A MARK MADE BY LINCOLN'S BLOOD,

8

It is Shown Upon Unique Pregram in Possession of Dr. Bancroft, Now Here,

#### TO BUILD CONSUMPTIVES' HOME

Expects to Get Means Lecturing on Lincoln's Assassination, Which He Witnessed at Ford's Theater.

A free home for consumptives is what Dr. T. D. Bancroft of Kansas City is attempting to establish in the ligh altitudes of Colorado, where consumptives gather from the east to strive for a chance to live, and find that they have no way of maintaining themselves after they get there. Dr. Bancroft is in Salt

DR. T. D. BANCROFT.

Lake today and will remain here for several days, probably delivering one or two lectures upon subjects connected with the consumptive home, and one lecture upon the assassination of President Lincoln, of which he was an eye witness

WORKS FOR CONSUMPTIVES.

Dr. Bancroft is a typical Kansas output, standing several inches over six feet, and aggressively interested in some new phase of reform and charity work. He has been engaged in phil-anthropic work for over 20 years. His first big venture was the establishment of the Bancroft tabernacle in Kansas City. Here for nearly 10 years he math-City. Here for nearly 10 years he main-tained a home for homeless children, keeping always on hand a supply of clothing and food, for all who might ap-ply. The institution was burned in 1897 and Dr. Bancroft then came west to Colorado, where he noticed the large number of consumptives struggling for a living against adverse circumstances. At Salida he found a town of people most of whom had come there original-The same is the found a town of people incet of whom had come there original-ly with consumption, or to accompany some consumptive remedy. Hundreds of these people he had found were cured by the climatic conditions, and it was

from this that he conceived the idea of a free home for consumptives at Salida. He followed the idea by the purchase of the C. B. Coffin ranch, a mile from the railroad station, with a residence upon it large enough to ac-commodate a small number of patients. He then went on a lecturing tour through Kansas, Missouri and neigh-bornig states where his former work had been, and where he was known, and raised enough money to partly equip the residence, and to establish the home. His western trip is now undertaken in the hope of further fin-anoing the establishment. He wants now to erect a number of cottages upon the farm. Once established he plans to make it self supporting by the yield of a large orchard upon it, and a poul-try farm, which he intends to establish. GREAT WHITE PLAGUE. from this that he conceived the idea GREAT WHITE PLAGUE.

"This is the first practical move," he declared to the "News" today, "towards wiping out the great white plague." Dr. Bancroft carries with him a certifi-cate signed by a number of residents of Salida, testifying to their cure from climatic conditions solely. The home is not invested to be a heariful but if not intended to be a hospital, but to give outdoor treatment largely, and will accept concomptives only in the first and second stages.

SAW LINCOLN KILLED.

Dr. Bancroft carries with him a unique souvenir of the tragic event which terminated the life of President Lincoln. It is a photograph of a pro-gram of Ford's theater on the evening grain of Ford's theater on the evening of the assassination on which were drops of blood which fell from the dying president as he was carried out of the build-ing. The original program Dr. Ban-croft presented to the Kansas Histor-ical society, and its genuineness is cer-tified to by a judge of the Kansas su-preme court, who is a friend of Dr. Bancroft and states that he was shown the original many years ago, soon after the original many years ago, soon after the dire tragedy. The events in Kan-sas connected with John Brown's insurrection, with which Dr. Bancroft was associated and the final death of was associated and the hind death of Lincoln in the theater are made the subject of a lecture which he hopes will bring in funds for the new home. After leaving Salt Lake Dr. Ban-croft will go to Portland to remain during the fair. He is stopping at The Halls on State street. The dates of his lectures will be appeared upon the lectures will be announced upon the ompletion of arrangements for them.

SPRECHEN SIE DEUTSCH?

#### Amateur Germans Wrestle With Tongue Of the "Faderland."

Last'night at Unity hall a good sized audience turned out to see amateur Germans of the West Side High school wrestle with two comedies in the German tongue, and from the amount of laughter provoked it appears that of laughter provoked if appears that the audience knews omething of the language of the 'Faderland' as well as the amateur players. The comedies produced were 'Der Knopf' and 'Einer Muss Heiraten,' Vernon Samuels and Lisle Bradford starring in the first, and Elmer Wolff and Harold Berkley lead-ing in the second.

A feature of the performance was the appearance of the West Side or-chestra, under the leadership of Eimer Woolf

Next Friday evening the French class will give a similar entertainment.

MODERN ACHIEVEMENT.

A Library in Ten Volumes That Every-one Should Possess. The Deseret News is pleased to notify the public that it has opened a library department in the Deseret News Annex and that it will offer on specially ad-vantageous terms the well known work in 10 volues entitled "Modern Achleve-ment." This famous library contains 4,500 pages and is printed in large,

well spaced type. It can be had in several styles of binding, the full de-tails of which appeared in the adver-tising columns of the "News" last night. The author of "Modern Achievehight. The author of "Modern Achieve-ment" is the well known writer Ed-ward Everett Hale, chaplain of the United States senate. Every school boy knows of the venerable author of "The Man Without a Country" of whom President Roosevelt said: "To have written The Man Without a Country is in light encouch to deserve the efferwritten 'The Man Without a Country' is in itself enough to deserve the eter-nal gratitude of Americans.' The book is written by a corps of experts group-ed around Dr. Hale and selected by him. The work they have turned out in "Modern Achievement" is a marvel in the way of biographies, advice on reading, complete courses of study, athletic instruction, articles on the du-ties of a clitzen, etc. les of a citizen, etc., etc. Ali who are solicited by canvassers

to examine this work, will do well to give them a hearing.

#### MURRAY PAPER SOLD.

J. S. Barlow Assumes Charge of the Eagle, Commencing Today.

J. S. Barlow, manager of the Deseret News branch office at Murray, has purchased the American Eagle, the

well known Murray newspaper, and will take charge of the plant from and after today. Mr. Willumson, the former proprietor, retiring. Mr. Barlow is a live and energetic newspaper man, and has made a decided success of the "News" in his field, having built up a circulation that now requires twelve mounted carriers to handle each night, to say nothing of the mail distribution. The "News" ciffic in Muran to say nothing of the mail distribution. The "News" office in Murray will be removed to the Eagle office, and Mr. Barlow will continue as manager. In his new profession he will have suffi-cient aid to enable him to attend to the duties of manager of the Eagle as well. Mr. Barlow is the sort of man who has earned success by his hard labors: the earned success by his hard labors; the "News" wishes him well in his new field, and bespeaks for him the good will of the business men in our neighboring burg.

## PERSONAL.

### Mrs. C. S. Burton entertained the members of the Sewing club yesterday

with those of two other smaller clubs which meet occasionally together. The rooms were decorated with red carna. tions and smilax, and a pleasant feature of the afternoon was a guessing contest in which bars from national songs were played, the guests writing the name of each as it was played on a card. The first prize, a beautiful silk flag, went to Miss Geneive Ellerbeck, and the consolation, a potted fern, to Mrs. John E. Hansen. About 50 guests were entertained.

The members of the Author's club are industriously working to raise funds for the University of Utah gym-masium. Besides the musicale which they will give at Mrs. W. W. Riters on Monday evening, arrangements are be-ing made for an old fashioned ball and social at one of the University build-ings on Saturday evening, April 8. On that occasion all alumnae will be cordi-ally welcomed.

-and how conducive to health the games in which they indulge, the outdoor life they enjoy, the cleanly, regular habits they should be taught to form and the wholesome diet of which they should partake. How tenderly their health should be preserved, not by constant medication, but by careful avoidance of every medicine of an injurious or objectionable nature and if at any time a remedial agent is required, to assist nature, only those of known excellence should be used; remedies which are pure and wholesome and truly beneficial in effect, like the pleasant laxative remedy, Syrup of Figs, manufactured by the California Fig Syrup Co. Syrup of Figs has come into general favor in many millions of well informed families, whose estimate of its quality and excellence is based upon personal knowledge and use.

Syrup of Figs has also met with the approval of physicians generally, be-cause they know it is wholesome, simple and gentle in its action. We inform all reputable physicians as to the medicinal principles of Syrup of Figs, obtained, by an original method, from certain plants known to them to act most beneficially and presented in an agreeable syrup in which the wholesome Californian blue figs are used to promote the pleasant taste; therefore it is not a secret remedy and hence we are free to refer to all well informed physicians, who do not approve of patent medicines and never favor indiscriminate self-medication.

approve of patent medicines and never favor indiscriminate self-medication. Please to remember and teach your children also that the genuine Syrup of Figs always has the fuil name of the Company—California Fig Syrup Co. — plainly printed on the front of every package and that it is for sale in bottles of one size only. If any dealer offers any other than the regular Fifty cent size, or having printed thereon the name of any other company, do not accept it. If you fail to get the genuine you will not get its beneficial effects. Every family should always have a bottle on hand, as it is equally beneficial for the parents and the children, whenever a laxative remedy is required.

were married, the ceremony being per-formed by Elder Daniel B. Smith at the home of the groom in the presence of the near relatives.

Judge John A. Street announces the engagement of his daughter Florence to Dr. H. A. Pattison of Illinois, the mar-riage to take place in June, at the home of Mrs. Rilchard Street, the prospective bride's grandmother in Chicago. Mrs. W. G. Sharp and Mrs. Thomas

Davis arivve today to visit for a time with their parents, Mr. and Mrs. R. Harkness.

The High school alumni will give the last of their series of parties next Sat-urday night at Unity hall, and a recep-tion committee will be in attendance to assure all a good time. The patrons and chaperons are Mr. Eaton, Mrs. Russell Schulder, Mrs. F. B. Stephens, Mrs. Rachel Miller, Mrs. F. A. Hale, Mrs. Lewis Schoppe.

# The "CURE" worse than the DISEASE

Even if Mercury and Potash could cure Contagious Blood Poison, the condition in which these strong minerals leave the system would make the cure worse than the disease. But they cannot cure the vile disorder; they can only cover up the evi-

dences for awhile, or mask the disease in the system, and as soon as they are left off the symptoms return in all their hideousness, and the sufferer finds he has wasted valuable time and in addition has ruined his health through the use of these harmful drugs.

Mercury and Potash eat out the lining of the stomach and bowels, produce dyspepsia

#### A LONG STRUGGLE WITH BLOOD POISON.

by drying up the gastric juices, affect the bones and muscles, cause the teeth to decay. make spongy gums, and completely break down the constitution. In most cases after dosing with these minerals for months, and sometimes years, the patient finds he is left with Mercurial Rheumatism, the worst and most abhorrent form of this disease, and the Contagious Blood Poison for which he has so long taken this destructive treatment, has not been cured. Mercurial wrecks all over the country, whose lives are lives of misery and suffering, with no hope for future

health, are best witnesses that "THE CURE IS WORSE THAN THE DISEASE." No other disease is so vile and destructive as Contagious Blood Poison. When the virus enters the blood the entire circulation becomes poisoned, and in a short time the symptoms begin to appear. The mouth and throat ulcerate, the hair and evebrows fall out, the glands in the neck and groin swell, copper-colored spots appear on the flesh, and in severe cases sores break out on the body, the finger nails drop off, and the sufferer finds himself diseased from head to foot with the most hateful and humiliating of all poisons.

255 Orme St., Newark, N. J.

Being in this diseased condition, the system should not be dosed with powerful mineral medicines that further add to the burden, but should be treated with a remedy that while removing the poison will S. S. S. GUARANTEED at the same time build up and strengthen the entire body **PURELY VEGETABLE.** in its fight to regain health. S. S. S. is the only known

antidote for Contagious Blood Poison-the only remedy that is able to get at the root of the disease and force out every particle of the poison so that there are never any signs of its return. It is purely vegetable, being made entirely from roots, herbs and barks, and never leaves any bad after-effects, but instead, tones up the stomach and digestion, and builds up every part of the system while it is eradicating the poison from the blood.

S. S. S. will also drive out any lingering poison that may be in the blood from the use of Mercury and Potash. It is the only safe cure for Contagious Blood Poison, whether in

its incipiency or advanced stages. Thousands have been cured by it after trying the mineral treatment, Hot Springs and everything else. Do not complicate the disease and add another poison to the blood, or risk permanently ruining your health by using these harmful drugs, but begin the use of S. S. S., the greatest of all blood purifiers, and let this remedy of nature remove the virus promptly. We have a standing offer of

\$1,000.00 for proof that S. S. S. contains a particle of mineral of any kind. Write for our special Home Treatment book on this disease, and for any medical advice you wish. We make no charge for either.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

Bogota's New Bank. New York, April 1.—The Central bank has started business with a capital of \$5,000,000 gold, fully subscribed and guaranteed, says a Herald dispatch from Bogota, Colombia. Subscrip-tions were raised in all of the eight departments of the republic so enthu-stastically that the shares could have been subscribed five times over. The bank's principal object is the conver-sion of paper currency into coin. About \$5,000,000 of the principal reserved is destined for that purpose, which will lower interest rates and prevent ruin-ous foreign loans. ous foreign loans.
