## LOCAL AND OTHER MATTERS.

**GONE TO PROVO.**—Presidents Brigham Young and Geo. A. Smith and a number of the Twelve Apostles left this city this morning for Provo. They will be absent a few days.

**REDUCTION OF TARIFF.**—That reduction, just made by the Deseret Telegraph Company, for the transmission of messages between Salt Lake and Ogden, is very important to the citizens of both places. A message of ten words for twenty cents is a means of vastly increasing the utility of the line, by placing it within the reach of all classes of the people. This reduction is certain to be permanent, which is another good feature connected with it; and the Deseret line having formed a business connection with the Atlantic and Pacific Co., a reduction of their rates of transmission will probably be effected at an early date, and by this means the patrons of the Deseret will possess as cheap a means of transmitting messages to all parts of the East or West as offered by any other line or company.

**OPINIONS OF A VISITOR.**—A correspondent of the San Francisco *Picayune*, writing from this city, on the 10th inst., says:

"The past week has been a mixture of activity, solemnity and gaiety. The Semi-annual Conference has been held, which drew together the Saints from all parts of the Territory. I am much pleased with the city and surroundings; it far exceeds my most sanguine expectations. The greatest order prevails; the police regulations are excellent; drunkenness and disorder are not to be met with, and the citizens are quiet and peaceable.

There are numerous places of interest in and around the city. There is a very good museum with many objects attached, the latter containing many curiosities, some of great antiquity, relics of the aborigines."

Speaking of the Theatre and theatricals, the writer says:

"The past has been quite a gala week in things theatrical. I enclose you the programme. The actors are most of them amateurs. Some four or five have had considerable practice and attained great proficiency in the art. The principle ones are Messrs. McKenzie, Graham, Mackintosh, and Margetts, and Miss Adams, who are all very good and compare favorably with what we call good actors in San Francisco. With practice, any one of these would become first-rate artists. It would be invidious to draw comparisons. I may, however, particularly refer to Miss Adams as an exceedingly good and polished actress, who could command a star engagement in any part of the United States. It is a pity to me she does not make a regular profession of the stage. By the way, Graham, as a comedian, is very good, his rendition of the character of Buttercup, the Milkman, on Saturday, was excellent. The part suited him, and he the part. He reminds me much of Raymond, at your California Theatre. The pieces are all well put on the stage. The scenery is very good, as also are the stage properties and dresses. The house is large and very commodious; it will hold from 1,600 to 1,800 persons. On Saturday night it was crowded; there could not have been less than 1,600 persons present. It is built after the fashion of Drury Lane."

**SNOW IN MONTANA.**—We take the following from the *Helena Herald* of the 15th:

"Yesterday afternoon and evening a light snow storm visited this section, mantling white the table lands and the mountain tops. The snow flakes showered upon Helena were large and light, but the temperature was too warm for them to abide with us. Down to Salt Lake and along the Union Pacific Railroad, we judge they are having a cold snap for certain. We arrive at this conclusion from the fact that wild geese are flying up to this northern country by thousands, where they find themselves reasonably comfortable the Autumn and Winter through."

The "cold snap" here was very brief, lasting only a few days, and was not very severe. There has been no symptoms of snow and the weather is bright, clear and warm.

**BABCOCK FIRE EXTINGUISHER.**—We desire again to call the notice of the public to this useful little invention, which is now attracting considerable attention in the East. In this city there have been more frequent late than formerly, and seeing that no organization or company for extinguishing them exists here, a handy and certain means of doing so is very desirable. The Babcock Fire Extinguisher is the very thing. It is cheap, durable, and can be effectively operated by one person. The water ejected from this little machine, is super-saturated with carbonic acid gas, the latter being the most powerful agent in extinguishing fire, known, hence the efficacy of the "Extinguisher." It is said that Insurance Companies in the East will grant more advantageous terms to patrons if assured that the Babcock Fire Extinguisher is kept on their premises.

**DARING BURGLARY.**—What the Gold Hill News characterizes as "the neatest, boldest and most successful job of burglary" which has been known of in that section of country, was perpetrated on Monday night in Virginia City, Nev. The drug store of Mr. Cornell, which is located on one of the most public streets of that city, was entered and upwards of \$2,000 in gold coin was stolen from the safe. It is concluded, from the expert manner in which the robbery was committed that it must have been done by a master hand at the business. Two men were asleep in the store at the time of the robbery. No clue could be obtained of the perpetrator.

**ETTER IGNORANT OR MENDACIOUS.**—There is a small sheet published in Nevada called the *Ely Record*. The editor either of sheer ignorance or from malice gets off the following piece of absurdity in reference to the Provo raid in a late number:

"A few drunken soldiers, who were disappointed in getting a ball to have a dance in, after they had made a fair bargain for the safe. It is concluded, from the expert manner in which the robbery was committed that it must have been done by a master hand at the business. Two men were asleep in the store at the time of the robbery. No clue could be obtained of the perpetrator."

We extend our sympathy to this editor and hope that experience will make him a wiser and a better man. The "Mormons" feel about his "concerning them much as the big good-natured fellow did when his little wife pulled his hair. "Pitch in; it amuses you and it don't hurt me."
