. President Daly, in his statement, shows that 50,000 shares of treasury stock were sold for \$150,000. Later 168,-Marked Advances Noted in Both 16 shares more were sold for \$745,917.1 making the total revenue from this ce \$895,917.10. From the sale of ore The metal market was in the condi-122,877,52 wis derived, while the intertion to bring forth much favorable comment and consequent good feeling supported with derived, while the inter-est account brought the company \$6,-337.95, making the company's total revenue amount to \$925,732.57. Two months ago, or on the first of the year, total Two there still remained in the treasury \$75. In the way of expenditures Mr. Daly's exhibite shows that during the company's existence there has been e-pended for mine operation, including existence there has been exospecting, the sum of \$44,758,42; for mill operation, ore and general ex-pense, \$56,553.05 was paid: for mine and construction, general improve. mente. property and other mining claims cost \$757,761.09. Mr. Daly estimates that there is no less than 120,000 tons of ore ready for aining and reduction blocked out in the The pamphlet is embellished with a number of half-tone engravings showing exterior and underground views of the mine CON-MERCUR VELVET Checks Aggregating \$30,000 Placed In the Mails Today. This is dividend day for the Con. Mercur. Today the little parcels of "vel-vet" to the value of \$39,000, amounting to 3 cents per share, were placed in the mails. This is the third distribution of the year, making the total paid out n this manner this year \$90,000. An Old Landmark Gone. A special to the Butte Miner from Anacondu says: "One of the highest and must prominent stack at the upper corks was blown down by dynamite esterday. The stack was in the neigh-erhood of 180 feet high, and was the

Mr. Evans says that he went to the scene of the trouble the next morning, after 48 men had been arrested for a conspiracy to kill Cunningham, and ound there, in a house occupied by a colored man, the dead bodies of Wil-liam Dodson, William Clark and Richard Clayton, all colored.

"On inquiry The report continues: we found that the wife of the cold man, with four children, together with eight colored men, were in the house, and that about daybreak all who were inside were awakened by shots being fired into the house from the outside lower; good to prime steers, 5.10@5.65; poor to medium, 3.50@4.75; stockers and feeders, 2.75@4.75; cows, 1.50@4.60; heifers, 2.25@4.75 canners, 1.50@2.60; This shooting took place without any. thing being said to those on the in side, and the three colored men I have mentioned were found dead on the floor Two were in their night clothes and the other one was partly dressed, with one shoe on, partly laced, and the other 25,000; left over, 1,400, strong to 5 foot bare

Hiser ed with his sister, and she made the statement at the inquest that she plead-ed with those shooting not to kill her children,and in reply Cunningham said: Women and children must take care of themselves.' In no instance could we find where these people had been asked to surrender until after the deputies Kansas City, March 9 .- Cattle-Pe ipts 8,000, including 1,000 Texans, had commenced to shoot at the occu-Texas and Indian steers, 3.2564.40

pants of the houses named. "We next went to the house of Lucian exas cows, 1.90@3.25; native cows and elfers, 2.90@4.50; stockers and feeders. Lawson, who was considered mortally wounded. I am led to understand that after the shooting referred to this man, with others, returned the fire of the posse, and this is the only instance where any attempt was made to return fire on the part of the miners. During the shooting, in many instances the men and women pleaded with the men outside to have mercy on them, but their cries were met with derision and curses. Our investigation proves conclusively that no effort had been made to shoot or resist except in the one case mentioned, but that all would have been too glad to have surrendered if they had been allowed the opportunity to do so.

Mr. Evans says that the coroner's jury returned a verdict of felonious killing against Cunningham for the kil-ling of William Dodson.
