

TRAGIC DEATH OF A. J. PETERSON

Popular Young Man of Ephraim
Met With Fatal Ac-
cident.

SINGING WHEN BLOW CAME.

Prong of Large Hay Fork Fell and
Entered His Breast Causing
Sudden Death.

The people of Ephraim, Sanpete county, are mourning the loss of one of their bright and sterling young men, in the person of Anthony J. Peterson, who met with a fatal accident on Wednesday, July 18. On that day he went to his father's ranch for the purpose of putting up hay. While so engaged, the large hay-fork became fastened and failed to work. Anthony was in the act of fixing the fork, when it loosened and fell, one of the prongs entering his left breast. "He cried out, 'I must have been struck; I feel so faint,' and immediately thereafter expired.

His companions were struck with consternation at the sudden and deplorable occurrence, and when the news reached the family and friends of the young man, it brought gloom and sorrow to many a heart. The deceased was exemplary in every way and he was much loved by every one who knew him personally or knew of him.

Notwithstanding the rush of work incident to the time of haying, the funeral of the young man was very largely attended. The services were held on Friday, July 20, and the speakers at the occasion were, President Beal, President Anthony H. Lund, Bishop Forges and Elder David Beal, who spoke words tending to alleviate the sorrowing hearts of the family and friends of the departed, and fitting to his memory.

Peter C. and Louise Beal, Peterson are the parents of the young man who was so suddenly called into the eternal world. His father is a son of the late President Canute Peterson, while his mother is a daughter of George W. Beal. Anthony was born in Ephraim 25 years ago, and had lived there all his life. Three weeks to the day before his death he was married in the Salt Lake temple to a daughter of George Beal. The young woman is disconsolate over the tragic and untimely death of her husband. So happy was the young man, that he was singing when the blow fell that terminated his earthly existence.

I live and let my brethren live
With all that's good to me
Unto the poor some cash I give.
The balance I give to Rocky Mountain Tea.

Members are requested to bring picnic and refreshments. The meeting will be held at 7 o'clock. Returned missionaries, friends, and members are cordially invited. Everybody bring picnic.

THOMAS A. TELLEFSON,
ROBERT L. ANDERSON,
EDWARD HANCOCK,
JOSEPH S. DONELSON,
Committee.

YOUR LIVER

Is out of order. You go to bed in a bad humor and get up with a bad taste in your mouth. You want something to stimulate your liver. Just try Herbine, the liver regulator. A positive cure for Constipation, Dyspepsia, and all liver complaints. Mrs. F. W. Fort, Texas, writes: "Have used Herbine in my family for years. Words can't express what I think about it. Everybody in my household are happy and well and we owe it to Herbine. Sold by Z. C. M. I. Drug Dept., 112-114 Main St. B

TEMPLE NOTICES.

The Salt Lake temple will close Friday evening, June 29 and reopen, Tuesday, Aug. 7, 1906.

JOSEPH F. SMITH,
President.

Logan, Utah, July 4.—The Logan temple will close on Friday, July 20, 1906, and reopen on Monday, September 3, 1906.

WM. BUDGE,
President.

The St. George temple will close its doors on Friday, June 29, and will not reopen again until Tuesday, Aug. 28, 1906.

DAVID H. CANNON,
President.

The Mantle temple will be closed July 29 and open for ordination work, Sept. 4, 1906.

JOHN D. T. McALLISTER,
President.

DEAFNESS CANNOT BE CURED
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it is out of order and the sound vibrations are intercepted. It is, therefore, a local, not a general disease. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by local treatment. Send for circulars free.

ENGINEERS ARE NOT SATISFIED

Some Short Line Men Don't Like
Eight-hour Rest Rule Gov-
erning Runs.

RIO GRANDE MEN APPEAL CASE

Got Too Much of a Good Thing and
Accordingly Carried Grievance
To Headquarters.

A peculiar condition of affairs prevails on the two big railroad systems operating in Utah. Some engineers on the Rio Grande are complaining that they are getting too much duty while some knights of the throttle on the Oregon Short Line feel that they have a grievance inasmuch as they are not getting enough. Both roads, in the meantime, are fairly choked with business so it is not a case wherein one is busy to the limit and the other is not.

Six engineers in the employ of the Rio Grande Western were recently laid off for refusing to take their engines out on another run. The men claimed that they were worn out for lack of rest and desired a few hours respite before climbing into their cabs. The men refused to stay discharged and their cases have been taken to Denver headquarters by the grievance committee of the Brotherhood of Locomotive Engineers.

On the Short Line somewhat different conditions prevail. Under a recent order issued all engineers are required to take at least eight hours' rest prior to again taking a train out. Conditions on the Short Line are such that there are short runs such as Salt Lake to Ogden and return. A man making this run is compelled to lay off for eight hours and the old rule of "first in, first out" accordingly is all shot to pieces and an engineer after coming in is often compelled to see somebody else take the coveted run to Portland. As engineers are now paid by the mile and not by the day the element of chance has a great deal to do with the size of their pay check each month. The new rule is generally considered a good one from the point of public safety, however.

CHEYENNE & NORTHERN.

Many Improvements Under Way on
Its Line—80-Pound Steel.

(Special to the "News.")

Cheyenne, Wyo., July 26.—The Cheyenne & Northern is making many improvements on its line from Cheyenne north. New 80-pound steel has been laid from Hartville Junction south to Cheyenne, a distance of 40 miles, and the steel gang is now at work between a point 20 miles north of Cheyenne and a point 45 miles north. The roadbed has been widened from Hartville Junction to Cheyenne. All bridges between Cheyenne and Orin Junction are being rebuilt.

Next year an additional 60 miles of road will be laid with steel, making 120 miles covered with the 80-pound rail, and leaving only 36 miles of the light rail which has been in use several years.

GOULD IN OREGON.

Announcements of Additional Railroad
Construction Point in That Direction.

Portland, Ore., July 26.—The Oregonian today will say that the Corvallis and Eastern railroad is to be extended by the Hammond interests, its present owners, from the terminus at Idanha, Linn county, across central Oregon, to some point on the Snake river, probably Ontario. Another Hammond road, the Astoria & Columbia River, will be extended south along the coast from Seaside to the Nehalem and Tillamook countries. Both these projects will aggregate over 150 miles of new construction and it is expected that the roads will be in operation in a few years.

During the past year there have been many rumors of the sale of the Hammond lines, first to one and then to another of the great transcontinental systems, but in this connection the Oregonian says:

"Not only is Mr. Hammond not contemplating the sale of either of his lines, but he intends to add a very large one to his present holdings. Many believe this move assures the entry of the Gould lines into Oregon. It is said that the destination of the C. & E. may not be Ontario but to a point in the Klamath country, where a junction will be effected with the California, Nevada & Oregon, an alleged Gould line running north from Reno, Nevada, to a point in northern California near Alturas, the county seat of Modoc, just across the Oregon line."

ANOTHER MISHAP.

Freight Train in Echo Canyon Hits
A Broken Rail.

The old adage regarding misfortunes never trotting in single harness again holds good. Hardly had the bad freight wreck at Review, west of Green River, Wyo., on the Oregon Short Line, been cleared up yesterday afternoon when another freight train near Echo, Utah, hit a broken rail creating a weird derailment. This double event with no casualties had the effect of still further tying up the main line and demoralizing traffic.

W. D. CORNISH COMING.

Harriman's Right Hand Man Is Due
Here This Week.

W. D. Cornish, vice president of the Union Pacific and other Harriman lines, is due to arrive here this week on his regular visit and inspection tour over the Oregon Short Line, when he will look into the scheduled improvements and personally inspect affairs. He will in all probability remain in Utah a week and make the Oregon Short Line general offices his headquarters.

SPIKE AND RAIL.

Kenneth C. Kerr, traveling passenger agent of the Salt Lake Route, has returned from Denver.

A. E. Welby, general superintendent of the Denver & Rio Grande, is here in company with J. M. Walker, superintendent of telegraph of the same system.

The big steam shovel at work on North Temple, adjacent to the Oregon Short Line depot on the yard improvements is attracting considerable attention.

The Rio Grande announces that it will run a late train, leaving Upper Falls, Prove canyon, at 8 p. m. so as to give the fishermen a chance at the evening catch.

The Oregon Short Line and Rio Grande specials from various points throughout the state in connection with Knights of Pythias day at Saltair were all loaded with excursionists.

H. S. Cable, general superintendent of the Rock Island & Des Moines, Ia., with a party of friends, spent a few hours in Salt Lake yesterday on his way east to Glenwood Springs, Denver and home.

Luring the Elks' carnival in Denver the Salt Lake Route distributed broadcast 15,000 copies of the Los Angeles Times edition devoted to the resorts of

HAVE YOU DYSPEPSIA, INDIGESTION?

If to-day you suffer from impaired digestion, sluggish liver or impure blood, and you were told of a preparation which would cure you at a small cost would you try the remedy? There is a medicine—Green's August Flower. Go to your druggist's and buy a test bottle for 25 cents, or the regular size for 75 cents. If you have used all other dyspepsia remedies without satisfaction, or if you have never used any preparation for these distressing affections, if you have headache, biliousness, loss of appetite, sleeplessness, nervousness, or any disorder of the stomach or liver, cure yourself quickly by using the infallible Green's August Flower. It is not an alcoholic stimulant but quite harmless for general use. Get a copy of Green's Prize Almanac. At all druggists.

BRITISH INS. COMPANIES.

Will Pay in Full for Actual Losses
Sustained.

San Francisco, July 25.—The position which the British insurance companies with an earthquake clause in their policies have decided to take with regard to the settlement of their losses in this city by the representatives of the Commercial Union, Pacific, Reliance and Norwich Union insurance companies, is summed up as follows:

"It is the desire of the insurance companies to make good the actual loss sustained in every case in which legal liability is not doubtful. It is not possible at this time to specifically name the particular cases falling within this class, but we will say that it is our understanding that there are such losses and as to these, the companies will pay in full upon the ascertainment and adjustment of the amount of fire losses distinguished from earthquake damage unaccompanied by fire."

WESTINGHOUSE CHARGED WITH QUEER DEALINGS.

Pittsburg, July 25.—At a sensational meeting of the stockholders of the Westinghouse Electric & Manufacturing company today George Westinghouse, president of the company, was charged openly by stockholders with launching private ventures with the company's funds. The directors were charged with aiding him in this, but after a bitter squabble the slated board of directors were elected and the official coterie won out.

James Carrothers, one of the minority stockholders, led the opponents of Mr. Westinghouse. The incident grew out of the report of the company. Mr. Carrothers called attention to the assets, in which were stocks and bonds of the Lackawanna & Wyoming Valley Rapid Transit company, \$5,300,000. Mr. Carrothers wanted to know how much was stock and how much was bonds.

There was a hot discussion, and it developed that the capital stock of the Lackawanna & Wyoming Valley Rapid Transit company is \$1,000,000, and that the road cost about \$5,000,000. No one was sure that these figures were correct, and there was more or less confirmation.

STORIES OF TROUBLE AT CANANEA ABSOLUTELY FALSE

Douglas, Ariz., July 25.—United States Consul Agent John B. Breathitt of Cananea, Mexico, arrived here tonight with an emphatic denial of rumors current along the border of another uprising at Cananea, in which Col. W. C. Greene was alleged to have been shot, saying:

"I wish to state through the Associated Press to the people of the country that all stories of unrest or of prospective trouble at Cananea are absolutely false and circulated solely for mercenary motives. The newspaper correspondents sending out this trash are availing themselves of rumors they know to be without foundation in fact, for so much per line. Whether the stock market interests are being served (at the same time for pay I do not know, but the continued assaults on Col. Greene by those who are endeavoring to fleece small holders out of their stock gives it that appearance. As for Cananea, Sonora, the friends of the thousands of Americans who are there can rest assured that they are absolutely safe. Not only is there no feeling against Americans, but the Mexican government has taken the necessary steps in providing troops to prevent the possibility at any future time of disorders of even a slight character."

Col. Breathitt is widely known as a former railroad commissioner of Missouri and later as a member of the Democratic national committee from Arizona.

MAY BUY STEVENSON'S HOME.

Berlin, July 25.—The foreign office is considering the purchase of the house at Vallima, Samoa, formerly owned by Robert Louis Stevenson, as a residence for the governor.

DR. R. M. WHITEFOOT DEAD.

Helena, Mont., July 25.—Dr. Robert M. Whitefoot, for 25 years a well known Montana practitioner who came west as an army surgeon, died in Bozeman, his home, today, in his sixty-sixth year. About a year ago, while alighting from a train near Hot Springs, Ark., he was run over, losing a leg, and steadily declined in health since.

Tells How Sheepmen Are Growing
Rich and Makes Statements That
Prove It—Trade Review.

Special Correspondence.

Union Stockyards, Kansas City, July 24.—W. T. Ryman, a pioneer settler in the mountain range country west of the Rockies in the Uncompaghe valley, came in yesterday with two carloads of mixed sheep, his first shipment this season. Mr. Ryman is no stranger on this market. He has been coming here for many years. He also has an extended acquaintance in the range country, where he has been living for 32 years. When he located there, the nearest railroad point was 200 miles away. A few scattering miners' camps held up the white settlers then. "And I will remember the times when we did not dare to settle in camp until after dark," said Mr. Ryman. "It was wild and woolly, with plenty of big game and Indians all around us. But wonderful changes have taken place in that valley as well as elsewhere. It is settled and irrigated and good land brings \$100 and more an acre. That is quite a change from the prices when I located there. Everything looks very prosperous this season."

GREAT LAMB CROP.

Mr. Ryman had in two carloads of lambs, averaging 66 pounds that sold at \$7.75, the highest price ever paid for lambs from that country. But they were good ones, just the kind he always raises. Last spring Mr. Ryman raised from 2,200 ewes more than 2,500 lambs of this kind, and he then sold the wool from these ewes at 23 cents a pound, which is higher than was paid last year. After producing these lambs, that brought him over \$5 a head, and about \$2.25 worth of wool per head, he still has the ewes. "Sheepmen have been doing well during the past few years," said Mr. Ryman. "They have been getting top prices for everything, including the wool, which makes the business profitable. The lamb crop this spring was a good one, and the sheep are doing well."

UPWARD TENDENCY.

There was a general upward tendency to the market last week, with a slight check Friday, net advance for the week \$5 to 20 cents, covering all classes of cattle. The supply today
