Chief Glore for the valuable assist-ance he has rendered members of the association. The visitors had the pleasure of see-

ing the local fremen in action on three occasions yesterday afternoon and evening. There was a still alarm from north Second West street, where some sawdust had caught fire in a sawmill.

There was also an alarm from the resi-dence of J. Smith, 1155 east Downing avenue, where a fire burned a hole in the roof and caused a loss of \$225. The

last alarm was from South Temple and First West street, where a billboard was on fire. Most of the visiting dele-gates have returned to their homes.

received. One other bid, offering to complete the job for \$47,936.72, was re-ceived from the Western Construction company, which built the Sevier valley canal, but this was the only bid in competition with the Hoggan tender. Other bids were received, but only for portions of the entire work. The canal will be increased in size four times, and will deliver water from the Sevier river to a point near Gun-nison, where the distribution will begin. day in the city on business. Mr. Slick is at present working on the King's Hill irrigation project, located 130 miles west of Pocatello on the banks of the Snake river. The new country will be opened to the public Oct. 12, and at the opening will be sold for \$65 per acre. Mr. Slick says that the tract is the richest in Idaho, being a lava formation, which land, according to geologists. Is most adaptable for the raising of fruit, vegetables and berries. The soll, he says, is from six to 20 feet deep, and has a subsoil of gravel, this affording a good drainage. The Iand will be wat-ered from the Malad river, which nas a capacity of 1.106 second feet of water. In describing the dam Mr. Slick sald: "At a point one mile from where the Malad flows into the Snake river, a tim-ber crib dam has been built. This dam KØB KOB
