The discussion of subjects of such praccal interest as farmers' organizations, frigation and drainage, the use and regation and drainage, the use and eare of farm machinery, animals in health and discase, dry farming and soil fertility were listened to by the farmers with absorbing interest. The

The institute workers feel gratified with the results obtained and report that this is the most successful series of institutes ever held in the state. The institute work of the Agricultural rolege is accomplishing wonders for the farmers of the state because it is reting them to practise proper meth-ods of agriculture instead of the hap-hazard methods too often employed in the past. Each year the institute work of the college is becoming more and more pepular with the farmers of the size. In the past the college has had some difficulty in working up interest in the institute work, but now the farmers of the state are demanding that farmers of the state are demanding that institutes be held in their communities until it is taxing the resources of the ollege to meet the demand."

As the rolling snowball that grows with every increasing volume with each succeeding revolution, has been the history of Ghirardelli's Ground Chocolate, for over fifty years. Year after year the demand for it has increased by greater and still greater bounds, necessitating frequent increase in factory

capacity. That's evidence conclusive that the peculiarly rich flavor, which is preserved by the Ghirardelli process of preparation, pleases, and that's why we say you will like it.

Ask your grocer for it. Be sure that you get it.
