According to Holbrook's story which is corroborated by the Jones woman. the negro club is an rendezvous for white men and women after the saloons close at night. The white persons and negroes sit and drink at the same tubles. It is considered by Sheriff Sharp as one of the roughest "joints" in Salt Lake and conducted under the noses of the patrolmen who walk the beat without interference. SALT LAKE HOTELS HURTING THE CITY

Their Failure to Answer Accommodation Requests Embarrasses G. A. R. Committees.

WOMEN WILLING TO HELP

If Landlords Will Refer Letters to Them, They Will See That They Are Answered.

As the time for holding the fortythird annual encampment of G. A. R. approaches, the matter of accommolating the thousands of people who will be guests of the city is becomng of vital importance. The Women's Citizen's committee, having the matter in hand, is in receipt of many letters daily, asking for reservations of rooms and accommodations for parties in number from two to 50. This morning a communication was received ed by the committee from Commander-in-Chief H. M. Nevius, in which it was stated that a party of 20 women from New Jersey had written a numfor reservations for the party during encampment week. Of all the hotels addressd, Commander Nevius said only one replied, and that to the effect that the hotel was full. The Wo-men's committee immediately took the matter up and secured accommoda-tions for the party at the University

This question of accommodations is a serious one," said Mrs. L. C. Stocking, secretary of the women's citizens' com-mittee, this morning, "and it seems like the hotels should, as a matter of busi-ness judgment and for the benefit of the city itself, extend the courtesy of a reply to parties making inquiry for ac-commodations, even if the reply be un-favorable. Another point we should like to have impressed upon those who cater to the public in the matter of ac-commodations, and that is, if they are not able to answer inquiries on the subject, not to neglect the requests coming in from people outside of town but to send them to the women's citi-zen's committee, and we will answer them, one way or another.

HURTS THE CITY.

"We cannot afford to have the good name of our city jeopardized for the sake of a little attention to such details, and the matter of time and expense in dropping a card of reply to people who wish to come here during encampment week seems but a small item for any hotel keeper or clerk to attend to. But if they cannot attend to it, and will let us know, we will see that the letters are answered."

He referred to the extravagance of the present administration, who notwithstanding the heavy taxes, are running hehind all the time, and spending the moncy before it is received. He exhorted those present to do their best to work up an interest in the meetings which are to follow and explained that they did not want to stop the improvements now going on in the city, which were commendable, but they wanted to introduce more economical management of the finances, so that still greater improvements could be carried out in the future, instead of a condition of bankruptcy being courted. mmendation of

"We do not desire to get involved into new ideas of city government," said Mr. Lindsay after the meeting. "What we want is to improve the financial condition of the city by placing the right kind of men in power,

The standard is 45 per cent and the shipper will have to handle their milk and house their cows in such a manner to obtain a score above the standard before their milk can be sold to the dairies in Salt Lake.

Mr. Frazier is not attempting to respect to the standard before their milk can be sold to the dairies in Salt Lake.

to the dairies in Salt Lake.

Mr. Frazier is not attempting to regulate the price of milk, but he declares that if the dairies are going to raise the price, the consumers are going to get the best and cleanest milk that can be obtained. The dairymen have agreed to raise the price of milk from 8 to 10 cents a quart. In buying milk tickets in dollar lots the price will be 8½ cents a quart. This will give the consumer about 12 quarts for \$1\$ where it was formerly 14 quarts for the same price. The price on cream will be raised.
