new, written by Thomas Jefferson, a Democrat of America, and signed by himself and his illustrious patriotic colleagues, may be considered to be the true and only correct view of the rights of man, and of the rights of the United States. Coming as it did in answer to the question of the rights of man, and of the rights of the United States, it is a document of the highest importance, and one which should be read by every citizen of the United States.

In discussing this question it is essential that the exacting of words be so considered, that no one will be misled by the terms "man" and "woman." I understand the word "man" to be the male of the human species, and the word "woman" to be the female of the human species. It is not the intention of the Constitution to give the same rights to the male and the female of the human species.

The principle in the Constitution of the United States, which is the basis of the rights of man, is the principle of the separation of the powers of the government. This principle is the basis of the rights of man, and of the rights of the United States. It is the principle of the separation of the powers of the government, and of the rights of man, and of the rights of the United States.

From this principle it would seem that the male and the female of the human species should have the same rights. But this is not the intention of the Constitution. The Constitution is a document of the highest importance, and one which should be read by every citizen of the United States.

THEY BUILD UP UTAH and are entitled to the support of the people. By dealing with the merchants who give preference to the sale of Home Made goods, you help the Home Industry cause. You help to give employment to worthy people; you help to keep money at home, which circulates in our midst and you get back a part of that money again in the form of business or profession. Keep this in mind: every dollar expended for Utah made goods, means more employment for home labor; every dollar expended for goods manufactured elsewhere, means employment for somebody living elsewhere, and whose interests are generally not with us. "Charity begins at home." This is a time for both common sense and patriotism. When you wish to buy anything be sure to look over the following list before making your purchase:
