der Proposed Arrangement and Spend More Time at Home.

While no definite information could be obtained, it has been learned that the Salt Lake Route is considering changing the passenger train runs from this city to Caliente instead of to Milford, as at present. As it is now, passenger train conductors are only in Salt Lake every fifth day, and as the majority have their homes and families majority have their homes and families here, this arrangement is not satis-factory. Millord is 207 miles from Salt Lake and Caliente, 324 miles. Conduc-tors are forced to "lay over" in Mil-ford at the end of their west run, and this takes from the time they spend in this city. By running to Caliente they could "double" back to Salt Lake and have a fairly long lay-over here. Conductors and other employes are waiting for a decision from headquar-ters anxiously. ters anxiously.

Coming into Goldfield, we changed our route, making the road three miles longer at an additional cost of \$50,000. But when we are operating the road we will soon save that extra cost. "We have not yet solved the fuel question, which is a very important one at the present time, and will be for the future. There is a shortage of coal all over the world apparently, and I do not see where we are going to secure relief. We can haul oil in here at 50 cents a hundred, which will make the cost about \$3 a barrel, laid down here. This ought to, and will help the situation; but the consumption of coal has increased about 50 per cent in the last three years. "We are having the same trouble

QUIET IN SAN FRANCISCO.

F. E. McGurrin returned from California Saturday night. He reports the building boom in San Francisco as having shrunk considerably, while Los Angeles real estate is not nearly as active as it was a year ago. The banks and trust companies have stopped loaning on real estate, which is likely to prove beneficial in the end, though prove beneficial in the end, though crippling some present enterprises. Mr. McGurrin found that San Francisco people instead of using their insurance money to restore property had been spending it in luxurles, so that now there is little ready money with which to re-coup. The bank deposits have de-creased some \$10,000,000, and outside scapital has been deterred from in-vesting because of unfavorable reports.
