**Another Victim.**—Wood River district, Montana, had produced six murder cases up to last Friday, for the criminal docket of the next term of court. The *News* of that section had been thinking that was quite sufficient, but the day named furnished another. About six o'clock that evening, in Vienna, George Pierson shot and instantly killed John Hall, better known as Johnny-Behind-the-Rocks. It appears that Hall at that time was on his way to the house of a woman known as Banjo Nell, and arriving within 15 feet of the door, was fired at by Pierson, who was in the house and saw Hall approaching. Pierson went to the door and fired, and Hall immediately turned and ran, but Pierson fired twice again. Hall ran about fifty yards, when he fell forward and died. About 15 minutes, without speaking, the only shot that took effect striking him in the back, above the right hip, cutting a main artery, and coming above the knee. Pierson, it is reported, was jealous of Hall, regarding the woman, which was no doubt the cause of the killing. Pierson married Banjo Nell, at sawtooth, a few months ago.

Johnny-Behind-the-Rocks was known in many mining camps. A few years ago he lived in Europa and in Tuscarora, Nevada. About two years ago he came to Wood River and lived with Banjo Nell until shortly before Pierson married her. His peculiar sobriquet was earned during a shooting scrape in southern Nevada, when meeting an enemy on the road, he hid behind a pile of rocks and blazed away at him, killing him before he knew he was attacked.

When Hall was killed he was reeling drunk, and unarmed. The boys who ran by, not willing that he should die with his boots on, pulled them off.

**About Smallpox.**—H. D. Ligon, of Marysville, sends us the following:

"Having had some experience in the treatment of smallpox, I wish to give the public the benefit of my information. In the first place, proper vaccination, with pure vaccine matter, renders a person proof against the disease, but it is not an absolute preventive. Those who are in the vicinity of the disease and have to be exposed, if they will take in the proportion of two ounces of cream of tartar to one ounce of sulphur, with syrup or molasses, to the consistency of thick paste, and take about a teaspoonful every morning when they rise, it will be found of great benefit. If under this treatment a person should be attacked, it would be in a mitigated form.

For an absolute preventive from pitting from smallpox take two ounces of red precipitate and mix with one pound of lard. After the pitting has become of full size, which is generally understood to be nine days after they make their first appearance, anoint freely with the mixture for three or four consecutive days. Dab it on plentifully as it will not injure any one. On the fourth day wash clean with a sponge and castile soap and water. If there are any pustules that show any signs of redness apply a little more salve. This treatment will prevent itching, and will make a greater change in the appearance of a patient than would ever be imagined."

**Anomalous Condition.**—The case of T. Murray, a soldier from Fort Douglas, who brutally assaulted a citizen and robbed him of his watch, and inflicted a severe scalp wound on the head of another man with a loaded cane the other night, serves, as but one among many instances, to show the outrageous character of the condition that renders the military superior to the civil law of this city. Citizens are assaulted, robbed and outraged by soldiers and all that the legal civil authorities can do is to arrest the offenders and retain them in custody until such time as they can be delivered to the military authorities. Murray is a savage and brutal fellow, and we hope that the military authorities will see that he is restrained as much as possible from perpetrating further outrages. We do not doubt that this will be the case, as such doings are, we feel certain, a matter of much regret to the Commandant and his fellow officers.

**Small Grain.**—It now appears that the present season's crop in Davis County is rather under the average, and in particular instances is very meagre. This unfavorable statement is, however, counterbalanced by the reports from Utah, Utah, Sanpete, Millard and Sevier Counties, in which sections we learn, after careful inquiries, that the grain crops are at least quite up to the average of former years. We cannot speak reliably of the northern counties. The past season has again demonstrated the advisability of Utah farmers more generally sowing a larger area in the fall season, as with very few exceptions, fall grain matures a full crop, while that sown in the spring has to risk all the chances of backward seasons, often, as in this year, followed by a spell of drought, retarding a full growth. Our agricultural friends would do well to consider this subject.

**Mortuary Report.**—Following is the City Sexton's report for August, 1882:

**CASE OF DIPHTHERIA.**—GRANGER, Aug. 30th, 1882.

**To Dr. M. Don.**—Dear Sir.—It is with much pleasure that I write to you, knowing it is my duty to do so, after the kind service you have rendered to my wife and children, and I can say that there is not one in twenty who would have had the patience to watch over them night and day as you did, until you saw a change for the better. Do believe if I had called you in time my other two children would have been here now, and if I can do so in recommending you to my friends. If you feel disposed to make use of this you can do so. Accept of my best wishes. Yours truly, MELVIN D. COOK.

**"Utah and its People,"** for sale at the "Deseret News Office," 25 Cents a Copy.

**PARLOR MATCHES** are now made so that they have many advantages over the old brimstone match, and are the only matches used among the Eastern consumers. They give a light and are ready for use immediately, and do not have the offensive smell that the common match has, and in a very short time we may look for a change here.

**BROWN'S PEPIN TONIC** is a never failing remedy for the cure of Dyspepsia, Indigestion and Sick Headache. So says Dr. J. J. Dewey, Fairfax, Mo., Hon. Thos. Gardner, Valley Falls, Kas., W. F. Whittington, Dexter, Tex. and Dr. G. Harriger, Brainerd, Neb. And so say hundreds of sufferers who have been cured by this wonderful remedy. Sold by Zion's Co-operative Mercantile Institution, Godbe, Platts & Co., Moore, Allen & Co., A. C. Smith & Co., Stewart & Chislett, and all druggists in Utah. d & s

**FROM "THE TIMES."**—*Editor Times:*—The veterinary department in your valuable paper is always read by me with great interest and I have used information received from it a hundred fold more than the small amount paid for the paper. One year ago you published a letter from Mr. J. H. Bates, pointing the wonderful success he had had in curing apoplexy and splints with Kendall's Spavin Cure, and his allusion to using it now in his practice for several years, has been on account of the success he has always had with it. The above statement from so prominent a Physician gave me great faith in its efficacy, and as I had been afflicted for years with rheumatism and hip-joint lameness so bad that I could hardly walk at times, I procured a bottle and as it has completely cured me I wish to proclaim it to all the world as the most wonderful discovery ever made for the benefit of afflicted men as well as for the poor horse, for which it was first used. As this remedy must be of incalculable value to the world, I write this letter to express my thankfulness to you for ever mentioning it in your columns and to ask another favor in behalf of my fellow men who are afflicted in body, that you continue to make known to the world, the great value of Kendall's Spavin Cure for both man and as well as beast. Respectfully yours, ARNOLD PARKER. Rochester, N. Y., Sept. 1st, 1881. d&w.

**READ THE FOLLOWING TESTIMONIALS.**

**SALT LAKE CITY,** June 29th, 1882.

This is to certify that we had Messrs. Simmons & Co. repair and paint our stables at the race track, in this city, which leaked badly. A few hours after the roof was painted there came a very hard rain storm, and we are pleased to say our roof did not leak a drop. We cheerfully recommend this paint as being both fire and water proof, and as a preserver of roofs it seems to us to be the very thing needed in this section of the country. J. J. TRAVIS, J. T. GILMER.

**CALIFORNIA BREWERY,** SALT LAKE CITY, June 18th, 1882.

This is to certify that I have used M. S. Simmons & Co.'s Wood and Fire Proof Paint, and I think it is not only a good paint, but that it is economy to use it, as it is lasting. HENRY WAGNER.

**SALT LAKE CITY, Utah,** July 11th, 1882.

This is to certify that I have had my roof painted with Simmons & Co.'s Paint, and I think it a good paint, and I believe it to be more lasting than any other paint in use in Utah. ANDREW GERHARDT.

**UTAH CENTRAL RAILWAY,** SALT LAKE CITY, Utah, July 20th, 1882.

We are using M. S. Simmons & Co.'s Paint on the Utah Central Railway, and consider it a good paint. We are painting our wind mills and water tanks to preserve the wood and iron. We also consider it a good paint for tin and iron roofs. SAM'L. H. HILL, F. A.

**SALT LAKE CITY, Utah,** July 21st, 1882.

We had M. S. Simmons & Co. to paint a part of the Washatch Building, and believe their paint to be a good one. N. GROESBECK.

**SALT LAKE CITY,** July 22nd, 1882.

I have seen buildings painted with M. S. Simmons & Co.'s Paint, and I cheerfully recommend the same for iron, tin and shingle roofs. I consider it a first-class preservative for all kinds of wood work, and it is especially adapted for railroad tanks and buildings, also for barns and millers, as it is both fire and water proof, besides being economical to use. B. M. SHUFF, Arch.

**SALT LAKE CITY, Utah,** August 23rd, 1882.

This is to certify that I am using M. S. Simmons & Co.'s Paint, and I consider it a good paint, a better paint than I have been using heretofore, as I believe it to be more lasting. DAVID JAMES.

**SALT LAKE CITY,** August 24th, 1882.

I have used Simmons & Co.'s Roof Paint, to certify that it is all they claim it to be. W. C. MORRIS, Painter.

The Salt Lake Theatre roof is now being painted with our Cement Paint. Contracts for Roof Made. Orders Promptly Filled.
