

**EDITORIAL NOTES.**  
 A cheerful face is nearly as good  
 for an invalid as sunny weather.

When words of charity are uttered  
 one thinks the humane tongue  
 an instrument divine, when words  
 of slander are spoken we wonder  
 why the world was not made dumb.

There are people who cannot bear  
 to do anything unless there is a  
 commission in it. If they were to  
 subscribe a thousand dollars for a  
 religious purpose they would be  
 sure to want "ten per cent off for  
 cash."

The Carson Appeal thinks that  
 this country is a good one, but that  
 too many of the people are "half-breed  
 calculations." Judging by the appear-  
 ance of some who hail from that  
 place, there are many "half-breed  
 calculations," also.

The destruction of the timber on  
 the woodlands in the southern dis-  
 tricts of Russia, is said to be the re-  
 sult of Russian winters becoming  
 gradually colder and the summers  
 hotter, drier, and less fruitful.

The Supreme Court of Illinois has  
 decided that a charitable party is an  
 unlawful assemblage. Hoodlums  
 who think they are at liberty to  
 make night hideous and levy black-  
 mail on the occasion of a wedding,  
 should be made to understand this.  
 Such riotous proceedings are a dis-  
 grace to all who engage in them.

A young Maine farmer, whose new  
 wife, a highly cultivated Boston girl,  
 well up in geology and mineralogy,  
 disappointed him by rambling over  
 the farm, pecking at the rocks in-  
 stead of attending to the milk and  
 eggs, experienced a complete revolu-  
 tion in his feelings when she dis-  
 covered gold, and he was told that  
 his farm was worth \$50,000.

Queen Victoria is to be invested  
 with the grand Order of the White  
 Elephant. His most potent majesty,  
 the King of Siam intends to  
 visit England during the approaching  
 summer, and confer this honor  
 upon England's monarch. The  
 British crown has several "ele-  
 phants" on hand already, among  
 which are Afghanistan and the  
 whole Eastern Question.

The "Republicans" of Utah, so-  
 called, put up a strong demand for  
 their standard bearer, and while de-  
 claring themselves "opposed to sec-  
 tional issues," make hostility to the  
 "Mormons" the only definite plank  
 in their platform. Consistency,  
 thou art a jewel! But it would puzzle  
 which is the Republican party of  
 Utah. It's one of the Dundreary  
 sort of conundrums that "no-fella  
 can f-ind out."

The Standard Series, published  
 by J. K. Funk & Co., 10 and 12 Day  
 Street, New York, is a republication  
 in cheap form of a number of stand-  
 ard works. Among those that we  
 have seen are: "Canon Farrar's 'Life  
 of Christ' and 'Life and Work of  
 St. Paul,'" each in two parts, "Es-  
 says by Thomas Carlyle," and "The  
 Imagination of Charles by Thomas A.  
 Knapp." They are printed on good  
 paper in clear type, with stiff paper  
 covers, and range from 15 cents to  
 25 cents a copy. Thus they are  
 a series of cheap, and works by  
 standard authors are furnished the  
 public at one-tenth the original  
 price, and not in a common flimsy  
 form either. They are well worth  
 preserving and binding in better  
 covers.

The Bulletin Miner says: The new  
 refinery of the Horn Silver Mining  
 Company is about completed, and it  
 is expected that it will be ready for  
 operation about April 1st. It will  
 have a capacity for refining fifty  
 tons of base bullion per day. Heat-  
 ing works similar to those of the  
 new consolidated Virginia Mine,  
 have been shipped to the mine, and  
 will be in operation about May 1st.  
 They will be capable of raising 500  
 tons of ore per day, from a depth of  
 450 feet. The capacity of the smelt-  
 ing works at the mine will be in-  
 creased to about 150 tons of ore per  
 day, by the addition of a number of  
 new stacks. As soon as the railroad  
 to the mine has been completed, ar-  
 rangements will be made to sell 150  
 tons of ore per day to the Salt Lake  
 smelters.

**THE LATEST EDISONIAN  
 MARVEL.**  
 THE latest Edisonian sensation is  
 the extraction of gold in large quan-  
 tities from the tailings from the  
 mines of Canada, Nevada, Califor-  
 nia, and other places. It is alleged  
 that in his search for platinum for his  
 electrical experiments Edison tried  
 to obtain some from the tailings from  
 several mining localities. In doing so, he was ac-  
 cidentally at the quantities of gold he  
 was able to eliminate. At first he  
 feared that the tailings had been  
 "salted." But repeated trials with  
 repeated success, established the  
 presence of a large amount of the  
 precious metal in this waste matter.  
 Of course it was known that some  
 particles of gold are unavoidably  
 left in the refuse from the mines.  
 But the mining world was not pre-  
 pared for the statement that from  
 concentrated tailings, by the aid of  
 chemicals, gold at the rate of \$1,000  
 per ton could be extracted. Yet this  
 is what the "Wizard of Menlo  
 Park" claims to have done, at a cost  
 not exceeding \$5 per ton. And he  
 was not looking for the precious  
 metal, either, when he discovered  
 its presence. Platinum was what he  
 was after, for use in the electric  
 light process. But when he found  
 instead of the platinum he wanted,  
 a little heap of gold every time after an experiment  
 with the tailings received from dif-  
 ferent places, he began to turn his

attention to the shining residuum,  
 and was amazed at reaping such re-  
 sults from matter that, under the  
 microscope, showed no signs of gold,  
 and yielded none from panning with  
 mercury. Even the tailings that had  
 been worked over and discarded by  
 the cautious and panning Chin-  
 men, then the discarded fruit of the  
 rest of the tailings. These tons upon  
 tons of tailings were secured by  
 contract, and arrangements made  
 for them covering a period of years,  
 and a company called the Edison  
 Ore Milling Company is to handle  
 this immense tonnage, containing a  
 large number of big fortunes.

All this sounds like one of the  
 tales of the "Arabian Nights." It  
 appears like alchemy revived and  
 made successful in its grand sum-  
 mit of science—the philosopher's stone.  
 It looks more like transmutation  
 than extraction. But how much credit  
 is to be placed in this alleged dis-  
 covery? That we are not prepared  
 to decide. But the reader will re-  
 member that, as announced in this  
 paper, it is currently reported in  
 financial circles that Edison is in  
 the hands of a company who pay  
 him for all his inventions, and an-  
 nounces a stated salary, as well as an  
 interest in the concern, and money  
 is made by the sale and purchase of  
 its stocks, which fluctuate with the  
 price of the gold, influenced by the  
 reports of Edison's successes or  
 failures.

In consequence of this, Edison's  
 stock is viewed by the posted specu-  
 lator with an eye of suspicion. But  
 the general public, in whose sight  
 the inventor is a sort of neocomeer,  
 have become disposed to believe  
 anything almost, as possible from  
 his hands, the fame of his discov-  
 eries coupled with those attributed  
 to him having gone abroad to the  
 ends of the earth.

If this latest Edison wonder proves  
 more certainly reliable than the  
 electric light excitement, the inven-  
 tor's financial status will be as-  
 sured, and the large stock owners  
 in the Ore Milling Company that  
 bears his name will all become  
 millionaires. If not, well, a great  
 many persons who invest in the  
 concern will be numbered among  
 the many thousands of credulous  
 individuals, who have been made  
 the prey of speculators without  
 heart and destitute of conscience.

**STRIKE FOR INDEPENDENCE.**  
 We learn from Bro. James H. Mar-  
 tinez, surveyor and civil engineer,  
 that there is a large tract of fertile  
 country in the Snake River Valley,  
 suitable for those who have no land  
 of their own. The Utah and North-  
 ern brings that district within speak-  
 ing distance of the settled portions  
 of Idaho and Utah, and offers an  
 opening for a large number of fam-  
 ilies to obtain homesteads.

There are other localities, nearer  
 to home, which invite the presence  
 of landless and strong-armed men.  
 We frequently publish letters from  
 different parts of Utah, north and  
 south, stating that there is room  
 for more settlers in places where our  
 people have taken up their abode,  
 and where land can be obtained and  
 an independence achieved by indus-  
 try and perseverance.

In view of this, we marvel at the  
 number of persons who stay in the  
 towns, half their time, living  
 "rooms" month, renting  
 other people's houses, making ar-  
 rangements for themselves, and with a  
 prospect of bettering their condi-  
 tion. If some of them would break  
 through the bonds of custom, get  
 out of the rats in which they have  
 been used to pass along, and move  
 into the country, where there is  
 room enough for all and land to  
 spare, but a few years would pass  
 away before they would become  
 landed proprietors, and emerging  
 from poverty and dependence—not  
 of course, without a struggle—re-  
 joice in the bounties providence and  
 the fruits of their toil. Laborers,  
 mechanics, workmen of all kinds,  
 who have no homes of their own  
 and can only find partial employ-  
 ment, take your hands out of your  
 pockets, strike out on the uncom-  
 plicated and make a fight with un-  
 equalled nature for plants and in-  
 dependence!

**BY TELEGRAPH.**  
**AMERICAN.**  
 NEW YORK, 10.—Mapleson has  
 taken the Academy of Music for  
 five years, rent free, agreeing to en-  
 large and improve the auditorium  
 and produce Italian opera every  
 winter on a generous scale, with  
 such leading artists as Nilsson and  
 Gerster, and the best talent of Eu-  
 rope supporting. The stockholders  
 retain 1,300 seats.

A large business at the Aca-  
 demy and the principal theatre has  
 been remarkably good.  
 Grand French opera close a suc-  
 cessful engagement here to-night,  
 at the Park. The French opera  
 company, at the Park. Both are  
 drawing large houses.

To marry or not to marry,  
 at Wallack's, promises a good run.  
 It is again announced, likely  
 that a new theatre will be built for  
 Wallack up town before next Octo-  
 ber. Joseph Brooks and S. M.  
 Hickey are stated to have leased  
 to the city a complete new theatre  
 on New York, Ohio, Michigan, West  
 Virginia, Indiana and Tennessee,  
 and to be a sort of corporation  
 attraction. It is thought that  
 Hickey has engaged Sydney Cowell  
 to star next season, and a popular  
 play, consisting of the Lotta sort, is  
 being written for her.

J. N. Polk withdrew from the  
 Union Square and opened at the Bos-  
 ton Museum on Monday in Joseph's  
 play, "A Man from Marston." W.  
 Lemoyne takes the place of the  
 "Two Orphans" with Sarah Cor-  
 well as Marianne.

Fanny Davenport, John McCol-  
 lough and Mrs. Brown are to be  
 engaged for the Fifth Avenue, next sea-  
 son.  
 Bandmann goes to California in  
 May.

Manager Levitt is reported to  
 have secured the Condon Opera-  
 house for his European opera  
 burlesque company.  
 Minnie Palmer is under the manage-  
 ment of J. E. Brown at the San  
 Francisco Minerva May 8d.  
 Sol Smith Russell will star next  
 season in a new play called "Edg-  
 wood Folks."

J. W. Shannon is stated to have  
 sold a new play, "Adelphi Delch-  
 on," who will star next season.  
 Mrs. Boucault publishes a card  
 replying to her husband's state-  
 ment and setting forth that all the  
 money she has received of him  
 during the last four years is \$3,540.  
 A handsome stained glass window  
 at window has been put in the  
 Church of the Transfiguration, at  
 Louis S. Hargrove in memory of  
 Montague.

Dr. Gilbert R. Spaulding, the  
 well-known theatrical manager, died  
 at New Orleans, a few days since.  
 Bailey, the Danbury News man,  
 has written a play called "Crimps  
 and the Great South Sea."

"Matrimony" is the name of a  
 new play which Bailey Campbell  
 has written for the next season at  
 Daly. His play of "Clio" will be  
 produced here at Niblo's next au-  
 tumn, it is expected.

Lawrence Barrett intends going  
 to Europe this summer. Next season  
 he will also be in the "Edison" in  
 the Park. He will also appear in a  
 play written by W. D. Howells of  
 which great things are expected.

It is considered a possibility that  
 James O'Neill has been engaged by  
 Mackay as leading gentleman for the  
 Madison Square next season.  
 Rumor states that Boucault has  
 been engaged for the greater part  
 of next season at Wallack's.

Frank Goodwin has closed a con-  
 tract for the production of the "Pri-  
 vates of the 68th Regiment" at the  
 Theatre, San Francisco. It will be  
 ready in about three weeks.

In the Circuit Court, Judge Cox refused the  
 motion of Senator Hill's counsel to  
 strike the name of Raymond vs. Hill  
 from the docket, and held that in-  
 asmuch as Miss Raymond had stated  
 in open court that she authorized  
 the institution of the suit, the case  
 must be tried.

**Securities Released.**  
 SAN ANTONIO, 10.—Orders have  
 been received at Fort Brown for the  
 enlistment of all able bodied Mexi-  
 cans offering for service as guards on  
 the frontier.

**A Desperado Killed.**  
 LEBANON, 10.—Revenue officer  
 Stockett and Joe Reynolds a famous  
 moonshiner, but a famous moon-  
 shiner, were shot near Lebanon  
 this morning, in which the desperado  
 was killed.

**Field's Supporters—Democratic**  
 CINCINNATI, 10.—The Inter-Ocean  
 Washington special says: A letter  
 reached here to-day from promi-  
 nent Pacific coast politician now in  
 New York, and who is an confident  
 of terms with Governor Seymour,  
 says that Seymour will not posi-  
 tively not be a candidate for President  
 under any circumstances, and will  
 use whatever influence he can com-  
 mand in behalf of Judge Field. The  
 writer, who is also an intimate friend  
 with Field, expressed the belief  
 that he will not push his own claims  
 before the national convention, but  
 will come to the support of Justice  
 Field.

Several prominent Virginia demo-  
 crats are here with the object of in-  
 fluencing Gen. Gordon, Mr. Blackburn  
 and other democrats to leave the  
 Congress to go to Winchester or  
 some other point in the Shenandoah  
 Valley and address the people on  
 seceding national grounds. This is  
 the way to consolidate the elements  
 of the party now far asunder.

The Tribune's Washington special  
 says: A private telegram from Port-  
 land says: Five of the Oregon dele-  
 gates are for Field.

**FOREIGN.**  
**GREAT BRITAIN.**  
 Foreign News.  
 LONDON, 9.—The Spanish con-  
 gress has approved 22 clauses of the  
 Cuban budget.

The new Bulgarian ministry is  
 satisfactory to those who desire  
 peace and order in the Balkan Pe-  
 ninsula.

A printing office at Smolensk has  
 been closed by the police and one  
 of the proprietors arrested. Papers  
 compromising the establishment  
 were discovered when the last ses-  
 sion press was seized in St. Peters-  
 burg.

The name of the Frenchman as-  
 sassinated on the way to Sumatra is  
 Walton. He was entrusted by the  
 French Government with a mis-  
 sion to the island of Sumatra.

**MEMORIAL OF RESPECT TO  
 EX-MAYOR JOHN D. REES.**  
 Whereas, Our much esteemed  
 brother and fellow citizen, Ex-Mayor  
 John D. Rees, has in the dispensation  
 of Providence been taken from  
 our midst by the hand of death, and  
 Whereas, Deceased has long been  
 known among us as a man of integ-  
 rity, wisdom, truthfulness and kind-  
 ness, in his official honors in the  
 Council and before the people, and  
 Whereas, He has secured the good  
 feelings and esteem of many people  
 while filling various positions of  
 trust and honor, and  
 Resolved, That we, the Council of  
 Brigham City, deeply mourn the  
 loss of our departed brother, a man  
 of sterling worth and tender  
 heart, and sympathize with his  
 family in the loss of such a husband,  
 father and protector. Be it also  
 Resolved, That these resolutions  
 be spread on the city records of Bri-  
 igham City, and that copies thereof  
 be transmitted to the family of the  
 deceased, and to the papers of Salt  
 Lake City and Ogden City for pub-  
 lication.

SAMUEL SMITH, Mayor.  
 ALVIN NICHOLS,  
 HANS P. JENSEN,  
 ELLIAS A. BOY,  
 A. ANDERSEN,  
 LUCAS A. SNOW,  
 Councilors.  
 Adopted March 30, 1880.  
 Attest:  
 JOHN CHRISTENSEN,  
 Recorder.

**Ehrlich's Fashion Quarterly.**  
 This magazine is a perfect epitome  
 of spring fashions, and gives its  
 readers full particulars of fabrics,  
 styles, and prices. Does a lady wish  
 a new spring dress? From one page  
 of the Quarterly she learns in what  
 style it should be made, from an-  
 other what colors and contrasts are  
 most fashionable, and from a third  
 what prices she should pay for the  
 materials. Baby wear, undercloth-  
 ing, children's suits, hats, home-  
 hold goods, etc., etc., come in, each  
 and all are there. The descriptions are  
 accurate, the prices are really  
 compiled, and the illustrations show  
 which the book is crowded, drawn  
 from actual articles of costume.  
 Published by E. B. Brown, 18, Eighth  
 Avenue, New York, at 50 cents a  
 year, or 10 cents a single copy.

**JAMES H. BROWN, JR.,** represent-  
 ing the firm of J. H. Brown & Son's  
 Marble Works, of Logan, who is in  
 this city, will attend to all business  
 connected with said firm, at John  
 Readings, 137, Ward.

**ONE OF THE BLOODS.**  
 Of Boston recently went to Chicago  
 and got into a dispute with a police-  
 man regarding the matter of glasses  
 of his he had given. As a blood  
 paring, these two things like the  
 Blood and later Syrup. So the  
 hot blood with a magic touch.  
 dead w.

The man who heeds not the  
 warning of pain or suffering, which  
 always precedes madness, often be-  
 comes, through indolence, the vic-  
 tim of incurable disease. Last-  
 ingly, the early employment of  
 the Limbs indicates nervous dis-  
 arrangement, the forerunner of  
 many organic and functional dis-  
 eases. The early employment of  
 Fellow's Hypnotophiles will effec-  
 tually ward off such maladies.

For all the bitter opposition of  
 jealous rivals, no better illustration  
 could be had of this fact than the  
 immense sale already attained by  
 the great Throat and Lung Remedy  
 Dr. Aug. Kaiser's German  
 Remedy. For the cure of Coughs and  
 Bronchial Affections, it is truly  
 wonderful. It is the only remedy  
 for Consumption, in its advanced  
 stages and great relief, and num-  
 bers of patients have found, to their  
 delight, not only relief, but cure.  
 It is perfectly harmless, and may  
 be taken at once by mothers, who  
 of all others have felt the neces-  
 sity of such a medicine. The  
 genuine, bears the Prussian seal of  
 Arms, the fac-simile signature of  
 Dr. Aug. Kaiser, and has his name  
 blown on every 75 cent bottle. A  
 trial size may be had for 25 cents.

For sale, wholesale and retail,  
 by the Z. C. M. I. Drug Department  
 and Moore Allen & Co., Salt Lake City.

**TO BE SOLD.**  
 A Large and Choice Variety of  
 FRUIT AND SHADE TREES,  
 SHRUBS,  
 And Flowering Plants,  
 For Sale at the  
 FARMERS' NURSERY,  
 Cor. of 4th North and 4th West Sts.,  
 Thos. Fenton & Sons.

**CAKES.**  
 BRIDES' CAKES,  
 BIRTHDAY CAKES,  
 Of all kinds and at prices to suit.  
 PHILADELPHIA COFFEE HOUSE,  
 OYSTERS IN EVERY STYLE  
 TO PLEASE THE PUBLIC AT THE PHILADELPHIA  
 COFFEE HOUSE, 111 N. 1st St., Phila.  
 NOTICE TO CREDITORS.  
 Estate of Mary V. M. Jackson deceased.  
 NOTICE IS HEREBY GIVEN BY THE  
 undersigned, Administrator of the  
 estate of MARY V. M. JACKMAN, deceased,  
 to the creditors of said estate, to present  
 their claims against the same, to the  
 undersigned, within four months after  
 the first publication of this notice, to  
 the said Administrator, at his office, at  
 Salt Lake City, Territory of Utah.  
 Dated at Salt Lake City,  
 March 6, 1880.  
 J. H. MCKINLEY, Administrator.

**NOTICE TO CREDITORS.**  
 Estate of WILLIAM CLAYTON, deceased.  
 NOTICE IS HEREBY GIVEN BY THE  
 undersigned, Administrator of the estate  
 of WILLIAM CLAYTON, deceased, to the  
 creditors of said estate, to present  
 their claims against the same, to the  
 undersigned, within four months after  
 the first publication of this notice, to  
 the said Administrator, at his office, at  
 Salt Lake City, Territory of Utah.  
 Dated at Salt Lake City,  
 March 6, 1880.  
 J. H. MCKINLEY, Administrator.

**NOTICE.**  
 IN CONSEQUENCE OF LAST YEARS  
 drought, it is discovered by Rev. Wagstaff  
 that the land of the State of Utah is  
 now in a state of extreme dryness, and  
 that the water of the State is now in a  
 state of extreme dryness, and that the  
 water of the State is now in a state of  
 extreme dryness, and that the water of  
 the State is now in a state of extreme  
 dryness, and that the water of the State  
 is now in a state of extreme dryness, and  
 that the water of the State is now in a  
 state of extreme dryness, and that the  
 water of the State is now in a state of  
 extreme dryness, and that the water of  
 the State is now in a state of extreme  
 dryness, and that the water of the State  
 is now in a state of extreme dryness, and  
 that the water of the State is now in a  
 state of extreme dryness, and that the  
 water of the State is now in a state of  
 extreme dryness, and that the water of  
 the State is now in a state of extreme  
 dryness, and that the water of the State  
 is now in a state of extreme dryness, and  
 that the water of the State is now in a  
 state of extreme dryness, and that the  
 water of the State is now in a state of  
 extreme dryness, and that the water of  
 the State is now in a state of extreme  
 dryness, and that the water of the State  
 is now in a state of extreme dryness, and  
 that the water of the State is now in a  
 state of extreme dryness, and that the  
 water of the State is now in a state of  
 extreme dryness, and that the water of  
 the State is now in a state of extreme  
 dryness, and that the water of the State  
 is now in a state of extreme dryness, and  
 that the water of the State is now in a  
 state of extreme dryness, and that the  
 water of the State is now in a state of  
 extreme dryness, and that the water of  
 the State is now in a state of extreme  
 dryness, and that the water of the State  
 is now in a state of extreme dryness, and  
 that the water of the State is now in a  
 state of extreme dryness, and that the  
 water of the State is now in a state of  
 extreme dryness, and that the water of  
 the State is now in a state of extreme  
 dryness, and that the water of the State  
 is now in a state of extreme dryness, and  
 that the water of the State is now in a  
 state of extreme dryness, and that the  
 water of the State is now in a state of  
 extreme dryness, and that the water of  
 the State is now in a state of extreme  
 dryness, and that the water of the State  
 is now in a state of extreme dryness, and  
 that the water of the State is now in a  
 state of extreme dryness, and that the  
 water of the State is now in a state of  
 extreme dryness, and that the water of  
 the State is now in a state of extreme  
 dryness, and that the water of the State  
 is now in a state of extreme dryness, and  
 that the water of the State is now in a  
 state of extreme dryness, and that the  
 water of the State is now in a state of  
 extreme dryness, and that the water of  
 the State is now in a state of extreme  
 dryness, and that the water of the State  
 is now in a state of extreme dryness, and  
 that the water of the State is now in a  
 state of extreme dryness, and that the  
 water of the State is now in a state of  
 extreme dryness, and that the water of  
 the State is now in a state of extreme  
 dryness, and that the water of the State  
 is now in a state of extreme dryness, and  
 that the water of the State is now in a  
 state of extreme dryness, and that the  
 water of the State is now in a state of  
 extreme dryness, and that the water of  
 the State is now in a state of extreme  
 dryness, and that the water of the State  
 is now in a state of extreme dryness, and  
 that the water of the State is now in a  
 state of extreme dryness, and that the  
 water of the State is now in a state of  
 extreme dryness, and that the water of  
 the State is now in a state of extreme  
 dryness, and that the water of the State  
 is now in a state of extreme dryness, and  
 that the water of the State is now in a  
 state of extreme dryness, and that the  
 water of the State is now in a state of  
 extreme dryness, and that the water of  
 the State is now in a state of extreme  
 dryness, and that the water of the State  
 is now in a state of extreme dryness, and  
 that the water of the State is now in a  
 state of extreme dryness, and that the  
 water of the State is now in a state of  
 extreme dryness, and that the water of  
 the State is now in a state of extreme  
 dryness, and that the water of the State  
 is now in a state of extreme dryness, and  
 that the water of the State is now in a  
 state of extreme dryness, and that the  
 water of the State is now in a state of  
 extreme dryness, and that the water of  
 the State is now in a state of extreme  
 dryness, and that the water of the State  
 is now in a state of extreme dryness, and  
 that the water of the State is now in a  
 state of extreme dryness, and that the  
 water of the State is now in a state of  
 extreme dryness, and that the water of  
 the State is now in a state of extreme  
 dryness, and that the water of the State  
 is now in a state of extreme dryness, and
