JUDICIAL PARTIALITY.

The recital of the Washbur Hooth fernication case by our Ogden correspondent, to yesterday's Nawa, tells its own tale. It affords but anher aroung a multitude of illustra-tes of the notorious fact that in many periculars "Mormons" classed on trial and on the witness

and from the Carasilan line to the full of a stated by the Assistant District Attorney, she declined to give evidence. Judge Henderson took no steps to compel her to testify. Mr. Evans, who prosecuted, stated that it was claimed on the cutside that there was one have for "Morninous," masking of course, that the haw was construed and applied in visition to the one class differently to whall was done in reference to the other. He never stated a plainer fact, and never drew the attention of the court to more inexcussible judician proceedings. There can be no found that that it became a "Mornious inside the half is been a "Mornious inside the witness would have been itealized to be in contempt and went to jail. The same judge is whise adjusted to the state of the full that very thing in the case of Mr. Hendrickson. But in that instance both the accused and the witness were Latter-day Sainte. Jessies, we have the éans of many ofter instances of tender of failing or beforing to provide or administration of medicine to a sich was only that the claim of the basic principles of the segment of the latter day Sainte. Jiesies, we have the éans of many ofter instances of tender of men of the found of the sum of the states of the second of the sum of the sum

with their mothers.

We would by no means have been gratified to have been compelled to record the fact that Birdle Booth had been so treated. If howeld have been a marked of the would have been a marked of the would have been a marked. If howeld have been a marked of the would have been a marked of the would have been a marked of the would have been a marked distinction between the treatment according to two distinct classes to which we take exception; a reprehensible fouriers, and a parody on equal treatment before the law.

Yet the "Mormonis" are expected to quietly subput to such wrongs to entire the side of the side of the subput to such wrongs.

The most successful Clothier of today is the one who avoids the carrying of stock over to next season. The practice of such a method is beneficial to both the Merchant and the Buyer, otherwise detrimental. The secrechart and the Buyer, otherwise detrimental. The secret is easily explained by any successful and enterprising concern. The difference between holding a garment over 10 first season in order to make a certain profit, and selling the same in season for, or even RELOW COST is not easily comprehended by everyone. By purchasing a Carried Over garment you are liable to shelf-worn and motherating goods, while on the other hand you obtain brand new and fashlonable goods and for less money. Decease the point
