

FERNSTROM WANTS AN INVESTIGATION

In the Matter of City Health Department Creating a Nuisance.

ONE MORE BURDEN FOR CITY.

Wages of Employees in Waterworks Increased—Chief Vail "Fires" Berry, "American" Worker.

At the meeting of the city council last night the matter of the city health department creating a nuisance by dumping garbage on the vacant lot between Third and Fourth South streets and at the regular dumping ground was made the subject of a resolution by Councilman Fernstrom calling for an investigation of that matter. Health Commissioner Stewart, Sanitary Inspector Margents and three divers of garbage wagons have been arrested for creating the nuisance complained of and Fernstrom is of the opinion that the parties responsible for the nuisance should be dealt with in an extreme manner.

THE RESOLUTION.

The resolution by Fernstrom follows: Whereas, The health department is dumping garbage and other refuse on the city's dumping ground west of the Jordan river and the city is now employing men to bury the same to prevent unsanitary stench or fire, it is now charged by persons living in the immediate vicinity that the men who are employed by the city to prevent fire are the ones who set fire to the same, therefore:

Resolved, That the sanitary committee be at once instructed to investigate these charges and if found true that the men thus employed be discharged, and be it further

Resolved, That the committee be instructed to report as soon as possible as to who is responsible for the terrible nuisance created by dumping refuse, etc., at Tenth and Eleventh West and Third and Fourth South, known as the Horseshoe bend, by the city garbage wagons. This is the most disgusting thing ever perpetrated by the city and some extreme measure should be instituted against the parties responsible for the same.

MADE AN INSPECTION.

In support of his resolution Fernstrom said that he had personally inspected the nuisance complained of in the southwestern part of the city and that the garbage dump there was vile and filthy beyond description. He further said that residents who had complained about it had been insulted by employees of the health department and that there was no excuse whatever for the garbage being dumped at that place. As to the firing of the fire at the regular dump he said that people in that vicinity had accused Joseph Mallon, the watchman at the dump, set fire to it. The fire department had refused to answer calls to put out the fire at the dump because it would only get on fire again and it was no use wasting time on it.

DEPARTMENT DEFENDED.

O'Donnell and Hobday defended the health department and in regard to the garbage nuisance complained of O'Donnell stated that the department had secured the written consent of Beless and Lee, the owners of the lot, to dump garbage there and further that the owners released the city from all claim for damages because of dumping there. He further stated that the department had no right to trespass a nuisance even if the property owners did consent.

O'Donnell asked that Health Commissioner Stewart be heard from in relation to the matter, but Barnes objected to the commissioner being given the privilege of the floor so he was not heard. The resolution was then referred to the sanitary committee for consideration.

WAGES INCREASED.

Upon recommendation of the waterworks committee, the council increased the wages of employees of the waterworks department to a considerable extent last night. The total increase will amount to \$5.75 per day or \$172.50 per month or \$2,070 per year. Those who received an increase last night are: Two valve and hydrant men, from \$2 to \$4 per day; two valve and hydrant helpers, from \$2.50 to \$4 per day; one plumber, from \$3 to \$4 per day; one plumber's helper, from \$2.25 to \$3 per day; one valve runner, from \$2.50 to \$3 per day; one valve runner's helper, from \$2.25 to \$3 per day.

A petition was also received from eight workmen employed in the waterworks department asking for an increase in wages. Three of them ask for an increase from \$25 to \$35 per month and five of them ask for an increase from \$50 to \$75 per month. Their petition was referred to the waterworks committee and will, no doubt be reported upon favorably and allowed by the council at its next meeting.

Mayor Thompson submitted the appointment of Dr. C. G. Plummer as a member of the board of directors of the city library to succeed Dr. J. E. Sealton, resigned. The appointment was confirmed unanimously.

Chief of Police Sheets notified the council that he had promoted Robert J. Golding, patrol driver, to the position of mounted policeman to succeed C. A. Middleton, resigned, and had appointed Daniel Grundvig as patrol driver to succeed Golding. The matter was referred to the police and prison committee for consideration.

VAIL "FIRES" BERRY.

The appointments by Chief Sheets of Orelah Denton and Peter Krogh as special policemen, without pay were confirmed. The appointments were made upon request of S. Birch, the contractor who is laying the cement sidewalks in the city this year.

A communication was received from Chief Vail of the fire department, notifying the council that he had removed J. T. Berry for the "good of the service." The matter was referred to the fire committee.

A number of business men on East Temple street asked that the fence be removed from the sidewalk in front of the new Utah Savings & Trust company building, as it is obstructing the walk and is a detriment to the business on that side of the street. The building is at a standstill owing to the inability of the contractor to secure material.

HAYS Hairhealth Keeps You Looking Young

Always restores color to gray or faded hair. Hays hair health positively removes dandruff, a high-class hair-growth dressing, keeping hair soft and lustrous. It is sold in 25c and 50c tins. Large bottles, 1.00. Hays Hair Health is a valuable aid to hair health. It is sold in 25c and 50c tins. Large bottles, 1.00. Hays Hair Health is a valuable aid to hair health. It is sold in 25c and 50c tins. Large bottles, 1.00.

hence the petitioners think that the fence should be removed until such time as building operations are commenced again. The communication was referred to the streets committee with power to act.

The council created a new garbage district consisting of that section of the city east of State street and south of Ninth South street, and an additional wagon will be put on to collect the garbage in that district.

Tonight the special committee appointed by President Davis to investigate certain charges against Street Supervisor Raleigh will hold a session in the council chamber to consider that matter. The committee is composed of Malvey, Crabtree and Fernstrom.

TREATMENT OF LYE POISONING.

A lady writer in the New York Tribune tells what to do to save life in a case of lye poisoning. She says: In case any one swallows lye prompt action should be taken. Force as much vinegar into the stomach as can be got down. This kills the lye and it stops eating. Then something must be taken to cause vomiting. Our little boy got hold of a cup with some lye in it when he was quite small, and as I had seen a little child die from this cause, all the horrors of such a death flashed before me in a second. I gave my boy vinegar and washed his mouth with it. Then I sliced garden beans and sugar and melted I gave it to him. Soon the little stomach was rid of its contents, but, feeling afraid I had not done all that should be done, we summoned a doctor. He looked in the child's mouth and inquired what I had done and when I told him he picked up his grip and said: "You are a good doctor! If this house had been full of doctors they could not have done more."

Delicate woman will never become strong, happy, healthy, free from pain, until you build up your system with the nerve-renewing, blood-making tonic, Hollister's Rocky Mountain Tea. Tea or Tablets, 35 cents. Z. C. M. I. Drug Dept., 112-114 Main St.

MISSIONARY DEAD.

Elder Wallace L. Johnson Dies in New York, From Appendicitis.

A dispatch from President John G. McQuinn of the Eastern States mission, to President Joseph F. Smith, conveys the intelligence that Elder Wallace L. Johnson died in Albany, N. Y., yesterday. The cause of death was stated to be appendicitis.

The young missionary was but slightly past his nineteenth year, having been born May 2, 1887. He was a native of Illinois, but the name of the town is not given. His parents, Gustave Johnson and Myrtle Cooper Johnson, are residents of Linden, Utah county, and from there the young man departed for his mission early in April, 1906. He was set apart in this city on the 11th day of the month and was assigned to the Eastern States mission, and presumably labored in that field until the day of his death.

RESOLUTIONS ON STANFORD WHITE'S DEATH

New York, Aug. 7.—The executive of the New York Chapter of the American Institute of Architects, the Society of Beaux Arts (architects) and the Architectural league of New York have passed a resolution expressing their sympathy for the great loss which the profession and the art of architecture have sustained in the death of Stanford White, who was shot by Harry K. Thaw. The resolution says:

"His quick and generous appreciation of all that is beautiful, even beyond the field of his immediate profession, was so genuine that the influence of his work will long continue to be a stimulus to the artistic development of this country."

Only those of us who have been closely associated with him professionally can fully appreciate the love and enthusiasm with which he devoted himself to art.

"His was a commanding personality, and whatever he produced had the touch of genius."

URUGUAYAN STUDENTS.

Not Believed They Will Be Hostile to Secy. Root on Visit to Montevideo.

Washington, Aug. 7.—Despite the unfriendly disposition which students in Montevideo have shown recently toward the United States and its policies as outlined by Secy. Root in his address before the Pan-American conference in Rio de Janeiro, diplomats here express the belief that the unfriendly sentiment is not displayed in any way during Mr. Root's visit to the Uruguayan capital. Upon his return to Santos, Brazil, from the city of San Paulo, Mr. Root will sail directly to Montevideo where he will remain for several days and will be entertained by the Uruguayan government. The attitude of the students mentioned is said to have been inspired by opponents of the present administration in Uruguay.

YACHT RACING AT COWES.

Cowes, Aug. 7.—The yacht racing here today was under the auspices of the Royal Yacht Squadron and the yacht race was in the contest for the King's cup for which there were four starters. Emperor William's American built schooner, the "Maurice Preger," was the favorite. Sir James Pender's cutter, the "Albatross," was the second. The "Albatross" took the lead, Racer, Centaur and Meteor following in the order named.

DETAILED STORY OF ELDER'S DEATH

Lawrence Secrist, Missionary Companion, Risked His Own Life in Vain.

SAW HIS COMRADE GO DOWN.

Swam Back to the Shore Exhausted After Determined Effort at Rescue—Elder Clark's Account.

Concerning the drowning in the Black river, Wis., of Elder Aaron W. Jackson of Ogden, the La Crosse Daily Chronicle publishes the following account:

Elder Aaron W. Jackson, one of the pastors of the Church of Jesus Christ of Latter-day Saints on Avon street, was drowned in Black river at 4 o'clock yesterday afternoon while bathing nearly opposite the extreme northern limits of the city with the other two pastors of the Church, Elders Marion C. Clark and Lawrence Secrist. The matter was immediately reported to the police department and two officers were sent to the scene of the accident. Efforts were made by the police, the two companions of the unfortunate pastor and others who had been attracted to the place, to recover the body by dragging the bottom of the river with fish hooks and poles, but without success for several hours. The body was found about 3 o'clock last evening by Simon Bakke of Kane street, who was assisting in the work of dragging the river.

MADE MANY FRIENDS.

Elder Jackson had been a resident of the north side for the past nine months and was the best known of the Mormon Elders here. He had charge of the work of the church located in the 1609 block on Avon street, and has made many friends during his stay in the city. He was 21 years of age, unmarried, and his home was in Ogden, Utah.

In company with Elders Clark and Secrist he went to the Black river bathing yesterday afternoon, seeking relief from the excessive heat of the city in a plunge into the cooling waters of the river.

While dragging for the body at the scene of the accident yesterday afternoon, Elder Clark told a Chronicle reporter the story of the drowning. "We removed our clothes on the bank near a boat house," said Elder Clark, "and started to wade out into the river. The water was not deep and I was able to wade almost all the way to the west shore by swimming across the deepest part. Mr. Jackson was a good swimmer and I was some distance from him when I heard him call for help. He and Mr. Secrist were near a pier about the center of the river and I made my way to the pier as soon as possible."

CALL FOR HELP.

"Mr. Secrist had been swimming for some distance and had reached the pile of rocks at the base of the pier when Mr. Jackson called for help. It was noticed by Mr. Secrist that the unfortunate man was either completely tired out or had been taken with cramps, and he plunged into the water to go to his assistance. Mr. Jackson sank and Mr. Secrist was almost able to reach him when he came to the surface, but could not quite touch him, and he sank from sight. Mr. Secrist was tired out himself and it was with difficulty that he made his way back to the pile of rocks at the base of the pier and pulled himself out of the water, faint from exhaustion. We both were heard by Mr. Jackson to come to the surface again, but he did not reappear."

IN MIDDLE OF STREAM.

The pier near which the accidental drowning occurred was situated more than half way across the river from the east bank and Mr. Jackson must have swam some distance to reach the pier. It is generally believed that in his efforts to reach the pier he became tired and was seized with cramps. His cries for help were heard by his companions distinctly twice, probably before he went down the first time and again when he came to the surface for the first time. They were never heard by a number of boys fishing some distance down the river, but they paid no attention to them, thinking they came in sport from several boys swimming farther up the river.

Several efforts were made by the companions of Mr. Jackson to recover the body by diving, but without success, and they finally abandoned shore and sent for assistance. The matter was reported to the police at once and steps taken to recover the body.

Elder Jackson was a quiet, unassuming person, who made many friends among the north side people and was liked by all who knew him. He made his home on Avon street. No funeral arrangements had been made at last night, but it is thought probable the body will be shipped to his home in Ogden.

INCREASED POSTAL RECEIPTS.

Postmaster Thomas completed last evening, his July report showing an increase of 26.5 per cent over the business for July, 1905, as follows:

July, 1906	July, 1905
Stamps.....\$11,735.99	\$9,290.90
Postal cards.....280.00	400.00
Stamped envelopes.....4,303.29	6,584.27
Total.....\$16,420.80	\$16,275.17

A WINNING START

A Perfectly Digested Breakfast Makes Nerve Force For The Day.

Everything goes wrong if the breakfast lies in your stomach like a mud pie. What you eat does harm if you can't digest it. It turns to poison. A bright lady teacher found this to be true even of an ordinary light breakfast of eggs and toast. She says: "Two years ago I contracted a very annoying form of indigestion. My stomach was in such a condition that I could not eat or sleep. I was a simple breakfast of fruit, toast and eggs gave me great distress. I was slow to believe that trouble could come from such a simple diet but finally had to give it up, and found a great change upon a cup of hot Postum and Grape-Nuts with cream. For my morning meal. For more than a year I have held to this course and have not suffered except when indispositionally varying my diet."

"I have been a teacher for several years and find that my easily digested breakfast means a saving of nervous force for the entire day. My gain of ten pounds in weight also causes me to want to testify to the value of Grape-Nuts."

"Grape-Nuts holds first rank at our table."

Name given by Postum Co., Battle Creek, Mich.

"There's a reason." Read the little book, "The Road to Wellville," in little.

KIESEL CALLS FOR UTAH INTEREST

As Executive Committeeman for The State He Wants All to Stir Themselves.

BOISE CONGRESS TO BE GREAT

Trip to the Gem State Will be in Nature of Liberal Agricultural and Irrigation Education.

Supplemental to the call of Chairman Montie B. Gwyn of the fourteenth National Irrigation congress, which is to convene at Boise City, Idaho, and remain in session five days, Sept. 3 to 8, inclusive, it develops upon me, the member of the executive committee of the congress from Utah, to call the serious attention of our people to the congress, which undoubtedly in importance to the cause of irrigation will exceed all previous sessions as well as promising in variety and attention to details, in magnitude and splendor, a program of entertainment which will leave everything heretofore attempted far in the rear.

The people of Boise and the great state of Idaho have said it and they will make it so. The entertainment, so the board of control and the officers of the congress are agreed, will be of a kind to be instructive as well as pleasurable. The spirit to emanate from the congress is intended to reach and permeate the nation; it is obvious that the money derived from the sale of public lands is insufficient to defray the expense of projects now in hand, while the arid and semi-arid states are thirsting for water and further development, we are to sapinely submit to have a pittance doled out, when it is in our power to obtain from our national legislature, through well directed efforts on our part, the means whereby irrigation can be more quickly realized.

There is no need of an acre susceptible of irrigation remaining unfruitful except through our apathy. The reclamation law which was passed in 1902 was a beginning. See what England is doing in India and in Egypt alone. The dam across the Nile at Assuan was built, costing \$20,000,000.

At the Boise congress, which will be attended by members of the cabinet, governors, United States senators and representatives, as well as by the correspondents of the great dailies of the metropolitan press, we will obtain results. The congress must be worked to a finish. We of Utah are not satisfied with that meagre appropriation for Strawberry valley. Don't you want all of Utah irrigated? If you do, come and help us put through resolutions petitioning the Congress of the United States to take the broader view and pass such laws as will accomplish our object. Again, in connection with the congress, there will be a fruit exhibit. You all recollect how we lost the Senator W. A. Clark cup which went to Idaho. We want to win the cup back and it can be done by making a complete exhibit. They cannot beat our fruit in Idaho. A challenge for the cup will be sent to Boise in a few days by our board of horticulture.

AMUSEMENTS.

Orpheum.—The box office at the Orpheum opens Thursday morning, and Manager W. L. Jennings requests that regular patrons select their seats and nights in the week so that they can be entered in the register and the seats reserved. If not called for at 8 p. m. the tickets will be sold. For the opening bill the following are announced: Macari's dogs and monkeys; Bryan and Nadine, comedy gymnasts; Ziska and King, comedy magicians; George Lavender, comedian; Majestic trio, singers and dancers; Garteile Bros., skatolerial coliseum, and the kindred. There will be three matinees each week, and the house which opens on Monday, will present modern vaudeville until it closes during the summer months next June.

AT THE RESORTS.

Saltair.—The members of the Jordan stake, Weber Stake academy, and the Macabees are dividing the day at Saltair today. It is anticipated that there will be a big crowd at the resort the shades of evening fall. In addition to this attraction Gilbert's trained animal circus is one of the features at the beach this week. The performance continues for 40 minutes and affords delight to the old and young alike. Among the performers are a pony "with a human brain," two boats, a poodle dog and an irrepressible blue-faced baboon which precipitates an incipient rough-house all the time he is in view. The Eighteenth, Twentieth, Twenty-first and Twenty-seventh wards of the Ensign stake will be at Saltair tomorrow.

Lagoon.—There is no special day at Lagoon today although there is a good crowd of pioneers in evidence there. All energies are being centered on tomorrow, when occurs one of the biggest events of the season. Tomorrow is Pacific Islanders' day with all its attendant interesting native songs, dances and sports. In addition to canoe races, swimming events and other features, a company of 35 Japs will give a very interesting athletic exhibition.

Z. C. M. I. at Wandamers.—Z. C. M. I. closed at noon today and all hands with their brothers and their sisters, their cousins and their aunts boarded the cars for Wandamers (alias Calder's). The number and variety of picnic baskets on board were delightful to contemplate. This afternoon a splendid program was indulged in and it is on the cards that Z. C. M. I. day will go down to history as a red-letter event in the archives of the pretty resort. Seventy-five singers from the Sixteenth ward spent last evening at Wandamers, where they enjoyed themselves.

TWENTY YEARS AGO TODAY

PE-RU-NA RECEIVES PRAISE For Relieving Such Symptoms as Debility, Backache and Headache.

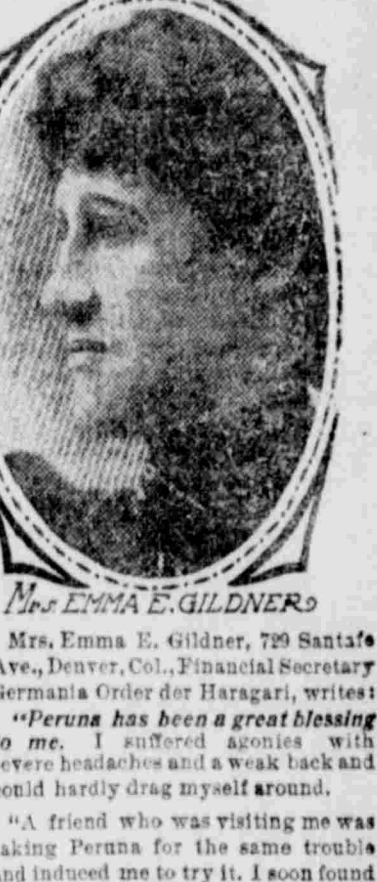

THERE are a great many phases of woman's ailments that require the assistance of the surgeon. But by far the greatest number of such cases are amenable to correct medicinal treatment.

No surgeon in the world has relieved so many women from the different phases of ailments peculiar to womanhood than Dr. Hartman through the use of Peruna.

He receives many letters from all parts of the country relating to subjects of vital interest to womankind.

Of the vast multitude of women Dr. Hartman cures annually, only a small per cent of them consider it necessary to write to the Doctor at all.

Not one in a thousand of these fortunate women report their success. Of those who do write testimonials, only a very small per cent are ever used in public print. While it is not affirmed that Peruna will cure every case of this kind, it is certainly the part of wisdom for every woman so afflicted to give Peruna a fair trial. Her chances of relief are so many that any woman would be doing herself an injustice to neglect such an opportunity of relief.

Mrs. Emma E. Gildner

Mrs. Emma E. Gildner

Mrs. Emma E. Gildner, 729 Santa Fe Ave., Denver, Col., Financial Secretary Germania Order der Haragari, writes: "Peruna has been a great blessing to me. I suffered agonies with severe headaches and a weak back and could hardly drag myself around."

"A friend who was visiting me was taking Peruna for the same trouble and induced me to try it. I soon found that I was being helped and in less than three weeks I felt like a different woman and in four months I was well. Peruna certainly gave me strength. I consider it an ideal woman's remedy."

Very Precarious Condition.

Mrs. Lottie Ward, 617 Tracy Ave., Kansas City, Mo., writes: "A few years ago my health was in a very precarious condition, the result of womb trouble and general debility. I suffered a great deal and was glad to try Peruna when it was recommended to me so highly. I found it very beneficial. In a short time the pains greatly decreased and in two months I was completely restored. I am pleased to endorse it."

Mrs. Louis Lacombe, Hayward, Wis., writes:

"I have followed your treatment as closely as I could and am now entirely well. We had two doctors and one said that I would have to have an operation performed before I could regain my health. We then decided to write you as to my condition, as I had been suffering nearly a year with severe pains and headaches at times so that I could scarcely stand up. "Now I feel so well after a short treatment with your remedy, and am so grateful that I do not know how to express my thanks. "I thank you many times for the kind advice I have had from you."
