

BRICK SUPPLY SECURE, The brick situation is in such good hape now that makers say there is prospect of any shortage, no mat-ter what may happen. On the irst of the coming week the Salt Lake Pressed Brick company will put into operation its new covered kiln, which the organ of the trade characterizes as the greatest in the country, and which will furnish 100,000 brick a dy. As one section is emptied of brick, it is loated for another burn-ing, so that the work is perpetual. Then the demand for facing brick is now being so well supplied that there is reported no more complaint. There is a been some call for the drab col-ored facing brick. But local makers may the clay which makes this kind as been found in no place but Colo-rate, out of the that this kind

LUMBER TRADE STRONG.

LUMBER TRADE STRONG. LUMBER TRADE STRONG. The lumber trade reports business sod, both locally and outside. There has been a slight hesitation in placing orders, but this is giving way to the porters, but this is giving way to the porters, but this is giving way to the porters, but the strade is about on he same basis for an indefinite period. In 60 days hunce, the question is ex-pected to be one of gotting the staff other feature of the week is the ac-tion of the banking men in cutting bernee, and sceking to induce them to here an on the price to be paid. An-other feature of the week is the ac-tion of the banking men in cutting bernee, and sceking to induce them to here is also stimulated by the hold of any considerable shrinkage. The trade is also stimulated by the indications of a revival of the building trade the coming fall. Deliveries in is days are being figured on, and there is also be ready. The shut down of hays was to prevent a glut and conse-tent weakness in prices in the Cali-portion weakness in prices in the Cali-torial market, and has no beatring the trade is the indicate of the establish-tent of a big lumber mill at Los An-pels to be supplied by enormous logs are to be made of the establish-tent of a big lumber mill at Los An-pels to be supplied by enormous logs are to be supplied by enormous logs

There is more Catarrh in this sec-tion of the country than all other dis-asses put together, and until the last wy years was supposed to be incur-ble. For a great many years doctors remounced it, a local disease and pro-cribed local remedies, and by constant-y failing to cure with local treatment, transmosed it incurable. Science has roven catarrh to be a constitutional lisease, and therefore requires consti-utional treatment. Hall's Catarrh ute, manfactured by F. J. Cheney & Co. Toledo. Ohio, is the only constitu-tional cures from to drops to a caspoonful. If acts directly on the lood and mucous surfaces of the sys-on any case if fails to cure. Send for ircularis and testimonials. Address F. J. CHENNIX & CO., Tole-o. Ohio.

SUMMER BUSINESS.

SUMMER BUSINESS. In the retail trade, dealers say they are practically through for the seasou roots lines of standard summer goods, as buyers have provided them-selves with what they may need dur-ing the remainder of the warm weath-er, and the recent special sales among the local drygoods houses have pretiv well loaded the consuming public up. However, there is a fair call for silks and woven fabrics, also for hosiery, sloves, parasois, and a reasonable call for wash goods. The trade in table linens is fairly active, as well as goods used in house furnishings on account of the stream of we drings and the con-genuent setting up of new "Lares and Penates" in the new homes and fam-thy relations. There has been a great demand for Teddy bears, and pretiv near every girl of immature years is arrying one; but the demand has been so well supplied that there is now not much of a call for them. DEMAND FOR STRAW HATS.

DEMAND FOR STRAW HATS.

The clothing trade reports business fair, with demand for light weight fur-mishings as the feature of the week. The demand for straw hats is at the height, and perhaps the best in the history of the local trade. It is getting along toward the end of the rush part of the season, so the demand for suits for the rest of the summer is likely to be comparatively light.

WHITE SHOES IN CALL.

WHITE SHOES IN CALL The shoe trade continues very brisk, with the call still heavy on the white canvas and tanned leather and tanned leather Oxfords. In fact the demand for white goods in shoes has been so heavy this season that there is an ad-vance of 25 per cent. The general-leather market continues very firm.

CUTTING DOWN EXPENSES.

"At a meeting of Oregon Short Line "At a meeting of Oregon Short Line directors." said a Chicago broker, "E. H. Harriman made a fine speech on economy in railway management. At the end he told an appropriate story. "He said that a keen business man bought at a low price a theater that had long been unprofitable, and by economical management put it imme-diately on a paying basis. "But he was very economical. He watched the expenses with the sharpest eye.

"The first month's expense account contained the item: "Meat for eight cats—to protect the scenery and properties from the rats' ravages—\$2." "The proprietor struck this item out, writing on the margin: "If the cats eat the rats, wherefore the meat? If they don't, wherefore the cats?"

BONDS.

George Austin, agricultural superh-tendent of the Utah-Idaho Sugar com-pany is down from Gariand this morn-ing, and leaves tomorrow on a trip to San Francisco. He brings the latest news of the big break in the Hammond Canal company's flume near Collinston, which some papers erroneously print-ed as a break in the canal of the Utah Sugar company. The flume which went out is nearly 200 feet long and the break was due to its being over-loaded with water. The contract to re-pair it has been taken by the Daniel-son company of Logan which now has a force of men on the ground running a force of men on the ground running a pipe up and down the chasm for the purpose of syphoning the stream from one bank to the other. Mr. Austin has no doubt that the break will be re-paired in early season.

THE AUTO TRADE HUM-MING ON STATE STREET.

The predominating feature of the week on State street has been the big number of incoming and outgoing au-tomobiles. A car load of Buleks came in late last week and all went out in a few days: the Consolidated Wagon & Machine Co. were unloading another car Friday. One of the famous Knox rars was sold to a Pocatello party dur-ing the week and it will be shipped a few days hence. Collections are re-ported as very satisfactory fromw all coints. General Manager Odell states that the

points. General Manager Odell states that the only trouble with the trade now seems to be that they cannot get goods from the macufacturers as fast as the farm-ors call for them. The harvest is well along in a great many localities and the rush for red tag twine and Mc-Cormick binders is something phy-nomenal.

nomenal. Mr. Odeil, who always keeps a keen eye on opening up of new business fields, is with the ratiroad pariy today between Sugar City and Teton. The Consolidated Wagon & Machine Co, has a great trade in that section and looks to see it enlarged by the approaching ratiroad developments.
