CHICAGO.

CHICAGO. Chicago, Nov. 5.—The wheat market opened weak with prices off $\frac{1}{2}\frac{67}{4}$ to $\frac{5}{5}$ compared with the previous close, and during the early part of the day prices declined still further owing to general selling by commission houses. A decline of fully one pence at Liver-pool was chiefly responsible for the selling pressure. December opened at $99\frac{1}{2}\frac{69}{2}95\frac{5}{5}$ to $995\frac{993}{5}$ and declined to $99\frac{1}{4}$.

New York, Nov. 5.-Money on call firm 1 1-2 a 2 per cent; ruling rate, closing bid and offered at 1 3-4. afternoon, says the Chaffey News. They showed a fine specimen of ore from the leace containing goodly streaks of .04% high-grade. Assays from samples of this ore showed \$1,116 in gold and \$2.80 in silver. The samples were taken from the floor of the tunnel where a station is being cut out preparatory to sinking. The vein at this point is about five feet in width and is identical in appearance with the ore fro the black hole. This find proves b .35 yond question that the Mayflower lead and the Golden Bell ledges are the same identical vein. Mr. Bauer has put a force of men at work sinking on the 03% .124 ledge and will have out enough ore for a skipment within two weeks. Six-teen tons of ore that will run better than \$5,000 per ton has already been .0715 broken

GOLDFIELD CONSOLIDATED.

Expected to Soon Lead as Producer Of Precious Metals.

With the placing in commission of its Nothing New from Eastern Office ew reduction works of the Goldfield Consolidated, says Hayden, Stone & Co. of Boston, daily capacity 600 tons, about two months hence, the Goldfield Consolidated will at once lead the At the local offices of the Utah Con solidated officials are just as much al sea regarding the building of a new smelter in Tooele county as the general public. Not a word has come from the eastern offices of the company in world's list of producers of the precious metal, both in the matter of bullion output and net earnings. Progress in the affairs of the company has now reached the stage where this statement can be made with the fullest positiveless, as its mines are extensively open ed and their values proven, the rall-road is completed, the metallurgical problems have been solved, and there nly remains the completion of the mill which will easily be within the time

The contributing factors soon to nake new history, together with the number of tons of ore each will supply daily to commence with, are the Red

Ideal weather for the curing of the new crop of corn and for good move-ment caused weakness in the corn mar-ket. Prices at the start were un-changed to $\frac{1}{5}$ higher and another de-cline of about $\frac{1}{2}$ occurred early in the day. December opened at $62\frac{1}{2}$ @ $62\frac{6}{5}$ and sold off to $62\frac{1}{5}$. Trade in oats was quiet and the mar-ket was easy because of the weakness of wheat and corn. December opened $\frac{1}{5}$ lower at $45\frac{1}{4}$ and sold at $48\frac{1}{5}$ @ NATIONAL BANK OF THE REPUBLIC

U. S. DEPOSITORY.

DESERET NATIONAL BANK

 1_3 lower at 48^3_4 and sold at 48^3_8 (0 48^3_4). Provisions opened steady but soon be-came weak because of general profit-taking especially in pork, which show-ed the most weakness. The market for-live hogs was weak and this affected provisions. At the start prices were 2^{1_2} lower to 50^{1_2} higher. Wheat-Active covering by shorts fol-lowing liberal purchases by a leading elevator concern caused a sharp rally late in the day. December advancing to 100. The market closed firm with De-cember unchanged at $99^{1_3}_{5_4}$. The corn market continued weak the entire day, the low point for Decem-ber being 61^{1_3}_{4_4}. The market closed weak at almost the bottom, with December off $\frac{54}{4}$ $9^{1_3}_{5_4}$ at $61^{1_3}_{4_4}$ $60^{1_3}_{5_4}$.
