IN THE RUINS OF THE UTAH MISSION

President Robinson and "News" Representative Find a Few Relics.

GATHERING OF THE SAINTS.

Some of the Elders Assisting the Authorities While Others Go Into the Field.

Missionaries Bound For the Pacific Islands Embark After Burning Of All Their Effects.

(Special to the "News.")
 Oakland, Cal., April 24.—Many of the refugees suffered from drenching showers last night, but today the majority are comfortable, made so by the distribution of new government tents. A majority of the people from Utah are under cover in houses as comfortable as conditions can possibly allow.

Nearly all the local Saints inside of the burned district lost everything, but considerable was saved from mission headquarters.

DUG FROM RUINS.

Today President Robinson and a "News" representative dug up some spoons from the ruins of the mission house. They were all that were left to designate buildings visited by so many Utah people. Many need clothing, and money badly. Everybody is working hard to offset any unnecessary suffering. Yesterday 14 miles were covered by the Deseret News correspondent in walking to different camps. An effort was made to concentrate the scattered Saints. Some Elders are leaving for outside fields, but probably half remain, working hard, helping the troops, and loading distribution rations, digging sanitary trenches and assisting Red Cross workers in the removal of the sick and injured.

HAD PLANNED PICNIC.

The Saints gathered for conference planned a big picnic at Golden Gate park on the day of the earthquake. To show they are not downhearted one of them sadly remarked today, as he smiled faintly, that they had had a picnic ever since. Some declare they will live outdoors under the trees, until they get enough to start up housekeeping again. Elders bound for the islands left today, having lost all baggage in the fire.

CLEANING THE STREETS.

No street cars are yet running, but all hands clearing streets getting ready. Throughout the day crowds of refugees diverged from Market street in a circuitous route, while tottering buildings were dynamited by artillery. Owing to the burned district, the operations afforded a magnificent spectacle, as blasts were touched off.

FLIGHT OF REFUGEES.

The migration of refugees continues unabated, scores of big touring automobiles are pressed into service to transport women and feeble persons to the ferry. The stern martial law of the first few days has had the effect of reducing the prices of exorbitant hack and expressmen to legal charges, and in cases where people were destitute an appeal to the authorities will secure transportation of meager effects to the Ferry building free.

THE RED CROSS WORKERS.

The Red Cross is doing a splendid work. Among the latest Utah people who are safe and registered at the Deseret News bureau are: Mrs. Vanderberg Spurrier, 440 Broderick street, Sarah Frantz, Calders Park; in relief camp are Mrs. A. M. Snowden, R. D. Snowden and wife, J. W. McElvaine, Ray and Nettie Shaw McElvaine, camped at Jefferson park.

LOOKING DOWN CALIFORNIA FROM KEARNEY STREET.

JUNCTION OF MARKET, ELLIS, STOCKTON AND FOURTH STREETS.

High Building on Right is Merchants' Exchange Which Contained the Offices of E. E. Calvin and Southern Pacific; Also E. W. Wilson's Bank.

In the Immediate Background Are the Ruins of the Academy of Science and Adjoining It, the Emporium, the Largest Department Store on the Coast.

Other Utah and Idaho People who are well and safe are the following:

W. A. Allen, Miss E. A. Faust, George Taysum and family, Ida Bell, J. E. Bell, B. A. Sims, Harry Schroeder and wife, J. C. Emmett, John Boyd, Mrs. J. E. Boyd, Mrs. J. Fred Cormer and wife, J. E. Ellison, Mrs. H. T. Guthridge, Catherine M. Patterson, A. Treat, Mrs. Summers, Mrs. W. E. Brooks and son, C. Whitley, Ed Lovey, Daniel Guernsey, C. F. Murphy, Laurine Plaster, G. A. Thompson, P. A. Nelson, Elders Badger, Gill, Ottam, Shaw, Johnson, L. E. Garner, D. P. Rees, S. A. Russell, L. A. Parkinson, E. H. Clark, E. Robinson, W. A. Allen, W. Fargo, H. W. Hough, Len Leonvan Musser, Mrs. Dr. Merrill, G. Plummer, W. L. Guarn, Jack Reeder, C. L. Sundbury and wife, G. H. Wheeler and wife, F. A. Druehl, B. T. Stacey and family, Mrs. S. P. Carter, Mrs. J. D. Lomax, Dr. T. R. Heinz and family, J. D. Swenson, W. Dubois, F. P. Burrell.

From Idaho—R. Shepard, J. A. Hyman, J. Hill, John Wheelan, James Wheelan, William Wheelan, J. T. Wheelan and family.

UTAHNS FEEDING THE HUNGRY.

Good Work of Harry T. McDougall and H. B. Youngblood at Tracy, Cal.

(Special to the "News.")

Tracy, Cal., April 24.—Two Salt Lakeers, Harry T. McDougall and H. B. Youngblood, were here when the earthquake came. Both escaped serious injury. The quake was very strong and the water tanks supplying overhead trains were wrecked. Hundreds of refugees pass through here on every train for Stockton. Law and order committees at Stockton prevent any looting, and keep crowds away from the depot. The people are injured, burned, hungry, and blanched with fright. Both Salt Lakeers have been kept busy feeding the refugees, and have had their homes open with food for scores.

CRAIG NOT A VICTIM.

Tribune Special Regarding Young Utah's Death Not Correct.

(Special to the "News.")

Ogden, April 24.—The family and friends of Harry Craig of this city were much annoyed and not a little concerned over a prominently displayed special in the Tribune this morning from Oakland, announcing that he was a victim in the San Francisco cataclysm. The truth is that Harry Craig, who was in San Francisco at the time of the disaster, had been heard from by his family and is safe and well.

Included in the same special to the Tribune was the statement that J. W. Jensen, another Utah, had also been killed at the Winchester hotel, where

he was stopping with Craig. Nothing is known here of Jensen, but it is hoped that time will verify the lack of truth with reference to him as it so quickly did in the case of Craig.

The family of James Burch, a former school teacher here, and who has been employed in the same capacity in San Francisco for some time, are much concerned about their relative, as no word has been received from him, and it is feared that he may have been killed or injured. His headquarters were formerly in the Flood building.

Another Ogdenite, in the person of Joseph Compton, son of a widow, has not been heard from.

TO AVERT PANIC.

Acting Governor of Nevada Orders Suspension of Business for Five Days.

(Special to the "News.")
 Manhattan, Nev., April 24.—Business is completely demoralized here, on account of the San Francisco disaster. To avert a general panic the acting governor of the state has declared a holiday for five days.

All banks are closed, and the people are completely at sea as to what to do, as a decline in mining stocks is inevitable.

Hundreds have left Carap and many mining deals that were pending have been cancelled. Tonopah and Goldfield are similarly affected. A rich strike has just been made in the Uno claim of the Manhattan Gold King, owned by Salt Lakeers.

SEND OFFERS FOR RELIEF TO JAMES D. PHELAN.

San Francisco, April 24.—All offers for relief and contributions of any nature should be addressed to James D. Phelan, chairman of the finance committee, Pine and Fillmore streets, San Francisco.

GUARDSMEN OVER ZEALOUS.

Reports of Conflict Between Them and Police Said to be Much Exaggerated.

SHOOT BEFORE CHALLENGE.

Marine Corps Captain Threatened to Report to Funston Police Refused Aid.

San Francisco, April 24.—Chief of Police Dinan announced this morning that the reports of clashes between police and national guardsmen were greatly exaggerated. The officers of the department are taking their regular details from the captains of their respective companies and are doing patrol duty in conjunction with the regulars, and it is believed that before the close of today every militiaman will be withdrawn from duty on the city streets.

"As far as the police department is concerned," said Chief of Police Dinan, "we have endeavored to co-operate with the regulars in patrolling the streets and preserving order. We have had no clash with militiamen or the citizens' patrol, but there have been numerous complaints of the over-zealousness of the guardsmen by private citizens and for that reason we have deemed it ad-

visable to request the withdrawal of all bodies of troops not acting under the direct command of Gen. Funston.

"Policeman Alpers, detailed to duty in an automobile, was fired upon by militiamen at Hayes street and Van Ness avenue shortly before midnight last night. He was speeding to headquarters and was challenged by regulars several times, but no effort was made to stop him until he came up against the militia patrol at Hayes and Van Ness. They commenced to shoot before challenging the automobile party and as the officer dashed by four shots were fired by the excited guardsmen. Fortunately all were poor marksmen and Alpers lived to tell his story to his company commander.

"Capt. of Police Martin was warned by militiamen in his section last night that there must be no lights. He told the guards that the order was that lights should be permitted until 10 o'clock p. m., but the guard was obdurate, and the captain put in the evening without lights.

"It is such little incidents as these that make the militiamen undesirable for patrol duty and has called forth a vigorous protest from the citizens."

Capt. Edward Rettenhaus of the marine corps notified Chief Dinan last night that liquor was being sold in a saloon and grocery at Fillmore and Fulton streets. Police Capt. Duke with a platoon of policemen accompanied Capt. Rettenhaus to the saloon and found the place closed. Capt. Rettenhaus insisted that the stock be destroyed, and when Police Capt. Duke explained that he had no authority to take such action, Rettenhaus became indignant, demanded his card and declared that Gen. Funston would be notified that a call had been made upon the police for aid and that it had been refused. "Sergeant Donovan of the municipal license department has been requested by Chief Dinan to investigate the case, upon which Capt. Duke has already reported, and if the conditions are as complained of by the military

authorities, there will be no future permit to the saloon man who has disregarded the order to keep his place closed.

S. F. EXPRESS CHARGES.

Not More Than 50c for Trunks and 25c for Valises Anywhere.

San Francisco, April 24.—A canvass of District No. 5, including a portion of Golden Gate park, made by Maj. Melver, U. S. A., in charge of the district, showed but two deaths since the earthquake. The information bureau reports every person within the district sheltered either in tents or wooden houses. Clothes and provisions are plentiful and there are even some luxuries in the shape of cake donated by Sacramento. A transportation line for passengers and baggage has been established to the ferry and the authorities will not permit express men to charge more than 50 cents for the delivery of a trunk and 25 cents for smaller baggage to any part of the city.

A number of young girls who have been stranded here far away from relatives and friends, will be taken to their homes free of charge by the Santa Fe railroad.

BENEFIT PERFORMANCES WERE WELL ATTENDED.

New York, April 24.—In spite of the storm the benefit performances in aid of the San Francisco sufferers last night were well attended. At the Lyceum "The Lion and Mouse" was played to a full house and \$2,000 will be added to the fund.

At the Madison Square theater the first of four performances of "Mrs. Temple's Telegram" for the fund was given. Today an automobile with members of the company will visit all the downtown district to sell tickets. Arnold Daly in "Arms and the Man" will give two matinees and a night performance today and the total receipts from these performances are to go to the fund.

At Weber's Music hall there will be a matinee performance of "Twiddle, Twiddle" and the "Squaw Man's Girl of the Golden West." There will be a matinee performance at Hurtig and Seamon's Harison music hall. The billiard players will also do what they can to swell the fund tonight at the Madison Square Garden. Willie Hoppe and Jacob Schaefer will play 100 points at 151 ball line, Stinson and Sutton will play 100 points at 182 ball line; Cure, Cutler and Morningstar will play a 15-point, three-cushion game, and others will give fancy exhibitions.

On Thursday, in Brooklyn, the total receipts of the night performance at Percy G. William's Orpheum theater are to be given to the fund.

At the Casino on Sunday there will be an afternoon and an evening performance, at the Hippodrome the Victor Herbert concert, and at the Academy of Music a special performance.

Joe Weber's "Department Store" netted over \$1,100 yesterday. All the money collected by Barnum and Bailey's circus yesterday in Brooklyn will be turned over today to the fund for the San Francisco sufferers.

NEW AND GREATER SAN FRANCISCO.

Arrangements for Reconstruction Of the Destroyed City Rapidly Crystallizing.

CLEARING MARKET STREET.

Tottering Buildings and Walls Being Pulled Down—Order of The Days is, "Build Fast."

Another Earthquake Shock Felt—Citizens and Irresponsible Guards To Be Disarmed.

San Francisco, April 24.—Arrangements for the reconstruction of the new and greater San Francisco are rapidly crystallizing, and soon the sounds of building will be heard in every block of the devastated districts.

BLOWING UP RUINS.

The blowing up of the ruins in the business section has already begun, and is now well under way.

There will not be a dangerous ruin standing on Market street by this afternoon. A large squad of United States artillerymen, assisted by the municipal authorities have been dynamiting all the tottering buildings and walls. This work has so far been confined to Market street, in order to open a safe artery from the outlying districts to the water front. The district north of Market street, and the business section will receive the same treatment after Market street is clear.

STEEL FRAME BUILDINGS.

A commission last Sunday investigated all the buildings left standing upon the main thoroughfare of the devastated city. It was ascertained that nearly all the steel frame structures had withstood the earthquake, and although almost without exception they had been gutted, the loss was in most cases confined to the contents.

As showing the disposition prevailing among the property owners of the city the action of the Humboldt bank, which will at once erect a new building 17 stories in height, may be cited.

Two months ago plans were approved, and contracts let for the building, and the steel for construction is already on the way west from eastern agents of the contractors.

The site is on the south side of Market street, 100 feet east of Fourth. The site cost \$400,000 and is held by its owner to have every cent of its original value today. The building will cost \$500,000. The construction will be steel and terra cotta, a construction that has stood the test by fire and earthquake.

In its lines the building will be one of the finest San Franciscans have seen.

BUILD FAST.

Yesterday orders were given to go ahead with the work of building. "Build fast," was the order, and this means the expenditure of every possible energy that money can purchase for the construction of the building.

The site is on the south side of Market street, 100 feet east of Fourth. The site cost \$400,000, and is held by its owner to have every cent of its original value today. The building will cost \$500,000.

The construction will be steel and terra cotta, a construction that has stood the test by fire and earthquake. The whole habitable part of San Francisco has been organized and districted for sanitary inspection purposes in the most thorough manner. There is no longer danger of epidemic because the health department, working with the military, is prepared to handle anything of the sort before it becomes threatening.

EMBARGO REMOVED.

The embargo on merchant vessels has been removed, and shipping can now be moved as usual. For the past few days vessels of the Pacific squadron have been keeping vessels from leaving the port, but this restriction has been removed by orders from Admiral Goodrich, commander-in-chief of the Pacific fleet.

(Continued on page eight.)

"SCOOPED THE WORLD."

That is What Deseret News Did in Publication of Disaster Illustrations.

When one day last week the Deseret News secured for publication the pictures of San Francisco earthquake and fire scenes it was a certainty that they were the first that were ever printed outside of the state of California. Now the representatives of this paper write to it stating that "It was a clear scoop on the world." This is how it was done: A camera was turned on the objects taken within an hour of the visitation of the disaster, by a gentleman who was making his way to the ferry and train. He came direct to Salt Lake and his negatives were instantly obtained, developed, engraved and on the street in an hour and three-quarters thereafter. It was a record to be proud of.

TODAY'S SHOWING.

Today the "News" makes another splendid display in the same direction scooping anew all of its contemporaries in the matter of getting ruin views. They cost money and were exceedingly difficult to secure, the "News" photographer being "impressed" while taking them, as told in another column. But they got through ahead of all others, and tell what words cannot, of the havoc wrought in San Francisco.
